Vol. XLV DX MAGAZINE No. 8/9 August/September 2010

Hello again,

Welcome to the annual summer double issue of our DX MAGAZINE. Like in the past years you will find our normal monthly sections, some articles, and our annual "List of Members". For our newer members we have also included the "EDXC List of Radio Countries 2007" once again. And now over to our usual information from outside the club, this month only two items in German:

Wie in jedem Jahr findet im September wieder vom 3. bis 8. September die IFA 2010 in Berlin statt. Anläßlich der Funkausstellung wurden auch wieder einige DX-Treffen angekündigt: Am 3. September von 13-17 Uhr das KBS World Radio Hörertreffen im neuen Koreanischen Kulturzentrum am Leipziger Platz 3; ebenfalls am 3. September ab 18 Uhr ein Kurzwellenhörertreffen im

"Schachcafé en passant" in Berlin-Prenzlauer Berg, Schönhauser Allee 58, am U-Bhf. Greifswalder Straße. Am 4. September ein weiteres Treffen ab 17 Uhr in der "c-base Raumstation", Rungestraße 20, Berlin-Mitte.

Hallo ich habe zu verschenken: etliche Heftchen "Aktuelle KW" von Hermann Jäger, einige MC mit Aufnahmen von Radio Nordsee, Radio Caroline, Radio von Unten, Radio Berlin International, Radio DDR, Freiheitssender 904. Bei Interesse bitte melden. Ich schicke diese dann zu. Beste Grüße - Rolf Pilwat <pilwat@hotmail.com>.

And with this best wishes and good DX until October from

NEWS ABOUT BROADCASTING (+other) STATIONS Nalter Eibl Postfach 15 45 D-91005 Erlangen GERMANY

RAMADAN - In 2010 Ramadan is from August 11 to September 9. Stations in the Islamic World have a prolonged schedule, thus some chances to hear some rare stations in Europe. (we)

ALASKA - 9920, KNLS IS very weak at 1501 Aug 16, about to open three(?) hours of Chinese. Have not been able to hear the only remaining English broadcast at 12-13 on 7355 for several weeks. KNLS was supposedly going to get the second transmitter working after July 31 and resume new programming in English; have they? (gh, DXLD)

ALBANIA - Since July 5th, 2010, Mr. Astrit Ibro of the German section of Radio Tirana is the new director of the International Service of Radio Tirana (Radio Tirana III). The International Service currently broadcasts in Albanian for Albanians abroad and in 7 foreign languages. (a-dx)

Remember the special QSL cards of the German service sponsored by the German Fan Club (<http://rthk.agdx.de>). (we)

ALGERIA - 6297.1 Western Sahara R surprisingly strong S=9+20 open carrier at 0555 UT Aug 10, or rather not totally open as accompanied by a roaring sound. On exactly the same off-frequency as before, must be Radio Nacional de la Republica Arabe Saharaui Democratica, the Polisario Front clandestine from just across the border in Tindouf, ALGERIA. It's been missing for months, as seems to happen every year, but eventually revives. Last report of it in dxld was March 13.

At 0600:50 UT military band plays anthem for almost a minute, then YL announcement, language uncertain but unseems Spanish, then OM chanting until 0613 UT more melodic music mixed with talk. Unfortunately, a spur from one of Suddenlink's cable DTV converters lands right on same frequency, impeding copy!

Reactivation was first reported by Mike Barraclough, UK, Aug 7 past 2303 UT. [(Ralf Ladusch-D and Nils Schiffhauer-D DK8OK, noted on Aug 5, 1849 UT; A-DX)]

6297.08 RASD Tindouf in Maghreb Arabic, tiny weak signal of S=2 in Germany at 0642 UT Aug 19. (wb, wwdxc BC-DX TopNews Aug 19)

ANGOLA - 4949.7 R Nacional Angola, Mulenvos, 0240-0250 and 0550-0604 UT on July 24 and 25, pop music seems in vernacular, ann in Portuguese "Radio Nacional", English pop music, ID's: "Radio Nacional Angola", short Hilife music, 0600 UT time pips, ann "Bom dia!, 24 de julho de 2010. 15 degr reuniao africana .. cimeira de lingua portuguesa ..", outside talks, 35333. (Lucio Otavio Bobrowiec-BRA, dswci DXW July 28)

4949.7 RNA Canal "A", Mulenvos, 2114-2212, 23 Jul'10, Portuguese, talks, songs (both local & int'l.), short news bulletin at 2200 followed by more songs; almost normal modulation level this time, and also the following day, July 24; 35231. (Carlos Goncalves-POR, wwdxc BC-DX TopNews July 26)

ARMENIA - WYFR Family Radio started broadcast in new language-Bulgarian 1800-1900 7560 ERV 300 kW 280 deg to SEEu in Bulgarian,exEnglish 1700-1800 7560 ERV 300 kW 280 deg to SEEu in English, ex 1700-1900 (R BULGARIA DX MIX News, Aug 9)

AUSTRALIA - 15160 Radio Australia Shepparton at 0715 UT, Aug 10. Scheduled 0500-0800 UT, heard with fair signal S=9 ... 9+10dB signal. Typical for mid August and September reception here in central Europe. (wb, wwdxc BC-DX TopNews Aug 10)

5025 05 Aug, 2150 UTC, Northern Territory Shortwave Service VL8K Katherine in En talks between YL announcer and OM interviewed, interspersed with light pop music. Positive ID at 2200 UT. Weak to fair sigs and no QRM except for an occasional RTTY blast on 5023 kHz causing issues. (Albert Muick-AFG, hcdx Aug 10)

Very good signal from HCJB-Australia with DX Party Line show at 1315-1330 [Sat] on 15400, then into Chinese after 1330 (Joe Hanlon, NJ, Aug 7, DXLD)

Heard August 12 and 13 with an upgraded signal due to good conditions. (we)

AUSTRIA / GERMANY - Some Media Broadcast MBR changes:

```
New schedule of Brother Stair /TOM/ in English:
1300-1500 on 6110 W
                     100 kW 300 deg to WEu, new, but really not active
1400-1600 on 13810 N 100 kW 127 deg to SEEu
1500-1600 on 6110 OE 100 kW 300 deg to WeEu, ex1400-1600
1500-1600 on 17485 W
                     100 kW 160 deg to CSAf
1800-2000 on 9895 W
                     500 kW non-dir to N/ME, new
                     100 kW 120 deg to N/ME, new
1900-2000 on 7425 W
1900-2100 on 6155 W 100 kW 300 deg to WEu, new
Frequency change of WYFR Family Radio in Romanian:
1800-1900 NF 7330 W 100 kW 105 deg to SEEu, ex 9895(see Brother Stair)
Last txion of Ethiopia Adera Dimts Radio in Amharic on July 31:
1700-1800 on 13820 N 500 kW 140 deg Sat to EAf, cancelled from Aug 7
(R BULGARIA DX MIX News, July 26)
```

BAHRAIN - Aug 4th at 1808 on 6010 Radio Bahrain in English, wrapping up the news, then weather, IDs and jingle, into pop music. Decent but fady signal on clear channel. (Jari Savolainen, Kuusankoski, Finland, dxldyg via WOR 1525, DXLD)

BANGLADESH - 4750, Bangladesh Betar, Dhaka, from as early as 1000, daily Aug 02-08, about two hours before local sunset, although station is to the NW of this location, throughout local evening; always strong, mostly blocking RRI Makassar (Gerhard Werdin, visiting Thailand, DSWCI DX Window Aug 11 via WOR 1526, DXLD)

4750, Bangladesh Betar, Aug 07, 1418-1428, 33443-32442, Bengali, Bangladesh music and talk, ID at 1420 (Kouji Hashimoto, Japan, Japan Premium Aug 13 via WOR 1526, DXLD)

BELARUS - Radio Station Belarus is about to launch weekly programmes in French and Spanish. Its website says: "We are pleased to announce that starting from September radio station "Belarus" launches services in French and Spanish. The program "Belarus from A to Z" will tell you about the most prominent events in the history of Belarus, its culture, traditions and present-day life. Listen to our French service every Sunday at 1940 UT, to the Spanish service – at 2000."

According to the frequency schedule published on the website, the broadcasts should be carried on 1170, 7255, 7360 and 7390 kHz, and presumably also streamed on its website.

(Source: Radio Station Belarus via August 16th, 2010 - 14:32 UTC by Andy Sennitt, Media Network blog via WOR 1526, DXLD)

BOLIVIA - 5952.43 Emisoras Pio XII, 1030-1045 UT, Noted a weak signal here with a male in preaching mode until 1031 when a second person comments in Spanish with program information it seemed. Signal was weak and poor with plenty of noise. (Chuck Bolland-FL-USA, hcdx Aug 3)

4716.698 Radio Yura (pres), Aillu Yura, Aug 4, 0030-0212*, threshold audio strengthening by 0100 UT, long Andean vocals, occasional talk by man. Poor signal with occasional voice USB QRM.

4795.89 Radio Lipez (tent), Uyuni, Aug 1, *0858-1034*, threshold audio, perhaps abbreviated schedule for Sunday morning.

+ Aug 2, *0848-1100 threshold audio, briefly peaking between 1030-1040z with monologue by male speaker, perhaps inspirational.

6134.825 Radio Santa Cruz, Santa Cruz, Aug 1, *1049, late Sunday morning sign-on, brief sign-on announcement by woman, brief Andean vocal into religious service. Poor signal, noisy, fading rapidly.

- + 6134.81 Aug 3, 2345-0106*, very nice signal by 0015, female and male announcers, lively music, announcements, canned ID by man at 0101 UT: "960 kilohertz onda media, 6165 kilohert ondaz corta, 92.3 megahertz, frecuencia modulada transmite Radio Santa Cruz, desde Santa Cruz de la Sierra, Bolivia", another canned ID at 0103 UT mentioning "Emisora del Instituto Radiofonico Fe y Alegria" followed by a song "Radio Santa Cruz". Open carrier from 0106 to 0143 UT.
- + 6134.82, Aug 4, *0856, short monologue by man at sign on, then canned ID mentioning AM and SW frequency, flutes, "Radio Santa Cruz" vocal, more ID's and a variety of vocals. Good signal, starting to fade from 1000 UT. (Brandon Jordan-TN-USA, hcdx Aug 4)

5952.46 Pio XII, Siglo Veinte 1012 UT om and yl with clear signal, [no Cuban/Costa Rican "yo mama drama" jamming]. Children's voices, om over percussion solo, good AM lock on the R8. 5 August.

4795.85 Radio Lipez, Uyuni 0935 UT strong signal with flauta andina, locutor and music, "en Bolivia...kiloHertz" ID under t-storms 1000 UT Buenas Dias, music bridge stayed in till 1055 UT recheck, 5 August. Good AM lock on R8. (Robert Wilkner-FL-USA, DXplorer Aug 8)

BRAZIL - BRAZIL. Recent 2010 Brazilian logs from various sources [sic, no accents, and I am sick & tired of having to put them in; however, I have corrected other spellings --- gh]

(Harold Frodge, MI, Aug 4, Cumbredx mailing list via DXLD)
```

5054.96 R Jornal A Critica, Manaus AM. "A Critica FM" relay heard with a nice signal. Radio Jornal A Critica reactivated 5055 kHz (5054.96 kHz). "A Critica FM" relay heard this morning (Aug 03, 0323-0530 UT) with a nice signal here in the middle of Europe. (Karel Honzik-CZE, BrDXC-UK / dlxd Aug 3)

[later] Brazil 5055 reactivated. Definitely not a Cuban spur. The Brazilian is in now (0054 UT) on 5054.96 kHz. A weak signal so far, but enough to verify it isn't // either Rebelde or RHC. (Brandon Jordan-TN-USA, hcdx / dxld Aug 3)

5990 Radio Nacional da Amazonia, 0300-0311, Aug 09, Port TC as "... meia noite em Brasilia...", then into news headlines: "Nacional informa...", 0304 UT "Madrugada Nacional". Quite strong on clear freq usually occupied by Radio Senado, first time noted here // much weaker 11780 kHz. After briefly trying 6195 kHz they now appear to be testing this NF, cf dxld.

5990 The "Madrugada Nacional" program on 5990 kHz I mentioned in my earlier report today, must have been a relay of Radio Nacional Brasilia on 980 kHz where scheduled 0305 to 0600 UT according to their website. (Martien Groot-HOL, dxld Aug 9)

3375.34 Radio Municipal Sao Gabriel da Cachoeira, upbeat music 0935 UT ID banda de 90 metros, good strong signal till 1005 UT tune out 7 August.

4754.9 Radio Imaculada Conceicao, Campo Grande, MS 0040 UT om in Portuguese 5 August. (Robert Wilkner-FL-USA, DXplorer Aug 8)

4914.963 Radio Difusora, Macapa AC, 0030-0616*, Aug 4, fading up to almost fair level by 0100 UT, pop and ballads, "Radio Difusora de Macapa" ID by man, slight echo efx. No sign of the other Brazilians tonight, and Macapa transmitter cut-off at 0616 UT leaving channel empty.

4915.028v Radio Daqui AM, Goiania GO, *0900, Aug 4, s/on with full canned ID by man mentioning multiple frequencies, greetings by announcer directly into latin ballad. Dominant over co-channel Radio Difusora de Macapa causing a low rumble, strong CODAR. Drifting down to 4915.022 kHz by 1000 UT.

4964.960 Radio Alvorada (pres), Parintins AM, Aug 1, *0846-1010, poor signal, low-key religious talk, inspirational music, very slight peak around 0953 UT Parintins sunrise.

4985.003 Radio Brasil Central, Goiania GO, Aug 4, 0030-0200, female DJ spinning pop Brazilian vocals, canned ID 0101 UT by man mentioning multiple frequencies then "Radio Brasil Central, Goiania, Goiania". Initially poor but rapidly improving to excellent by 0100 UT. Started fading after 0200 UT and remained at threshold level the rest of the night.

5044.984 Radio Cultura, Belem PA, Aug 1, 0430-1000, overnight music programs: Madrugada Cultura until 0600 UT then seamlessly morphing into Geracao MPB (Musica Popular Brasileira). Same laid back male announcer, variety Brazilian music, full "Cultura FM, Belem, Para, Amazonia" ID at 0611 UT, occasional "Cultura F-M" or program IDs between ever two or three songs. Huge signal all night despite RHC on 5040 UT, not fading until just before 1000 UT. (Brandon Jordan-TN-USA, hcdx Aug 4)

9564.568 2053UT Super Radio Deus a Amor, Curitiba strong and clear Pr. talks by male ID Voz do Brazil.

9629.920 2058UT R. Aparecida, Aparecida Brazil Pr. talks by male and female good.

9645.355 2112UT R. Bandeirantes Sao Paulo Brazil Pr. talks by male and female splatter China 9640 kHz.

9665.120 2120UT R. Voz Missionaria, Florianopolis Brazil Pr. talks about Brazil - good.

10.000 2130UT Observatorio, Rio de Janeiro Brazil time pips ID Observatorio fair.

11749.890 2137UT R. Voz Missionaria, Florianopolis Brazil Nice Pr. songs fair.

11765 2142UT Super Deus a Amor, Cuitiba Brazil Pr. speech by male good.

11780 2146UT R. Nac. Do Amazonia, Brasilia Brazil Strong Pr. talks by male and female on a phone good.

11815 2150UT R. Brazil Central ,Gaiana Brazil Pr. talks about the problems in Brazil good 4974.8 R. Iguatemi, Osasco SP, 2201-2216, 22 Jul'10, natl. news magazine A Voz do Brasil; 15341.

5045 R. Cultura do Para, Belem do Para PA, 2205-..., 22 Jul'10, empty carrier; 45333.

9564.6 SRDA, Curitiba PR, 1412-... (still obs'ing. this as I compile today's report), 26 Jul'10, shouting preacher; 15341. No other 31 m band [Brazilian] stns audible at this hour. I have been trying 9695 kHz for R. Rio Mar, Manaus AM, which was typically heard at midday here on occasions, but no luck so far, be it at that time or other.

9630 R. Aparecida, Aparecida SP, 0918-f/out 1035, 27 Jul'10, chatter & music prgr O Canto da Terra, talks; 15431.

11855 ditto, 0923-1020, 27 Jul'10, cf. 9629 above; 25432. (Carlos Goncalves-POR, wwdxc BC-DX TopNews July 26)

5970 R. Itatiaia, Belo Horizonte MG, 2239-2256, 18 Jul'10, f/ball match rpt. Portuguesa vs. Goias, advertisements; 35433.

6000 R. Guaiba, Pt.o Alegre RS, 2254-2306, 18 Jul'10, f/ball match rpt.; 24331, QRM de CHN.

6020 R. Gaucha, Pt.o Alegre RS, 2255-2314, 18 Jul'10, f/ball match rpt. Gremio vs. (?); 34432, avoidable heterodyne with PRU 6019.4 kHz, adj. QRM.

9645.3 R. Bandeirantes, Sao Paulo SP, 2119-2129, 18 Jul'10, advertisements, advices, f/ball matches infos; 33431, adj. QRM. // 11925.2 kHz.

11925.2 R. Bandeirantes, 2121-2140, 18 Jul'10, cf. // 9645.3 kHz; 44433, adj. QRM de ARS 11930 kHz. (Carlos Goncalves-POR, wwdxc BC-DX TopNews July 22)

BULGARIA - Cancelled txions of Radio Bulgaria, due to a failure in one of the transmitters in Plovdiv. Some txions are assigned to other transmitters

2300-2400 7300 PLD 170 kW 045 deg CAs Russian,no // freqs, eff.15/8 0100-0200 9400 PLD 170 kW 295 deg CAm Spanish,//6200&7400, eff.16/8 0500-0530 7300 PLD 170 kW 126 deg N/ME Turkish,//5900 only, eff.16/8 0600-0630 11800 PLD 170 kW 260 deg SEu Spanish//15200 only, eff.16/8 (R BULGARIA DX MIX, Aug 9)

CANADA - 9625, CBC Northern Quebec Service, 2312, English, tune-in to "As It Happens," with talk about aboriginal rights, etc. Thanks Craig Seager DXpedition tip for this -- first time I have heard this station since leaving the US many years ago (and it's one of my favorites). Nearly armchair copy for an hour. 13 August (David Sharp, NSW Australia. FT-950, NRD-535D, R8, ICF-2010, ICF-SW7600GR, Timewave 599zx, etc., dxldyg via DXLD)

[and non]. 9625, Aug 17 at 1237, WYFR in Portuguese over CBCNQ, the usual situation here, two stations on the same continent and the same coast, on the same frequency! Audible hum or low heterodyne presumably caused by CBC being considerably off-frequency. 1245 with WYFR off, I still hear an hum, but lessened, and past 1300 as CBC is beating against something else, such as FEBC (gh, DXLD)

CENTRAL AFRICAN REPUBLIC - With identification "Ici Bangui, Radio Centre Africaine" at 17 hours on 7220 kHz was heard in Sofia the local radio with news in a local language. The mailing address is: Radio Centre Africaine, B. P. 940, Bangui, Central African Republic (R. Bulgaria DX program July 30, 2010 http://bit.ly/c1Meosvia Yimber Gaviria, Colombia, DXLD)

7220, R. Centrafique, (tentative) Bangui. July, 29 male and female talks. Very weak, 15422 (Lúcio Otávio Bobrowiec, Embu SP Brasil – Sony ICF SW40 - Dipole 18m, 32m, dxldyg via DXLD)

CHINA - According to Chinese DXer Zhang Shifeng, Voice of the Strait (Fuchou) declared in their website http://www.vos.com.cn that they issued 2010 new QSL card on July 26. They welcome reception reports from DXers via S-mail (P.O. Box 187, Fuchou, Fujian, 350012 China) or E-mail <vos@vos.com.cn>

In the reception report, write date, time, frequency, program contents, as well as the comments on their broadcast or programs. Reporters should also notice the requirement of QSL card in the report. (Takahito Akabayashi, Japan, Aug 7, WOR 1525, DXLD)

CROATIA - 6164.63v Croatian R Deanovec, logged Aug 19 at 0638 UT, interview in Croatian language. S=8 signal. (wb, wwdxc BC-DX TopNews Aug 19)

COLOMBIA - 5910 Marfil Estereo, Lomalinda, 0533-0555, July 13, canciones mexicanas, locutor, identificacion: "La hora en Marfil Estereo, son las 12 y 37 minutos, estas sintonizando Marfil Estereo". 33333.

6035 La Voz del Guaviare, San Jose del Guaviare, 2243-2254, July 18, locutor, espanol, anuncios comerciales, comentarios. Muy debil, audible en LSB. 14321. (Manuel Mendez-ESP, hcdx July 21)

CZECHIA [non] - 9955, R. Prague in French, Monday Aug 16 at 1335, H&F conversing about 'le weekend', so it's a late repeat of the Sunday show via WRMI, fair signal and no jamming but squeezed by Taiwan transmitters on both sides plus RTTY on 9960. Prague in French is scheduled M-F 1330-1400, except JIP on Tuesdays at 1345 after English gospel huxter quarter-hour.

However, Prague in English, via WRMI daily at 1400-1430 was inaudible after 1400. Prague in French is supposed to attract listeners in Haiti, tho VOA concluded SW penetration there is negligible, canceling all its Creole broadcasts three months after the quake. Otherwise, they would likely have maintained the original 3 x 30 minutes a day (gh, DXLD)

CUBA - 6060 RHC La Habana in English at 0615 UT / 5-7 UT, best channel here in Europe on this time slot, S=8-9. Parallels much weaker.

5970 at 0619 UT, tiny S=3-4, 6150 at 0622 UT poor S=6. 0625-0628 sports news on soccer season. (wb, wwdxc BC-DX TopNews Aug 21)

DOMINICAN REPUBLIC - 6025.08, Radio Amanecer Internacional, 0300-0332*, August 14, Christian music. Spanish talk. IDs at 0307. Weak. Poor with adjacent channel splatter. Irregular. (Brian Alexander, PA, DXLD)

6025, R. Amanecer, 0317-0348*, August 15. In Spanish with religious EZL songs; off at end of song with no announcement; poor (Ron Howard, Asilomar State Beach, CA, Etón E1, dxldyg via DXLD)

DJIBOUTI - 4780 for years has been crushed by strong co-channel digital ute for most of the evening at my location. Recently, however, the ute moved up about 2 kHz, so now the lower sideband of R. Djibouti is free for enjoying their HOA music. On August 12 their transmission was extended by one hour to 2200, no doubt due to the beginning ofRamadan (Olle Alm, Sweden, Aug 11, DXLD)

ETHIOPIA - 6030 Radio Oromia, Addis Ababa, Aug 2, *0321-0529*, xylophone sounding interval signal, perhaps a lamellophone. ID by man at 0330 UT, brief talk by woman then Ethiopian vocal. This format of somber talks interspaced with lively music continued. Fair signal on the lower side band until a pulsing noise started up at around 0430 UT. (Brandon Jordan-TN-USA, hcdx Aug 4)

7135 R. Ethiopia, Geja Dera, 1702-1727, 08 Aug'10, Vernacular, talks; 35332, only occasional amateur QRM; // 9704.2 kHz. (Carlos Goncalves-POR, wwdxc BC-DX TopNews Aug 8)

Ethopian and Eritrean stations are wandering thru 7000 to 7200, occasionally jamming each other. (we)

FRANCE / GERMANY - New additional transmission via Media Broadcast (MBR):

```
WYFR Family Radio (cf. DXM 7-2010)
1800-1900 on 9600#F 500 kW / 155 deg to SAf
1800-1900 on 9880*W 500 kW / 165 deg to CAf
1800-2000 on 9925 W 500 kW / 165 deg to CAf
1900-2000 on 9505 N 500 kW / 170 deg to CAf
# co-ch CRI in English
* co-ch VoAfrica in Hausa + VoR in French DRM
```

GERMANY - Frequency change for Voice of America in Tibetan:

```
VOA Tibetan NF's.   
1400-1500 NF 15425 Lam 100 kW 077 deg Mo/Wed/Fri ex15605, re-ex15330 1400-1500 NF 15605 Lam 100 kW 077 deg Tu/Th/Sa/Su ex15425, re-ex15330
```

Very strange situation. The new frequencies are not indicated in the schedule of the station. // 7465, 11510, 11975 kHz. (R BULGARIA DX MIX News, July 21)

Frequency change of Radio Liberty in Russian from July 24: 1800-1900 NF 5990 Bib 100 kW 063 deg, ex 6015 // 9520, 9840, 11805 (R BULGARIA DX MIX News, July 26)

GREENLAND - 3815 KNR Tasiilaq, 2105-2214, Jan 25, Greenlandic and Danish. I sent two reception reports to KNR on this broadcast. One to the Coastal Utility station directly which, was answered within seven days with a full data QSL-card signed by: Chief of Operations Mr. Bo Mogensen, TELE Greenland A/S, Teleservicecenter Aasiaat, Postboks 217, DK-3950 Aasiaat, Greenland.

The other report was sent to KNR studio in the capital Nuuk, from where I on Jul 07 received a nice letter in English thanking me for the reception report signed by Ms. Nauja Broens. She advised me to check these webpages to learn more about KNR and Greenland at:

<www.knr.gl/radio> <www.knr.gl/billedgalleri> and <www.greenland.com/content/english/tourist>

Their address is: KNR, Box 1007, DK-3900 Nuuk, Greenland.

E-mail address: <info @ knr.gl>

This QSL came after 160 days of waiting. DX-ers have to be patient!

(Anker Petersen-DEN, dswci DXW July 14)

GUAM - AWR logged on 7 August 2010 from 1600 UT sign on in English on 11720 kHz. ID at sign on: "This is AWR, the following program is in English," followed by brief religious message and then music. Signal just audible above noise floor. Transmission beamed from Guam to India. (Ed Insinger, Summit, NJ, DX LD)

INDIA - 4799.994 AIR Hyderabad (pres), Aug 2, *0040-0050, threshold audio briefly heard at sign-on, talk by man then woman. (Brandon Jordan-TN-USA, hcdx Aug 4)

AIR Monitoring observations. Here are my latest monitoring observations of AIR.

1. AIR Aligarh, 9470 National Channel. Monitoring of 9th Aug 2010 shows that wrong feed was given for very long time as follows:

Around 1330 UT: Urdu Service (?) in progress instead of news. When I checked at 1425 UT GOS English was there with Faithfully yours program. GOS continued till 1500 UT. Then after test tone National Channel program started from 1505 UT.

- 2. AIR Gorakhpur on 3945 kHz is noted drifting again. Yesterday 9th August at 1506 they were on 3946 kHz. At 1712 when I checked they were on 3944 kHz.
- 3. AIR Jeypore, Orisssa is heard withy very low audio only on 5040 kHz lately. Earlier they used to be very clear. They are noted off air on 6040 kHz also.
- 4. Now is the time to check for any clear signals of AIR Port Blair on 4760 as AIR Leh is off air on 4760 kHz. >>> see extra!
- 5. AIR Delhi at 0030-0040~&~0100-0200~UT is now days noted on 7371 kHz rather than 7370 kHz. (Jose Jacob-IND, DXindia Aug 10)

4760 R Kashmir, Leh. About 80 people were killed and over 300 injured in late night flash floods due to cloud burst near Leh town. Death toll is likely to go up. Buildings of district hospital Leh and R Kashmir have been completely damaged due to mud slides. More details in:

http://malayalams.com/News/80-killed-as-massive-cloudburst-triggers-flash-floods-in-leh-hindustan-times/

R Kashmir, Leh operates on SW with 10 kW as follows: 4760 Summer 0130/ Winter 0213-0400/0413 /Sun 0430 1130-1700. On 6000, 0700(Sun 0630)-0930. Also 1053 MW with 20 kW and 102.9 MHz with 100 Watts. See its QSL at: http://www.qsl.net/vu2jos/qsls/AIR_Leh.jpg (Jose Jacob-IND, dswci DXW Aug 11)

I contacted ex-official of AIR Leh Aug 07 who was in touch with the station yesterday:

- Fortunately, no casualties among AIR staff.
- Rain water and mud slushes entered inside the transmitter hall causing damage.

- There is no power supply in that area.
- Doordarshan is carrying extensive footage of AIR Leh.
- He indicated no damage to the AIR towers however one press report says Doordarshan tower has been damaged.

Excerpt from todays Hindustan Times, report titled "Leh turns ghost town":

Just few meters ahead of the bus stand is the All India Radio building. Water has gushed through, sweeping furniture and equipment helter skelter, and a dish on top the building is contorted beyond recognition - from the impact of a truck that was swept against it. Full report at:

http://www.hindustantimes.com/Leh-turns-ghost-town/H1-Article1-583714.aspx (Gupta-IND, dswci DXW Aug 11)

AIR Leh 4760 kHz 11th Aug 0224 UTC Signed on with Vande Mataram foll by instrumental music, 0230 Samachar Prabhat with Vimlendu Pandey, 0244 Eng News Gaura Lal, 0300 Ladakhi songs, 0319 Discussion followed by local news, 0335 ID Radio Kashmir by YL, annots in local dialect, 0340 Hindi movie songs first one was from movie Aandhi, 0359 off air.

Meanwhile came to know that there is no damage to the antenna towers & the building housing the txer & studio. This concrete building came up after after the old wooden one was gutted by fire in 2002. However some small structures inside AIR Leh have been damaged. Two AIR officials from Delhi were rushed to Leh to restore satellite connectivity. (Alokesh Gupta, New Delhi, India via DXindia)

4950 Radio Kashmir, Srinagar has decided to broadcast two news bulletins daily in the morning and evening for people of Ladakh region as transmissions of Radio Kashmir, Leh, has been disrupted due to cloud burst. More details in http://www.newkerala.com/news2/fullnews-16177.html (Jose Jacob-IND VU2JOS, Aug 8; dswci DXW Aug 11)

9690, AIR GOS, Aug 15 at 1338 heard regular news announcer, not live coverage of President's Independence Day speech, as presumably on most/all AIR domestic SW outlets. Poor reception, usual hum, and hard to follow on 9690, but barely audible 9870 not // and nothing on 9425, let alone tropical bands at this hour. At 1353 heard some military band, commands yelled, commentary from studio; 1355 speech by OM [?] in reverby locale, alternating with YL studio commentary, so is this now live coverage? Or does AIR GOS repackage due to scheduling restraints. Ron Howard says the Hindi version aired on 9425 and tropical channels at 1330, English version from 1353. And he refers us to http://presidentofindia.nic.in/sp140810-2.html for text of her full speech.

[Later]: The president's speech was on Aug 14 at 1330, as others have reported, not Aug 15, so whatever I was hearing on 9690 was a recap, or unrelated.

9690, Aug 17, waiting for AIR GOS to come on: *1328 with anthem? But unseems Vande Mataram, and talked over at 1329:30, couldn't understand and maybe not English. We don't hear the haunting AIR IS at all; what's up with that? 1330 quick GOS sign-on with the three frequencies, right into news with perpetual hum, really too poor to stay with. Later on, found // 13710 under CRI ..., much too close to India (gh, DXLD)

9870, AIR-Bangaluru (Vividh Bharati) signing on in Hindi at 0025, Aug 16. Several minutes of Western orchestral music, W with brief news in Hindi, into subcontinental music, including the bubble-sounding instrument. Strong.

6155, AIR-Bangaluru, at 0035 in Urdu, Aug. 16. Subcontinental vocals, less instrumentation. Good copy, not as strong as Hindi program on 9870. Rcvrs: Sony ICF-2010 w/ Kiwa filters and Eton E1XM, 50' longwire, (Mike Bryant, Louisville, KY, dxldyg via DXLD)

15050, Aug 16 at 1454, chanting, poor with heavy flutter. The AIR Sinhala service southwards from Delhi until 1500. Off-route aircraft, beware (gh, DXLD)

15770, AIR Aligarh in Tamil/Telugu 1100-1245 UT, S=9+10dB at 1157 UT Aug 16. Another example of lazy terrible technical service level by Indian facilities. Feeder line totally distorted on low signal level; I could understand only fragments of words. Carrier strong, though. Compare it with much better service signals from excellent Bangalore staff site on 15795 kHz:

15795, AIR Bangalore in Mandarin at 1130-1315 UT, noted at 1205 UT Aug 16. // 11840 [not propagate here] and Bangalore 17705 kHz too. 15795 and 17705 kHz both China mainland jammed. 17705 kHz also het by BSKSA Riyadh 1st program co-channel towards EUR/NoAF S=9+10dB. Same jammer program noted against AIR of China National Radio program, like noted also against RFA Tibetan 13830TJK and 15670UAE relay. At 1228 the jammer played well known Elisabeth serenade.

17740, Poor S=4 only signal from AIR Delhi in Thai service. 1115-1200 UT, 1122 UT Aug 16. Though much stronger in 19 mb on 15410 via Panaji site, S=8-9 signal strength (wb)

INDONESIA - I can hear the following stations/frequencies hrd Aug 2nd to 5th in Bang Saen, abt 1 hr east of Bangkok on the coast; all stns as per DBS-12, no IDs hrd but definitely all Bahasa Indonesia.

3325 RRI Palankaraya, quite strong and clear, at 1225 UT "Indonesia Raya" f/in 1130 UT.

3345 RRI Ternate, much weaker than 3325 UT, but clearly BI, onLy once Aug 5 at 1200 UT.

3976 RRI Pontianak, Aug 5 at 1200 UT, male annots under strong noise.

3995 RRI Kendari, strong and clear here.

4606 RRI Serui, f/in already 1130 UT, fair but clear.

4750 RRI Makassar, definitely there but most of the time drowned by Bangladesh Betar, which is strong here already almost 2 hours before sunset.

4790 RRI Fak-Fak, f/in around 1130 UT, but at 1230 UT already gone again.

Hopefully, there will be more stations when Ramadan starts on August 11.

(Gerhard Werdin-Bang Saen-THA, on the Gulf of Thailand, wwdxc BC-DX TopNews Aug 5)

4605-, the reactivated RRI Serui, on the north coast of Papua, surprisingly strong July 28 at 1132, S9+12 above noise level and nothing else making it from Asia, not even 4750. Seems a bit overmodulated, but how much power are they really running? Was originally only 1 kW. 1132 with island music, 1135 announcement, more music, talk, 1152 music; 1158 still audible with running-water ute QRM; 1200 SCI, timesignal about 38 sex late, and presumed warta berita from Jakarta. Slightly low compared to 9605. Ron Howard has measured Serui on 4604.90. Had been off the air since May 2009 (gh, DXLD)

RRI Fak Fak on 4789.96 continued fifth Saturday in a row that they did not carry the Jakarta news relay; instead playing pop songs on July 31, from 1201, but found off the air for a while around 1223 (heard again by 1231).

The other RRI stations all had the usual Jakarta news relay in // 1201-1223, July 31. RRI Palangkaraya (3325); RRI Ternate (3344.96) carrying news today, unlike yesterday; RRI Kendari (3995); RRI Makassar (4749.94); RRI Wamena (4869.93) and RRI Jakarta (9680).

RRI Serui (4604.90) noticeably off the air on July 31. [WOR 1524]

Wayang kulit (shadow puppet play) was the programming later on 9680 and to some extent on 3325 (Ron Howard, Asilomar State Beach, CA, Etón E1, dxldyg via DXLD)

ISRAEL - 6973 08 Aug, 1838 UTC, Galei Tzahal, easy listening and soft jazz music program with a male DJ. I was a bit surprised to hear the DJ say in English "This is from my personal collection." First English announcement I've ever heard on this station. Very good signal level and only summer noise to deal with. Slight to moderate fading. (Albert Muick-AFG, hcdx Aug 8)

At early Sunday evening you may get football results – German football results … Have in mind: the conflict at the Lebanese border and at Gaza is not over, only gleeming elsewhere in the underground … (we)

LIBERIA - 4025.00, 2005-2035 04+05.08 Star R, Monrovia (presumed), talk and shouting in UNID language, 25222 (Anker Petersen, Skovlunde, Denmark, on my AOR AR7030PLUS with 28 metres longwire, via Dario Monferini, playdx yg via DXLD)

4025-, usual presumed Star Radio situation, very weak carrier, with BFO on, slightly lower when compared to the Cuban signal 1.000 MHz higher, Aug 5 at 0509. And Aug 7 at 0538 (gh)

4025, Star Radio. August 07, 0703-0713 male in studio and outside "you're listening Star Radio, Liberia, Monrovia", female talks. 35333.

3900, Liberia, Star Radio. August 08, 0647-0705 male and female talks in English "Liberia", same voices of 4025, African music. 25332. (Lúcio Otávio Bobrowiec, Embu SP Brasil - Sony ICF SW40 - Dipole 18m, 32m, dxldyg via WORLD 1525, DXLD)

3900, Star Radio. August 09, 0646-0714 male in studio and outside in English talks, female talks; 4025 silent, weaker than August 08, 25332. August 10 around 0645 silent both frequencies 3900 and 4025.

3955, Star Radio. August 11, 0646-0711 male in English "Liberia; constitution of Liberia; voluntary movement of the people; democratic process..", tribal music. At peak 35333. 73's (Lúcio Otávio Bobrowiec, Embu SP Brasil - Sony ICF SW40 - Dipole 18m, 32m, dxldyg via WOR 1525, DXLD) So they keep moving around; where next? (gh)

KASHMIR - 4950, R. Kashmir, Srinagar. August, 13 2217-2229 Hindu style music. Sometimes emerging R. N. de Angola shortly, het 32422.

4950, R. Kashmir, Srinagar. August 12 2226-2250 Hindi/Kashmiri(listed) male talks, music consisted of solo male followed by male choral and no instruments, female talks, short music in slight Arabic style, male and female in discussion. Het, 32432 (Lúcio Otávio Bobrowiec, Embu SP Brasil - Sony ICF SW40 - Dipole 18m, 32m, dxldyg via WOR 1526, DXLD)

That's awfully early/late for them to be on, 4 am local. Extended sked due to floods, etc.? Aoki shows just 0120(Sun 0000)-0215 and 1120-1740. What about ANGOLA, which you also reported a few hours later on 4950 at 0315; were they not on at 2226, or assumed the het? (gh, DXLD)

Answering my own question, no, Srinagar is on early for Ramzan/Ramadan, as in DXLD 10-32, approx 2215-2256. Does that mean that after the pre-sunrise breakfast show, they then go off the air until their regular sign-on time? Hmmm, you can hardly call it 'breakfast' under these circumstances; fast is broken at sundown (gh, WOR 1526, DXLD)

KUWAIT - 15540, R. Kuwait English service, sure likes American pop music, e.g.: Aug 14 at 2020, 'l'Il Be There', but is it really Michael Jackson or a Kuwaiti Kopikat? Then a protest song about corporate office people. Then quite a change of pace, 'l'm in the Mood for Love', somewhere between Eartha Kitt and Doris Day. Later at 2045, 'First Time I Saw Your Face', really Roberta Flack; 2048, 'I Feel Fine', Beatles. 2050 usual closing news headlines, 2100 exactly accurate (=WWV) timesignal and off*. Hmmm, 'exactly accurate' is rather redundundant, Glenn.

Around 2020, RK's other frequency, to C&W NAm, 17550 in Arabic, was giving VOA Bonaire co-channel a fit, but in the clear after 2030 was not really sufficient. It axually improved somewhat by 2150, mostly talk.

15540, when R. Kuwait says 'News in Brief' at 2050 UT Aug 15, they really mean it. Took only three minutes for a handful of headlines, 2053 back to their beloved primary format, rock music before 2059 signing off (gh, DXLD)

LIBYA - Frequency changes of LJBC Voice of Africa from July 22 to July 26:

Arabic

```
0700-0857 NF 11620*SAB 500 kW 130 deg ECAf, ex11630 // 11650/180 deg NEAf
```

Arabic 3h+Swahili 2h, thanks to Wolfgang Bueschel for this frequency change 0900-1357 NF 17715#SAB 500 kW 130 deg ECAf, ex17740!// 17735/180 deg NEAf * co-ch 0700-0900 RUI in English/Ukrainian # co-ch 1200-1230 ROI in German Mo-Sa + WYFR Telugu from 1300 UT. ! re-ex 21695 before July 11. (R BULGARIA DX MIX News, July 26)

All txions LJBC Voice of Africa SW were terminated from Aug. 6 (R BULGARIA DX MIX News, Aug 9)

It was like a test, when Libya extended a new schedule started on July 6th, 2010. Libya had never such professional schedule in Arabic, English, Swahili, Hausa, French etc. in past few years, like this July. (wb)

LJBC Voice of Africa heard on Aug 11/12 on old A-10 schedule:

```
Swahili
1200-1357 on 17725 SAB 500 kW / 180 deg to NEAf
1200-1357 on 21695 SAB 500 kW / 130 deg to ECAf
English
1400-1557 on 17725 SAB 500 kW / 180 deg to NEAf
1400-1557 on 21695 SAB 500 kW / 130 deg to ECAf
French
1600-1657 on 15660 SAB 500 kW / 230 deg to WNAf
1600-1657 on 17725 SAB 500 kW / 180 deg to NEAf
1700-1757 on 11995 SAB 500 kW / 230 deg to WNAf
1700-1757 on 15215 SAB 500 kW / 180 deg to NEAf
Hausa
1800-1857 on 11995 SAB 500 kW / 230 deg to WNAf
1800-1857 on 15215 SAB 500 kW / 180 deg to NEAf
1900-1957 on 11600 SAB 500 kW / 180 deg to NEAf
1900-1957 on 11995 SAB 500 kW / 230 deg to WNAf
```

Note: Start & end of transmissions varies between 3-5 minutes minimum. (R BULGARIA DX MIX News, Aug 12)

From B-10 onwards old B-09 eight hours schedule planned to be replaced by new extended 18 hrs daily schedule then. (wb, wwdxc BC-DX TopNews Aug 13/16)

MADAGASCAR - Construction continues on the Madagascar World Voice station. In the fall of 2009, two much needed diesel-powered generators arrived after months of delay. Antenna #1 and #2 have been erected and tensioned on the towers. This will also be true of antenna #3 by the middle of September. The latest shipment containing important electrical wiring for the inside of the transmitter building has arrived in port in Madagascar and will be delivered soon to our station. We will then focus on raising the necessary funds to make the final payment and for the shipping costs for the three 100,000 watt transmitters that are already built, tested and packed in three 40 foot containers ready for shipment from Houston, Texas. The very important audio equipment to link all of our stations and enable us to send and receive programs from stringers from all over the world has been installed in our studios in Franklin, Tennessee. (Patrick Robic-AUT / Paul Reinersch-D, A-DX July 31)

MALI - 9635, RTVM, *0800-0820+, August 14, sign on with flute IS and opening French ID announcements followed by some local string music and vernacular talk. Local tribal music. Poor in noisy conditions (Brian Alexander, PA, DXLD)

MALAYSIA - 15295 "Special Bahasa Malay Word Of The Day" feature for the English language audience at 0720 UT, Aug 10, S=9 signal. News commentary "43 years ASEAN - Association of Southeast Asian Nations, a geo-political and economic organization, formed 8 Aug 1967. (wb, wwdxc BC-DX TopNews Aug 10)

5965 09 Aug, 1746 UTC, RTM Klasik Nasional, in Malay with Malay oldies, IDs and news on the hour. 100 kW with very good signal, but smashed by PBS Xijian on 5960 kHz. (Albert Muick-AFG, hcdx Aug 9)

MAURITANIA - 4845 Radio Mauretanie, Nouakchott, Aug 1, *0552-0715, Salah of Fajr recitation in progress ending exactly at 0642 UT Nouakchott sunrise, followed by sermon. Greetings by man and woman at 0648 UT, mentions of Mauritanie, into long vocal accompanied by lute until 0700 UT. More Moorish music after the top of the hour. Excellent signal in USB to avoid WWCR [4840].

+ Aug 2, *0537-0645, morning prayer until 0631 UT, canned announcement by woman the long monologue by man. Signal fair to poor. (Brandon Jordan-TN-USA, hcdx Aug 4)

7245 R. Mauritanie, Nouakchott, 1806-1821*, 07 Aug'10, French, news bulletin, Arabic lang. prgr at 1818 UT, announcements, suddenly off the air, and supposed to emerge on 4845 kHz, their evening / early morning outlet, but 4845 kHz was only found on some time between 1903 & 1924 UT. (Carlos Goncalves-POR, wwdxc BC-DX TopNews Aug 7)

MOLDOVA - 9665 Radio PMR, 0008-0016 Aug 3, man with news in English with ID, schedule and contact information read at 0011 UT. End of English program followed by IS, ticking clock and opening of French program at 0312 UT. Good signal. (Rich D'Angelo-PA-USA, DXplorer Aug 3)

NIGERIA - 6089.862, FRCN-Kaduna, thanks Seager DXpedition log, 2240, brief Qu'ran with comments by a man, then more recitations. Het on high side but excellent copy in LSB. 13 August.

9690, Voice of Nigeria, Hausa, 0843, fair with talk by a man. Modulation was a bit on the low side. 14 August (David Sharp, NSW Australia. FT-950, NRD-535D, R8, ICF-2010, ICF-SW7600GR, Timewave 599zx, etc., dxldyg via DXLD)

MYANMAR - 5985.8 Myanma Radio Yegu, 2251-2319, 18 Jul'10, carrier, tune with local musical instruments, ID in Bamar, songs; 24342. (Carlos Goncalves-POR, wwdxc BC-DX TopNews July 22)

PAKISTAN [non] - BBC URDU INTRODUCES ADDITIONAL TRANSMISSIONS FOR FLOOD HIT PAKISTAN

Millions in Pakistan began tuning in to emergency lifeline radio programming, as BBC Urdu launched a new service to people in the most severely flooded areas of the country.

Special programmes will be broadcast each day in Urdu at 12.30, 15.30 and 18.30 and Pashto at 12.45, 15.45 and 18.45 (local times). [UT+5]

Each transmits crucial up-to-date information to the hundreds of thousands of people currently cut off from humanitarian aid.

Highlights from Monday's – 9 August – first day of programmes included:

Updates on affected flood areas – from food distributions to weather forecasts Testimonies from displaced people
A spotlight on relief efforts
Hero of the day
An interview with Pakistan 's President Zardari

Speaking from Pakistan, the BBC Urdu service's Shafi Naqi Jamie says:

"We provide the millions whose lives and homes have been destroyed with a radio lifeline. Listeners hear about where to get food and shelter and how best to survive. But as important, by establishing a platform for people's voices and stories, we aim to rebuild a sense of community and morale as well."

With the crisis increasingly affecting the south of the country, the BBC Urdu's programme will be broadcast on up to 34 partner stations, reaching over 60 million people.

The infoasaid lifeline service has been developed by BBC World Service Trust and Internews, with funding from the UK's Department for International Development. infoasaid aims to improve how humanitarian agencies communicate with disaster affected communities. The emphasis is on the need to deliver information, as aid itself, through the most appropriate channels.

(BBC Press Release via Alokesh Gupta, New Delhi, dx sasia yg via WOR 1526, DXLD)

PAPUA NEW GUINEA - 5960 Radio Fly at 1138-1203 UT July 28. Generally fair with good peaks; EG pops (Donna Summer, etc.), M ancr in En with ID's; short anmt at 1159:40 UT, then more mx past ToH. // 3915 kHz which for a while was just as good (using USB to escape Voice of the People on 3912 kHz). By 1200 UT, 5960 kHz was considerably better.

3290 R. Central (pres) 1141-1220+ Jul 29. Island & pop mx, M ancr in Pidgin (I think); bird call at 1202 UT was followed by what sounded like En news, but can't be sure; back to music at 1207. No ID's heard. Fair but deteriorating after 1200 UT.

3334.97 R. East Sepik 1223-1235+ Jul 29. Gal talking in En about "Free Radio Bible"; couldn't tell if that was the current program in progress or just a program note; a bit of music at 1230 was followed by more talk, still in En, I think. To my ears, Pidgin-accented English sounds a lot like English-accented Pidgin. (John Wilkins-CO-USA, DXplorer July 28/29

Band scan 1010-1100 UTC, all tentative except as noted:

3274.991 NBC Southern Highlands, Mendi

3289.996 NBC Central, Boroko. Slightly better and mixing with co-channel Guyana on 3289.983 kHz.

3324.997 NBC Bouganville, Buka

3334.963 NBC East Sepik, Wewak. Best signal in 90mb.

3344.966 NBC Northern, Popondetta

3364.983 NBC Milne Bay, Alotau

3384.995 NBC East New Britain, Rabaul

3905.000 NBC New Ireland, Kavieng. Fair to good signal by 1040 UT peak.

3915.000 R Fly, Tabubil.

(Brandon Jordan-TN-USA, hcdx July 30)

3335 NBC East Sepik, 1219 UT, July 28. Almost fair reception; mostly in Tok Pisin, but a few commercial announcements in English (rent a Post Office box for secure mail delivery); promo for "Free Radio Bible" program; local TCs (two minutes slow!); IDs with N.B.C. and frequencies (90.7 FM and 3335 kHz.); played mostly pop island songs; 1302-1306 UT "the last News Roundup of the day" in English. Enjoyable reception! (Ron Howard-CA-USA, dxld July 28)

PERU - 3329.59, Ondas del Huallaga, 1115, good with huaynos and mensajes, no sign of CHU. 10 August.

4826.45, R. Sicuani, 1150, Spanish talk by man, Andean flute music bridges, best in USB to escape LV de la Selva (on approx 4824.52). 10 August.

4835.47, Radio Marañón, 1155, weak with talk by man, het on high side may be Sikkim, sandwiched between this and WWCR. 10 August.

4857.445, Radio La Hora, 1137, uptempo woman over flute music, time check, into talk by a man and ment of "Cusco." 10 August.

4939.96, R. San Antonio, 1130, Spanish, tune-in to hear (presumed end) of ID, with mention of "onda corta", followed by time check and into news or mensajes. Good. 13 August.

4986.93, R. Manantial, 1127, upbeat man, mention "Huaraz" and local time check; good despite ute QRM. 10 August.

4974.775, Pacífico Radio, 0920, Spanish, fading-up with talk by man, mentions of "Lima" and into music. 15 August.

5039.192, R. Libertad, 1122, talk by a man, many mentions of "Perú", then into huaynos. CODAR QRM but otherwise amazing S9+40 signal. 10 August.

5486.52, Reina de la Selva, 1133, Spanish, presumed, with huaynos. Fair, despite over-the-horizon radar. 10 August (David Sharp, NSW Australia. FT-950, NRD-535D, R8, ICF-2010, ICF-SW7600GR, Timewave 599zx, etc., dxldyg via DXLD)

PHILIPPINES - 15285, R. Pilipinas, 0201-0305, August 7. In English; segments of "Dateline Malacañang"; I like the frequent ships bell and "Mindanao Update" IDs; "Philippines Trivia"; "The Philippines Today"; "Today in Philippines History". No PBS news, even though they announced it would be on; BoH: "From the presidential palace Manila, Dateline Malacañang. This is Radio Pilipinas, the overseas service of the Philippines Broadcasting Service, P-B-S, Radio Pilipinas reaching you from Manila, Philippines"; mostly fair. Their local programming is very enjoyable! IDs: http://www.mediafire.com/?8g1bm2rgtftr7aa (Ron Howard, Asilomar State Beach, CA, Etón E5, dxldyg via WOR 1525, DXLD)

RUSSIA - Additional frequency for Voice of Russia in Japanese:

1200-1400 on 7340 Pet 250 kW 240 deg // 7235 lK 100 kW 115 deg (R BULGARIA DX MIX News, July 26)

Test on 13665 kHz, supposedly from Moscow Taldom site noted Tuesday at 0655 to 0658 UT Aug 10. Radio Rossii starts much later at 0822 til 1300 UT. (wb, wwdxc BC-DX TopNews Aug 10)

17685 As today Aug 10th observed raised propagation in 19 and 16 mb, when Voice of Russia Khabarovsk could be heard here well in central Europe. S=6 at 0700-0800 UT. Not much strong, but strong enough to understand the whole program, next to adjacent CRI Kashi powerhouse in Spanish on 17680 kHz. (wb, wwdxc BC-DX TopNews Aug 10)

History - Samara Transmitters.

TV reporter visits Popov txing centre in Samara. [Presenter] The Radio Day is being marked today throughout Russia, including Samara Region which has a unique site - a tx which sends out signals to almost half the world etc. As usual when journalists are describing technical facilities, the outcome is somewhat confusing.

The original Samara LW facility was constructed in 1942 on the basis of the RV-1 500 kW tx in Moscow, which was evacuated beginning Oct 16, 1941, and brought to Samara to escape the Hitler armies. Designed by Aleksandr Mints, the father of Soviet high power being, RV-1 originally became operational in April 1933 and consisted of 5 // 100 kW txers. The stn was reopened in Samara in Nov 1942, where this monster size txer was further expanded to 1200 kW.

An old Russian electronics textbook found by Bernd Trutenau shows a picture of the 1200 kW facility (with no site mentioned). Russian DXers going to Samara in the early '90s found a facility in good agreement with the published picture at Novosemeykino, north of Samara.

During WW II a SW stn using several 15 kW txers was also built near Samara. The exact location is not known. At the time of the visit by the Russian DXers, the site of the 1200 kW txer also included a MW facility and various rhombic antennas that could have been used by the 15 kW units.

The 1200 kW LW txer has since long been replaced by a new 2000 kW one west of Syzran. {sic, its Russian terrestrial radio navigation system http://en.wikipedia.org/wiki/LORAN RUS RSDN Balasheyka Syzran GRI 8000 1150 kW Loran-C Chayka system, wb.}

This facility was confirmed by DXers passing by on the railway. The replacement seems to have happened already before 1980. The current txer has the registration number RV-390, the number of the old txer must have been different as there were less than 150 txers on the air when it started in Samara. Apparently the old txer site has been preserved as a backup or perhaps as a museum.

The big SW stn in Samara is located in the nothern outskirts of Samara city. It has a main section with dozens of curtain antennas and a second section with some more curtains. (Olle Alm-SWE, wwdxc BC-DX TopNews May 15, 2001)

SAUDI ARABIA - English transmissions are from two studios:

0750-0800 R. Riyadh on 17785

1000-1100 R. Riyadh on 15250, news at 1005

1100-1225 R. Jeddah on 15250, news at 1200

Because BSKSA no longer sends QSL cards, maybe try these two local studios?

Two transmissions in French are both from Riyadh. Holy Qur'an Radio heard again on 9715 at 0300-0850; The 'buzz' transmitter is back on 11785 at 0955 to about 1255 (Rumen Pankov, Bulgaria, 16 July, Aug BDXC-UK Communication via WOR 1524, DXLD)

15250, BSKSA Riyadh in English to WAf, best QRM free time here in 1100-1230 UT slot, S=7-8 at 1125 UT Aug 16.

15380, BSKSA Riyadh HQ program to NE/No&NoWeAF, live prayer from mosque, at 1219 UT Aug 16. S=9+15dB. BUZZY transmitter here on air, both at 06-09 and 12-14 UT transmissions.

17570, BSKSA Riyadh, Holy Quran service in Arabic to Asia, poor S=4, 1100 UT Aug 16. // 17615 at 1110 UT Aug 16, S=8 to So/SoEaAsia.

17705, BSKSA Riyadh General 1st program towards EUR/NoAF S=9+10dB at 1220 UT Aug 16. Also China mainland jammed against co-ch AIR Bangalore in Mandarin, see 15795 kHz entry.

17730, BSKSA Riyadh, 1st General service in Arabic, news at 08 UT, S=9+10dB, Aug 16. To NE/NoAF/WeAF. But stronger // to Medit/Europe 17740 kHz S=9+20dB.

17785, BSKSA Riyadh, in French to Ce/We/NoAF at 0805 UT, Aug 16, S=9+5dB.

17805, BSKSA Riyadh, 1st General service in Arabic, news at 1105 UT, S=8, Aug 16. // 15490 much stronger than in 16 mb at S=9+20dB, better modulation.

17895, BSKSA Riyadh HQ program to all Africa, live prayer from mosque, at 1210 UT Aug 13+16, S=9 ... S=9+10dB, // 17625 kHz to SAS/SEAS at S=9 level Aug 13, S=7 on Aug 16.

21505, BSKSA Riyadh General 1st program in Arabic to WAF/CE&NAF, at 1208 UT Aug 13, S=9+15dB level. (wb)

SIKKIM - 4837.19, AIR Gangtok (presumed), 1340, July 30. Poor reception, but clearly able to make out several selections of subcontinent music; reception lasted less than 10 minutes. Since they recently became off frequency, I have occasionally heard an open carrier here, but today was the first time any audio was present. Today heard a good variety of AIR regionals, with the noticeable exception of the absence of AIR Imphal on 4775. There certainly have been some unusually good summertime receptions recently! (Ron Howard, Asilomar State Beach, CA, Etón E1, dxldyg via WOR 1524, DXLD)

SRI LANKA - SLBC in English observed 12-20 July: Sign-on daily at 0057 with NA, ID, frequencies and programme parade at 0101, non-stop old pop songs (e.g. hits from The Shadows). 0130 (they announced '7 hours', their local time) a programme under the title 'Back to the Bible', interrupted by pop, rock, jazz hits. So the schedule is 0057-0433 (Sunday 0057-0502) heard on all three frequencies, 6005, 9770, 15745. (Rumen Pankov, Bulgaria, Aug BDXC-UK Communication via DXLD)

Radio Ceylon Calling India - 11905 kHz SLBC's new broadcast to India at 1530-1630 UT on 11905 heard here with good reception on 2nd and 3rd August. It was only audible for the first 25 minutes or so, until the frequency is blocked by RDP which signs on in Portuguese at about 1555 on weekdays.

The broadcast starts at 1530 with IDs in English and Hindi, then music, mostly introduced in Hindi until approx 1546 when there is a short news bulletin in English followed by music introduced in English (at this point the frequency is blocked by RDP).

The English ID is "Radio Ceylon calling out to India". It seems to be a relay of a domestic channel with various FM frequencies announced, including 95.6 MHz in Colombo (WRTH lists this frequency for SLBC commercial service in English). Reception is only possible here Monday-Friday at 1530-1555 as the channel is completely blocked by RDP in Portuguese on Saturday-Sunday. (Dave Kenny-UK, Aug 5, BrDXC-UK yg via dxld)

ST HELENA - Hello Listeners to Radio St. Helena, Gary Walters has just informed me that all the rest of the 266 QSL-cards for Radio St. Helena Day 2009 have been put aboard the Royal Mail Ship RMS St. Helena on 05. August and are now on the way to Ascension Island. From there, the QSL's go by air to England to be put into the international air mail service for distribution to SWL's around the world.

With best 73 to everyone, Gary Walters, Station Manager, Radio St. Helena. (via Robert Kipp-D, dxld Aug 5)

Radio St. Helena Day 2010: Date, Times, and Targets. RSD 2010 - will be on - Saturday, 9th October 2010:

Target Region	Times (UT)	Beam Heading
EUROPE	1900-2030 UT	10 degrees
INDIA	2030-2130 UT	70 degrees
JAPAN	2130-2300 UT	50 degrees
North America	2300-0030 UT	310 degrees

Gary Walters, Station Manager of Radio St. Helena, has just confirmed the above information, and, as usual, Derek Richards will operate the RSD shortwave transmitting facility.

There will be a special email-address exclusively for the evening of RSD 2010. As soon as Gary sets up this special email account, we will publish the account name.

The RSD 2010 QSL cards are being sponsored by the Danish ShortWave Club International. Reception reports for RSD 2010 should be sent with sufficient return postage to RSH using the special Airmail address - via Ascension and the United Kingdom - exactly the same procedure as for the RSD 2009 reception reports. ALL mail to RSH should use this procedure.

ALL 266 QSLs for RSD 2009 have been mailed and should now be arriving around the world.

The sunspot minimum between sunspot cycles 23 and 24 is the longest in history - much to the dismay of shortwave listeners everywhere. This minimum has lasted since 2007 and is still ongoing. There are not very many sunspots to "help" propagation, and there is no real sign of significant change. The UTC-times for broadcasting to the various target area have been very carefully selected to <try> to have the very best chance of good reception in each area. Also, we need to have the RSD broadcasts one after the other. After RSD 2009, it was decided to change the times somewhat and to move RSD from November to October (as was the case back in the late 1990's - Thanks, John). RSH hopes that everyone around the world has excellent reception conditions during RSD 2010 and is looking forward to your emails and also, if possible, to your telephone calls. (Gary Walters, Station Manager of Radio St. Helena via Robert Kipp-D, dxld Aug 15)

SURINAM - 4989.984, Radio Apintie, Paramaribo, Aug 1, 0600-1000, occasional peaks with pop music, talk my man, woman. Minor but steady peak just after 0936 UT sunrise in Paramaribo with monologue by man in likely Dutch, religious vocals. Occasional QRM from Spanish chatter, perhaps Pescadores, on 4991.4 USB (Brandon Jordan, Memphis, TN, Perseus SDR, 15'x60' KAZ Loop, dxldyg via DXLD)

SWAZILAND - 4774.996 Trans World Radio, Aug 1, 0430, German service until 0500 UT, then English, religious programming. Good signal until 0510 UT, audio faded out by 0530 UT.

+ Aug 2, *0341, IS, English ID into vernacular, German at 0400 UT, English at 0430 UT. Leading the Way with Dr. Michael Youssef. Fair signal, better on Aug 1. (Brandon Jordan-TN-USA, hcdx Aug 4)

4774.995 TWR, at 0420 UT on July 30, German language religious program, English at 0430 UT, ID, more religion, fair. Weaker on // 3200.0 kHz, strong het from WWCR spur on 3199.5v kHz. (Brandon Jordan-TN-USA, bcdx via dxld Aug 4)

TUNISIA - 9725 20 Aug, 0440 UTC. RTV Tunisia, with Arabic vocals and talk. Fair signal mid-morning here, no QRM and moderate fading. (Albert Muick-AFG, hcdx Aug 20)

7335 RTT Sfax, HQ prayer in Arabic, S=6-7 poor at 0650 UT Aug 19.

7275 RTT Sfax, til 0600 UT Aug 21, S=9+40dB, and from 0600 UT on 7335 kHz, peak at about 0615 UT S=9+30dB. (wb, wwdxc BC-DX TopNews Aug 20/21)

UGANDA - 7194.98 Radio Uganda, at 1932-2117 UT on Aug 19, English, DJ played western pop songs, among which Celine Dion: "The Power of Love", Elton John: "Candle in the Wind", late night musings. Pips at 2100 UT TOH while same program continued to abrupt 2117 UT s/off in mid-song. Just about reportable, badly splattered over by VOIRI & RFI at S=9+40dB on 7205 kHz. (Martien Groot-HOL, dxld Aug 20)

4976, Radio Uganda (Kampala) (presumed), 0352-0406, 7/28/2010, English. Pop music with an African flavor heard occasionally breaking through the noise and fighting a weak het from just below 4975. Occasional short but unintelligible announcements in English by a man. Talk by man at 0405. Very poor, threshold level signal except on peaks. Seldom hear them in the Summer. Other 60 meter African frequencies also heard with poor signals (4965, 4960, 4930, 4775). (Jim Evans, Germantown, TN, IC-R75, RX-340, Random Wire (90'), ALA 100M Loop (20'), DXLD)

U.S.A. - 9370, WTJC, Morehead City, 2131-2133 July 10 with hymns, huge 90 dB signal and outstanding audio.

9350, WWCR, Nashville, 2125-2128 July 10 with Fibber McGee & Molly, 80 dB signal, excellent. (Richard W. Parker, Pennsburg PA, Aug World DX Club Contact via DXLD)

U.S.A. [and non] - Updated summer A-10 Voice of America.

VOA Greenville - Fifty Years of Shortwave to the World. LBA_Antenna Turns, by Chris Horne.

Tranquility Base, here. The Eagle has landed. The Voice of America had the world's largest audience ever when it reported in 46 languages man landing on the Moon. It earned trust when it reported on Watergate and the anti-Vietnam protests. In 1968, Czechs battled Soviet tanks in the streets. When Soviet troops forced a Czech dissident broadcaster to sign off, he told his audience to listen to the VOA. Czech broadcasting was never trusted again.

The phrase Voice of America (VOA) has always stood for a strong, powerful American broadcasting entity. The United States government intended the Voice of America to provide hope to people around the world and to counteract the propaganda espoused by America's enemies in war conflicts. In the mid 1990s the federal government began closing or consolidating some large VOA broadcasting facilities. The federal government would like to close VOA site B in Greenville, NC. I hope they choose not to for some several reasons.

Recently, I toured VOA Site B and observed first hand both the magnitude of the transmitting equipment and the value its broadcasting can add to the international community. The day I arrived at VOA-B, the hundreds of acres of tall expansive antennas made you feel you were entering another planet. The father of wireless, Guglielmo Marconi, would be proud to see such a place full of great engineering and information for the world. Many wire antennas meshed together to form a tall wide curtain were supported by tall 300 feet towers. Each tower is fed by elevated transmission line (1 inch conducting pipes) 15 feet off the ground. Once inside the transmitting facility, the same degree of largeness is apparent by several "truck size" transmitters...

(R BULGARIA DX MIX News, July 26)
```

ZAMBIA - 4965, CVC Christian Voice, Lusaka - Kaeni Ranch, 0430-0601*, Aug 1, English pop Christian music inter-spaced with inspirational talk, nice peak in the 30 minute period after 0431 UT sunrise in Lusaka. Confirmed transmitter left the air at 0601 even though signal had faded to nothing more than a weak carrier (Brandon Jordan, Memphis, TN, Perseus SDR, 15'x60' KAZ Loop, dxldyg via DXLD)

Editor's info desk was closed for this edition on August 21st, 2010, at 16:00 UTC.

Thanks a lot to our club members for your contributions:

MF: Michael Frese, Osnabrueck, Germany. Grundig Yatchboy 400 with telescopic aerial.

RAD: Richard A.D'Angelo, Wyomissing, PA, USA. Ten-Tec RX-340, Drake R-8B, Eton E1, Lowe HF-150 with Alpha Delta DX Sloper, Datong FL3.

RL : Richard Lemke, St. Albert, Alberta, Canada. JRC NRD-535 HF Antenna random long wires in the trees.

Here are the loggings from Richard A. D'Angelo of Wyomissing, Pennsylvania, USA:

- 3200 SWAZILAND, Trans World Radio Manzini, 0413-0430* Aug 1, woman singing in German followed by religious talk by man and woman in German. Program close at 0429 followed by man with closing ID before carrier was cut. Poor but //4774 fair to good.
- 3240 SWAZILAND, Trans World Radio Manzini, 0328-0335 Jun 27, group singing followed by a man announcer at 0329 with religious talk in listed Ndau language. Poor.
- 3255 SOUTH AFRICA, BBC Meyerton, 0435-0450 Aug 3, BBC World Service English program features. Poor signal with much static tonight.
- HONDURAS, HRMI Radio Misiones Internacionales, 0404-0427 Jun 29, talk by woman announcer in Spanish with occasional man plus some rustic instrumental music. Poor with some deep fades. Nice to have them back.
- COSTA RICA, Radio Exterior de Espana, 0321-0404 Jun 24, Spanish talk by a man and woman, some vocals, 5+1 time pips at bottom of hour under discussion. At 0400 5+1 time pips followed by woman announcer with station ID and more music. Fair to good.
- DJIBOUTI, Radiodiffusion Télévision de Djibouti, *0258-0317 Jul 28, open carrier followed by orchestra national anthem at 0301; woman announcer with ID and opening announcements in Arabic. Brief musical interlude and news summary. Man with Qur'an recitation from 0305. Poor to fair.
- MAUITANIA, Radio Mauritanie, 0247-0312 Aug 14, Middle-Eastern style music followed by discussion in Arabic by two men. No announcements at the top of the hour. Fair to good signal but static made this fair overall.
- 4930 BOTSWANA, Voice of America Moepeng Hill, 0303-0317 Aug 2, woman announcer with the news in English; ID at 0304, program previews followed by Daybreak Africa features. Fair with some splatter from CODAR.
- 4965 ZAMBIA, Christian Voice, 0431-0447 Jul 31, tuned in to vocals followed by a woman announcer in English talking about the Bible and Christian vocals. More music with ID by man at 0431. Fair.
- 4976 UGANDA, UBC Radio (presumed), 0351-0421 Jun 13, continuous music programming to 0400 when man announcer read the news. Return to music programming at 0415. Weak to poor reception.
- 5005 EQUATORIAL GUINEA (Rio Muni), Radio Nacional Bata (presumed), 0514-0536 Jun 27, Spanish talk by a man announcer hosting a music program. Poor signal in noisy conditions.
- 5954.15 COSTA RICA, Radio Republica, 0115-0210 Jun 16, thanks to a tip from Terry Krueger heard the ELCOR transmitter with numerous IDs and Spanish language programming directed to Cuba. Fair signal.

- 6030 ETHIOPIA, Radio Oromiya, *0321-0347 Aug 2, opened with xylophone IS followed by ID and opening at 0329 in presumed Oromo language by a woman announcer. Man and woman talked briefly before Horn of Africa vocals commenced at 0331. Poor.
- ASCENSION ISLAND, BBC, *042900437 Jun 17, IS followed by opening ID and announcements in Portuguese by woman announcer. The news was next. Fair signal.
- 6190 GERMANY, Deutschlandfunk Radio, 0324-0347 Jul 23, classical music until 0329 when a man announcer spoke in German ending program. 3+1 time pips at 0330 followed by ID and a man announcer with news in German language. Regional news was at 0335. Return to classical music at 0340. Poor to fair.
- 7110 ETHIOPIA, Radio Ethiopia, 0331-0342 Jun 28, man announcer with news in listed Amharic language. Fair.
- 7210 ENGLAND, BBC Rampisham, 0306-0322 Jun 23, man announcer with talk in Swahili language. ID at 0314 mentioning BBCSwahili.com with discussions about African countries. Fair to good.
- NIGERIA, Voice of Nigeria, 2240-2259* Jul 18, program in listed Hausa language with discussion by various man announcers. ID and closedown followed by brief national anthem. Good signal.
- VATICAN, Vatican Radio Santa Maria di Galeria, *0227-0249* Jun 25, IS followed by opening ID and commencement of the French Language program. Fair to good signal.
- 7440 UKRAINE, Voice of Russia via Lvov, 0130-0200* Jun 27, reports indicate this new VoR frequency could be from Lvov. If it is the signal is very good. Heard with News in Brief followed by The Christian Message from Moscow with a reading from a memoir. Frequent IDs and schedule at 0158 prior to Kremlin Bells and final "This is Moscow" ID as carrier was terminated. There were two transmission breaks noted during the broadcast.
- UKRAINE, Radio Ukraine International, 0019-0059* Jul 18, Ukrainian folk music followed by a man and woman in English with letters from listeners about station missing from shortwave. Announcers mentioned closing station is out of the question but they need new equipment. ID, sign off announcements and closedown at 0058. Very good signal.
- 9575 MOROCCO (Spanish), Radio Medi Un, 0349-0438 Jul 30, non-stop Arabic vocals to 0400 ID and news in Arabic by a woman announcer. Return to music program at 0305 hosted by a man. ID and news in French at 0430. Poor to fair.
- MOLDOVA, Radio PMR, 0008-0016 Aug 3, man with news in English with ID, schedule and contact information read at 0011. End of English program followed by IS, ticking clock and opening of French program at 0312. Good signal.
- 11710.6 ARGENTINA, RAE, 0320-0346 Jun 23, woman announcer with French language talks, World Cup news and Argentine vocals. Poor to fair.
- 11710.8 ARGENTINA, RAE, *0158-0223 Aug 11, IS followed by time pips at top of the hour; opening music and multi-lingo IDs. Opening of English program at 0202 with Argentine vocal selections. Poor to fair.
- 11715 USA, KJES Vado, NM, 1433-1504 Aug 14, man in English with religious talk followed by repetition by group. Religious song at 1439 followed by man announcer returning, ID in English by child at 1500 followed by a woman announcer with Spanish ID. Vocal selection after ID. Fair.
- ROMANIA, Radio Romania International, 0338-0357* Jun 24, woman announcer in English introducing classical music features played by Romanian groups. Cooking Show at 0350. Closedown, sign off ID and announcements at 0355 but did not mention this frequency. IS until carrier cut. Fair.
- PORTUGAL, RDP Internacional, 0147-0200* Jul 22, continuous Portuguese vocal selections. Woman announcer with ID ending program at 0158 followed by a man announcer in Portuguese with ID and closedown announcements. Five time pips at 0200 as carrier was terminated. Good signal.

Dear Friends,

Welcome to the August/September double edition of Logbook.

I like to thank our regular contributors for keeping this section alive.

It seems that the propagation have improved a bit as I can hear Radio New Zealand on 6170 kHz here in early morning until sign off.

Looking forward to the other members sending their loggings for the next Logbook.

Till next time,

Ashok Kumar Bose

The St. Helena Story by Dr. Adrian M. Peterson

The island of St Helena in the South Atlantic is such an interesting island; it is lonely and distant, it is rugged and exotic, and it has been inhabited only during the past 500 years. In addition to its fascinating historic backgrounds, its wireless and radio history is of equal interest.

The island of St Helena is located in the Atlantic Ocean about half way between Africa and South America. It is a very rugged volcanic island, rising more than 14,000 feet from the ocean floor. Even though we speak of the island of St Helena, yet in actual reality, there are some two dozen small islands and ocean rocks clustered around the main island. St Helena itself covers 47 square miles and the highest peak is Diana's Peak at 2,700 feet.

The coastal areas of St Helena are rough and barren with cliffs rising 1,000 feet above the waterline, though the center of the island is forested. As is the case in other isolated islands, St Helena has been the home to several unique forms of vegetation, including the Cabbage Tree, and also the now extinct String Tree and the St Helena Olive. The St Helena Wirebird is also unique to this island.

The island of St Helena was first discovered by the Portuguese voyager, Jaoa da Nova, on May 21, 1502, on his return journey from India. The island was named St Helena in honor of Helena of Constantinople, the mother of Constantine the Great. The island was uninhabited at the time, and no information is known about the possibility of seafarers coming to the island in earlier years.

The first permanent resident was Fernao Lopez, an escapee from a ship sailing from Goa in India to continental Europe. In 1633, Holland claimed the island, though they never established any settlement on the island. In 1657, St Helena was claimed by the British, and two years later they sent a boat load of colonists to the island. In this way, St Helena became the second British colony, after Bermuda.

During the Christmas season in the year 1657, the Dutch captured the island, but the British re-took the island during the following year. In the late 1690s, it is reported that many of the women born on St Helena chose to marry passing sailors so that they could escape the island for better living in Europe.

It is claimed that the world's oldest living animal is on St Helena. It is an imported tortoise, named Jonathan, that is said to be 177 years old. It was imported from the Seychelles Islands in 1882 at the age of 50 and a historic photo taken in the year 1900 shows the famed tortoise with a prisoner from South Africa during the Boer War.

The total population of St Helena these days is around the 5,000 mark and they trace their line of ancestry back to Europe, Africa and several countries of Asia. There is just one town on the island, Jamestown, which is their capital. Politically, St Helena is clustered with the other Atlantic islands, Ascension and the Tristan da Cunha group, as a colonial unit under the British Government.

Almost everything needed on St Helena is imported and exports are few. Their economy is dependent upon grants from London, though the visit each year by 1,000 incoming tourists boosts their local finances. Travel to the island is possible only by boat and the Royal Mail Steamer, RMS St Helena makes regular visits every few weeks from England and South Africa. Hotel and private accommodation is available by prior arrangement.

The island issues its own currency, the St Helena pound, which is on a par with the English pound. These bank notes are legal tender for both St Helena and Ascension, though banks in England do not exchange them. The first bank notes were issued in St Helena in 1716; and the first coin, a copper halfpenny, was issued more than a hundred years later, in 1821.

In addition, St Helena also issues its own postage stamps and these attractive philatelic items are prized by collectors all over the world. Their first stamp, known as the 6 pence blue, was issued on January 1, 1856, just 16 years after England issued the world's first postage stamp in 1840. This stamp showed the engraved likeness of the 37 year old Queen Victoria.

Over the years, many notable people have visited St Helena, including royalty from England and continental Europe. The famed scientist Charles Darwin spent six days on the island in 1836, and had he only known, there were many unique forms of animal life and vegetation that could have absorbed his interest. Some forty species of plants are not known elsewhere.

However, it is acknowledged that the most famous of all visitors to the island was Napoleon Bonaparte, one time Emperor of France, who came not as a tourist, but as a prisoner of the British. After his disastrous defeat at Waterloo, Napoleon was banished to the island of St Helena in October of the year 1815, where he

died six years later. His body was subsequently exhumed and re-interred in Paris; and to this day, the French provide a resident consul on the island of St Helena. The Longwood Home where Napoleon lived, and his burial location, have been ceded to France.

In the year 1886, the first telephone service was introduced into Jamestown, St Helena. Three years later, a submarine cable link from Capetown in South Africa came ashore at St Helena; and during the following year, the underwater cable system linked the Atlantic terminals with England via the West Indies.

The first and only wireless communication station on St Helena was installed back some 90 years ago, and the only locatable entry for this unit lists the callsign as BXH. It would be presumed that this was a British government wireless station and that its purpose was for communication with nearby shipping and for the transmission of weather reports to England.

Electricity generation and distribution was installed in Jamestown for the first time in 1953; and up until that time, there were very few radio receivers on the island, all battery operated. The international submarine cable system had been installed by the Eastern Telegraph Company, and in 1934, a large new conglomerate took over, known as the now familiar Cable & Wireless.

In 1965, a government radio station was installed on St Helena with the high towers for transmission and reception located at Prosperous Bay Plain and Deadwood Plain. To the islanders, the usage of this station seemed to be a bit of a mystery. Twelve years later, the station was closed and the personnel left the island.

There was also a weather radio station located on St Helena and it was on the air under the British callsign GHH. This station operated with a 1 kW Racal transmitter and an inverted V antenna system. Jamestown Meteo was in use for the teletype transmission of weather information to England on two shortwave channels, 6824 & 9044 kHz. The reception of station GHH was reported occasionally in Europe and in North America, and a few QSLs have been received. There is one prepared QSL card from station GHH in the Indianapolis QSL Collection.

Before the regular mediumwave broadcasting service was introduced in 1967, there were at least five attempts at amateur radio broadcasting on the island of St Helena. The very first attempt at radio broadcasting took place in the year 1958 when Percy Teale obtained a temporary license and made a one-time broadcast to a public meeting in the Cinema Hall in Jamestown. Soon afterwards, Mr. A. J. Davies assembled a radio transmitter from electronic parts that were imported by Percy Teale from England and he too made a few amateur radio broadcasts.

Another notable amateur radio broadcast was made by Mr. Freese from the Arts Club in Jamestown; this event took place on January 3, 1960. Soon afterwards, Mr. Bill Stevens went on the air with scheduled musical programming and his broadcasts were in response to listener requests. Then there was "The Ham of Half Tree Hollow", another amateur radio broadcasting station that was noted on the air on January 27, 1962.

It should be stated that all of these attempts at amateur radio broadcasting on St Helena pointed out the fact that there was indeed a real need for the introduction of a legitimate radio broadcasting station on the island. Just four years later, such a station was installed and inaugurated.

Since then, both FM and TV have been introduced to the Saints, as they call themselves. Actually, TV was introduced before FM, and it was in 1994 that the Cable & Wireless facility imported equipment from England and launched an island-wide TV service. They are on the air these days with three TV channels in the PAL system, identified as Channels A, B & C. Programming comes in via satellite and island wide coverage is obtained via transmitters located at Head O'Wain & The Depot.

Talks regarding the introduction of an FM service began in the year 2003 and a license was obtained during the following year. Test transmissions began from a private home soon afterwards and the first regular transmissions from the new station began on January 3, 2005, under the slogan, Saint FM. One week later, the official opening of the new station was celebrated.

These days, Saint FM is on the air island wide from three different locations, with the main transmitter listed at 250 watts and two relay transmitters at 30 watts each. In addition, the programming from Saint FM in Jamestown St Helena is also heard on relay via satellite in Ascension Island, as well as on Tristan and in the Falklands.

Once a year there are special shortwave broadcasts from Radio St Helena. These broadcasts are scheduled to begin this year at 1900 UTC on Saturday October 9, on 11092.5 kHz USB, upper side band, and they will end five and a half hours later at 0030 UTC (please find full information about this event in our NEWS SECTION).

BBC Monitoring - After 70 years monitoring the airwaves, BBC listening post could be cut off

Budget review threatens Caversham Park, which broke news of JFK's assassination.

BBC

BBC Monitoring, a little-known section of the corporation which listens in on 3,000 media sources from around the world, is facing swingeing budget cuts as a result of a drop in its government funding which could lead to its closure.

For nearly 70 years, workers at the former stately home in Caversham, near Reading, have monitored publicly available material in more than 100 languages to provide a running digest of global journalism for senior civil servants, ministers and commercial clients.

It uses a "United Nations" of 400 staff based in a Victorian mansion in Berkshire, and the organisation's work has given it a front-row seat at a series of global events, including providing the translation of an obscure radio broadcast by Nikita Khrushchev which ended the Cuban missile crisis when it was rushed to the White House. It also broke the news to British audiences of the death of President John F Kennedy.

But BBC Monitoring now faces an uncertain future after it emerged that the £25m annual government grant from the Cabinet Office, which provides the vast majority of the unit's funding, is set to be slashed in this autumn's spending review, potentially tipping it into insolvency unless it makes extensive cuts in its services.

At a briefing to all staff last week, Chris Westcott, the director of BBC Monitoring, told employees that the "situation is grim" and confirmed that failure to accommodate the government's cuts could lead to closure. Managers are likely to be asked to find savings of £3.2m during the next two years, making the trimming of key services inevitable, according to managers.

The monitoring operation, which does not receive any licence-fee funding, has been the subject of a financial squeeze for the best part of a decade, making efficiency savings of 7 per cent a year since 2001. Last year, it made a profit of £2.5m on its total income of £28.8m, supplemented by deals with commercial customers and foreign governments.

A BBC insider said: "We have got two options: either we cut some of the core operational services and devalue the business, or we try to stick together and look for a way through this. But we are already cut to the bone and if we have to cut more, we are in deep trouble. There is a risk of closure if the cuts go too far. The situation is quite dire."

The current five-year funding settlement for BBC Monitoring is due to come to an end this year and with its main customers – the Cabinet Office, the Foreign Office and the Ministry of Defence – facing 25 per cent cuts in their budgets, the prospects of maintaining funding at its current level are understood to be negligible.

The role of the unit is also being considered as part of the Strategic Defence Review. Part of the work undertaken by Caversham, whose regional units include a central-Asian listening station in Uzbekistan, is transcribing broadcasts by Afghan radio stations sympathetic to the Taliban, offering an insight into the thinking of the militant Islamists.

It was a similar need to gain insight into the mindset of implacable enemies and uncertain allies which led to the founding of the BBC's monitoring operations during the Second World War. A colourful team of sound engineers and linguists, including the Austrian-born art historian Ernst Gombrich, was

assembled in camouflaged huts in the ground of a stately home in Worcestershire to listen to German, French, Italian and Russian radio broadcasts.

Gombrich later recalled that the rudimentary wax cylinder recording technology made it difficult to discern whether the reedy, faint voice of a foreign broadcaster was saying "send reinforcements, am going to advance" or "send three and four pence, am going to a dance".

The operation moved to Caversham Park, the one-time home of Elizabeth I's treasurer, in 1942 with a remit dedicating its staff to "reporting foreign news media comprehensively and accurately, without bias or comment".

It is a global burden shared with the Foreign Broadcast Information Service, which was once part of the CIA, but is now transferred to the US government's Open Source Center. It keeps a number of staff in the slightly idiosyncratic surroundings of Caversham Park, where gardens partly landscaped by Capability Brown host a dozen satellite dishes. The staff canteen is housed in the old orangery.

Over the years, BBC Monitoring's staff – currently standing at about 450 worldwide and recruited from diverse backgrounds, ranging from university graduates to former asylum seekers – has maintained a constant vigil, listening at any one time to 37 television stations and 100 radio services. Since the 1990s, it has also sifted through newspapers and websites, with the internet now accounting for about a third of its activities.

Such is BBC Monitoring's reputation for absolute accuracy, President Kennedy accepted at face value a translation of a radio address by Khrushchev in 1962 to a domestic audience announcing the withdrawal of Soviet vessels carrying nuclear missiles to Cuba. Without waiting for confirmation from US intelligence sources, Kennedy responded to the Kremlin's overtures immediately.

The Cabinet Office, which oversees government funding of BBC Monitoring, said: "We are involved in regular discussions with the BBC over expenditure in this area and nothing has been put to ministers to decide. No decision has been taken [on future funding]."

In a statement, the BBC said it would be approaching the funding discussions with "vigour and confidence" but added it was "acutely aware that the prevailing economic climate will bring huge challenges and tough choices".

(By Cahal Milmo, Chief Reporter, The Independent, 13 July 2010)

RFE/RL Marks 60 Years Of Fighting For Freedom

On July 4, 1950, Radio Free Europe (RFE) went on the air for the first time with a broadcast to communist Czechoslovakia from a studio in New York City's Empire State Building. The station signed on with the pledge of delivering news "in the American tradition of free speech."

On this Fourth of July, exactly 60 years later, RFE/RL reaches nearly 20 million people in 28 languages and 21 countries (map) including Russia, Belarus, Iran, Iraq, Afghanistan, and Pakistan. It remains a lifeline for people living in war zones and under authoritarian rule who seek accurate and reliable news and information.

U.S. Secretary of State Hillary Clinton said last year during a visit to RFE/RL's Prague headquarters, "RFE/RL is smart power. It represents everything we are trying to achieve."

The Early Years

By the end of 1954, RFE and Radio Liberty (RL) were broadcasting in 25 languages to Eastern Europe and across the Soviet Union. The stations provided a "megaphone" behind the Iron Curtain through which dissidents -- denied normal access to local media -- could reach millions of their countrymen without censorship. Years later, when asked if RFE played a significant role in Poland's struggle for freedom, Nobel Laureate Lech Walesa replied, "Would there be an earth without the sun?"

Coming of Age

In 1968, during the seven month period of political liberalization in Czechoslovakia known as the Prague Spring, RFE was an indispensable source of independent news. With Soviet power at its height and dissidents under heavy pressure throughout the 1970s and 1980s, RFE/RL's mission took on added importance. As former Czech President Vaclav Havel said, "All through the long years of communism, RFE provided the only avenue for the free exchange of information, for free journalism, and also the only, or rather, the main source for communication between the opposition and the people of the nation. I believe that our society owes Radio Free Europe immense gratitude for the role it played in my country."

One of the indicators of RFE/RL's success has always been the extent to which authoritarian governments attempt to disrupt its broadcasts. In 1981, a bomb ripped through RFE/RL's Munich headquarters, wounding several employees and causing \$2 million worth of damage. Secret police files opened after 1989 revealed that the attack was ordered by Romanian leader Nicolae Ceausescu and carried out by the terrorist Carlos the Jackal.

When the Chernobyl nuclear disaster occurred in 1986, Soviet media sought to cover up the catastrophe. However, in what historian Arch Puddington has called "RFE/RL's finest moment," the organization devoted hour after hour to the story, providing instructions to listeners regarding the decontamination of food and clothing, and guidance on protecting children from radiation.

A Continuing Mission

In 1994, as the conflict in the Balkans escalated, RFE/RL began broadcasting to the countries of the former Yugoslavia. During the NATO air campaign in 1999, RFE/RL was the only station on the air during the nighttime hours in Serbia. The live reports from Belgrade, Brussels, and across the region were the only source of information for people who sought news of the bombing and information about safety.

Over the past fifteen years, RFE/RL has expanded its reach to include Afghanistan, Iran, Iraq, and the North Caucusus. In Afghanistan, RFE/RL's Radio Azadi is the most popular media outlet in the country and has received more than 15,000 pieces of "fan mail" from listeners, some of which went on display at the Library of Congress in March 2010. In Iran, RFE/RL's Radio Farda is an influential source of independent information -- particularly online -- and played an important role during the crackdown after the disputed 2009 presidential election.

The Seventh Decade

In January 2010, RFE/RL launched a new Pashto-language station to Pakistan's Pashtun tribal region in order to provide an alternative to the proliferation of Islamic extremist stations in the region. And two months earlier, RFE/RL began new daily Russian-language broadcasts to the Georgian breakaway regions of South Ossetian and Abkhazia.

"Our mission is as important as ever," says RFE/RL President Jeffrey Gedmin. "Although the technology has changed -- we augment radio now with content delivered online, by video, and on television -- the mission of surrogate broadcasting is still the same. RFE/RL remains one of the most effective and cost-efficient programs the United States can support in order to promote democracy and advance U.S. national security interests."

(RFE/RL Press Release, July 2010)

The result was published in May 2010. Special QSL and Pennant have been sent in the first week of May 2010. Prizes have been sent in a separate parcel.

Winners of the quiz

- 1. Girish Chadaga, Bangalore WRTH 2010
- 2. Muhammad Shamim, Chullimanoor, Kerala PWBR (Collectors copy)
- 3. E. Selvaraj, Minnakal "This is All India Radio" book given by Alokesh Gupta
- 4. M. Ganesan, Goa WRTH (Collectors copy)
- 5. P.S. Sekar, Thalainayar Shorwave Reception Booklet & DW cotton bag
- 6. N. Arun Kumar, Chennai Shorwave Reception Booklet
- 7. S. Vetriveljar, Salem Shorwave Reception Booklet
- 8. M. Muralidhar, Bangalore DW Cap
- 9. S. Porunai Balu, Tirunelveli DW Cap
- 10. Goutam Mandal, Bankura, West Bengal DW Cap

WORLDWIDE DX CLUB

WORLDWIDE DX CLUB, founded in 1966, does not claim to be the biggest or best DX club in the world. Nevertheless, it offers its members and subscribers a rather good monthly bulletin (mainly in English) entitled "DX MAGAZINE" with up-to-date information on most aspects of DX'ing at the reasonable price of \in 15.60, £12.00, US\$18.70 or 16 International Reply Coupons (IRC's) per year (<u>air mail:</u> Europe: \in 17.40, £13.00, US\$20.90 or 18 IRC's; Overseas: \in 20.40, £15.50, US\$24.50 or 21 IRC's).

Since WORLDWIDE DX CLUB is the "International Department" of ARBEITSGEMEIN-SCHAFT DX (AGDX), the head organization of the German language DX clubs, it is able to offer its members and subscribers another DX publication in German entitled "Radio-Kurier - weltweit hören". This is jointly issued by the German DX organizations ADDX and AGDX and is available for € 40.00, £28.50, US\$48.00 or 40 IRC's per year (including air mail to countries outside Europe) or, if ordered together with "DX MAGAZINE", for € 51.00, £36.00, US\$61.20 or 51 IRC's per year (air mail: Europe: € 52.80, £37.00, US\$63.40 or 53 IRC's; Overseas: € 55.80, £39.00, US\$66.60 or 56 IRC's per year).

Both publications, "DX MAGAZINE" as well as "Radio Kurier - weltweit hören", are also available as PDF files. If you decide to receive this version, a worldwide subscription rate of € 9.00, £7.00, US\$10.80 or 9 IRC's is applicable for "DX MAGAZINE". "Radio Kurier - weltweit hören" is available for € 20.00, £15.50, US\$24.00 or 20 IRC's, both publications together for € 26.00, £20.00, US\$31.20 or 26 IRC's.

WORLDWIDE DX CLUB has currently the following special publications available:

- 1. "REPORTING GUIDE", published by the EUROPEAN DX COUNCIL (€ 1.00 or 1 IRC; please enclose 1 additional IRC for air mail).
- 2. "EDXC RADIO COUNTRIES LIST 2007", published by the EUROPEAN DX COUNCIL (€ 1.00 or 1 IRC; please enclose 1 additional IRC for air mail).
- 3. "WORLD RADIO TV HANDBOOK 2011, to be published by WRTH Publications Limited in December 2010. Prices not known yet.
- 4. "DAS OHR ZUR WELT" (Eine Einführung in den Rundfunk-Fernempfang, herausgegeben von der ARBEITSGEMEINSCHAFT DX e. V.) (€ 1.00 or 1 IRC; please enclose 1 additional IRC for air mail).

These prices include postage and packing. Delivery against advance payment by International Money Order, cheque in € drawn on a German bank (otherwise please add € 5.00 for bank charges), cheque in US\$ drawn on a US bank, cash in any convertible currency, Postal Money Order or transfer to our bank accounts: Raiffeisenbank Graevenwiesbach No. 100019984 (IBAN: DE75 5006 9345 0100 0199 84 - BIC/SWIFT-Code: GENODE51GWB) or ING/Netherlands No. 3822840 (IBAN: NL08 INGB 0003 8228 40 - BIC/SWIFT-Code: INGBNL2A). *IRC's can only be accepted from countries, in which payments can not be made by any other means* (1 IRC = € 1.00) - not for orders of WRTH.

Die obigen Preise enthalten Porto und Verpackung. Lieferung gegen Vorauszahlung durch Überweisung, Scheck in € (gezogen auf eine deutsche Bank, sonst € 5,00 zusätzlich für Bankgebühren), Postanweisung oder Bargeld. Konten: Raiffeisenbank Grävenwiesbach Nr. 100019984 [Bankleitzahl 500 693 45] und ING/Niederlande Nr. 3822840. *IRCs werden nur aus solchen Ländern akzeptiert, in denen eine Zahlung auf einem anderen Weg nicht möglich ist - nicht für WRTH-Bestellungen.*
