Cover: Peter Pohle + Jürgen Kauer (KAVOP)

DX MAGAZINE No. 4

Vol. XLIV

April 2009

Hello again,

Welcome to another issue of our DX MAGAZINE. I have no news to report from inside the club - therefore let's just start with our usual news from outside the club:

ITU TELECOM WORLD 2009 is on track to open its doors 5-9 October at PALEXPO in Geneva, Switzerland. With the world in the grip of an unprecedented financial crisis and economic slowdown, ITU TELECOM WORLD 2009 remains a unique networking platform for the ICT industry as well as top-level policy-makers and regulators to address the issues at hand and seek a way forward.

ITU TELECOM WORLD 2009 will feature a dynamic and truly global Exhibition that will showcase leading edge technologies and applications. However, with several companies experiencing difficulties, some exhibitors have shied away from participating at trade shows this year. This is true not only for the ICT industry, but across all segments of the world economy. In refocusing ITU TELECOM WORLD 2009 to adjust strategically to the current situation, ITU has called upon governments to intervene. As part of stimulus packages being unveiled globally, a number of national pavilions will provide the platform for the ICT industry from around the world to participate in ITU TELECOM WORLD 2009, bringing a new flavour to this venerable ICT showcase. Alongside, thematic pavilions will explore the ICT applications and key themes central to our global wellbeing: health, education and climate change.

For more information, please visit <<http://www.itu.int/WORLD2009>>. **(ITU Press Office, Geneva)**

Once again, Adventist World Radio takes pleasure in conducting its annual **Adventist World Radio Wavescan DX Contest 2009**, and for this year the title is: "Silent Shortwave Station Contest". You are invited to search through your own QSL collection and assemble together all of your QSLs that verify the reception of shortwave stations and/or shortwave transmitters that are no longer on the air. In addition to the regular awards worldwide, there will be special awards for those who include a reception report of our DX program, "Wavescan", via radio Miami International WRMI, in Miami Florida. Here are all of the details:

1. List what you consider to be the five best QSLs from shortwave stations or transmitters that are no longer on the air. The "best" may be described as the station or the transmitter itself, or the distance, or the power, or the age, or the circumstances under which you heard the station; or the QSL card itself, etc. (Do not send the original cards.)

2. In one paragraph each, describe the reason why you consider each card to be one of the best in your collection.

3. Enclose a photocopy of each of these five cards, preferably in color, though black and white may be acceptable. Remember, do not send the originals.

4. Send at least three reception reports on any AWR broadcast from KSDA Guam, or any AWR relay broadcast via any relay station anywhere in the world. The AWR broadcasts may be on shortwave, mediumwave, or FM. All reception reports will be verified with a contest endorsement on the QSL card.

5. Where possible, please enclose three radio cards for inclusion in the Indianapolis QSL collection. These cards may be old or new, and they may be QSL cards, reception report cards, picture cards, etc. Not valid for this contest are amateur nor CB QSL cards.

The 2009 AWR DX Contest, "Silent Shortwave Station Contest", will run through the month of June. All contest entries must be postmarked at the listener's location in any country of the world on any date during the month of June, and they must be delivered to the AWR postal address in Indianapolis no later than the end of July 2009. Return postage in the form of currency notes in an international currency, mint postage stamps, or IRC coupons would be appreciated. Also, where possible, provide a self addressed envelope,

business size or half quarto size. The only address for the 2009 "Silent Shortwave Station Contest" is: Silent Shortwave Station Contest, Box 29235, Indianapolis, IN 46229, USA.

The awards for this year's contest will be similar to all previous contests. There will be a special award for the world winner, one of the Jerry Berg radio history books; and "World Radio TV Handbook" or "Passport to World Band Radio" for continental winners. In addition, there will be special awards for those who send in a reception report on the broadcast of "Wavescan" over the shortwave station in Miami, WRMI.

(Dr. Adrian Peterson via Alokesh Gupta, New Delhi, India)

And with this best wishes and good DX until next month from

ANTARCTICA - LRA36 are good the past 14 days, but not always on the air, and sometimes troubles with the transmission and audio. Antenna is the Marconi, receiver the Perseus SDR Greetings from Belgium (Maurits Van Driessche, DXLD)

Argentine military establishment, Base Esperanza in Antarctica is, as you may imagine, a really tough station to log, particularly in the midwest (of the USA we). Jerry Strawman in Iowa reported it with weak signals at 2005 on March 27. Thank to Jerry's email, I tuned in shortly after and heard what likely was the same station, just popping above the noise floor on signal peaks, but it was soon gone.

Years ago, they were easier to hear here and were pretty good about verifying. The other station on Antarctica, at McMurdo was even a tougher log, but has been long gone. It probably is a matter of tuning on the right day, when conditions are optimal, rather than having a 300 ft. antenna. Tune every day around 1900 to 2000 or so and maybe with luck (Don Jensen, Kenosha WI, DXLD)

LRA36 was first listed in the 1981 WRTH on 6030 with 1.2 kw, future plans were two other outlets of 1.5 kw, same entry in the 1982 Handbook.

In the 1983 Handbook LRA36 is listed with three frequencies, 6030 11955 and 15476, all 1 kW.

In the 1984 Handbook just 6030 and 15474 are listed, note the change in the 15 MHz channel. Same listing in 1985. 1986 and 1987 Handbooks just list 15474. (Mike Barraclough, England, DXLD)

AUSTRALIA - 15400, HCJB Kununurra, 1204-1220, March 31, English. "Spotlight" program in slo-English re elephants; program ID; URL at 1213; "HCJB Global Voice... Queensland, Australia.." ID at 1219 followed by presumed language

lesson in English; Mandarin; poor-fair. Been a long time since I last logged this one (Scott R. Barbour Jr. Intervale, NH-USA, NRD-545, RX-350D, MLB1, 200' Bevs, 60m dipole, dxldyg via DXLD) Qsld? I thought they operated out of Melbourne, or rather Kilsyth, Vic.; transmitter in WA. Slogan is V. of the Great Southland, maybe what you heard? (gh, DXLD)

BANGLADESH - Bangladesh Betar refurbished website with lot of info:

<<http://www.betar.org.bd>>

Bangladesh Betar Ext Sce on 7250 kHz in A-09

1230-1300	English	South Asia
1315-1345	Nepali	Nepal
1400-1430	Urdu	Pakistan
1515-1545	Hindi	India
1600-1630	Arabic	Middle East
1630-1700	Bangla	Middle East
1745-1815	English	Europe (V.O. Islam)
1815-1900	English	Europe
1915-2000	Bangla	Europe

Hindi 1515-1545 UTC is unusable because of strong cochannel interference from Nepali Sce of CRI.
(Supratik Sanatani, DXLD Apr 6; update by Dave Kenny-UK)

BELARUS - This is the schedule of the powerful BR SW relay:

6080	0300	2104	29SE, 39NE	MNS	150	130
7210	1100	2300	27	MNS	75	270
7255	1500	1700	37N	MNS	250	255
7255	1705	2300	29	MNS	250	75
7390	1100	2300	27, 28	MNS	150	250
11930	0400	0700	28	MNS	250	75

(wb)

Actually only these are BR relays:

>	6080	0300	2104	29SE, 39NE	MNS	150	130
>	7255	1500	1700	37N	MNS	250	255
>	11930	0400	0700	28	MNS	250	75

but even this doesn't seem to be correct any more: the 6080 kHz relay seems to have been dropped. 73, MR (Mauno Ritola, Finland, April 2, dxldyg via DXLD)

The language scheme for Radio Belarus is as follows:

1100-1400 Belarussian (with Russian segments)

1400-1600 Russian

1600-1800 Polish

6

1800-2000 German
2000-2200 English
2200-2300 Russian

By this hour (1600 UT) all three frequencies from Belarus (including 7255 carrying home service relay) have become inaudible in Moscow due to overskipping and QRM. BR is heard on 279 & 1170 kHz, the latter heavy QRMing with V. of Russia in Turkish via Tbilisskaya. I guess they were intended mainly for Belarusians living in or visiting neighboring countries. (Serghey Nikishin, Moscow, Russia)

Belaruskaje Radyjo in the new A09 season

Translated literally: --- In open_dx@yahoogroups.com, "Sergey V. Alekseychik" <dxing@...> wrote:

11.00-23.00

7390 kHz (75 kW)

7210 kHz (150 kW)

Belaruskaje radyjo-1

15.00-21.00

6080 kHz (150 kW)

6115 kHz (75 kW)

7255 kHz (250 kW) (this transmitter works until 23.00)

Kanal Kultura

15.00-21.00

1125 kHz (150 kW)

Sergey Alekseychik, Hrodna, Republic of Belarus (via Serghey Nikishin, Moscow, Russian Federation, dxldyg via DXLD)
UT?

Thanks, Sergey, this is helpful. Clearly, the schedule is incomplete, as it omits a morning 250-kW transmission on 11930, as well as those on 1170 and 279. I believe BR-1 uses 7255 from 16 to 18 UT. It's unfortunate that BR-1 gave up on its daytime SW relays. They provided the best reception in the neighboring areas. Those at night are of less value due to QRM (Sergei S, Moscow)

I heard 7255 opening at 1500 UT on Friday. Unfortunately I missed hearing what the ID was but it wasn't parallel 7390 & 7210. Yes, 11930 is active until 0700, but 1170 is impossible at my location due co- channel, and 279 hadn't faded in at 1500. 73 (Noel R. Green, UK)

On Friday you should have heard a relay of Hrodna regional programme there (btw, R. Hrodna verifies reception, but I don't remember the address where reports should be sent to). On weekdays the hour 1500-1600 on 1170; 7255 kHz is devoted to relaying regional programmes while each regional station carries its own programme. This concerns SW, too: between 1500; 1600 on 6080; 6115 you'll hear R. Stalica (Capital Radio) from Minsk, on 6010; 6070 - R. Brest, on 6040; 7280 - R. Hrodna, on 6190; 7135 - R. Mahiliou. (That's if these SW relays won't be switched off altogether what is highly possible). (Serghey Nikishin, Moscow) (DXLD)

BELGIUM / RUSSIA / UK - 13685 VRT Brussels program // to MW 927 kHz same VRT program in Dutch approx. 2.5 seconds later via Moscow relay on 13685 kHz 1700-1800 UT. Poor signal on 22 mb in spring early April, but will be stronger in coming months. Towards holidaymaker and pensionists around the Mediterranean coast and Canary Islands. This April 3rd morning via Moscow 13685 also at 0600-0700 UT, tiny signal in Germany. Also scheduled at daytime via VTC facilities at Skelton or Rampisham in U.K. 13675 at 1000-1100, and 13685 1400-1500 UT. (wb, April 3)

BHUTAN - 6035, BBS, 1342-1425, April 5. Assume in scheduled Dzongkha with live phone calls; played some pop songs; gave out phone number to call in to the show; after 1400 adjacent QRM; into what seemed to be English; 10 minute talk before the start of the news with the usual BBS musical bridges between items; back to phone calls and pop songs in English. Today had just the one male announcer doing all the calls and reading the news. Best reception before 1400. (Ron Howard, Asilomar Beach, CA, Etón E1, dxldyg via DXLD)

BIAFRA [non] - BIAFRA [non]. Altho we confirmed by monitoring that V. of Biafra International was on new 11885 via WHRI, Friday April 3 at 2100-2200, as tipped by their online schedule at that time, a recheck of the Angel 1 schedule

<http://www.whr.org/customcf/dsp_schedule_read.cfm?Search=Angel1>

April 9 at 1958 shows that has been deleted and replaced by:

1900-2000 3:00 PM-4:00 PM Fr VOBI Broadcasts Oguchi Nkwocha 17.520 Mhz

So look for it two hours earlier on 17520, Friday April 10. Perhaps they are experimenting with different times and frequencies to find out which works best. (Glenn Hauser, OK, DXLD)

BOLIVIA - 3310, 0020-0040, R. BURMA - After watching 3 days (29-31March) Myanma Radio moved to 7200 khz 0030-0230 UTC this morning replacing 7185 kHz under the new 7 MHz channel area. They were in 7185 kHz during the past 3 days and only this morning (1st April) they started using 7200 kHz. (Alok Dasgupta, Kolkata, India)

BURMA [non] - 11685, April 6 at 1345 some exotic music followed by Burmese talk, with its typical rising inflexion at the end of sentences. Bothered by RTTY from 11687.5. This is Democratic Voice of Burma via T8BZ {oops, make that T8WH}, PALAU (a.k.a. KHBN), 100 kW due west, at 1300-1400 (Glenn Hauser, DXLD)

CANADA - 6030 Calgary - CFVP relaying CKMX (AM 1060), 0425-0455, March 23 (Mon). Surprisingly good reception of the "encore performance of Barn Dance Saturday Night" with Jimmy Hugh, playing C&W songs; many local ads; Mon. is the only day with no QRM. (Ron Howard-CA-USA, DXLD Mar 23)

6070 CFRX, Toronto ON, 2318-2328, 20 Mar, CFRB relay, various news topics, advertisements; 23442, adj. QRM.

(Carlos Goncalves-POR, wwdxc BC-DX TopNews Apr 6)

CANADA [non] - *NEW TRANSMISSION TO EUROPE* - RCI is pleased to announce that, as of 3 April 2009, we will be reintroducing an English broadcast to Europe on shortwave. The broadcast will be aired on Saturdays from 1700 to 1759 UT on 5850/Hörby. Listeners can hear the "Maple Leaf Mailbag" in this time slot. This airing of the "Maple Leaf Mailbag" will also be available on the RCI-3 channel via the HotBird satellite. Updated versions of our broadcast schedules will be posted shortly on the Schedules and Frequencies page of our website at <http://www.rciviva.ca/rci/en/horaires.shtml>. (RCI)

CHAD - 6165, RNT, *0430-0459, April 4, sign on with National Anthem. Opening French ID announcements at 0432. Afro-pop music at 0433. Weak but readable. Very weak co-channel QRM. Covered by a strong Radio Nederland 6165 at their 0459 sign on (Brian Alexander, PA, DXLD)

CHILE – Santiago closing? I note that you have been reducing Santiago transmissions step by step, and that Portuguese on SW is to be eliminated at the end of April. I wonder if this also applies to Spanish and thus whether you are going to close down the Calera de Tango facility completely?

Have the transmitters reached the end of their useful life? (Sound fine to me as far as modulation and reliability.) Is CVC selling the site? Thanks for any info you can provide about what is in store. Regards,
(Glenn Hauser-OK-USA, WOR, to Andrew Flynn, Christian Vision, via DXLD)

Hi Glenn, ... We don't have any plans to close Calera de Tango.

The global economic situation has forced CVC, in common with other international broadcasters, to seek cost efficiencies in its operating budget. In particular we have been hit hard by recent increases in the cost of power, and unfavourable exchange rates. Clearly budget savings can be made by cutting transmission hours at the times and (and places) fewest people are listening.

Nonetheless shortwave remains an important medium for CVC to reach its audiences across the world, and we remain hopeful that DRM will also become useful in the future to reach certain targets. I've been following the recent gossip about the site in DXLD, so now is a good opportunity to set the record straight on a few points.

Firstly, when we took over the site in late 1996, none of the transmitters were close to working since the site had fallen into total disrepair since its closure as Radio Nacional. We had 6 transmitters operational by the time of our launch (as Voz Cristiana) in 1998. The remaining 2 transmitters were up by 2000. All 8 are still used in service, although, obviously, not concurrently. Several have now been converted to operate DRM.

Regarding the comments on the photos – especially <<http://www.cvclavoz.cl/im/im12.jpg>>
Andrew Flynn, Director, International Broadcasting (DXLD Apr 6)

CHINA [and non] - The Euraficans have cleared out of 7100-7200 pretty well; I hear nothing around 0530-0630, but some Asians are still intruding in the expanded hamband. April 1 at 1336 I had weak music on 7105; at 1413 music, seemingly two stations on 7130; also at 1337 and still at 1409 music, collision on 7185, with fast SAH. At 1410, 7165 some AM talk. 7200 with music at 1337, probably Yakutsk, Russia per Ron Howard (altho Myanmar has just moved from 7185 to 7200, per Alokesh Gupta, but that's only in their mornings).

Per S. Hasegawa's bandscan from Japan on March 29, 7105 is Nei Menggu PBS; 7130 is Taiwan vs CNR-1 Mainland jamming after 1400; 7165 is Nei Menggu PBS; 7185 is also Taiwan vs CNR-1. I do not claim definite IDs on any of these, but just observing that some broadcasters are dragging their feet on getting out of the hamband. Possibly hams have not been specifically authorized 7100-7200 yet in the countries concerned.

13760, Chinese echoing and cutting out, April 2 at 0535, much better signal than VOR 13775 to North America, altho 13760 is CNR1 jamming against R. Free Asia in Mandarin via Saipan, hardly intended for NAM at all. I thought Voice of Korea might be in there, but altho they use 13760 a lot, not at this hour.

Then I tried 19m, and found the only signal audible on the band was 15130, April 2 at 0536, not // 13760. This is CRI via Beijing site, 150 kW at 95 degrees; strangely enough, IBB Tinian is also scheduled on 15130 at 250 kW, 317 degrees with RFA in Mandarin. So that takes care of blocking two of RFA's frequencies in China, and no doubt the others are too: 15615 15635 17615 17880 21550 21690.

Another check of the 7100-7200 range, April 2 at 1255 found only one frequency occupied by broadcasters, the China/Taiwan collision on 7185.

Haven't heard Firedrake on 8400 lately, so I suppose Sound of Hope has moved. April 3 at 1305 there was FD on 9000 and 9300 with fair signals.

CRI English via Sackville, 9650, normally a VG loud and clear signal here on 240 degree beam, but April 4 at 1310 there was co-channel talk underneath. Could not make it out, but most likely RNW Dutch via Tinang, Philippines, 200 degrees at 1300-1327, and indeed not heard during the second semihour. RNW now has a number of such Dutch transmissions of only 27 minutes, in addition to longer ones. Another check April 5 at 1312, pretty sure the language under CRI was Dutch.

However, there is another co-channel 9650 Dutch-like broadcast --- Afrikaans from Radio Sonder Grense at 0800-1600, but what I was hearing did disappear by 1330 (gh/DXLD)

CROATIA [non] /GERMANY - Summer A-09 schedule of Croatian Radio HS-1 to WEu/NAf:

0459-0758 on 6165 DEA 100 kW / 320 deg
0759-1558 on 7355 DEA 100 kW / 320 deg
1559-2028 on 6165 DEA 100 kW / 320 deg
2029-0458 on 3985vDEA 010 kW / non-dir
(R BULGARIA DX MIX, March 30)

CUBA - R Havana Cuba new frequencies announced --- On Radio Havana's English Service this morning (10 April) they announced new frequencies from Monday 13th April:

17660 kHz 2030-2130

13790 kHz 2300-2400

6010 kHz 0500-0700

Sadly they didn't announce the full schedule, or which frequencies these were replacing (assuming they are not extra ones). Currently 6000 and 6140 kHz both give good reception here around 0400-0500 so hopefully these will be unchanged. (The new announced 6010 would suffer splatter here from very strong Netherlands on 6015 kHz 0500-0600). (Alan Pennington, Caversham, UK, Sony 7600GR/ telescopic aerial, April 10, BDXC-UK via DXLD)

Ha! Great news for the Mexico/Colombia radio war on 6010. I certainly see no need for RHC to change any of its 0500-0700 frequencies in English, 6000, 6060 or 6140 --- unless it's Bulgaria on 6000 to the Balkans, which I haven't noticed here. When WYFR was colliding on 6000, RHC didn't care about that.

Can it be coincidental that these changes are not announced until the HFCC A09 public file is available? As an outlaw nation, Cuba refuses to participate in HFCC for advance coordination. There may be more changes for other languages (gh/DXLD)

CYPRUS - 5930 NF, Cyprus Broadcasting Corp, 2235-2244:30*, April 3, ex-6180. Tune-in to Greek talk. Abruptly pulled plug at 2244:30. // 9760 - good. // 7210 - good level but mixing with China. Schedule: Fri, Sat, Sun at 2215-2245 (Brian Alexander, PA, DXLD)

ECUADOR - 4814.98, R. Buen Pastor, Spanish religious pop-like misoc. Accurate TCs by M between songs occasionally. 1034 ID mentioning FM by M at end of ad/promo block. Another canned ID at 1050 between songs which sounded the same as the one at 1034. Great signal this morning but ruined by horrible QRM from ute below and of course the CODAR. Faded after 1050 but still in at 1102. 73 (Dave Valko, JRC NRD-535D, Hammarlund HQ-129X, Eton E1, T2FD, Windom, Dunlo, PA, USA, HCDX via DXLD)

EQUATORIAL GUINEA - 5005, Radio Nacional-Bata, 2220-2301*, April 4, Euro-pop music. US pops/ballads. Sign off with National Anthem. Poor to fair with occasional utility (RTTY & 2-way radio) QRM (Brian Alexander, PA, DXLD)

6250, group singing hlife-like music, April 3 at 0543 with usual pulsing ute QRM on the side. Presumed RNGE, Malabo, as previously heard irregularly, the best time of day to catch it here when active (gh, OK, DXLD)

15190.02-.03, 1512-1516, R. Africa, Bata, 02/04, English, OM religious talk " fair (it seems their modulation is not good), also at 1528, 1553 and 1601 when the signal was slightly better (Mikhail Timofeyev, with Alexander Beryozkin, DXpedition near St. Petersburg, Russia, Icom R75, Antennas: some directional ones beamed to the North, North-East, South-East and West, HCDX via DXLD)

Hi, now (4 April 09, 2043 UT) I am probably hearing Radio Africa on 15190 kHz, with what sounds like a sermon, in English, previously religious music ("Thanks to the Lord"). Lousy reception, fading in and out of the noise. 73 (Eike Bierwirth, Rx: Perseus, 100ft wire ant, Boulder, CO, USA, dxldyg via DXLD)

ERITREA - Vo BME Asmara, 2nd channel (tentative), March 30th 1630-2001*, now heard with strong signal and extended programming in the evening, in the clear when jamming stops at 1700/1730, mostly in Arabic, "Huna Asmara" or similar at 1727, March 31st also till after 1900 at least. March 30th probably two ERI transmitters followed by two noise jammers until 1700; the noise remained on 7165 and 7170 while ERI-7175 was clear. (Thorsten Hallmann, still in Münster, Germany, <<http://www.africalist.de.ms>> DXLD)

ERITREA / ETHIOPIA / SOMALIA - HORN OF AFRICA CONFLICT DISRUPTS "NEW" 40M BAND

<<http://forums.qrz.com/showthread.php?t=198426>>

First afternoon in the expanded 7.100 to 7.200 MHz 40 metre band.

At 1740 UTC there were 6 short wave broadcast stations between 7.100 to 7.200 MHz.

7110 kHz Radio Ethiopia in Addis Ababa 59

7125 kHz s/off at 1808 UTC

7145 kHz Radio Hargeisa in Somaliland. (East Africa)

7165 kHz music and foreign language very strong S9.

7170 kHz music and foreign language very strong S9.

7180 kHz music and foreign language very strong S9.

At 1906 UTC there were 4 short wave broadcast stations between 7.100 to 7.200 MHz.

7100 Voice of Korea, Pyongyang, North Korea (North East Asia).

7110 Radio Ethiopia, Addis Ababa (East Africa).

7175 Voice of Broad Masses of Eritrea (Voice of the people of Eritrea) (East Africa).

7110 Radio Ethiopia, Addis Ababa (East Africa). Sign off at 2100 UTC

Radio Ethiopia on 7110 continues to be strong here from s/on at 0300Z until fade-out around 0700Z.

Last evening North American time, 0400Z Monday morning, a strong white noise was heard, centred on 7165, wiping

out the band from 7155 to 7175.

Ethiopia, Somalia, Djibouti and Eritrea are virtually in a state of war with each other. The US State Dept has issued a warning urging Americans to avoid travel to Eritrea at this time. Foreigners in Eritrea are restricted to the city limits of Asmara. Requests for permission to travel outside the city limits must be submitted 10 days before the proposed travel. All persons are advised to stay away from the Eritrea-Ethiopian border. Troops are reportedly amassed along this border, and Eritrean troops are amassed along Djibouti border, reportedly crossing into the territory of Djibouti. Ethiopian troops are actively fighting in Somalia. For foreigners, travel to Mogadishu is said to be virtual suicide.

INDIA - AIR is to use these new frequencies for Regional Services from March 29, as replacements for operations which are currently in the 7100-7200 range. This is to conform to ITU requirements that no broadcasting service will be authorized to use 7100-7200 after March 29, which will be allocated exclusively to the Amateur Service worldwide. AIR 7 MHz regional services operate generally in the period 0230-1200 UTC, for daytime transmissions.

(Jose Jacob, Hyderabad),

INDONESIA - 3976.06, RRI Pontianak, 1255-1311 Mar 31. Sub-continental music; man with local ID at 1259, followed by a drama or play, with animated dialogue. Good signal but ham QRM.

4789.97, RRI FakFak, 1248-1302 Mar 30. Vocal music, YL announcer; 1259 SCI, then Jak news relay. Good signal but CODAR QRM worse than usual (John Wilkins, Wheat Ridge, Colorado. Drake R-8, 100-foot RW, Cumbre DX via DXLD)

9525, Voice of Indonesia, Cimanggis, 1040-1058, 02 Apr, English (poor one, I'd say), interviews, chatter, music; 45444.

9680, RRI, Cimanggis, 1047-1126, 02 Apr, Indonesian, talks phone-ins, newscast at 1100; 35434, but deteriorating. 73, (Carlos Gonçalves, Portugal, April 6, dxldyg via DXLD)

9525, Voice of Indonesia at 1201 with Japanese programming ending and several IDs in Japanese, 1202 woman with repeated announcement in English of Indonesian programming coming up. Good Apr. 4.

9525, Voice of Indonesia at 1302 with English ID, "Voice of Indonesia, being the first, being the best", into song. 1304 multi-lingual IDs. "Voice of Indonesia, The Sound of Dignity." 1305 program lineup, news. Fair Apr. 4 (Harold Sellers, Shadow Lake DX Camp, near Stouffville, Ontario, Eton E-1 and 150 ft northeast wire, ODXA yg via DXLD)

Are you sure about 15150? That's normally used only for VOI external service, but not at this hour. So not // 9525 or 9680? Beware; Iran's lengthy Arabic service is on 15150 at 0530-1630, 500 kW, 295 degrees from Sirjan (Glenn Hauser, DXLD)

9525, VOI with rather interesting programming, Tue April 7 at 1340, a `live` interview (in English!) with some OM at RRI Banjarmasin, promoting tourism there. This was by way of introducing a pre-produced feature, with rustic music and YL talking about the Banjari ethnic group, going back to 2500 BCE; at 1348 to OM on the local language, which is sort of a mix between Malayan and Javanese; there are two major dialects. One of them is a lingua franca in E, S and C Kalimantan, but not in W Kalimantan where Malayan is. One of the dialects also has only three vowels, i, u and a, forcing foreign words to be reworked, such as "local" becomes "luku"; there has been a lot of intermarriage with the Dayaks, to confuse matters further. To be continued next week, about the Banjari kingdom; back to bookender with previous introducer, 1354 playing a song from Jakarta. Good signal with some hum and fading until *1357 CRI prélude on 9525 producing fast rippling SAH with off-frequency VOI (gh/DXLD)

[and non]. RRI's clear access to 9680 after 1300 was short-lived. On April 8 at 1338 the Chinese were back radiowarring with each other and blocking RRI, mainly evidenced by a SAH of 4.4 Hz.

VOI English on 9525, April 8 at 1340 with language lesson, fair and in the clear; blocked as usual during 1400 hour by CRI in Russian; 1503 recheck, 9525 in clear again re-opening English with news headlines, as always frustratingly offcut in abrupt late (early?) closedown of transmitter at 1505*. During the final minute I was hearing some chirp/pulses of one per second, traces of which were still there after VOI was off; stray CODAR, or my TV set? (gh/DXLD)

9524.98, April 8, 1502 ID in English for VOI, with upcoming program schedule for 'Today in History', 'Let's Speak Bahasa Indonesia' and 'Music Corner'; started with the news in English which was cut off suddenly at 1505. Cannot say I noticed any noise other than their usual transmitter hum (Ron Howard, CA, dxldyg via DXLD)

INDONESIA [and non] - Checking 9680 again to see if RRI is still clear of the China Radio War: April 1 at 1300 indeed no co-channel, but badly squeezed by 9675 which at 1255 was playing an "Alleluia" hymn. I see no such station listed; after 1300 it's CRI in Russian. And from 9685 before 1300 CRI in Russian, at 1300 CRI IS, and into Vietnamese. Perhaps RRI will dominate over the adjacents on a better day. Anyhow, we had VOI in English stronger and clearer on 9525 with election news at 1305 (gh, WORLD OF RADIO 1454, DXLD)

9680, RRI Jakarta, 1301-1317, April 1. There has indeed been a significant change in the Taiwan/RTI schedule here. Seems they are only on-the-air from 1100-1300 (ex: 1100-1700). The CNR-1 jamming (heard with pronounced echo), which is used to block Taiwan, was heard at 1113 and 1255-1301*, after which RRI Jakarta was clear of any direct QRM, but had splatter from a strong 9675, so the reception was only poor to fair. Still this is a vast improvement in RRI reception (Ron Howard, Asilomar Beach, CA, Etón E1, dxldyg via DXLD)

9680, RRI Jakarta, 1157-1205 April 3. This frequency is crowded at this hour with Chinese language, but we are interested in Indonesian. Noted a signal struggling to be heard of popular Indonesian music. At 1159 noted the theme music for RRI Jakarta. Time ticks and ID in Indonesian by a female. News about the G20 is presented. Heard Obama mentioned often. The interference from China continues. It's a real shame that China can't find an open frequency somewhere else. RRI Jakarta continues to be heard well. After 1300 a recheck revealed that China had cleared out (Chuck Bolland, Clewiston FL, dxldyg via DXLD)

9524.98, Voice of Indonesia, 1301-1402, April 3, English programming with IDs. News at 1303. "Indonesian Wonders" program at 1331. Local pop music. Closing English announcements at 1400 with IDs, address, e-mail address, website. Announced next program was in Malay & into Malay at 1402. Fair signal but poor reception after 1358 due to co-

channel QRM from 9525 (Brian Alexander, PA, DXLD)

IRAN [non] - Radio Farda, Persian/western pop music, April 1 at 1420 on 17670, better than // 17755, and a reverb = few milliseconds apart; during this hour, 17670 is Wertachtal and 17755 is Biblis, GERMANY (Glenn Hauser, DXLD)

Radio Farda schedule updated from RL/RFE website April 3. Note some overlapping of times/frequencies.

Persian (Farsi)	0845-1000 17845	1600-1700 7340
0030-0300 5860, 7280, 7295	0845-1200 21715	1633-1700 7340, 15410
0233-0530 5860	1000-1400 7435	1633-1730 11520
0233-0400 7280	1200-1500 17755	1700-1745 7580, 9760
0233-0330 7295	1400-1500 11520, 17670	1730-1745 9855
0330-0900 15690	1445-1529 11520, 17755	1800-1900 5820

0600-0900 17845	1530-1600 17755	2030-2130 5830, 7580, 9505
0845-1400 15690		

(Bernie O'Shea, Ottawa, Ontario, April 3, DXLD)

ISRAEL - 6973.00, Forces Radio Galei Zahal in Hebrew, S=2 weak and noisy, fade out 42 mb at 0515 UT. 15785.00 then at 0625 UT much stronger, jamming free (wb, April 3)

Galei Zahal, 6973 at 2330+ with Cliff Richard special. Fabulous reception, in the clear unlike last night. This is probably the most of Cliff Richard anyone usually hears over here. 3 April.

(Liz Cameron/Michigan, dxldyg via DXLD)

JAPAN [and non] - The 0000 R. Japan relay on 6145 via Sackville has the RJ Focus show until 0015, then there is a short J-pop feature with snippets of popular songs, as noted 3/31; this also applies to the 2200 broadcast on 13640 for Oceania (Joe Hanlon, NJ, April 1, DXLD)

JORDAN - 11960 [alt. 11775] to W Europe, 350 degrees, Radio Amman // 11810 at 94 degrees, NE/ME/AS till 0715 UT. And also later the day 1030-1130v on 15290 kHz and 9830 at 1745-2000 towards Spain, NW and W Africa. (wb)

KUWAIT - 11990, R. Kuwait English service, April 2 at 1829, music with heavy beat, 1830 accurate 5+1 time signal, news theme and news by YL; unfortunately I was trying to hear it on the lunch table's DX-390 with inside reel-out antenna only, and that was not enough; just occasional words at fadeups, and by 1839 when I got back to the FRG-7 with external longwire, news was done and back to rap. Who needs that all the way from Kuwait? By 1901 it had faded to just barely audible (gh/DXLD)

11675, R. Kuwait in Arabic 0300-0700 rather weak to different target, but // 13650 much better level of S=9+10dB (wb, April 3)

(R BULGARIA DX MIX News, April 6)

MADAGASCAR - Work on the new station continues in Madagascar. The three 100,000 watt transmitters have been built, tested, and are in Dallas waiting to be shipped out of Houston. Two additional diesel powered generators that have been built are in port in Madagascar and will be taken to the site to provide the electricity that is needed. The 4 antennas being built will be digital ready, which means that from each antenna, 4 simultaneous broadcasts on 4 different frequencies will be possible.

Wire, cable tools, and building supplies that we had stored in a warehouse were destroyed during the uprisings. This may set back the project by three to six months. All but one of the buildings that we need have been completed and the towers are up. The curtain antennas are being constructed.

(Andy Baker, World Christian Broadcasting Update via DXLD WDXC Contact)

WCBC Madagascar shortwave project set back but proceeds "The 4 antennas being built" and now look here, on page 3 (and elsewhere for some photos of site):

<http://www.worldchristian.org/Updates/LatestNews/WCBC_Dec2008_Newsletter.swf>

Here they talk about four *towers* which would mean three antennas. And this would be in accordance with information from 2005 which indeed mentioned three antennas, two ones for 9...17 MHz and the third one for 7...15 MHz. Can't find the azimuths, only a mention of the circumstance that Central Europe is amongst the target areas. (Kai Ludwig-D, DXLD Mar 25)

MALI - 7284.9 R. Mali, Kati, 1124-1312, 28 Mar, Malian songs, fq announcements in French... QRM de POL via D 1130-1200... wrong HF fq announcement at 1201, Vernacular, music, French for newscast at 1300 when vy. poor as obs'ed in Lisbon.

7284.9 ditto, 1102-1228, 03 Apr, Vernacular, talks, tribal songs,...., same at 1200+; 34443, co-ch. QRM; // 9635 vy. good. (Carlos Goncalves-POR, wwdxc BC-DX TopNews Apr 6)

MAURITANIA - 7245 R. Mauritanie, Nouakchott, 1101-1225, 03 Apr, Arabic, newscast, ..., Vernacular at noon, talks; 45444.

783 R. Mauritanie, Nouakchott, 2209-2224, 01 Apr, VN, discussion; 54444, QRM de Spain; // 4845 kHz.

783 ditto, 1129-1241, 05 Apr, Vernacular, chanting, lute tunes, ..., tunes; 15341. (Carlos Goncalves-POR, wwdxc BC-DX TopNews Apr 6)

MEXICO - Contrary to the recent item, the times for SINTONÍA LIBRE, Radio Educación's DX program, per its March 2009 grid, <<http://www.radioeducacion.edu.mx/ONDAMARZO.pdf>> here converted to UT days and times now that UT-5 DST is in effect: Wed 0200-0230, Thu 2303-2330, Sun 0345-0415. This is on the SW-only 6185 schedule when programming separates from MW 1060, 2300-0500.

However, 6185 transmitter stays on air another four sesquihours relaying MW for which there is a separate grid available; both of them have lots more very good programming, MW also webcast (gh/DXLD)

NETHERLANDS [USA] - HAPPY STATION: A few days ago I informed you that Radio Miami International needed to install a new web server. The latest is it will be up and running in a few days. So for those outside the Americas will be able to listen at <<http://www.wrmi.net>> (Keith Perron, Taiwan, April 5, thehappystation yg via DXLD)

NEW ZEALAND - 9655 RNZi 1050-1258 UT via long path, fair signal at 1220 UT. But also at same time slot RA Shepparton on 9580 and 9590 kHz. (wb, wwdxc BC-DX TopNews Apr 6)

6170 R. NZi, Rangitaiki, 1039-1058*, 01 Apr, English, jazz, s/off announcements, IS; 35433.

9655 ditto, 1242-1258*, 29 Mar, English, talks, interview, IS; 25332.

11725 ditto, 2035-2050*, 02 Apr, English, talks & reports on the G20 London Summit; 25422.

13730 ditto, 2155-2222, 31 Mar, English, pops, news bulletin, sports news; 25432, deteriorating, yet not better at s/on at 2051 when fluttery. (Carlos Goncalves-POR, wwdxc BC-DX TopNews Apr 6)

NIGERIA - 4770 R. Nigeria, Kaduna, 1507-...., 05 Apr, carrier detected, nothing else; 15341.

6089.85 R. Nigeria, Kaduna, 2224-...., 02 Apr, Vernacular, talks, refs. To the Koran; 54444, QRM de AIA+B. (Carlos Goncalves-POR, wwdxc BC-DX TopNews Apr 6)

OMAN - 15140, Radio Sultanate of Oman, 1427-1445, April 4, Presumed. Tune-in to pop music. Usual theme music & English news at 1431. Heard their usual theme music at various times during the news broadcast but too weak to hear a real ID. Threshold-very weak signal (Brian Alexander, PA, DXLD)

PERU - 4746.92v R. Huanta 2000, Huanta, Mar 25, *1010-1200 - Lively male announcer with sign on greetings, another man at 1013 with station ID mentioning Huanta, Peru, onda corta, telefono then further announcements by both male and female speakers, "la hora del Peru". All talk until station fade out, unfortunately no music heard. Transmitter slightly wobbly +/- 1 Hz as it slowly drifted upward to 4746.93 by 1200 carrier fade out. Would have been a fair signal except for the massive CODAR spoiler here!

4789.98v R Vision, Chiclayo, 0333-1000 - Fair with male in religious monologue, musical bridge at 0400 then La Voz de la Salvacion program ID by man at 0401 and into their distinctive religious services at 0405, poor acoustics with echo. This format continued, with occasional breaks with inspirational vocals, studio talk. A canned La Voz de la Salvacion ID at 0701, longer ID at 0803. Station switched to local programming from 0900 with nice Andean vocals, "-Atencion, es la Radio Vision!" between and during songs. Fair signal through, marred by strong CODAR. Transmitter drifted from an initial 4789.982 at tune in up to 4790.007 by 1000 UTC.

4824.46v La Voz de la Selva, Iquitos, *1056-1130 - Sign-on with flute music, canned ID announcement also mentioning web site (I found <<http://www.cnr.org.pe/aa/vselva/index.html>> via Google), then buenos dias greetings by fast speaking female until 1106, then chatter back and forth between her and male speaker, perhaps local news items. Best at sign on but steadily fading, very poor by 1115. Transmitter appeared to be oscillating +/- 1 Hz while drifting from 4824.457 up to 4824.47 and then back down to 4824.465, where it stabilized until carrier fade-out. Thankfully CODAR not too bad here. (Brandon Jordan-TN-USA DXLD Mar 26)

4746.9 R. Huanta 2000, Huanta, 2253-2305, 20 Mar, Quechua, ann., Indian music; 33442, CODAR QRM.

4790 R. Vision, Chiclayo, 2257-2311, 20 Mar, Castilian, music, announcements for relgs. propag. prgrs, relgs. songs, ID+fq announcement at 2302 followed by more songs; 33442, CODAR QRM. It was noted better on 21 Mar at approx. the same UTC.

4955 R. Cultural Amauta, Huanta, 2312-2324, 20 Mar, Quechua / Castilian, news; 35342.

5120.2 R. Ondas del Suroriente, Quillabamba, 2334-2342, 20 Mar, Indian songs; 25332.
(all Carlos Goncalves-POR, wwdxc BC-DX TopNews Mar 24)

4746.9 R. Huanta 2000, Huanta, 2314-2324, 01 Apr, Castilian & Quechua, talks on aiding private business; 34433, CODAR QRM.

4774.9 R. Tarma, Tarma, 2316-2325, 01 Apr, Castilian, advertisements; 33432, CODAR QRM.

4950 R. Madre de Dios, Pto Maldonado, 2208-2220, 04 Apr, Castilian, songs; 25331.

4955 R. Cultural Amauta, Huanta, 2210-2225, 04 Apr, Castilian, ID+FM fq ann., Indian songs; 45333.

4991 R. Manantial, Chilca, 2214-2226, 04 Apr, Quechua, talks; 34332, adj. QTM de B 4985 as usual.

6019.4 R. Vitoria, Lima, 2214-2225, 02 Apr, Castilian, rlg. propag. pargr from IPDA announcing a certain Brazilian pracher - the "one & only pastor David Miranda!"; 24432, adj. QRM; // 9720.

9720 ditto, 2218-2227, 02 Apr, cf. // 6019.4; 25432.

Thanks for this new frequency info from Vasily Gulyaev, Astrakhan, Russia (Ivo Ivanov, March 31, DXLD)

Stimme Russlands wieder auf analoger KW in Deutsch. Ab dem 10. April 2009

Die Stimme Russlands hat mir soeben mitgeteilt, dass fuer die Nachmittagssendungen von 15:00-19:00 Uhr UTC zwei KW-Frequenzen mit analoger Modulation benutzt werden: 7330 und 12010 kHz. Die Proteste der Hoererschaft haben also doch etwas bewirkt. (Andreas Volk-D, A-DX Apr 9)

Andreas Volk from Munich reports:

RUSSIA/KALININGRAD 7330 / 12010 Voice of Russia's German service which [planned] to cease all AM mode transmissions on shortwave after 80 years in service, will be back on April 10th on two AM mode channels in European afternoon.

1500-1900 UT

7330 Kaliningrad (Koenigsberg Bolshakovo) 120 kW at 245 degrees

12010 Samara 240 kW at 285 degrees.

(via Jose Miguel Romero-ESP, DXLD Mar 26)

SUDAN [non] - Via Wertachtal, Germany, 13730, Radio Dabanga, *1529-1727*, April 3, sign on with "Radio Dabanga" jingles. Talk in local language. Many IDs. English news at 1721-1726:30 about Sudan & Darfur. Surprised to hear English on this station. Fair to good signal. // 11500 – via Madagascar - poor in noisy conditions at sign on but improved to a fair signal by 1700. Noticed 11500 running about 1 second ahead of 13730 (Brian Alexander, PA, DXLD)

SWEDEN [and non] - 7395, MADAGASCAR, R. Sweden Talata-Volandry, 2033-2045, March 31, English. Talk re Easter travel; local weather; news re Sweden youth violence; bullying; huge poultry recall due to broken glass found inside frozen chix; R. Sweden promo at 2044 for Twitter, Facebook; every other hot new medium of the day; I'm sure SW was mentioned right after I tuned out; fair (Scott R. Barbour Jr. Intervale, NH-USA, NRD-545, RX-350D, MLB1, 200' Bevs, 60m dipole, dxldyg via DXLD)

SYRIA - Radio Damascus A09 :

(via José Miguel Romero, España, April 3, dxldyg via DXLD)

So has 15275 really replaced the others at 0000, 0030, or added? (gh)

TURKEY - TRT has several transmitters at Cakirlar, so they are all no longer usable? I know that some of them had been having modulation and spurious radiation problems. Are there plans to move some that work to Emirler? (Glenn Hauser-OK-USA to Elvan Boratav-TUR TRT, via DXLD)

Dear Mr. Hauser, There are five transmitters (3 x 250 kW + 2 x 500 kW) at Cakirlar, but they are quite old. The head of our department has plans to move one 500 kW to Emirler, but the general opinion is that it won't be possible to put it back into operation after the re- installation. We are also planning to carry the rotatable antenna from Cakirlar to Emirler, but this is not yet settled, either. Cakirlar is still operational, but for the time being there won't be routine transmissions there.

I did not receive any answer from Canada yet, but I also learned that the English is back. Have a nice day.

(Elvan Boratav, TRT CE, DXLD April 2; via SW TXsite Apr 6)

<http://www.fcc.gov/ib/sand/neg/hf_web/A09FCC01.TXT>

showing the only 7390 as WHRA, daily at 0500-0700, 75 degrees to Iberia and N Africa
7390 0500 0700 WHRA 250 75 37-39,46-48 1234567 290309 251009

We were concerned that this would interfere with Radio Tirana in Europe, which broadcasts daily from 0630 in Albanian on 7390, but WHRI is presumably aimed somewhere else. Or is it? How many Quebeckers might be listening at 2 am? [see ALBANIA]

Noel Green in England was also monitoring this and found heavy QRM to Tirana from WHRI, which went off just before 0700.

Besides, there is competing French "Le Bible Parle" from WYFR to EurAfrica at 0600 on 9340, 9355. These were very good here, while other WYFR on 9680 and 9715 were weak, and nearby WTJC 9370 JBA (gh/DXLD)

U.S.A. - [Germany/Sri Lanka] - R Liberty in Kyrgyz til Apr 13 on

11780 1200-1230 30S,31S BIB 100 kW 085 deg replaced by
17730 1200-1230 30S,31S IRA 250 334 from Apr 14.

VOA Azerbaijani program, replace 7235BIB by 5820BIB, from Apr 13
5820 1730-1800 29SE BIB 100 kW 105 deg
// 7215BIB 13580LAM

1400-2000 on 6260 TAC 100 kW / 153 deg

(R BULGARIA DX MIX, March 30)

ZAMBIA - 4965, Radio Christian Voice at 2250 with man excitedly preaching about Jesus, and songs. Poor Apr. 3 (Harold Sellers, Shadow Lake DX Camp, near Stouffville, Ontario, Eton E-1 and 150 ft northeast wire, ODXA yg via DXLD) Apparently in his logs if no language is specified, English is assumed (gh, DXLD)

4965, 1825-1845 UT April 6, CVC Voice Africa, Lusaka, with fair signal, and NOT in English. YL announcer with several afro-pop songs. I've sent an e-mail asking about this but it keeps bouncing back (José Pedro Turner, Portugal, April 6, dxldyg via WORLD OF RADIO 1455, DXLD)

4965, CVC, Lusaka, 1941-1957, 04 Apr, English, interview during some religious propaganda program; 44343, adjacent utility QRM (Carlos Gonçalves, Portugal, April 6, dxldyg via DXLD)

A-09 of CVC International via LUS=Lusaka:
English to West Africa and Nigeria
0400-0600 on 9430 LUS 100 kW / 315 deg
0600-1900 on 13590 LUS 100 kW / 315 deg
1900-2200 on 5940 LUS 100 kW / 315 deg

English to South and Central Africa
0600-1600 on 6065 LUS 100 kW / non-dir
1600-0600 on 4965 LUS 100 kW / non-dir
(R BULGARIA DX MIX, March 30)

Editor's info desk was closed on April 12th, 2009, at 1500 UTC.

Here are the loggings from Bruce Barker of Bromall, Pennsylvania, USA:

- 4845 MAURITANIA R. Mauritanie-Noukchott Mar 26 0700-0725 ID in AA at ToH by om. Then into a stern-sounding man, possibly an imam, until 0715. This was followed by a brief musical selection and a different om speaking, using music as a bed to talk over. Fair to good signal
- 4885 BRAZIL Radio Clube do Para Belem (presumed) Mar 17 0705-0715 OM dj in Portuguese, playing up-tempo instrumental music. Could not hear a definite ID.
- 4885 BRAZIL Radio Clube do Para 0630-0640 Mar 31 Making the trip from Belem with two kilowatts. OM in PP with station ID repeated three times at 0630 then into lively Brazilian music.
- 4915 BRAZIL Radio Difusora de Macapa 0700-0710 Mar 31 Full station ID by a man at 0700 then into canned spots and promos mentioning Brazil frequently, Codar present for your listening displeasure. Otherwise very good signal.
- 4915 BRAZIL Radio Diffusora de Macapa Macapa Mar 17 0815-0825 Dueling Brazilians. R. Anhanguera (CBN Network) Goiania and Macapa producing a het on 4915. Macapa winning the battle with a solid signal. OM in PT playing lively Brazilian tunes.
- 4985 BRAZIL Radio Brasil Central, Goiania. 0715-0725 Mar 31 o m and yl talking in PP then itno uninterrupted music.
- 5890 USA WWCR Nashville Good Book vs. Good Book. Tuned in on Mar 12 at 0800 at WWCR ID and then itno Pastor Peter Peters and dueling bibles as he compared passages from different bibles in an attempt to, as he put it, "discern evil." Modulation was way too hot.
- 5910 COLOMBIA Marfil Estereo packing a real whallop from Puerto Lleras 0859-0905 on Mar 12 tuned in to soulful Spanish ballads. No announcements until 0900 when a clear ID was heard then into more SP music.
- 6010 BRAZIL R. Inconfidencia Belo Horizonte 0710-0730 on Mar 12. A 15-minute-long block of PT music ranging from ballads to rock. At 0725 the music stopped for continuous talk until 0730 when a station ID was given.

- 6060 CANADA CKZN St. Johns Newfoundland Mar 22 2009 0930-0950 Blowing in strong off Labrador with CBC news by yl at 0930 followed by a different yl in a live remote from the location of an international cultural exchange. She played music and interviewed several people.
- 6185.22 BRAZIL R Nacional da Amazonia, Brasillia Mar 22 0905-0915 OM in PT mentions Brazil as often as he can. Takes phone calls from listeners. Meanwhile signal is off freq, drifting from 6185.22 to 6185.45.
- 7250 VATICAN Vatican Radio Santa Maria di Galeria Mar 12 0730-0745* Tuned in to OM with news which ended with details of the Pope's coming visits to Angola, Cameroon and Israel. He then gave the web site address, followed by bells of St. Peter's. Pulled the plug at 0745.
- 9665 BRAZIL R. Voz da Missionaria, Florianopolis Mar 22 at 0845 instrumental music was played non-stop until 0855 when om began talking in PT. Signal was mired in band mud and never came up to any quality. No ID heard at 0900, but om continued talking.
- 9690 NIGERIA Voice of Nigeria from the xmtr site at Ikorudu. Mar 22 at 0815 om with news in listed Hausa. Nx of Nigeria first and then nx of Africa. Tribal music at 0825. IS at 0830 followed by yl with ID in EG "This is the Voice of Nigeria in Lagos." More tribal music followed.
- 9690 NIGERIA Voice of Nigeria from Ikorodu Tuned in at 0820 to non-stop indigenous music. This ended at 0830 with an ID in EG. Then into long talk by an om in Hausa.
- 9690 NIGERIA Voice of Nigeria-Ikorodu Mar 26 0757-0839 In listed Hausa, phone-ins being taken by an om until ToH then ID in Hausa and EE followed by news by an om mentioning Nigeria frequently as well as naming other African countries. News ended at 0822 to be followed by excellent tribal music until tune-out at 0830. Blazing in with a strong signal, reading S9 +20.
- 9765 NEW ZEALAND RNZI ID at 0830 Mar 12 and then a YL began regional news to the Pacific. At 0845 nx ends with ID and then an om with commentary.

Here are the loggings from Richard A. D'Angelo of Wyomissing, Pennsylvania, USA

- 171 MOROCCO (Spanish), Radio Medi Un, 0454-0515 Feb 18, Arabic vocals followed by a woman with ID at 0500 and a man with news in Arabic. Back to vocals at 0505. Fair; almost a regular at French Creek but rarely heard at home. Although not shortwave, it was fun to listen to anyhow, hi!
- 3200 SWAZILAND, Trans World Radio - Manzini, 0400-0421 Feb 15, German language program with vocals, talk by a woman followed by more music. Fair.
- 3200 SWAZILAND, Trans World Radio - Manzini, 0402-0430* Feb 27, woman announcer with talk in German followed by choir vocals. Man began preaching at 0406. Fair but //4775 was good.
- 3255 SOUTH AFRICA, BBC - Meyerton, 0401-0427 Feb 22, news in English read by a woman announcer. ID and TC at 0406 followed by program previews, invitation for listeners to text message and a program with short features about Uganda and Nigeria. News headlines at 0417. Fair.
- 3310 BOLIVIA, Radio Mosoj Chaski, 0916-0932 Feb 23, man with rustic vocal followed by a man and woman talking in Quechua language. More rustic vocals. Poor.
- 3380 SOUTH AFRICA, BBC via Meyerton, 0434-0452 Mar 4, man with talk/news in Portuguese language. End of news at 0445 followed by music bridge, woman announcer and group vocals. Poor but //7205 was fair to good.
- 3396 ZIMBABWE, Radio Zimbabwe, 0356-0427 Mar 12, national anthem like group singing to 0400 ID by a man followed by a woman with news in local language. Brief music at 0420 ending the news. Lively African pop music. Fair.
- 3396 ZIMBABWE, Radio Zimbabwe, 0347-0416 Feb 15, group tribal vocals, man announcer in local language at 0354 followed by more local music. ID by a man just prior to drums. News at 0400. Poor to fair.
- 4770 NIGERIA, Radio Nigeria, *0429-0525 Feb 4, drums, choral national anthem, man with prayer in English followed by a man announcer with ID, opening announcements, and program previews. Music programming until drums at 0459 followed by ID, TC and news. Poor to fair with some UTE QRM.
- 4775 SWAZILAND, Trans World Radio - Manzini, 0351-0358* and *0400-0409 Feb 12, music to talk by a man and woman in Lomwe followed by ID and closedown announcements and more soft music. Carrier cut at 0358 but opened again at 0400 with German program, ID, an announcements by a woman and vocals. Fair.
- 4780 DJIBOUTI, Radiodiffusion du Djibouti, 0407-0450 Feb 25, vocals followed by a woman announcer in Arabic introducing next program. Discussion program with various male speakers. ID at 0430 followed by Horn of Africa vocals. Fair to good.
- 4800 MEXICO, Radio Continental de America, 0458-0538 Feb 14, program of vocals hosted by a man announcer with Spanish talks. Nice ID at 0518 followed by a formal ID with call letters at 0522 and more music. Fair with CODAR QRM.
- 4828 ZIMBABWE, Radio Zimbabwe, 0410-0456 Feb 21, lively non-stop highlife vocals and pop music. Transmitter break at 0446 but returned at 0453. Fair with some slight CODAR QRM but began deteriorating after 0430.
- 4845 MAURITANIA, Radio Mauritanie (presumed), 0524-0537 Mar 6, man with long Arabic vocal. Good signal with fluttery conditions.
- 4965 ZAMBIA, Radio Christian Voice, 0438-0512 Feb 11, man talking in local language followed by a woman with vocals. News at 0500 with "Radio Christian Voice" ID by a man announcer, Poor to fair.
- 4976 UGANDA, UBC Radio, 0415-0442 Feb 25, two men with a discussion in English. Woman announcer with ID followed by promotional announcements. Pop vocal at 0423 with jingle ID and more promotional announcements at 0429. Rap music and other music hosted by a man announcer with English chatter. Fair.
- 4985 BRAZIL, Radio Brasil Central, 0434-0453 Jan 29, man with pop vocal selection; man announcer with Portuguese talks, ID, hosting program of vocals. Fair.
- 5009.9v MADAGASCAR, Radio Malagasy, 2352-0015 Jan 19, spotted by Scott Barbour appeared to be this one with vocals. Quite poor overall.
- 5100 ERITREA, Radio Bana (presumed), 0412-0435 Feb 18, talk by man in Tigrinya language followed by a series of Horn of Africa vocals. Poor.

- 5915 ZAMBIA, Radio Zambia, 0340-0459 Jan 20, highlife vocals, drum music hosted by a man announcer in local language. Poor but signal improving with many mentions of Zambia. ID and news at 0430 and back to music programming at 0435. Improved to fair but blown away by Deutsche Welle opening at 0459 with Russian program.
- 5950 ETHIOPIA, Voice of Tigray Revolution, 0410-0436 Feb 19, series of talks by various men and woman in Tigrinya language with some Horn of Africa musical selections. Mainly quite poor under Family Radio but the music punched through nicely and some peaks were over Family Radio.
- 5995 MALI, Radio Mali, 2227-2246 Jan 20, instrumental music until ID at 2230 by a man announcer followed by French talk and discussion between two men. Back to highlife vocals at 2240. Fair.
- 5995 MALI, Radiodiffusion Television du Mali, 2250-2317 Feb 21, man announcer with talk in French language with announcements, ID hosting program of highlife vocals. Poor to fair with some adjacent channel splatter.
- 6010 MEXICO, Radio Mil, 1103-1125 Feb 27, program of continuous Latin vocals with ID and Spanish language announcements at 1119. Good.
- 6040 GERMANY, Voice of America - Nauen, 2047-2100* Jan 21, lively African vocals with several IDs at 2054 and VOA promos in Hausa language with some English mixed in with mention of "African Beat" on the VOA. Fair.
- 6070 LIBERIA, ELWA, 2300-2302* Jan 21, man in English with ID and closedown announcements followed by orchestra national anthem. Poor to fair.
- 6110 ENGLAND, BBC World Service - Skelton, *2100-2111 Jan 21, opening with ID and news by a woman announcer in English. Poor to fair signal with deep fades.
- 6150 BRAZIL, Radio Record, 2321-2344 Feb 21, various fast-talking men with Portuguese talk, ID, jingles and ads. Poor to fair.
- 6240 MOLDOVA, Family Radio, 2148-2200* Feb 21, Harold Camping in English answering questions on Open Forum program. End of program at 2158 followed by a man announcer with ID and request for letters and e-mail promising a bookmark in return. Theme music at 2159 until carrier cut.
- 6255 EGYPT, Radio Cairo, 2203-2234 Feb 21, woman announcer with news in English. Male vocal selection at 2206 followed by 5+1 time pips at 2215, ID and man announcer with a cultural program claiming to present "unbiased viewpoints about Islam." Fair to good.
- 7110 ETHIOPIA, Radio Ethiopia, 0409-0436 Feb 17, male singer with Horn of Africa vocals followed by two men with a discussion in Amharic language. Fair to good with //9704.2 poor.
- 7175 ERTIREA, Voices of the Broad Masses of Eritrea, *0356-0420 Feb 18, IS, man announcer with multiple IDs in different languages. At 0400 opening ID and announcements in Amharic, brief Horn of Africa music segment followed by a woman announcer with news. Transmitter break around 0420. Fair to good prior to transmissions abrupt end.
- 7200 SUDAN, Sudan Radio & TV Corporation - Omdurman, 0409-0427* Mar 4, Arabic discussion by various men with frequent mentions of "Sudan." Instrumental music ended program at 0424 followed by news items but carrier cut at 0427 and never returned this night. Fair.
- 7205 SOUTH AFRICA, BBC via Meyerton, *0427-0441 Mar 4, instrumental music with a man announcer giving BBC ID but saying "no program on this channel at present." Opened Big Ben, a man with Portuguese language ID and opening announcements followed by news in Portuguese. Fair to good.
- 7245 MAURITANIA, 0856-0921 Feb 23, Arabic language vocals followed by a man with Arabic talk until 0900 ID and news. One selection of music after the news followed by a long talk. Fair.
- 7280 UNITED ARAB EMIRATES, Sudan Radio Service - Dhabbaya, *0359-0433 Feb 4, open carrier to brief musical opening followed by Arabic ID and opening announcements. Another music segment followed by an English ID and Arabic talk. A woman announcer hosted news program with various remote reports. Poor to fair.
- 7315 FRANCE, Radio France International, 0424-0430* Feb 27, English features, several IDs, news headline and final ID. Fair to good.
- 7315 Radio Dabanga via Wertachtal, *0429-0447 Feb 27, open carrier with music opening at 0430, man with Arabic ID and announcements. News with several IDs during newscast. Fair with heterodyne from Radio France International which left carrier on after signing off at 0430.
- 9535 THAILAND, Radio Thailand, 2042-2051 Feb 22, man and woman with English news followed by ID, gongs at 2045 and Thai language program. Fair.
- 9745 SOUTH AFRICA, Channel Africa, 0504-0523 Feb 5, man with news in English followed by ID at 0510 and short music segment. "Africa Live" program at 0515. Poor to fair.
- 11610 PHILIPPINES, Voice of America - Tinang, 2248-2307 Mar 8, news about general Motors in Your Business followed by weather for numerous US and Asian cities. Editorial about Zimbabwe and human rights abuses followed by ID and news at 2300. Fair with some flutter.
- 11715 USA, KJES - Vado, New Mexico, 1452-1518 Mar 8, woman preacher with child accompanying talk in English. ID in English and Spanish at 1459 followed by children singing at 1500. At 1504 a man began preaching in Spanish.
- 11735 ZANZIBAR, Radio Tanzania-Zanzibar, 1749-1812 Jan 29, two men with discussion in Swahili with ID at 1759 followed by music program at 1800. Was hoping for Spice FM and English news but not today. Poor to fair.
- 11745 SOUTH AFRICA, SW Radio Africa via Woofferton, 1814-1833 Feb 21, man announcer in English interviewing several people on "Broadcasters Forum" panel discussion program about MDC joining Mugabe government. ID at 1819 followed by local language ID at 1820. After a short musical segment, a woman announcer introduced the next program called "The Heart of the Matter" with an exiled former leader.
- 11990 KUWAIT, Radio Kuwait (reactivated), 1818-1840 Feb 15, English service with "Under the Umbrella of Islam" program followed by pop music and rap music. At 1828 a man announcer gave ID and frequencies) 963 kHz, 96.3 MHz and 11990 kHz for Europe and North America). Five + one time pips at 1830 followed by ID and TC for "7:30 PM Kuwait local time." This was followed by the news. Good signal. I checked for this during the week but unheard so not sure when it returned. Nice to have the English service back.
- 12085 SYRIA, Radio Damascus, 2112-2140 Mar 8, English news read by a man with numerous anti-Israel items. Vocals by a woman at 2120 followed by more features. Fair to good signal.
- 15190 EQUATORIAL GUINEA, Radio Africa, 1926-1941 Feb 14, man and woman with religious talks in English with discussion about lifestyles. Through bottom of the hour without a station break. Poor to fair signal with very deep fades.

15650 "SUDAN", Miraya FM via Rimavska Sobota, 1538-1620 Jan 31, Arabic program with news, news features and discussions with one music selection just before 1600. ID and man with news followed by several IDs at 1612 before another talk by a man and a woman. Fair, mixing with presumed Greece until about 1600 then essentially clear although subject to fading.

Dear Friends,

Welcome to the April edition of Logbook.

The propagation conditions seem to have improved as I am able to listen to Radio Australia regularly on various bands regularly from my listening post.

Till next month,

Ashok Kumar Bose

QSL CORNER
