DX MAGAZINE No. 4

Vol. XLII

April 2007

Hello again,

Welcome to another issue of our DX MAGAZINE. Since we have no news from inside the club this month, let's just start with our usual news from outside the club:

The A07 edition (Edition 23) of the non-commercial print publication **Shortwave Broadcasts to Australia, New Zealand and the Pacific Islands** is planned for publication in mid-April. It covers the seven-month international shortwave transmission period commencing March 26, 2007 and concluding on October 27, 2007, known as the "A07 International Transmission Season". It's 20 pages, commercially printed in handy format. It has several hundred entries, providing comprehensive information of shortwave broadcasting schedules to Australia, New Zealand and the Pacific islands for transmissions in all languages. The complete schedules for Radio Australia and CVC Australia are included. The data is arranged in two sections, by studio country and starting time. Each entry shows broadcasting organisation, frequency, starting time, finishing time, language, target area, transmitter site, transmitter country, studio country, and days of operation. The publication is compiled from an extensive worldwide network of broadcasters, frequency planners, engineering consultants, professional monitors, and members of the Electronic DX Press Radio Monitoring Association. Information is also included from the detailed research by the author, Bob Padula, himself a communications engineer and journalist, with over 45 years experience at both the professional and hobby level. Price: US\$10 / 10 Euro / 6 British Pounds / A\$10 (cash, 10 IRC's, international bank draft, PayPal). Cash payment in any other currency is acceptable, to the equivalent of US\$10. Orders and payments should be sent to: ROBERT J. PADULA, 404 Mont Albert Road, Mont Albert, Victoria 3127, AUSTRALIA (E-Mail: <bobpadula@mydesk.net.au> - Internet: <<http://bpadula.tripod.com/edxp/id28.html>>).

"Seit nunmehr 2 Jahren betreibe ich eine Online-Frequenzdatenbank mit Logbuchfunktion, die durch die Einträge der User ständig an Umfang zunimmt. Die Datenbank erlaubt umfangreiche Suchkriterien wie Suche nach Land, Relais, Frequenz(bereich), Zeitpunkt uvm. Dazu gehört ein Webforum zum Thema Kurzwellenempfang. Die Seite ist zweisprachig (deutsch/englisch) und richtet sich sowohl an deutsche als auch an internationale Besucher. Hier die Internet-Adresse: <<http://www.tropical-band.com>> oder <<http://www.tropenband.de>>. Vielen Dank im voraus für Ihr Interesse." (DL2DMC Tim)

And with this best wishes and good DX until next month from

**Walter Eibl · Postfach 15 45 · D-91005 Erlangen · GERMANY**

Hello everybody,

Easter holidays have gone, hope you did have some time to spend some hours listening for listening to shortwave radio. As you know we now have the bottom of the circle of the sunspots: till today there are 11 days without any sunspot on the whole sun. Good chances to listen for rare stations in the tropical bands, especial 120 and 90 m.

**RADIO NETHERLANDS WORLDWIDE TURNS 60**

Since its official opening in April 1947, Radio Netherlands Worldwide has aimed to contribute to a better informed world. In recent decades, we've grown to become one of the leading international broadcasters, with our radio, television, SMS, podcasting and internet services in nine languages spanning the globe. Sixty years of building bridges is what we are celebrating, to quote our Director General, Jan Hoek, and you're invited to join in the festivities, by attending a series of events and conferences that we're organising, by taking part in debates or by visiting our headquarters in Hilversum during our Open House event, on 15 April.

We've also published a collection of special articles marking the occasion, and looking ahead to what the future will bring. Each of our language services has produced special pages. Click here for the English version.

**NEWFOUNDLAND & LABRADOR - CANADA** - 6160, CKZN, St. John's NF, 2202-2227, 29 Mar, English, CBC newscast, announcement for program "Cross Talk", with Newfoundland trivia, then part 2 of "As It

Happens"; 53443, adjacent QRM. It's been a very long time since I last had the chance of receiving this so loud (Carlos Gonçalves, SW coast of Portugal, DXLD)

**NIGERIA [non]** - unID - 15180 at \*1600-1700\* UT on Mar 17. Non-stop Afro music station, presume the same one reported by Craighead, came on exactly at \*1600 and went off exactly at 1700\* with no announcements, just the music. Did not monitor for the whole hour, just spot-checked from time-to-time. Good signal. What/where is "Radio Saa" - have seen nothing else about this station. Did I miss something? (John Wilkins, CO, DXplorer Mar 17)

Radio Saa, 15180 to Nigeria. Today, 17 March, I again heard Radio Saa from 1600 opening, and again the broadcast was entirely music --- no speaking. In fact, it sounded like it could have been a re-broadcast of the program I heard on 14 March. The timings of the 4 songs, by a male singer in presumed Hausa with many mentions of Nigeria and with African percussion accompaniment, were identical to those on Wednesday. One difference: today the station went off at 1659:30 while on 14 March it went off at 1700. Today signal strength was poor, while on Wednesday it was good  
(Wendel Craighead, KS, DXplorer Mar 18)

100/300 kW - RDP, CEOC-Centro Emissor de Onda Curta, São Gabriel; 4x300 kW, 4x100 kW (old reserve units)  
 NB: the listed 100 kW pwr. for the ME+India, Africa-142° & NW SoAm b/casts originates from a 300 kW tx due to antenna limitations only. 250 kW - Pro-Funk GmbH, Sines

15575 is amongst the frequencies one associates with the BBC, so I was surprised to find RDP here, at 1114 teasing some upcoming SBG coverage, followed by a pop song. Quite strong signal, apparently the backlobe of a transmission actually aiming at South America. Co-channel BBC was only a faint whisper in the background (Kai Ludwig, Germany, March 26, DXLD)

**VATICAN [non]** - R. Vaticana has a new relay via Sackville, on 6100 at 0230-0400, 100 kW, 240 degrees daily in French, English and Spanish. Heard in French at 0230, March 27 as I was checking out R. República, with which this collides, along with the jamming. Way to go. Catholix vs Commies again! Spanish presumably starts at 0320 as before on own frequencies, but really runs until 0400? (Glenn Hauser, OK, DXLD)

Dear Friends,

Welcome to the April edition of Logbook.

The early Daylight Savings Time in the North America changes on the 18th of March did not seem to provide the energy savings it was expected to, because of early morning darkness. Seems we are always trying to fight with nature and losing - just can't tell the sun to rise earlier just because we want it to.

Thanks to our members whose loggings have made this Logbook possible.

Till next month take care and enjoy the spring.

Thanks,

*Ashok Kumar Bose*

**Radio Free Asia**

Created and funded by the U.S. Congress, Radio Free Asia (RFA) began in March 1996. As a surrogate broadcast network, RFA is dedicated to the free flow of accurate, timely, unbiased news, information and commentary that is beamed to Asian countries where such news reports are unavailable. It also aims to promote freedom of opinion and expression, including the freedom to seek, receive, and impart information and ideas through any medium, regardless of frontiers. Mandated to broadcast in Burmese, Cantonese, Khmer, Korean, Lao, Mandarin, Tibetan, Uyghur and Vietnamese, English is spoken only when appropriate.

RFA is headquartered in Washington, DC with offices in Asia and correspondents throughout the world. Please listen to our programs and learn more from our website at [www.rfa.org](http://www.rfa.org).
