DX MAGAZINE No. 12

Vol. L

December 2015

Hello again,

Welcome to the last issue of our DX MAGAZINE in this year 2015. Let me take this opportunity to thank you very much for all your support during this year. And now over to our usual information from outside the club:

(Cf. DXM 10/2015) **Klingenfuss Publications** have published their four new products for 2016 on December 9th:

- 2016 Super Frequency List on CD
- 2016 Shortwave Frequency Guide
- 2016 Frequency Database for the Perseus Software-Defined Receiver
- 1997-2016 Digital Data Decoder Screenshots on USB Stick
- Supplement January 2016 to the 2015/2016 Guide to Utility Radio Stations

Full information about these publications and ordering information can be found in their advertisement on the last page of this DX MAGAZINE. **(Klingenfuss Publications - Jörg Klingenfuss, Germany)**

The **A.I.R. Contest 2016 "Attilio Leoni"**, the annual Italian DX contest by Associazione Italiana Radioascolto, will take place from January 2nd to 9th, 2016. For full information, please write to: Bruno Pecolatto, AIR Contest Manager, Fermo Posta, I-10080 Ronco Canavese (TO), Italy, E-mail: <bpecolatto@libero.it>.

Finally, let me wish you a Merry Christmas and a very Happy New Year 2016

NEWS ABOUT BROADCASTING (+other) STATIONS

Walter Eibl · Postfach 15 45 · D-91005 Erlangen · GERMANY

Closure of **MW transmitters** in France, Germany, and Luxembourg.

By 31 December many stations in Europe will close their MW transmitters FOR EVER on the following frequencies

France

603 kHz, 711 kHz, 864 kHz, 1206 kHz, 1242 kHz, 1278 kHz, 1377 kHz, 1404 kHz, 1494 kHz, 1557 kHz.

Germany

549 kHz, 756 kHz, 1269 kHz, 1422 kHz. [DLF]

Luxembourg
1440 kHz.

Re: [mwdx] Closure of MW transmitters. This is not entirely accurate.

1/ The French station Allouis on 162 kHz will not close.

2/ The German station SR Heusweiler on 1179 kHz is not mentioned in this list but it will also be shut down.

ANGOLA - 4949.73 R. Nacional de Angola, Nov 21. Amazing reception; segments monitored: 0208-0315, 0333-0402 and 0439-0503 UT; often with almost fair reception; many clear IDs: "Radio Nacional de Angola"; variety of music (one song with many mentions of "Africa," hi-life, etc.); ToH time pips. A very memorable reception for me! Extremely rare that I get audio above threshold level from them and to hear their clear IDs was a real DXing treat!

(Ivo Ivanov-BUL, hcdx via wwdxc BC-DX TopNews Nov 23)

Im Umfeld der Kriege in Syrien und Irak ist auch der Kurdenkonflikt in der Osttuerkei neu aufgebrochen. Ende Juli 2015 hat die tuerkische Regierung den Friedensprozess mit der PKK aufgekuendigt und den Kampf gegen die Kurdenorganisation im In- und Ausland wieder aufgenommen.

Seit 2001 gibt es vielstuendige Kurzwellensendungen eines mit der PKK in Verbindung gebrachten Programms. Urspruenglich als Denge Mezopotamya, seit 2012 als Denge Kurdistan. Die Stimme Kurdistans legt seit jeher Wert auf eine durchgaengige Frequenz fuer den ganzen Sendetag. Dafuer ist wegen der wechselnden Ausbreitungsbedingungen der Kurzwelle ein Zusammenspiel verschiedener Senderstandorte noetig, ueber das aber Stillschweigen herrscht.

Die Stimme Kurdistans wechselte im Wintersendeplan auf 9400 kHz. Diese Wahl entsprach der von 2014/15, doch handelte man sich mit dieser Traditionsfrequenz von FEBC Manila vielstuendige Interferenz ein (09.00-14.00 Iba-PHL, 100 kW, 330 deg) ein. Der von Alyx & Yeyi (ex Broadcast Belgium Ludo Maes) bei der HFCC angemeldete Wintersendeplan 2015/16 lautet:

04.00-08.00: 9400 (Grigoriopol-MDA 300 kW, 130 deg)

08.00-12.00: 9400 (Erevan-Gavar-ARM 300 kW, 192 deg)

12.00-22.00: 9400 (Grigoriopol-MDA 300 kW, 130 deg, 14.00 116 deg)

Tatsaechlich sehen manche Experten die Belegung anders. Ivo Ivanov bietet Anfang und Ende November folgende Sendepan Details:

15.00-17.00: 9400 (Sofia Kostinbrod-BUL 100 kW, 90 deg) da im Nahbereich 2x harmonische Frequenz = 18800 kHz zu empfangen war.

17.00-20.00: 9400 (TDF Issoudun-F 250 kW, 90 deg) da am 4. November Intermodulationsprodukte aus Issoudun ausgestrahlter Programme beobachtet wurden.

20.00-22.00: 9400 (Grigoriopol-MDA 300 kW, 116 deg)

CHINA - 4800 CNR1, Voice of China, Golmud, at 1258-1402 UT on Nov 20, after hearing an UNID station here Nov 06 (Cf. DX-Window no. 542. Ed), they are finally back on the air \ 6125 kHz, with their usual programming; totally blocking AIR Hyderabad, which had been in the clear recently with CNR1 off the air.

5050 Guangxi Beibu Bay Radio, 1320, Dec 6. Usual brief segment in English; today about the "ASEAN Community" established at the ASEAN summit in Kuala Lumpur.

7400 CRI. Interesting to note that when Shiokaze started broadcasting here (Nov 1), CRI dropped their 1300-1357 UT schedule which conflicted with Shiokaze; now that Shiokaze has moved away (Nov 24), CRI is again back

CHINA [TIBET] - 6200 // 7255 kHz, Xizang PBS, Lhasa, Tibet, at 1600 UT Nov 19, the "Holy Tibet" program in English, "This is Holy Tibet, presented to you by China Tibet Broadcasting. Find out the history and reality on the roof of the world and keep in touch with the developments and changes in Tibet. This is Holy Tibet", news items (Chinese President Xi Jinping and Mexican President Enrique Pena Nieto held talks in Turkey), segment "Eyes on Tibet", played Tibetan music, mostly poor, but in a few weeks will have better reception. "Holy Tibet" scheduled 1600-1700 UT.

CUBA - 11760, Radio Havana, 2051-2100 7 Nov, English with program "Music with a Message" featuring Canadian singer Bruce Cockburne. Played his song "If I Had A Rocket Launcher" --- and I had an immediate flashback to sitting on a porch in Honduras in 1984 listening to "Sunday Morning" on CBC doing a feature on him just after that song had come out. Great song if you've never heard it.

EQUATORIAL GUINEA - 5005 Radio Bata, improving reception at 1843 UT on Nov 15, id. "mandamos cordiales saludos a todos los oyentes por la Radio Bata", "Radio Bata, la estacion mas musical, desde la casa de la radio" 25432. At 1849 UT transmission cuts off abruptly.

(Manuel Mendez-Lugo-ESP, hcdx Nov 15)

Thanks a tip of Manuel from Spain, noted GNE very tiny signal here in southern Germany at 1840 UT on Nov 20, on exact footprint 5004.997 kHz, but signal increased in 1900-1945 UT slot. Station closes irregularly between 1940 and 2000 UT. Heard also tonight at same time slot by Michael Haun in Menorca-Spain and Christoph Ratzer in Salzburg-Austria. (wb, wwdxc BC-DX TopNews Nov 20)

5004.997 R Nacional, Bata, 0416-0437*, Nov 21, mostly all non-stop pop songs, with some in English (Usher with "OMG"), one brief annmt possibly in Spanish(?); suddenly off with no annmts, almost fair. Also heard 0455-0541 UT on Nov 23 with fairly clear ID at 05:22 UT.

GUATEMALA - 4055.0, Dec 1 at 0140, R. Verdad, preacher in Spanish quoting Apocalipsis XIV:11; S9+20 with no ACI. Dr Madrid tells me they are involved in a project to set up relays of TGAV around the world on frequencies with a few kHz of 4055. That will be interesting: In such an isolated part of the spectrum, it could work without being squeezed by other broadcasters, but the concern is interfering with itself.

SAUDI ARABIA [tentatively] - 11860 kHz, Republic of Yemen Radio – Radio Sana'a - Pro-Had
Auf 11860 kHz ist nach 18 UT "Republic of Yemen Radio - Radio Sana'a - Pro-Had" zu hoeren, der Sender koennte lt. BrDXC in Saudi Arabien stehen.

Chris Greenway reported via BrDXC-UK/dxld on 20 Oct 2015 the existence of a broadcast on shortwave in support of Yemeni President Abdrabbuh Mansur Hadi. President Hadi, who was deposed by Houthi rebels in 2014 and subsequently fled to Saudi Arabia in March 2015, recently returned to the southern city of Aden to reportedly supervise an offensive against rebels.

Tarek Zeidan from Cairo-EGY reported an ID at 2000 UT on 20 Oct 2015 as "Huna Sana'a idhaat aljumphuriya alyamaniya al bernamaj al a'am" ("This is Sana'a, Republic of Yemen Radio General Programme, with news about the return of the Yemeni president to Aden").

Tarek SU1TZ adds, that according to some sources there are two transmissions, the first one from 0700 to 1200 and the second one from 2100 to 0200 UT. Tarek checked the audio stream of Sana'a online and there was a different feed talking about the Saudi invasion of Yemen, so that was operated by the Houthi rebels supporting the former president of Yemen Ali Abdul Allah Saleh.

According to an online source the pro-Hadi transmission on shortwave is from Aden, but based on the fact that Yemen is having problems with power and a lot of blackouts, leaving the greater part of Yemen without electricity, it must be coming from a nearby country, presumably Saudi Arabia.

Transmitter Site: believed to be in Saudi Arabia.

9975, Nov 29 at 0215, KVOH is only S3, much weaker than first check an hour ago; yet Cairo neighbor 9965- is still good at S7; therefore, KVOH could do better by broadcasting from Cairo, provided it could modulate.

17775, Nov 29 at 1544, KVOH is on! Even tho it's Sunday; prayer in Spanish about Sonora. VG signal and not off-frequency either, 17775.00 --- this could be a sign that the `new` transmitter is finally being tested, after Ted Randall dragging his feet month after month in getting all the needed parts for it from WTWW to KVOH. 17775 has been scheduled Mo-Fr only, and per website, still is. Dear Friends,

Welcome to the December edition of Logbook.

This month is special for my association with the Club.

I joined the Club on December 1979 and I started editing the Logbook from December 2000.

So this month will mark the completion of fifteen years as Editor.

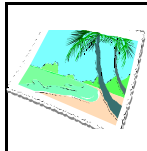

Over the years the amount of loggings have decreased probably keeping in pace with reduced short wave broadcasting activity.

Thanks to our regular members for their contributions.

Best Wishes for a Merry Christmas & Happy New Year 2016.

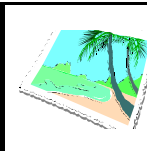

Till next edition 73's from your Editor,

Ashok Kumar Bose

Dear friends,

This year is ending and I hope that your life is good. Next year I hope that radio stations don't continue to close their external service but continue their transmissions despite the crisis that involve the world. I thank all contributors who helped me to compile this page and look forward to your contributions to the next edition wishing a Merry Christmas and Happy New Year to you and your family. Please remember that the next deadline to contribute to this page is on January 16th, 2016. Thanks,

Dario
