DX MAGAZINE No. 5

Vol. LVI

May 2021

Hello again,

Welcome to another issue of our DX MAGAZINE. Below please find our usual news from inside and outside the club for this month:

As we have already reported last month, **Texas Radio Shortwave (TRSW)**, will have a programme with special greetings to WORLDWIDE DX CLUB in its June programme, featuring Stevie Ray Vaughan's music. A special eQSL will be available to WWDXC members who send a report for their programme via Channel 292 on June 19th at 08:00 UTC on 6070 kHz and at 17:00 UTC on 3955 kHz and who self-identify as club members.

During the programme they will also air an SSTV image with the WWDXC logo at minute 27:10.

A sample of the special eQSL card can be found on page 2 of this DX MAGAZINE.

If you are not able to receive Channel 292 on your shortwave receiver, you will be able to hear it via Twente SDR. For 6070 kHz, please click <http://websdr.ewi.utwente.nl:8901/?tune=6070am> and for 3955 kHz please click <http://websdr.ewi.utwente.nl:8901/?tune=3955am>. *Please do not forget to mention that you are a member of WWDXC, when you submit your reception report to: <texasradiosw@gmail.com>*

As we have mentioned already last month, their 2021 Master Program Schedule can be downloaded from https://www.wwdxc.de/download/TRSW_2021.pdf.

And with this best wishes and good DX until next month from

re Radio Habana Cuba on 6000 kHz, 8th Communist Party Congress and Radio La Habana station 60th Anniversary.

Recorded 6000 kHz today (17 April) starting around 01:50 UT. Good signal into New Brunswick-CAN but a little hummy and inconsistent modulation.

Continuous repeat hourly broadcasts until sign-off at about 06:02 UT. Special programming on the occasion of the 8th Cuban Communist Party Congress during which Raul Castro has announced he is stepping down as first secretary. It was also mentioned during the program that today was the 60th anniversary of the existence of Radio Habana, which started broadcasting on 16 April 1961 and was mentioned in a speech by Fidel Castro on 17 April 1961. The station was officially launched on 1 May 1961. The transmitter came back on today at about 11:00 UTC in Spanish. (Richard Langley-NB-CAN, WOR April 18)

JAPAN - 5935 kHz Opposition / Target Radio stn, 'Shiokaze/ Sea Breeze' via JBC Ibaragi-Koga-Yamata station at 1325 UT. Monologue with W in Korean and familiar piano music toward the half hour mark. On the half, a reset with the piano music and other familiar sounds. Heard well here over DPRK beeper jammer (the 6040 kHz sounded unjammed) - Very Good April 21. (Rick Barton-AZ-USA, WOR April 21)

KOREA D.P.R. - Summer A-21 frequency change of 'Echo of Unification'. Very good signal, April 18:
 1200-1400 NF3945 PYO 100 kW non-dir to NEAs Korean, ex6250 kHz, via SDR Kanuma Tichigi-JPN KIWI_net.

MADAGASCAR - 11965 kHz African Pathways Radio via MWV New Life Station, Mahajanga-MDG, at 2045 UT. Heard on barefoot Grundig Satellit 205, raising S-meter just over halfway up. Religious lecture, interesting (African?) vocal music, closing anmt & off at 2057 UT - Good May 1.

11610 kHz World Christian Broadcasting / Light of Life, Mahajanga-MDG at 2030 UT. Monitored on ATS 505, 16' vertical. Signal fully lighting up the green tuning eye. M in Chinese, pres. religious lecture. We note this offshoot of KNLS is almost always talk, no music mixed in like the other broadcasts. Off on the hour. - Good May 1.
 (Rick Barton-AZ-USA, via Mark Coody-USA, WOR May 1)

MYANMAR / CHINA - 6165 kHz. Thazin Radio, Phin Oo Lwin, well heard under CNR-6 at 1145 UT, April 13. Thazin Radio with exotic rural chanting while China in long talk by OM and YL. But when China plays mx, the Burmese station is mainly obscured. By 1205 UT, both signals improving and Burma quite discernible with rustic-sounding chant while CNR's OM and YL read nx in Chinese.

6165 kHz - presumed Thazin Radio, Phin Oo Lwin, Myanmar, coming up underneath CNR-6 at 1130 UT. Thazin Radio with YL in vernacular with nx program while China with musical program for kids. Both today with woman ancr, making it a little messier but can still easily keep them apart. At 1142 UT, Thazin Radio seems gone or abruptly faded down to almost nothing.
 (Ralph Perry-IL-USA, naswa flashsheet April 18, via gh WOR)

6165 kHz CNR 6 - Matoucn (Beijing RTC tx center #491) & Thazin Radio - Phin Oo Lwin (P), 1148 UT on April 14 in Mandarin / Burmese. CNR 6 with mostly talk by a man with occasional comment by woman announcer on top. Thazin Radio with very nice choral singing, brief comments by a man into a Burmese ballad clearly audible under CNR 6. Fair. (Mark Taylor-WI-USA, naswa flashsheet April 18, via gh WOR)

NEW ZEALAND - 15720 kHz Radio New Zealand Pacific, w/BBC WS programming, including tx re power hand-off in Cuba, silly sports news about the futbol shake up in Europe, and discussion of other current event type topics in "NewsHour".

Then RNZI ID and mention they were 'leaving' the BBC WS and returning to RNZ National w/a 'panel' talking re human long-distance running including the old joke about 'if a lion is chasing you, you don't need to outrun the lion, you only need to outrun your slowest human companion. Also tx re speed-bumps in Auckland and other 'general interest' type topics. News headlines at :32 etc. News at ToH but starting to fade by then 34+444 at first, down to 2+4342+ by end. 0415-0505 UT on 20 April. (Zichi-MI-USA, WOR April 23)

PHILIPPINES - 9275 kHz FEBC Bocaue / FEBC i-Radio Liangyou, 100kW 345degr at 1745 UT. Fair at best on Drake tabletop and outdoor longwire. Talk (Korean language), mix of music, ID'd by familiar tuning signal played at just before 1600 UT close - Fair to Good signal April 21. (Rick Barton-AZ-USA, WOR April 21)

ROMANIA - Dear friends, Radiocom, the company that provides transmission services, has announced that two of its five transmitters that broadcast Radio Romania International programs are out of service, one in Tiganesti (near Bucharest), and another in Bacau Galbeni (east of Romania). Many shortwave frequencies are affected and RRI programs are not broadcast in Romanian, English, French, German, Spanish, Russian, Arabic and Chinese.

Radiocom has assured that it is making efforts to remedy the technical failures. We will keep you informed of the situation and invite you to listen to our programs on functional frequencies, on our website (even on demand), on applications or via satellite. Saving the Voice of America Delano Relay DL-8

One Megawatt of Peak AM Power.

In 2007, the Voice of America ceased operations at the Delano Relay site in Central California. The site is destined to be bulldozed along with several relics of Collins Radio Company's Broadcast Communications Division.

The Collins Collectors Association, with assistance from the Antique Wireless Association, hatched a plan to retrieve one of the Collins 821A-1 250 kW Shortwave Transmitters from the site and place it on display for all to see. This presentation gives some history of VoA and the Delano site and follows the disassembly and relocation of Delano Relay DL-8.

Dennis Kidder, W6DQ, is a retired Aerospace Engineer, having spent nearly 45 years in System Engineering. His career spanned many fields - from building and operating large scale sound systems, computer systems used to publish newspapers and control communications satellites, 4 years as the Chief Telecom Engineer during the construction of the New Hong Kong International Airport, and finally, air defense radar systems and networked radio communications systems used by the military.

First licensed as WN6NIA then WA6NIA over 50 years ago, Dennis was granted the callsign of one of his High School Elmers, Chek Titcomb (SK), W6DQ. Amateur Radio has been a nearly life-long passion.
