Each of the editors mentioned above is self-responsible for the contents of his composed column. Furthermore, we cannot be responsible for the contents of advertisements published in DX MAGAZINE.

We have no fixed deadlines. Contributions may be sent either to WWDXC Headquarters or directly to our editors at any time. If you send your contributions to WWDXC Headquarters, please do not forget to write all contributions for the different sections on separate sheets of paper, so that we are able to distribute them to the competent section editors.

Cover: Peter Pohle + Jürgen Kauer (KAVOP)

DX MAGAZINE No. 11

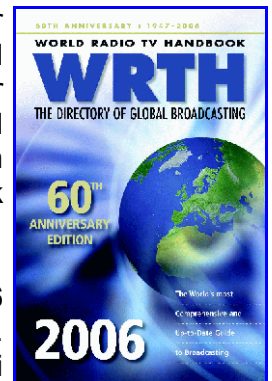

Vol. XL

November 2005

Hello again,

Welcome to another issue of our DX MAGAZINE. Please remember to order the new **WORLD RADIO TV HANDBOOK 2006** early this year, since it is scheduled to be available here in Europe in the beginning or mid of December, as reported in our last DX MAGAZINE. By the way: More information on this year's edition can be found on our web page in English: <<http://www.wwdx.de/archive/wrth2006e.pdf>> or in German: <<http://www.wwdx.de/archive/wrth2006d.pdf>>. Please excuse the wrong link last month.

Bitte denken Sie daran, daß das neue **WORLD RADIO TV HANDBOOK 2006** in diesem Jahr wieder Anfang/Mitte Dezember erscheinen wird (s. DX MAGAZINE 10). Ihre Bestellung sollte daher schon Ende November bei uns vorliegen, wenn Sie bei der ersten Auslieferung dabei sein wollen.

UKWTV, die Seite von deutschsprachigen Radiobegeisterten, sowie der UKWTV-Arbeitskreis, der mit FMLIST eine online-Datenbank aller FM-Sender in Europa betreibt, hat eine Vereinbarung mit fmdxITALY, der Liste der italienischen FM-Begeisterten, getroffen, um eine einzige Liste der italienischen UKW-Sender zu erstellen. In einem ersten Schritt wird die deutsche Datenbank mit den von fmdxITALY für RDS DX erstellten und top-aktuellen Daten synchronisiert, in der Folge wird der Datenbestand dann gemeinsam weiter gepflegt. Die Arbeit wird von Ulrich Onken, Chefredakteur von FMLIST, und von Günter Lorenz, Gründer von FMLIST und treibende Kraft hinter der neuen Software, überwacht. Die Leitung übernimmt für fmdxITALY Fabrizio Carnevalini, der die Länderredakteure (zur Zeit Luigi Cobisi, Bernd Gundel, Roberto Scaglione und Andreas Wohlhaupter) koordiniert. Im italienischen Äther sprudelt es auch 30 Jahre nach der Gründung der ersten privaten Radios immer noch: Der Verkauf großer und bedeutender Senderketten hat nicht nur eingeführte Programme durcheinandergewürfelt, sondern in wenigen Monaten auch hunderte Frequenzbelegungen verändert.

Die neue FMLIST bietet neben der direkten online-Recherche nicht nur die Möglichkeit, jederzeit aktuelle PDF-Dateien zu erzeugen und zu drucken, sondern auch eine Datei im RDS DX-Format zu erzeugen. Wir hoffen, dass wir mit vereinten Kräften die Aktualität unserer Daten verbessern können und die aufwändige Arbeit der Redakteure erleichtern, so dass mehr Zeit zum Hören und für die Recherche bleibt. Wir erwarten aber auch eure aktive Mitarbeit: Jeder kann beitragen, in dem er uns (auf schnelle und einfache Art und Weise) direkt Änderungen und Abweichungen meldet, die er beim Hören festgestellt hat. Die Meldungen werden von den Redakteuren überprüft und stehen dann sofort zur Verfügung (<<http://www.fmlist.de>>).

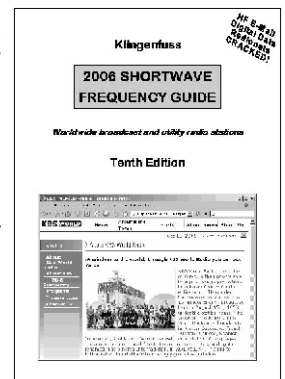

Der UKWTV-Arbeitskreis wurde 1970 gegründet, hat zurzeit 130 Mitglieder und ist Herausgeber der Zeitschrift "Reflexion". Die Foren und Seiten von UKWTV.de werden täglich über 2000 mal besucht (<<http://www.ukwv.de>>).

fmdxITALY wurde 2003 gestartet, hat 250 Mitglieder aus Italien und dem Mittelmeerraum. Es wird als Yahoo-Forum (<http://it.groups.yahoo.com/group/fmdxITALY>) geführt und verfügt u.a. über 100 detaillierte italienische Bandscans, eine Website entsteht gerade unter <<http://www.fmdx.altervista.org>>.

RDS DX ist ein Programm, mit dem RDS-Daten am PC angezeigt und verarbeitet werden können. Das Programm wurde von Arno Vainio aus Finnland geschrieben, Herman Vijnants aus Belgien koordiniert die Datensammlung. RDS DX verfügt über eine Datensammlung der europäischen und nordamerikanischen FM-Sender und ist - an Stelle von gedruckten Listen - ein schnelles und effizientes Werkzeug, um die

empfangenen Sender während der oft nur kurzen Bandöffnungen zu identifizieren (<<http://home.scarlet.be/~wijnherm/>>).
(Ulrich Onken, Fabrizio Carnevalini, Günter Lorenz)

The new products of Klingenfuss Publications, **2006 Super Frequency List on CD-ROM** and **2006 Shortwave Frequency Guide** will be published on December 10th. Detailed product descriptions, sample pages, database screenshots and the very latest references can be found on their website <<http://www.klingenfuss.org>>. Alternatively, you may ask for the free 2006 catalogue to your postal address. In January 2006 they will publish a printed Supplement to the 2005/2006 Guide to Utility Radio Stations. It will be attached, free, to all orders for this book received after December 1st, 2005, so that the Utility Guide continues to be as up-to-date as possible. Several hundred new frequencies from all over the world will be included in the Supplement. (Klingenfuss Publications, Hagenloher Str. 14, D-72070 Tuebingen, Germany, E-Mail: <info@klingenfuss.org>)

The **A.I.R. Contest Attilio Leoni 2006**, the annual Italian DX contest by Associazione Italiana Radioascolto, will take place from January 2nd to 10th, 2006. For full information, please write to: Bruno Pecolatto, AIR Contest Manager, Fermo Posta, I-10080 Ingria (TO), Italy, E-mail: <bpecolatto@libero.it>.

We have received a request for pen pals from Angel Danilo Pupo González, Apartado Postal 16, C.P. 80100 Holguín, Cuba. He is 27 years old, white, 1.75 m tall and weights 65 kg. He is a student of foreign languages (English and French). His hobbies are dancing, traveling, sports and music. Additionally, he is collecting music CD's, magazines, stamps, stickers, post cards and bank notes. If you are interested in correspondence with this young man, please contact him directly at the address mentioned above.

And with this best wishes and good DX until next month from

GREECE: The *Voice Of Greece* The first state radio of Greece the "Athens Radio" was inaugurated in spring 1938 with a 15 kw transmitter at Liosia suburb and studios of the Zappeion Mansion. The first attempt for establishing a short wave radio station took place immediately after the Greek-Italian war broke out in October 1940. Athens Radio programmes were transmitted from a small transmitter in the center of Athens to the front and the Balkans. A special Short Wave programme was created after the German-Italian occupation in 1947: transmissions began from a 7.5 kw transmitter to Cyprus, Egypt, Turkey, the Balkans the Soviet Union, while four transmissions were made to Greek navigators. The daily news bulletins were broadcast in 12 foreign languages, (Arabic, German, Russian, Spanish, Romanian, Turkish, Serbo-Croatian, Bulgarian, Albanian, French, Polish, English) and once a week in Arabic. A music programme was also broadcast. The short wave transmission center was established in 1972 with two 110 kw transmitters and in Avlis - 37 kilometers north east of Athens - with transmitting antennas directed to the five continents. After the collapse of the military junta in 1975, the Short Wave programme was named "THE VOICE OF GREECE" and came under the then Radio News Management. Almost 15 years later, with the institutionalization and implementation of the Unified ERT body, it became autonomous and was named "The Fifth Programme - THE VOICE OF GREECE", coming under the ERA General Management. (VOG website <<http://www.ert.gr>>)

A3 = conventional Double Side Band (DSB) AM, CCM (Carrier Controlled Modulation) - Also experimentally with USB w/CCM

(IRRS schedule at the web last update on 9 November, 2005; via JKB)

JAPAN: Kazuhiro Araki, head of the Investigation Commission (**COMJAN**) on Missing Japanese Probably Related to North Korea, has told reporters that the group plans to start shortwave broadcasts, starting as early as the end of this month. The broadcasts, in Japanese, will be beamed to North Korea in the hope of reaching abducted Japanese citizens, who the Commission hopes will respond to the messages. No details were given of the times and frequencies, and whether these will be self-contained broadcasts or inserts into existing Japanese transmissions. It seems unlikely that there will be any response, given that listening to shortwave broadcasts from overseas is forbidden in North

Korea, and in any case making contact would be extremely difficult and dangerous. (RNMN© at October 23, 2005, by AS, via JKB)

The Asahi Shimbun has published more information on the planned shortwave broadcasts to abducted Japanese citizens in North Korea. The 30-minute programme launches on Sunday and will be called "Shiokaze"(sea breeze). It will air every day at 1530-1600 UTC. No details of the frequency are mentioned in the report, which says that "A British broadcasting distribution company has signed a contract with the citizens group to air the program from a country close to North Korea." (RNMN© at October 27, 2005, by AS, via JKB)

SLOVAKIA: *Radio Slovakia International - RSI* was created in 1993, almost simultaneously with the emergence of independent Slovakia, its duty being to give other countries information about the new state and to keep contact with the numerous expatriate communities. Organizationally, it is a relatively autonomous unit within the Slovak Radio. The 30-minute magazines broadcast daily contain news from Slovakia, features on Slovak economy, sciences, culture, geography, environment, sports, examples of verbal and musical arts and portraits of important personalities. Radio Slovakia International broadcasts worldwide on SW, satellites and Internet. This is the B05 schedule:

UNITED KINGDOM: Yesterday's announcement by the *BBC World Service* of plans to close

10 language services in order to finance a new Arabic TV network has caught the attention of the leader writers in two British newspapers. But they take quite different positions on the subject. The Times, owned by Rupert Murdoch's News International, supports the plan. The paper says that "Communism has collapsed, Eastern Europe is free and Poles, Czechs and Hungarians no longer need the scratchy, whistling short-wave lifeline to freedom." It concludes that "the BBC's decision to switch off ten foreign language radio services and use the £20 million to launch – again – an Arabic television channel is right." The left-of-centre Guardian takes quite a different stance. It says that "the independent media in that region [Eastern Europe] are not so sturdy as optimists suggest, and the future of public broadcasting in particular, according to a recent report, is far from rosy." The Guardian says the blame lies with the government: "The Treasury and Foreign Office penny pinching that has clipped the World Service's wings so often in the past is again at fault. The World Service should not have been forced to make this choice." (RNMN© at October 26, 2005, from Sources "The Times"/"The Guardian" by AS; via JKB)

BBC World Service and relays of other stations over the **Merlin** facilities. Operational schedule B05 part 2 (start time 1200-2359). Part 1 of schedule (start time 0000-1159) was published at DXM last month.

(Andreas Volk - ADDX, 2005 Oct 3, via WB)

Christian Vision's media arm, CVC, is increasing the number of broadcast hours on VT Communication's digital AM transmission platform, which utilizes Digital Radio Mondiale™ technology. Until recently, CVC were broadcasting one hour a week as part of VT Communications' AM broadcast pilot service from the UK to Western Europe, which has now been running for over two years. CVC's new development sees transmissions from mainland Europe into the UK, resulting in an increase to 7 hours per week. The new schedule is 1000-1100 UTC daily on 11815 kHz. Christian Vision's Head of Engineering, Andrew Flynn said: "DRM is an ideal platform for bringing additional digital radio content to the UK. As DRM-capable receivers emerge the time is right to make the popular CVC International English service available to listeners in UK. We have been delighted with the transmission quality and service reliability VT Communications has been able to deliver from mainland Europe." (RNMN© at October 10, 2005, from Source UKRadio.com by AS, via JKB)

USA: World Wide Christian Radio - WWCR has four 100 kW state-of-the-art transmitters which serve the world on 10 different broadcasting channels. Together the transmitters provide over 400 religious and talk programs direct from Nashville, Tennessee to a global audience. WWCR (Nashville) B05 final Winter Schedule [if this is the "Final Winter Sked", I'm wondering why winter ends in November in Nashville, Ed.]:

Thanks a lot to our club members for your contributions:

AKB : Ashok K Bose, Mississauga, Canada. GRUNDIG Satellit 800 with built in indoor antenna.

MF : Michael Frese, Osnabrueck, Germany. SONY ICF SW 7600G with Telescopic antenna.

RAD : Rich D'Angelo, Wyomissing, Pennsylvania, USA. Ten-Tec RX-340 & Drake R-8B with 500/200 feet long wire, Datong FL3.

RL : Richard Lemke, St. Albert, Alberta, Canada. JRC NRD-535 HF & Grundig YB 550 PE with random long wire antennas.

Dear Friends,

Welcome to the November issue. This time thanks to the daylight getting shorter and longer nights we have more Medium Wave loggings. Thanks to all contributors.

Till next issue it's 73's from your Editor,

Ashok Kumar Bose
