DX MAGAZINE No. 7

Vol. LII

July 2017

Hello again,

Welcome to another issue of our DX MAGAZINE. Please remember that the next issue of our DX MAGAZINE will be our usual summer double edition No. 8/9, which will be mailed in the 35th calendar week (deadline: August 26th, 2017). Our editors will be very thankful for your contributions to this double edition. I have no more news to report from inside the club this month - therefore let's just start with our usual news from outside the club - only one item this month:

The **WRTH Editorial team** is pleased to announce that the WORLD RADIO TV HANDBOOK July update to the A17 schedules of 1 July 2017 is now available for free download from the WRTH website: http://www.wrth.com/_shop/wp-content/uploads/WRTH2017IntRadioSuppl3_A17SchedulesUpdate.pdf. The file with 2 pages is in PDF format and will require the free Adobe Acrobat reader. We hope you find this a useful accompaniment to your printed WRTH edition.

(Sean Gilbert - World Radio TV Handbook)

And with this best wishes and good DX until next month from

NEWS ABOUT BROADCASTING (+other) STATIONS

AFGHANISTAN - Weak/fair signal of Radio Afghanistan External Service, July 7: 1532-1647 on 6100 YAK 100 kW / 125 deg to SAs English/Urdu/Arabic & off air. (DX MIX 1017)

ALASKA - 11870, June 8 at 1254 UT, KNLS is S9, surprisingly good, close to directly off the back, signing off English hour with full new sked by Rob: 11870 kHz at 08 & 12 UT; 7355 kHz also at 12 UT (JBA carrier here), 9690 kHz at 10 UT, 11765 kHz at 14 UT.

Also if in SAsia, listen at 02 UT on 9600 kHz, 03 UT on 15515 kHz (which are Madagascar he fails to mention). I first checked 11885 kHz where Dave Valko caught KNLS on June 5 until 1259 UT, // 11870 kHz, but no 11885 kHz here today). At 1259 UT, 11870 kHz to open carrier and off, but back on with open carrier at *1300-1303* UT (or something else?)

11870, June 9 at 1221 UT, checking KNLS English again earlier in the hour, which was in well yesterday by closing. Today it's VP S2-S4 with echo, long/short path? pop music, 1226 UT announcements I can't be positive are in English, much weaker than Vatican via Philippines open carrier already on 11875 kHz at S9. KNLS improves slightly to S5-S7 by closing circa 1255 UT with English schedule, but still unusable. (gh, hcdx and dxld June 9)

ANGUILLA - 11775, on July 12 at 1345 UT, PMS is back on with OK modulation. However, Harold Frodge says it cut off at 1422:10* UT today in mid-preach. I recheck at 1916 UT, it's still off.

Meanwhile, as I read later in the dxld yg, Chuck, W3ON was hearing Caribbean Beacon on 11865 instead of 11775 kHz at 1856-1910 UT, OK modulation. This was previously reported by Dave Valko a few weeks ago as a spur of 11775 kHz. Then I check at 2043 UT to find nothing on 11865 kHz, but 11775 kHz is back on with dead air. At 2101 UT it's off again. (gh, hcdx and dxld July 13)

AUSTRALIA - Some news from the North, in case you were wondering where it's all up to ---

"Hi Craig, Just a note to advise that we hope to have 4KZ 5055 kHz on the air by late next week from Innisfail with 1 kW and inverted V antenna. The holdup has been due to constant rain preventing us putting the support pole in. We have had a special QSL card printed and we do not require return postage. Al Kirton, gm, NQ Radio"

BANGLADESH -4750 Bangladesh Betar - HS, at 1235-1243 UT on June 26. The Monday only SAARC (The South Asian Association for Regional Cooperation) news bulletin in English, starting with "Assalamu alaikum. This is Bangladesh Betar"; clearly in English, but not very readable due to usual CODAR and CNR1 QRM. (Ron Howard-CA-USA, DXplorer via wwdxc BC-DX TopNews June 28)

BRAZIL -4885 Radio Clube do Para, Belem, at 2113-2133 UT on June 27, on air again, Portuguese, sport comments, comment about Brazilian soccer player Jonnathan, Paysandu team, ID at 2130 UT: "Radio Clube do Para". 25322. Also heard 0523-0540 UT on June 28, Brazilian songs. Very weak. 15321.

9725.4 Radio Evangelizar, Curitiba, at 1950-2045 UT on June 27, Portuguese, religious comments, "A oracao de Nosso Senhor...", ID "Emissoras da Rede Evangelizar de Comunicacao ..." // 11934.9 kHz. 14321. (Manuel Mendez-ESP, dxld June 27)

9724.869, 0411-, Rádio Evangelizar (ex Rádio RB2), Jun 18. Good reception here with minor static spashes. All heard very well using my SW directed DKAZ antenna (better than a NW/SW ALA 100 and NW directed BOG). Lovely EZL Brazilian vocals. Not // to Rádio Aparecida. Possibly an ID at 0414:45. Much stronger on // 11934.954 with armchair copy (listed with same power of 10 kW and 20 deg azimuth). Also heard on 6040.350 (10 kW/20 deg as well). This is fun! Opportune that Glenn Hauser mentioned this in his June 17 - 18 logs that Rádio RB2 is no more, and that these

6

frequencies are now occupied by this station's name. (Walt Salmaniw, Masset, BC, dxldyg via DXLD)

9725.454, July 3 at 0602, VP signal here from R. Evangelizer, moved up after a long time circa 9724.9.

9665.870, July 3 at 0604, R. Voz Missionária, is currently way off-frequency here, a little better signal than Evangelizar, some music audible. (gh, WOR 1885, DXLD)

Today around 2200-2300 UT, I can received a digital signal as DRM but more narrow, it would be Rádio Nacional da Amazônia in DRM tests (as EiBi says).

(Magdiel Cruz R., Mexico, July 2, WRTH FB via WOR 1885, DXLD)

Pix of receiver tuned to 9751.70 (gh)

9819.060, 0406-, Radio 9 de Julho, Jun 18. Good reception except for some pretty serious static crashes. Relaying Rádio Aparecida. (11855.6, etc.) (Walt Salmaniw, Masset, BC, dxldyg via DXLD)

11764.573, 0452-, Super Rádio Deus é Amor, Jun 18. Fair to good reception with ID at 0454 by a male speaker in Portuguese, then on with a woman. Not sure her topic. Note most Brazilians are off-channel, making them easier to identify. No parallels noted. (Walt Salmaniw, Masset, BC, dxldyg via DXLD)

11815.025, 0443-, Rádio Brasil Central, Jun 18. Fair to good reception of EZL Brazilian vocals. Not sure whether conditions are deteriorating as we're getting closer to LSS here in the far north. It's 9:45 PM and still bright out! The sun won't [set] for at least another half hour. I can actually hear their // frequency of 4985 which is covered smack on top with RTTY, but if I use side band and notch out the one end of the RTTY, I can hear the same music. How's that for technical DXing! (Walt Salmaniw, Masset, BC, dxldyg via DXLD)

11855.610, 0334-, Radio Aparecida Jun 18 Excellent reception with a song, 'Moya Aparecida'. Not sure what that means in Portuguese, but interesting that if it was in Ukrainian, it would mean 'My Aparecida'.

[Probably really 'Mãe Aparecida' which means Mother Apparition; or Who Appeared --- gh]

Many mentions of Aparecida as well during speech portions. There must be quite the pipeline into Brazil from Masset, as that country is often very well heard. Parallel to weaker (but still well heard) 9630.021 with listed 10 kW. Vatican news at 0345:45. I think that I can also hear the 49 meter // on 6135. Seems on channel, despite lists that suggest off channel. Turning both Perseus receivers on, I'm 99% certain that it is the same station, and on-frequency on 49 meters. 49 meters is listed with 25 kW and an azimuth of 30 degrees. (Walt Salmaniw, Masset, BC, dxldyg via DXLD)

The former RB2 short wave frequencies are now listed on the site of Radio Evangelizar.

ERITREA / ETHIOPIA - I noticed as well that 7160 kHz from around 0310 UT is carrying a programme as well. It is hard to get the language or an ID but my guess it is Asmara ERI as well ... will keep an ear on that frequency and keep you posted. (Tarek Zeidan-EGY SU1TZ, dxld June 24)

Last night (June 23, 1630+ UT), Asmara ERI was definitely on 7160 kHz, but not on 7180 kHz, weaker than usual/expectable and jammed. In the past, the two transmitters often had significantly different signal strength in Euro. Basically 7175v kHz being the stronger one and 7146etc kHz, the weaker one.

VoBME heard on 7180 kHz again today June 25, not on 7160 kHz as a few days ago. Fairly strong signal and jammed in the usual manner with "white noise" until 1700 UT. On a Web-SDR in the Middle East I could make out a schedule of roughly 0330-0700 UT, 0930-1100 UT, and from somewhat before 1400 until 1830 UT.
(Thorsten Hallmann-D, dxld June 23 / 25)

KOREA, REP. OF - 4885, Echo of Hope VOH. Regarding my recent reporting of the "Radio Free Korea" ID here: thanks to Amano-san for explaining what I actually heard. The program's name that is looped every hour is called "Radio Broadcasting Guide." As such it provides a lot of info about Korean stations, with segments with many different singing jingle IDs, as well as clips of different stations spoken IDs, which is what I heard with "Radio Free Korea." Recently at 1123 & 1223 UT, am hearing "V O A World News" IDs in English, whereas most of the program is in Korean. Thanks again to Amano-san for his helpful assistance.

(Ron Howard-CA-USA, DXplorer via wwdxc BC-DX TopNews July 3)

4885 has gone rogue and is looping each hour with IDs about every 10 minutes. Just a correction on the Radio Free Korea mention: RFK is a different station, AM 1143. However, of course, they're basically all run by the same people at the NIS [National Intelligence Service, the chief intelligence agency of South Korea - Ron] from the same tower sites (which I've also posted photos of some times in the past). This would be the equivalent of "stunting" I think. They're messing around with their frequencies and programming and North Korea is doing the same right now too. So who knows what they're up to with an RFK ID in there...!!" (via Ron Howard, June 30, dxldyg via WOR 1885, DXLD)

KUWAIT - 15540 Radio Kuwait - Sulaibiyah, at 1848-2100* UT on June 30, male rap tune followed by the daily feature program "This Day inHistory" in English. More pop music from 1902 UT until feature program "Stories from the Holy Quran" from 1908 UT. Closed with news summary followed by music, time pips at 2100 UT and opening of Arabic language program that was soon terminated. Good signal for the most part although the noise level increased during last thirty minutes of listening. (Rich D'Angelo-PA-USA, DXplorer July 3)

15540, 1815-, Radio Kuwait, Jul 1. With either 250 or 500 kW depending on the source, signal is still just above threshold at poor to fair level. Even with background noise of - 130 dB, I'm getting an S2 to S3 signal only. Playing Western sounding music. This was once of my favourite stations to listen to while growing up in Toronto. Armchair copy there, and very exotic! Rechecking at 1910 UT, very good level! Clearly, this was the result of a slowly climbing MUF. That's more like it. Unfortunately, the music is generic western style music. Not what I want to hear! At 1911, they switched to a reading of the Holy Qur'an. Years ago, I used to enjoy this segment, with its simultaneous [consecutive?] English translation. A very short segment, ending with, 'Allah has revealed the truth'. Then into Human Relations in Islam, with Arabic music in background. (Walt Salmani, Masset, BC, dxldyg via DXLD)

Aoki agrees except 315 degrees, which is more likely as that would be aimed USward. RSO makes lots of wooden registrations, with only one transmitter, could also be on 9500 or 9650 kHz at this hour.

Not to mention 15140 kHz, left on the air far beyond 2200 UT as sometimes happens. Could be a convergence of luck: solar flux unexpectedly bumped up to a hefty 90 yesterday, and axually transmitting on this frequency! But not much else trans-Atlantically on 25mb. (gh, hcdx and dxld July 13)

There will be some more tests the next weeks, but no verified details available. (we)

TANZANIA [ZANZIBAR] - 6015 ZBC Radio, on June 26, with sports coverage; preempted regular programs; tuned in at 0347 UT; probably the COSAFA Castle Cup game between Tanzania & Malawi, held in RSA. No drums as usual at 0359 UT, but at 0401 UT time pips and sounded like the start of a *second audio feed* with the news, mixing with the sports coverage audio. Poor reception, so hard to be positive as to just what was happening. ZBC was silent on June 25. (Ron Howard-CA-USA, DXplorer via wwdxc BC-DX TopNews June 28)

UNITED ARAB EMIRATES - Reception of Radio ERGO via BaBcoCk Al-Dhabayya on July 6:
 1200-1300 on 17845 DHA 250 kW / 225 deg to Eaf Somali, weak to fair.
 (DX MIX 1017)

UNITED KINGDOM - BBC Monitoring Changes. BBC Monitoring's staff were informed today that the service will be leaving Caversham Park - its home since 1943 - in May 2018. BBCM will be relocated to London's New Broadcasting House. Staff were also informed that BBCM would retain its Crowsley Park receiving station (three miles north of Caversham Park). BBCM will also continue to operate its 11 overseas bureaus: Cairo, Delhi, Istanbul, Jerusalem, Kabul, Kiev, Miami, Moscow, Nairobi, Tashkent and Tbilisi.
 (Chris Greenway-UK, dxld June 26)

UNITED KINGDOM / ASCENSION - R.Dandal Kura via BaBcoCk Ascension&Woofferton, July 7:
 0500-0600 on 5960 ASC 250 kW / 070 deg to Waf Kanuri, weak/fair
 0600-0700 on 7415 ASC 250 kW / 070 deg to Waf Kanuri, poor/weak
 0700-0800 on 13810 WOF 250 kW / 165 deg to Waf Kanuri, very poor
 (DX MIX 1017)

U.S.A. - 3185 WWRB Morrison TN. Overcomer Ministry at 1052 UT on 2 June, ID by "The Bro", talks and songs, fair signal but heavy local TVI. This frequency appears to have been recently reactivated.

9370 WWRB Morrison TN. Weird singing, shouting, talking, groaning and general strange noises at 1120 UT. Good wholesome Sunday evening entertainment! Overcomer Ministry with an earlier than scheduled broadcast. Fair signal on June 4, and appears to be now on earlier than previously scheduled.
 (Rob Wagner-Vic-AUS VK3BVW, ARDXC ADXN magazine July 2017 July 4)

Good in English at 0655 UT with Brother Stair // 3215 kHz, on June 22.

7730, at 0618- UT, RAE Radio Argentina al Exterior [via RMI Okeechobee-FL] on Fr Jun 23. Excellent reception in Japanese with lovely Argentinian music. A real pleasure to listen in at armchair level. Only carried on this frequency.
 (Walt Salmaniw-BC-CAN, on Masset-BC-CAN exp. via DXplorer June 3)

7730, June 27 at 0600 UT, RAE Buenos Aires Japanese via WRMI [Okeechobee-FL] starts right off with music, and contains a lot of great Argentine tunes, on a VG signal here not likely to reach Japan very well. Also notice lots of Argmusic during the French hour 13-14 UT on 11580 kHz, and the Spanish hour at 14-15 UT on 11580 kHz. These could be added to Alan Roe's Music Programmes on Shortwave, which does include some of the other language RAE relay hours. (gh, hcdx and dxld June 28)

7490, UT Sunday July 2 at 0553 UT, WBCQ is still on, fair S9 to S8, with talk show, presumed still 'The Other Side of Midnight'. First heard June 12 and every weekend since, UT Sun & Mo 04-07, and still missing from the schedule: <<http://schedule.wbcq.com/>> (gh, hcdx and dxld July 4)

9265 WINB - Red Lion-PA, at 0140-0153 UT on July 4, man announcer with long religious talk in the English language. ID at 0145 UT mentioning "Red Lion" and another religious program followed. Poor to fair. (Rich D'Angelo-PA-USA, DXplorer July 10)

15555 WJHR Radio International - Milton-FL, at 1653-1715 UT on July 8, found this with labored signal and apparent operation in upper and lower side band with English language religious program with nice ID and e-mail address <WJHR@usa.com> at 1704 UT. (Rich D'Angelo-PA-USA, DXplorer July 10)

WHRI Angel 2 relay weekly French program & Brother STAIR, July 7:

0500-0515 on 9825 HRI 250 kW / 047 deg to WCAf French Fr rlg px, very good

0515-0600 on 9825 HRI 250 kW / 047 deg to WCAf English Fr rlg px, very good

0600-0800 on 7355 HRI 250 kW / 047 deg to WCAf English Brother Stair

fair 5129.8 on July 13 at 0143 UT, WBCQ is very poor in summer noise level, but I can tell it's Allan Weiner with a 'Worldwide' playback.

7490.05 meanwhile, this being UT Thursday July 13 at 0144 UT, is still airing 'Hal Turner', who earlier in hour was gloating about someone stringing an anti-Democratic banner across I-95 near Baltimore; and also musing whether he would get enough financial support to continue his revived show.

9930 on July 12 at 1828 UT check, WTWW-2 is on with dead air instead of being completely off with no Dave Ramsey. 9475 kHz WTWW-1 is on with abnormal SFAW, while 12105 kHz WTWW-3 is still gone. (gh, hcdx and dxld July 13)

UZBEKISTAN - Extended transmission of Radio Free North Korea via RED Telecom:

1100-1300 15630 TAC 100 kW 76 deg to NEAs Korean, ex1200-1300

Frequency change of Voice of Wilderness via RED Telecom:

1330-1530 NF7625 TAC 100 kW 70 deg to NEAs Korean, ex7615 from June 26

North Korea Reform Radio via RED Telecom, June 27:

1430-1530 11570 TAC 100 kW 76 deg to NEAs Korean, good signal

(Ivo Ivanov-BUL, hcdx via wwdxc BC-DX TopNews June 27)

VANUATU - 7259.96 R. Vanuatu, June 26. Poor with QRN (static); 0554-0608 UT interview in vernacular (no break at ToH); Pacific Islands songs; 0629-0637 UT segment with intro and exit of drums; clear ID for "Radio Vanuatu." (Ron Howard-CA-USA, DXplorer via wwdxc BC-DX TopNews June 28)

Here are the loggings from Richard A. D'Angelo of Wyomissing, Pennsylvania, USA:

- 3240.0 SWAZILAND Trans World Radio – Manzini, 0315-0333 Jun 24, instrumental music followed by a man announcer speaking (for a long period of time) in the listed Shona language. Poor to fair.
- 3330.0 CANADA CHU – Ottawa, 1230-1240 Jun 11, tip from Dave Valko noting carrier but no modulation on this and //7850. Strong signal here and fair on // frequency.
- 6155.0 AUSTRIA Oesterreich Rundfunk – Moosbrunn, *0500-0513 Jun 29, woman announcer with German language opening station ID and announcements followed by news with various remote reports. Fair signal.
- 7295.0 FRANCE Radio Algerienne – Issoudun, 0423-0458* Jun 29, man with recitation followed by another man with Arabic language talks. Mix of short vocal selections and talks until closing vocal with carrier cut. Fair.
- 7360.0 VATICAN Vatican Radio – Santa Marie di Galeria, *0329-0352 Jun 11, IS followed by opening on listed Swahili language program. IS again at 0344 followed by Somali language station ID and program. Poor.
- 7425.0 IRAN Voice of Islamic Republic of Iran – Zahedan, 0011-0107 Jun 27, music followed by a man announcer with long Arabic language talk. Music programming from 0130 with music fanfare at 0100 and a man announcer with news. Poor to fair.
- 7505.0 USA WRNO Worldwide – New Orleans, 0346-0404* Jun 17, man announcer speaking in Chinese language. Woman closed Chinese program at 0400 with station ID and contact information which was repeated in the English language. This was followed by a man with closedown announcements inviting reception reports to <7505abcd@gmail.com> which is not the e-address in the WRTH. Carrier terminated while the man was providing announcements. Good signal.
- 9265.0 USA WINB – Red Lion, 0140-0153 Jul 4, man announcer with long religious talk in the English language. Id at 0145 mentioning "Red Lion" and another religious program followed. Poor to fair.
- 9420.0 GREECE Voice of Greece – Avlis, 0132-0246 Jul 4, man and woman announcers talking in the Greek language hosting a nice music program. Good signal.
- 9510.0 AUSTRIA Adventist World Radio – Moosbrunn, 0229-0300* Jun 7, instrumental music followed by a woman announcer with station ID ("This is Adventist World Radio, the Voice of Hope. The following program is in Punjabi."), flute music and Punjabi language program. Several IDs during program with closedown at 0257. Good signal with some QRM from Radio Romania International.
- 9550.0 AUSTRIA Adventist World Radio - Moosbrunn, 0342-0405 Jun 14, man announcer with Farsi language talk. Closed at 0358 but at 0400 a woman gave ID in English language: "This is Adventist World Radio, the voice of hope. For more information visit us at <http://awar.org>. The following program is in Turkish." Good signal.
- 9799.6 EGYPT Radio Cairo – Abis, 2147-2225 Jul 8, local vocals followed by time pips at 2215, station ID and woman announcer with news in listed English (because of awful modulation almost impossible to understand). Fair to good signal, however.
- 9900.0 MOLDOVA, Trans World Radio Africa – Grigoriopol, 0108-0130* Jun 27, Hindi language program with long religious talk followed by station ID and closedown announcements. Another Hindi language program followed with more religious talks and some music. Station ID and closedown announcements followed by IS until carrier cut. Fair.
- 11600.0 CLANDESTINE Denge Kurdistan – Grigoriopol, 1950-2027 Jul 3, man announcer with talk in the Arabic language followed by brief instrumental music and talk by a woman announcer. News at 2000 with various remote reports. Fair.
- 11730.0 VATICAN Vatican Radio – Santa Marie di Galeria, 0105-0127 Jun 14, man announcer peaking in the Tamil language over flute music. Later a man and woman talking. Closed at 0118 followed by familiar IS and opening of listed Malayalam language program. Fair.
- 11735.0 ZANZIBAR Zanzibar Broadcasting Corporation – Dole (presumed), 2104-2130* Jun 30, non-stop program of vocals until carrier terminated. Apparently, running late. Poor to fair.
- 11860.0 CLANDESTINE (Yemen) Republic of Yemen Radio - Jeddah, 0344-0422 Jun 23, nice program of Middle Eastern continuous vocal selections. Fair to good signal.
- 11885.0 ALASKA KNLA – Anchor Point, 1231-1300* Jun 5, thanks to a Dave Valko tip, heard on this channel //11870 (poor) with several IDs including New Life Station and various religious features in English language service on this unlisted channel for this time. Poor to fair.
- 12050.0 CLANDESTINE (Nigeria) Radio Dandal Kura – Ascension or Woofferton (?), 2046-2059* Jul 8, although channel was dominated by WEWN, I could hear a man announcer speaking in listed Kanuri language underneath. Vocal selection at 2056 followed by a woman announcer with closedown announcements.
- 15140.0 OMAN Radio Sultan of Oman – Thumrayt, 2136-2216+ Jun 17, thanks to Paul Walker tip noted with good signal and apparent Ramadan programming as went past usual sign off time. Man with Arabic language talks hosting music program.
- 15205.0 SAUDI ARABIA Broadcasting Service Kingdom of Saudi Arabia – Riyadh, 1607-1628 Jun 10, man announcer with Arabic language talks followed by recitations. Fair signal.
- 15245.0 CHINA China Radio International – Kashi, 1547-1558* Jun 23, woman announcer with talk in the English language followed by short musical interlude and closedown announcements. Poor signal.
- 15255.0 ENGLAND Radio Free Europe / Radio Liberty – Woofferton, 1558-1600* Jun 23, tuned in to catch a man announcer in the listed Turkmen language with close for a program segment followed by nice instrumental music and a woman announcer with closing announcements. Fair to good.

- 15540.0 KUWAIT Radio Kuwait – Sulaibiyah, 1848-2100* Jun 30, male rap tune followed by the daily feature program "This Day in History" in English. More pop music from 1902 until feature program "Stories from the Holy Quran" from 1908. Closed with news summary followed by music, time pips at 2100 and opening of Arabic language program that was soon terminated. Good signal for the most part although the noise level increased during last thirty minutes of listening.
- 15555.0 USA WJHR Radio International – Milton, 1653-1715 Jul 8, found this with labored signal and apparent operation in upper and lower side band with English language religious program with nice ID and e-mail address (<WJHR@usa.com>) at 1704.
- 17640.0 MADAGASCAR MWV African Pathways Radio – Mahajanga, 1838-1850 Jul 8, man announcer with long religious talk in the English language followed by a choir vocal selections. Either closedown early or transmitter problem at 1850. Poor to fair in noisy conditions.
- 17855.0 SPAIN REE – Noblejas, *1758-1834 Jul 8, IS followed by Spanish language opening ID and announcements by a man followed by the news. Another station ID at 1807 followed by another male announcer with talk and various features. Fair.
