DX MAGAZINE No. 4

Vol. LIII

April 2018

Hello again,

Welcome to another issue of our DX MAGAZINE. I have no news to report from inside the club this month - therefore let's just start with our usual news from outside the club - only one item in German this month:

Am Samstag, 12. Mai 2018 findet ab 12.00 Uhr MESZ im Ristorante Pizzeria Toscana (Schützenhaus Ottenau - Telefon 07225-981018) am Schießstand 1 in D-76571 Gaggenau-Ottenau das **37. überregionale DX-Treffen** für Kurzwellenhörer und Freunde des Rundfunkfernempfangs statt. Verbunden wird dieses Treffen wieder mit dem Hörertreffen des Radio Taiwan Hörerklubs Ottenau.

Zu dieser Veranstaltung sind natürlich alle Kurzwellenhörer, DXer und Freunde des Rundfunkfernempfangs sehr herzlich eingeladen, unabhängig einer Klubmitgliedschaft.

Auf dem Programm des Treffens steht ein Rückblick auf die wichtigsten kurzwellenbezogenen Ereignisse in den letzten 12 Monaten in unserer Region, aktuelles über die Kurzwellenausstrahlung von Radio Taiwan International von Redaktionsleiterin Frau Chiu Bihui, RTI-Intendantin Frau Ping LU und Vizemanager der RTI-Programmabteilung Herrn Carlson HUANG, sowie die traditionelle Tombola und das bekannte Stationsquiz.

Durch eine Telefonschaltung ist auch wieder die deutsche Redaktion in Taiwan mit den Teilnehmern des Treffens verbunden und berichtet in ihrer Sendung am 18. Mai von diesem Hörertreffen.

Wie in jedem Jahr geben wir auch diesmal wieder einen Ausblick auf weitere bevorstehende Hobbyaktivitäten. Auch die Mitglieder weiterer DX-Clubs wie ADDX, AGDX, RMRC, Radio Tirana Hörerklub, WWDXC, Radio Japan Club Brilon und CRI Club treffen sich in Ottenau. **(Bernd Seiser)**

And with this best wishes and good DX until next month from

 (Ivo Ivanov-BUL, hcdx and dxld via wwdxc BC-DX TopNews March 25)

NOTE: this is NOT a complete schedule. The 12-13 UT English is normally on both transmitters, and HFCC confirms the other one remains on 7355 kHz, which Ivo has omitted. Also note the generally lower frequency bands this summer compared to last summer. This may be tricky from the Land of the Midnight Sun (almost).  
 (gh, hcdx)

**ALBANIA / CHINA** - In Summer 2018, the Cerrik relay station of CRI uses the same schedule as in Summer 2017.  
 E. g. in English:

0000-0200: 6020, 9570 (300 kW, 305°)  
 0500-0700: 11710 (150 kW, 140°)  
 0700-0900: 13710 (150 kW, 310°)  
 1100-1300: 13665 (150 kW, 310°)  
 2000-2200: 5960, 7285 (150 kW, 310°)

Listening to the content, the US-Sino-trade war features very prominently. The English service has obviously asked its correspondents to gather "independent material" on the conflict. Quite a number of academics and trade representatives from the US and other western countries voice their concern about the Trump decision. Practically, any good can be used to show the self-inflicted detrimental effects of the steel/aluminium war of the US. One of the stranger examples: What about the US economy, if the middle class masses of China do without US luxury goods? (Dr. Hansjoerg Biener, extensive monitoring project 30 and 31 April on China Radio International and other stations)

**ANTARCTICA** - 15475.97 kHz, LRA36, Radio Nacional Arcangel, San Gabriel, at Base Esperanza, 1800- UT, non stop Latin American songs "Boleros", weak to very weak on both and with fading. Improving signal, carrier detected here in Lugo at the moment, but the best time to catch it here is about 2000-2100 UT.

LRA36 Radio Nacional Arcangel, San Gabriel, Base Esperanza, on air for the first time this year.  
 Station heard via SDR Kiwi Paraguay, both 15475.97 kHz.  
 (Manuel Mendez-ESP, hcdx via wwdxc BC-DX TopNews March 22)

**ARMENIA** - All frequencies of 'V. of Welat - Denge Welat' or ex 'Radyoya Denge Kurdistan' via CJSC Yerevan / Gavar are cancelled from March 29 or 30:

0230-1530 4810 ERV 050 kW non-dir to WeAs Kurdish  
 0230-1600 7520 ERV 100 kW 192 deg to WeAs Kurdish  
 1500-2100 1395 ERV 500 kW ??? deg to WeAs Kurdish 180deg? Zarya ant?  
 1600-2100 7320 ERV 300 kW 280 deg to WeAs Kurdish  
 (Ivo Ivanov-BUL, hcdx via wwdxc BC-DX TopNews April 1)

'Denge Welat' oder früher 'Radyoya Denge Kurdistan' Änderung: hat die Test-Offrierung von CJSC Gavar möglicherweise ausgeschlagen. Diese Aussendungen aus Armenien zeichneten sich durch einen verzerrten metallischen Audio Klang aus. Jetzt klingt das Programm wieder KW-like Audio annehmbar, der reservierte Sendeplan in HFCC database:

**SOUTH SUDAN (non)** - VoA South Sudan in Focus (<<https://www.voanews.com/z/1465>>) not only provides information on South Sudan in English, but also on the region. However, the frequency information at <<https://www.voanews.com/z/1465/about>> is outdated. In fact, the program, which provides important insights into the (sometimes terrible) fate of the region, is broadcast according to the following schedule:

1630-1700: 11910 (RSA 100 kW, 0 °) 13750 (UAE 250 kW, 255 °) 15180 (LAM 250 kW, 132 °) Mo-Fr

South Sudan in Focus is no longer broadcast via Santa Maria di Galeria.

In an audibility project, the frequencies from Germany (Lampertheim), South Africa (Meyerton) and the United Arab Emirates (al-Dhabbyya) varied in reception.

(Dr Hansjoerg Biener 31 March 2018)

**SPAIN** - REE Noblejas shortwave observed March 28 in 20 to 21 UT range - here in southern Germany as follows:

15390 kHz poor and tiny S=6 at 2025 UT, disturbed audio as always in the past months.

15520 kHz well heard transmission quality on S=8-9 level at 2010 UT.

17715 kHz Best signal level here in central Europe and western England remote SDR installation also.

S=9+10dB and noted Time Pips signal on exact 2030 UT underneath talk interview of two men.

11.4 kHz wideband signal visible on screen.

17855 kHz Fair S=7-8 signal, talk interview at 2020 UT.

Unscheduled transmission of WRNO Radio in A-18 on April 2:

till 0623 7505 RNO 50 kW 20 deg to ENAm English  
from 0623 7505 RNO 50 kW 20 deg to ENAm Chinese

Previous summer A-17 schedule of WRNO in English/Chinese:

0100-0300 7505 RNO 50 kW 20 deg to ENAm English  
0300-0400 7505 RNO 50 kW 20 deg to ENAm Chinese  
(Ivo Ivanov-BUL, hcdx via wwdxc BC-DX TopNews April 2)

In a recent QSL, KIMF World Missions say they will start shortwave transmissions in the USA later this year on a frequency of

6065 kHz beamed to Mexico,  
13570 kHz beamed to Cuba and  
9300 kHz beamed to Asia.

(Patrick Cody, 25 Feb, March BrDXC-UK "Communication" magazine via dxld March 13)

Registered in the HFCC as KIMF with transmitter location at Beowawe, Nevada.

?? What was there to QSL as of yet?? KIMF has been registering imaginary schedules for years and years.

HFCC A-18 shows about the same for IMF:

6065 0100 0600 10 50 138 0 901 1234567 250318 281018 Spa FCC 1176  
 9300 0800 1200 44 100 313 0 901 1234567 250318 281018 Eng FCC 1246  
 13570 0000 0400 11 100 108 0 901 1234567 250318 281018 Spa FCC 1383

Does this mean they will have two transmitters, a 50 and a 100 which can run simultaneously at 0100-0400 UT?  
 Not necessarily. As we have explained before, Beowawe is between Battle Mountain and Elko, just south of I-80.  
 Anyone traveling by there should check out what is to be seen.

(gh, hcdx and dxld March 13)

Dear Friends,

Welcome to the April edition of Logbook for this year.

During the last week of March I was on a vacation to Varadero in Cuba.

I decided to carry my radio on this trip and the first thing that happened was the inspection of the radio by Cuban customs at the Airport.

I realized that radio still plays an important role in this country for international news where internet is still not widespread and very expensive.

The two main broadcasters besides Radio Habana are Radio Rebelde and Radio Progreso both of which have

a footprint on shortwave as per WRTH 2018. I could not listen to Radio Progreso on shortwave but both these stations have lot many relay transmissions on MW and FM via local stations throughout Cuba.

The new MW transmitter of TWR Bonaire on 800 kHz can be heard loud during their 3 hour Spanish broadcast to Cuba. But they switch antennas due to to which their English broadcast preceding this 3 hour slot and their Spanish broadcast to Caribbean thereafter cannot be heard in Cuba.

Radio Marti can be heard good though sometimes an occasional jammer kicks in and goes. Many US radio stations on MW from Florida and adjacent US states can be heard on channels where no local Cuban stations are present. Early morning I observed that Radio Bahamas on MW fades in for an hour before sunrise with good signal.

I have included my loggings above.

Thanks to our regular contributors,

*Ashok Kumar Bose*
