DX MAGAZINE No. 2

■ Vol. LX ■

February 2025

Hello again,

Welcome to the February edition of our DX MAGAZINE. This month I have nothing to report from outside our club - only my repeated request for a new NEWS EDITOR.

As I have informed you earlier, our long time NEWS EDITOR Walter Eibl has resigned in March 2024. **Therefore we still need a new NEWS EDITOR as soon as possible. If you are able and interested to become our new NEWS EDITOR, please do not hesitate to contact me. I shall support our new NEWS EDITOR with all news material we get from our members, from other DX clubs and from radio stations.**

And with this best wishes and good DX until next month from

## NEWS ABOUT BROADCASTING (+other) STATIONS

**ALBANIA/GERMANY:** Radio Tirana Listeners' Club closes after 32 years of existence.

Germany-based Radio Tirana Listeners' Club (Radio Tirana Hoererklub) closed on December 31, 2024.

The Club was founded on January 1, 1993 with the aim of supporting Radio Tirana in the difficult period after the end of the dictatorship with materials, especially QSL cards and program leaflets. Most of the almost 100 QSL motifs can be found at <<https://www.wwdxc.de/rthk/html/qsl.html>>

RTHK organized two listeners' meetings in Vienna in the early years as well as a trip to Albania in 2010. During its existence, the club issued 85 newsletters.

Source: RTHK farewell newsletter: <<http://rthk.agdx.de/Rundbrief-85.pdf>>

P.S. Hopefully, ex-members will keep maintaining RTHK's volunteer-run Radio Tirana's online stream at <<http://79.106.48.2:8000/rti>>

The schedule can be found here: <<https://drive.google.com/file/d/1nVNnGa28VijV6wUw9yo6k3XEZrv9MIR3/view>> or at <<https://www.wwdxc.de/rthk/html/sendeplan.html>>

Since 2017, Radio Tirana no longer broadcasts from Albania on either MW or SW; relays via WRMI Florida and Germany's SWS were also discontinued in 2022.

P.P.S. Sadly enough, there was no farewell program from RTHK on SW (at least with relay of Radio Tirana). (Alexander Miatlikov-Dnipro-UKR, wor Jan 15)

**ALGERIA:** 13855 kHz Mon, Jan 13 at 2130-2140 UT, Ifrikya FM, Ouargla-ALG, in French this log. Woman/man announcers present news; 2134 UT Music; 2135 UT ID and a conversation between the presenters. Fair reception:

45533. (Jota Ronaldo Xavier-Cabedelo-Paraiba-BRA, hcdx Jan 13)

13885 {sic, rather 13855 kHz instead, WB.} ALGERIA Ifriky FM, Berkaoui Ourgia{sic, Ourgla} site, 2315 kHz, Dec 27. French news type monologue by male announcer in French. // 13640 kHz Bechar site, both transmitters with the same moderate signal level.

(Brandon Jordan K2SWL, TN, via NASWA Electronic Flashsheet #1186 Jan 12)

**ARMENIA:** re: **TWR** broadcasts via Gavar Armenia on MW 864 kHz. Trans World Radio cancelled broadcasts on 864 kHz (1000 kW, Yerevan Gavar - Noratus, Armenia) from January 1.

Source: <[https://vk.com/wall-158109176\\_3835](https://vk.com/wall-158109176_3835)>

From the start of A24 season, the schedule was 1710-1725 UT in Turkmen, 1725-1740 UT in Kazakh and 1740-1755 UT in Karakalpak. Radio Liberty left that frequency on March 30, 2024 (1430-1530 UT in Russian).

Those transmissions were moved to 1377 kHz, so the schedule on that frequency is, in UTC:

1710-1725 Turkmen

1725-1740 Kazakh

1740-1755 Karakalpak

1800-1930 Persian

1932-2047 Ukrainian

(Alex Miatlikov Dnipro-UKR, direct via Jan 8)

One of the two 350 kW TRAM transmitters that broadcast the Europe 1 programme from Saarlouis 183 kHz until 2019 is back in operation in Noratus on LakeSevan {or better known as Yerevan Gavar MW centre site of former R Moscow USSR radio, WB.}.

The transmitter now replaces a Soviet Borey transmitter on 1377 kHz. It is connected to a directional antenna system (-67, 127, 247 degrees) from Kintronic Labs {from 2006, WB.} and currently broadcasts religious programmes from Trans World Radio to Ukraine, Central Asia and Iran. The transmitter was previously converted for medium wave by the Broadcasting Centre Europe.

(Radio Magazine F\_B via [mediumwave.info](http://mediumwave.info); via Dr. Hansjoerg Biener-D, Radio-Kurier News March 2025; Febr 1)

The target broadcast to Eritrea from **Radio Erena** is heard daily on 9585 kHz between 1700-1800. It is brokered by Encompass and relayed via Gavar in Armenia. When the programme ends just before 1800, the Encompass signature tune cuts in for a few seconds followed by the start of NHK World Japan in Persian, before it is abruptly cut. The NHK World Japan broadcast is actually scheduled to go out from Gavar on mediumwave 1395 kHz instead from 1800. By contrast, on 1395 kHz the feed for Radio Erena often cuts in prior to 1800, followed by the Encompass signature tune, before NHK World Japan in Persian starts up as scheduled. So Radio Erena and NHK World Japan can be briefly heard unexpectedly on both 1395 and 9585 kHz!

(Tony Rogers <[dxguides@gmail.com](mailto:dxguides@gmail.com)> in DX GUIDES, Jan 19)

**ASCENSION ISL.:** 12050 kHz {target radio} 'Radio Ndarason International' via Ascension Islands at 0740 UT. In progress at tune-in with interesting ethnic vocal music. A lot of pounding drums, wind instruments, and chanting; woman presenter in (listed) Kanuri lang. Really strong, heard with indoor wire fed to SW-2000629. Broadcast directed to African Lake Chad region. Very Good on Jan 16.

(Rick Barton, Sun City-AZ-USA, NASWA Electronic Flashsheet #1188 Jan 26)

12050 kHz {target radio} Radio Ndarason International via BBC site and ENC operated Ascencion relay (or ENC-Woofferton-UK, also listed?\*), 1950 UT on Jan 24; good signal with OM talks in Kannuri and thank goodness, heard in absence of EWTN Vandiver. Both stns usually there at this time and on a direct zero beat, so one can pleasantly listen to Ndarason but must apply what ECS used to call "the cerebral filter". This should continue improve all the way to listed -2100\* UT.

(Ralph Perry, Wheaton-IL-USA, NASWA Electronic Flashsheet #1188 Jan 26)

\* both ENC sited involved, split 18-19 resp. 19-20 UT as follows:

12050	1800-1900	UT	46SE	WOF	250	152	12	618	Kau	G	ENC	ENC	2280
12050	1900-2100	UT	46SE	ASC	250	65	0	547	Kau	G	ENC	ENC	2279

**ASCENSION ISL./UNITED ARAB EMIRATES:** 7285 kHz at 0555- UT, BBCWS Jan 19 Several frequencies available during this hour. 7285 kHz is fair/good, // to another Ascension transmitter, 9410 kHz (good/very good) 125 kW / 27 deg. Both with a rumble audible. Also // 17690 via Abu Dhabi media ENC operated UAE Dhabayya with 250

kW / 215 deg, at excellent level.  
(Volodya Salmaniew-Masset-BC-CAN, wor Jan 19)

**AUSTRALIA:** 17650 kHz 2259- UT Reach Beyond Australia Jan 22. Listed in Japanese, but with an English language program. Signed off with time and frequency information, and confirming time in Japan, all in English. Transmitter cut a few seconds after 23:00 UT.  
(Volodya Salmaniew-Masset-BC-CAN, hcdx Dec 26)

### **AUSTRIA: ORS shortwave transmitter ORS Moosbrunn is history**

On 28 January, and three days earlier than announced, a targeted blast put an end to the mighty rotating antenna of the ORS shortwave transmitter in Moosbrunn near Vienna. ORS has thus completed the final dismantling work at the Moosbrunn shortwave transmitter site. The site will now be handed back to ORF.

The transmitter station, which was built from the 1950s onwards, played an important role in the broadcasting of Radio Austria International (ROI) to Australia, New Zealand, Russia, China and the Middle East, particularly during the Cold War.

With the emergence of other technologies for broadcasting radio programmes, such as satellite broadcasting and internet-based transmissions, shortwave broadcasting became less important.

Until 31 December 2024, the shortwave transmitter still served some international radio customers by lease.

Shortly before the demolition, Bernhard Boneberg launched a petition on the Internet platform change.org to preserve the transmitter. Around 2,600 people had signed the petition by the time the circular went to press. It was unsuccessful - even though the petitioner emphasised the transmitter as an important technical structure and argued that it was a loss to Austria's cultural and technical heritage [1].

(DARC Deutschland-Rundspruch 4/2025, 5. KW, via wb df5sx Jan 30)

**BENIN:** The Protestant missionary station Trans World Radio broadcasts the following programmes on the medium waves Parakou 1476 and 1566 kHz:

#### **1476 kHz**

Mon-Fri 0419-0530 Haussa, 0530-0646 Igbo  
Mon-Fri 1756-1935 English  
Sun 1826-1918 English, 1918-1936 Hausa  
Sat 1826-1931 English

#### **1566 kHz**

Mon-Fri 1916-2240 hrs:  
1916-1946 Twi  
1946-1955 Music  
1955-2010 Mon Dendi, Tue Senoufo, Wed French, Thu Bambara, Fri Kisili  
2010-2025 Mon Fongbe, Tue Mi Senoufo, Thu Bambara, Fri Kisili  
2025-2055 Fongbe  
2055-2110 Mon Dendi, Tue Mi Fongbe, Thu Baatonum, Fri Zarma  
2110-2140 Baoule  
2140-2155 no language entered  
2155-2210 Mon Bete, Tue Baoule, Wed Goun, Thu Fulani, Fri Zarma  
2210-2240 French

Sat 1955-2140: 1955 Ditamari, 2010 Jula, 2025 Tamashaq, 2040 Bambara, 2125 Mina

Sun 1955-2210: 1955 Lukpa, 2010 Twi, 2025 Dendi, 2040 Baatonum, 2055 Bambara, 2135 French.  
(Dr Hansjörg Biener-D, Bieners Radio-Kurier Weltschau Febr 2025 Jan 14)

**BOLIVIA/PERU:** CORRECTION: Radio Logos, Chazuta, mentioned under "Bolivia" last month, is actually located in PERU.

(Helmut Matt, Germany - Jan 19)

**BOTSWANA :** 9775 kHz at 0300-UT, VOA Jan 19. Excellent reception in English via USAGM Botswana relay center,

and // to 4930 kHz (good) also from Botswana with 100 kW / 20 deg, and 6080 kHz (fair) also from Botswana with 100 kW / 350 deg.

15580 kHz at 0545-UT, VOA Jan 19. Excellent level with English VOA programming. VOA from USAGM Botswana relay is always a good performer into Masset Canada, even though it's over 16,000 km away!.  
(Volodya Salmaniew-Masset-BC-CAN, wor Jan 20)

**BRAZIL:** 15190 kHz Fri, Jan 17, 2025. 0045-0100 UT, **Radio Inconfidencia**, Contagem-MG, in Portuguese. Man announcer presents a musical program "Flashback Inconfidencia"; 0058UT He says Callsign and Station ID. Belongs to Rede Inconfidencia de Radio. Poor reception: 25422.

Note: Returns on-air after a long time out in my area.

15190 kHz Fri, Jan 17, 2025. 2330-2340 UT, Radio Inconfidencia Contagem-MG, in Portuguese. Man announcer and collaborators present a sport program w/ news of the football local, regional and Brazilian championships; ID. Poor reception: 35522.

(Jose Ronaldo Xavier-Cabedelo-PB-BRA, wor Jan 17)

11750 kHz **Radio Voz Missionaria**, Camboriu SC, Jan 31 at 2150 UT. Christian songs, ID. 'A Voz do Brasil' on 2200 UT. 45554. \*Target: Brazil. According to information from Radio Voz Missionaria, the transmitters and respective antennas that operate at frequencies of 5940 and 9665 kHz are undergoing maintenance services, with no set return date.

(Rudolf Grimm, Sao Bernardo Ibiuna SP Brazil, hcdx Febr 5)

Reply to my recent obs: "Radio Voz Missionaria, Camboriu:

"Hi Glenn, Radio Voz Missionaria announced last week that its transmitters and antennas at 9665 kHz and 5940 kHz would undergo technical maintenance, which is why these frequencies would be off the air for the time being.

I hope that, especially, the frequency of 5940 kHz will be 'purified' of its spurious signals above and below its usual frequency, which greatly interfered with reception on some other frequencies.

73, Rudolf Grimm, Sao Bernardo SP, BRAZIL".

(Glenn Hauser-OK-USA, hcdx & wor Febr 7)

6149.96 kHz **Radio Saturo**, Sao Paulo, 0230 UT, Dec 28. Possible Radio Saturo ID caught right at tune-in followed by Dancing in the Moonlight by Orleans the Julio Iglesias song. Poor to fair.

(Brandon Jordan K2SWL, TN, via NASWA Electronic Flashsheet #1186 Jan 12)

11780 kHz **Radio Nacional da Amazonia** in Port to domestic Brazil, January 7, 2025, 2317-2325 UT. SIO 545. Enthusiastic OM announcer probably with a soccer game sportscast. YL with Latin POP MX joins at 2321 UT. Excellent signal, easy listening. More Latin MX follows.

(Vince Henley-WA-USA, via NASWA Electronic Flashsheet #1186 Jan 12)

**BULGARIA:** The Bulgarian National Radio (BNR) offers two series of QSL cards for 2025. Celebrating the beauty of Bulgaria. The first set features 6 postcards highlighting famous landmarks, while the second set showcases 12 lesser-known, picturesque locations across the country.

These cards are available to listeners who submit reception reports, with each card reflecting a different part of Bulgaria's rich heritage.

For more details, visit the full article:

<[bnr.bg/en/post/102104342/the-bnrs-qsl-cards-for-2025-present-the-beauty-of-bulgaria](http://bnr.bg/en/post/102104342/the-bnrs-qsl-cards-for-2025-present-the-beauty-of-bulgaria)>  
(Yimber Gaviria-CLM, via RUSdx #1326 via wwdxc BC-DX TopNews Jan 26)

re: Bulgarian National Radio's QSL cards for 2025.

Important notice: This station verifies reports even for online listening, which is not OK for many, but that's a different story. The series of 6 QSLs are for online listening, while that of 12 QSLs is for their MW frequency 576 kHz (Vidin, 200 kW) and FM.

(Alexander Miatlikov-Dnipro-UKR, wor Jan 22)

**CHINA:** Over the past few weeks of monitoring of CRI, I note that just as CRI has the music only German, Hungarian, Polish, and Portuguese transmissions, a similar thing has occurred to their Russian output. While it has not gone all-music, they seem to be repeating a feature about tofu and its history, certainly on an every hour basis between 1200 UT to 1600 UT every day on all frequencies.

The only exception is New Year greetings from Xi. All that seems quite stupid to me as they could at least relay CGTN Russian TV channel audio on SW. However, if they can afford repeating the same stuff, let it be.  
 (Tony Pavick-Hope BC-CAN, wor Jan 22)

CRI Romanian, Czech, Bulgarian, Serbian, Croatian are also music-only. CRI Albanian relays Radio Ejani, their Albanian project, which is also present in Albania on FM. <<https://www.facebook.com/CMGShqip>>  
 (Alexander Miatlikov-Dnipro-UKR, wor Jan 22)

Re: The return of the "Firedragon" music jamming. I noticed that it seemed to have been replaced by CNR-1 for the longest time. It will be interesting track where it shows up again.  
 (Tony Pavick Hope-BC-CAN, wor Febr 1)

We just heard the first Firedrake / Firedragon jamming music station in many many months on 11590 kHz, just in its last two minutes. There were CNR type pips at 1600 UT and off. Huge China powerhouse signal. This fqy is listed used by Radio Free Asia, so that is likely the reason for the jamming. Those interested may want to check this channel tomorrow. (Rick in Arizona-USA, wor Febr 1)

**Voice of Xinjiang** also comes on in English at 1600 UT on 4905 kHz, 4920 kHz and sometimes on 6200 kHz as well. Which is generally a repeat of their 0700 UTC broadcast on those frequencies but also 9490 kHz which I have heard from Dimapur or Delhi kiwi on the SDRs located there.  
 (John Perry-USA, wor Jan 7)

6165 kHz **CNR6 Voice of Shenzhou** (Divine Land per Wikipedia) via Beijing Chaoyang. 1135 UT t/in with ballads, soft-spoken but occasionally long-winded M+W; weak as fading in; F at 1215 UT recheck. // 11775 kHz via Nanning, with better signal, G but flutter. Reportedly the second service to Taiwan, along with CNR5 Cross-Strait Radio. 31 Jan.  
 (David Potter Gainesville-FL-USA, wor Febr 2)

7335 kHz **CNR2** via Baoji Sifangshan, Shaanxi per EiBi database. 2345-2400\* UT Distinct Chinese M and W at times. Fairly weak signal here, // 6000 UT Xian, Shaanxi, equally weak. 5+1 pips at TOH, then presumed off as listed, or lost in the mud. So, that's a fifth frequency heard here from CNR2 in the 2300 UT block, including 6000, 6065, 7370 and 9820 kHz. 30 Jan.  
 (David Potter Gainesville-FL-USA, wor Febr 2)

9890 kHz **CNR13 Uighur Radio** via #725 site at Lingshi, Shaanxi bcast center. Likely the one heard 2305-2315+ UT, naturally in listed Uighur. W-F. Weaker at 2330 UT check. Spoken word program on 6 Febr 2025.  
 (Glenn Hauser-OK-USA, hcdx & wor Febr 7)

**CHINA {TIBET / Xizang province}:** 6200 kHz 1658- UT, Hello Xizang Jan 22

What was formerly Holy Tibet was coming in very well this hour, and improving throughout. Strongest of many frequencies available. An interesting song at the end, with a bit of rap included! No ID via Shazam. Into time pips at 17:00 UT and presumed ID. Not 100% sure that it's Tibetan, though, and not Mandarin.

Other channels heard: 4905 kHz (good), 4920 kHz (good, apart from occasional digital hash between 4922 and 4924, 6025 (fair), 6130 kHz ... not sure whether it's them due to huge adjacent 6125kHz splatter, 6110 (poor/fair), 7255 kHz (would be good, except for cochannel CRI English!), 7385 kHz (listed, but another program heard here). Excellent reception this morning, January 25th on the 60 meter channels.  
 (Volodya Salmaniew-Masset-BC-CAN, hcdx Dec 26)

4905 kHz 1600-UT, Hello Xizang Jan 24 Very strong reception this morning. Time pips, 6 seconds late, then into IDs, but not a word about Tibet. News in English. Mostly economic propaganda. We had a very windy night. This morning all my antennas are quite noisy with frequent static crashes. Once it's light, I'll have to check my antenna farm, although I suspect some branches on power lines somewhere. However, there is a lot of lightning activity especially north of Hawaii, Eastern Australia, and just to the east of Japan (via lightningmaps.org).

This channel is strongest of the various other frequencies on 4, 6, and 7 MHz. 4920 kHz also about as strong. Excellent modulation. News continued (yawn) until 16:19 UT. They then gave email and website addresses, then into Tibetan music. Very distinctive. Noticed at the same time some digital hash between 4901 and 4903 kHz, so had to switch to SAU to avoid that.

I then switched over to 6200 kHz which was much quieter and just as strong. Temperature in Lhasa was minus18 deg. Tourism section of Hello Xizang follows at 16:25 UT, but with the same heavily accented female we usually hear. She mentions the only Catholic church located in Xizang, Our Lady of the Sacred Heart Church in Yerkalo. Then salt

production from brine.  
(Volodya Salmaniew-Masset-BC-CAN, hcdx Dec 26)

**CONGO DEM. REP.:** Thanks to a tipp from DXer Juergen Waga-Berlin-Germany, I found my eQSL for 6210 kHz Radio Kahuzi at <<https://kahuziqsl.blogspot.com/>>  
QSLs for some well known DXers are also available there.  
I never received this QSL directly, so this was a very nice suprise.  
(Harald Kuhl DL1AX exDL1ABJ, DXplorer Jan 31)

#### A LONG AWAITED QSL ISSUED 5 YEARS AGO.

The Democratic Republic of Congo is in the headlines across world media after a recent escalation of fighting in the eastern of the country, which has seen new areas taken over by M23 rebels, encircling and taking control of parts of Goma, the capital of the North Kivu province. Adjacent to this area is located the city of Bukavu which is home for Radio Kahuzi, a U.S.- funded religious station that some years ago was also active on short waves (In the recent past there were rumours of a possible re-introduction of a short wave transmitter). Our reader Eckard Roscher heard the station and sent a reception report in January 2020 and never received a reply.

Recently, he has finally realized that he was wrong. Here is the short story:

"Two friends of mine, Bernhard Hein and Simon-Peter Liehr, went to North Denmark for DX nearly every year. We visited Wilhelm Herbst in Fjerritslev. He is the author of DX-books like "99 days medium wave". And he installed Beverage antennas in all directions of the world in his area. It is a very nice place for DX. In January 2020 we stayed in Fjerritslev. We also listened to Radio Kahuzi and different other radio stations. I sent my reception report to the snail mail address of Kahuzi in Florida with return postage (some Dollars). But I didn't get any reply. I sent different reminders, the last one in December 2020 with a little donation. I didn't get any reply from Kahuzi.

At the end of last year I got an information about a special DX-program from the ADXB Austria. Harald Suess was one of the creators of this special program for their 10th Anniversary, that means 10 years DX-program from ADXB on HCJB. And there was a special information about Radio Kahuzi, that Kahuzi noted the DX-ers who wrote reception reports till the end of 2020. Of course I wanted see if I was noted on their homepage. So I found my e-QSL after 1832 days after my written reception report. I attach a postcard of the DX-house in Fjerritslev. Wilhem welcomes DX-er. And it is really a good place for DX !!!"

Well, it's really incredible! We hope that fighting in Congo cease immediately and that Radio Kahuzi will return soon back to S.W.

(Eckard Roscher in DX Fanzine Febr, Febr 2)

**CUBA:** 5025 kHz **R Rebelde**, 0559 UT on 14 Jan. Spanish. Poor signal with man and woman talking over light music, possibly on piano.

5025 kHz on R Rebelde, 0859 UT on 16 Jan. Spanish. Slightly better signal than previous days. Rebelde 'tweedle' ToH ID heard. Still poor, however. RSP1b. {mostly minus 5 - 6 Hertz on lower sideband fpy 5024.994, WB.}  
(Tony Pavick-BC-CAN, via NASWA Electronic Flashsheet #1187 Jan 19)

5990 kHz **CGTN** via Quivican San Felipe TITAN bcast center. 2315 UT in English current events. Strong signal, modulation low, but generally usable audio. // 11790 kHz etc. Reactivated program slot. 5 February 2025.

6000 kHz **RHC** via Quivican San Felipe TITAN bcast center. At 0250 UT, I found RHC in English of all things; strong signal, fairly low modulation, bad hum, but enough to recognize the announcers. 0300-0315+ UT w/English news. 0330 UT still going at recheck. Note: at 0250UT, 6180 kHz was carrying CRI relay, so that's two frequencies from Quivican at the same time. It's been a while. 5 Febr 2025.

Also: 1215 UT **RHC** Spanish coming in with a strong signal with sub-par audio, deteriorating at times. Clear IS, theme mx and ID at 1230 UT. This happens while 9570 kHz is carrying the CRI Cantonese language relay, so again they have two frequencies operating at the same time. Spanish still going at 1400 UT recheck. 5 Febr 2025. And: Back on at 0100 UT with RHC English, great signal, low modulation. 6 Febr 2025.  
(David Potter, Gainesville-FL-USA, wor Febr 6)

**CZECH REPUBLIC:** Gorilla, flamingos, rhinos and tigers: Zoo theme for 2025 series of amateur-radio QSL postcards.

Radio Prague International still sticks to tradition and comes up with a series of amateur-radio postcards every year.

"Every year we try to choose a topic that is connected with significant events in Czech history, as was the case last year, when we celebrated the Year of Czech Music, or we try to introduce interesting places, monuments and personalities. This year, in a summer series, we will focus on the largest Czech zoos and their unique rescue programmes, which is why we have chosen animals as the theme," says Klara Stejskalova, editor-in-chief of Radio Prague International.

Kristyna Markova is behind the graphic design. "This year, I decided to work with the QSL cards like a jigsaw puzzle. After collecting four animal illustrations, the image will be combined into a larger whole that depicts the biodiversity of zoos."

As many international radio stations have reduced their shortwave broadcasts, they have also stopped issuing QSL cards - postcards confirming reception to listeners. Radio Prague International still continues this tradition. However, the constant price increases by the Czech Post have unfortunately forced us to send printed postcards since last year only to those listeners who send us a postcard or letter themselves. We will send electronic QSL cards to those who send us a message about listening to our programme by e-mail or via a web form.

(Radio Prague International, Jan 11)

**DENMARK:** 25800.04 kHz World Music Radio, Arhus Marslet, 1650 UT on Dec 27. Weak but readable signal, playing Yellowman's We Wish You a Reggae Christmas.

(Brandon Jordan K2SWL, TN, via NASWA Electronic Flashsheet #1186 Jan 12)

15700.01 kHz World Music Radio, Randers, Jan 12; at 1451-1515 UT. (15700.011 kHz per UTwente, poor / almost fair at times w/ 3.82 kHz audio filter). Ongoing various genres of lively and slow songs (afropop, Lat Am pop, and mostly reggae songs and music, etc.); better in usb/lsb sync, shaky s meter needle w/ nonstop rapid or slower qsb, loud to moderate qrn rustle when fading, almost fair/poor at times/ from about 1500 UT, fair/almost good.

(Gianni Serra-Roma-ITA, via NASWA Electronic Flashsheet #1187 Jan 19)

**ECUADOR:** 6050 kHz at 0419-0500 UT, HCJB Jan 19 Spanish music programming, not sounding at all religious. Gave me a good opportunity to test all of my antennas, and best heard on the new 110 deg 600' Beverage antenna. Fair to sometimes good reception.

(Volodya Salmaniew-Masset-BC-CAN, wor Jan 19)

**EGYPT:** 9440 Jan 17 at 2116UT, R. Cairo English sesquihour still missing, not even a totally distorted signal into University Kiwi-net Enschede-Twente.

(Glenn Hauser-OK-USA, hcdx & wor Febr 6)

I'm still in contact with Radio Cairo from time to time.

A response to my reception report dated February 4th states:

"We are sorry that the Transmitter with European programs has a problem as it's valve is defected and we can't find a spare valve instead, but we are doing our best to fix the problem".

{i.e. TX Valve performance failure since a decade ago or even more time span to state, WB. df5sx}

Thanks to the efforts of Ludo Maes in Belgium with his "broadcast.be" Web site, I have forwarded this information to the Egyptians. The site "tube.be" includes details of a range of tube manufacturers, mostly in the U.S. Let's hope that ERU make some enquiries and finally manage to sort out the bad modulation.

As reported elsewhere, 9890 kHz is on almost daily (never on Mondays for some reason) from 1900-2000 UT in Russian. Also 9900 kHz from 1700-1900 UT in Turkish language, both beamed North at 5 degrees. Still a strong signal here in the U.K. and modulation a bit muddy, but listenable.

(Alan Holder, G4ZBH; Isle of Wight, U.K., wor Febr 6)

**FINLAND: Finland 963 kHz 600 kW resumption delayed.**

963 kHz Alfa Media Group broadcasts from Pori-Preiviki to Russia are delayed more. Traficom licence was granted 8. Nov. 2024. However, the 600 kW AM-station in Pori has been unused 12 years since 2013 year. The transmitter was found to be in poor condition. Repair and maintenance will take more time and money.

(Jorma Maentylae-FIN, ARC; via mv-eko / via wor Jan 20)

**Re: Finland 963 kHz 600 kW resumption delayed.**

Instead of trying to run such a big and dubious project, it would be more wise for them to broadcast via Estonia's Radio Eli (1035 kHz, up to 200kW) as done by many others (Trans World Radio in Russian and Belarusian, the 'Voice of Hope' in Russian and Ukrainian, 'Missionswerk Friedensstimme' [this ministry was on SW from 2003 until 2020 via Germany], the 'Voice of Martyrs' (both in Russian) etc). In darkness hours, Eli is well heard across all of Eastern Europe.  
(Alexander Miatlikov-Dnipro-UKR, wor Jan 21)

Manuel Méndez received an e-QSL from **RealMix Radio** with the following message: "According to the new radio license, regular RealMix radio broadcasts will be heard again in February on Saturdays and Sundays and the entire last week of February on the frequency 6185 kHz. During the spring, maybe (if the economy allows) we will get 250W transmission power, which would improve the signal strength (nowadays 100W carrier). I post updates and news regarding RealMix Radio broadcasts on Facebook page:  
<<https://www.facebook.com/share/17zTYb1YsK/?mibextid=wwXIfr>>  
(Manuel Méndez, Spain, WOR iog)

Correcting the entry in Europe on Shortwave, **Scandinavian Weekend Radio is** next on air from 2200 UTC on Friday 31 January 2025 through to 2200 UTC on Saturday 1 February 2025. The schedule is: 2200-1300 on 6170 & 11690 kHz, 1300-1700 on 5980 & 11690 kHz and 1700-2200 on 6170 & 11690 kHz. Further information can be found at <<http://www.swradio.net>>  
(DX GUIDES <dxguides@gmail.com>, Jan 19)

**FRANCE** : 17555 kHz 'Radio Dabanga' via TDF Issoudun relay site, heard at 1631 UT on Jan 16. Alternate talks in listed Sudanese Arabic by a man and woman. Mostly poor.  
(Bob Brossell, Pewaukee-WI-USA, via NASWA Electronic Flashsheet #1187 Jan 19)

**GERMANY**: 9525 kHz at 1929-UT, **Adventist World Radio** on Jan 22. Carrier on at 19:29:00 UT. At 19:30 UT, 'You're listening to Adventist World Radio', then IS, then multilingual IDs. Then in English with web address. The following program is in Igbo. Very good reception. Very nice for 250 kW with a 186degree beam. Perhaps off the back, or long path propagation. Not on the air when checked on January 24th.  
(Volodya Salmaniew-Masset-BC-CAN, hcdx Jan 24)

15460 kHz at 1730-UT, **AWR** Jan 18. Very strong reception. Carrier on at 17:28UT, listed Afaan Oromoo (?huh?). Began with piano and an expression repeated over and over. Interesting that on Sunday, there was a crash start about 30 seconds late, with AWR IDs in English. Again, very strong. Nice to hear AWR from more than single transmitter site again !  
(Volodya Salmaniew-Masset-BC-CAN, wor Jan 20)

15310 kHz at 1600 UT on Jan 30, via MBR Nauen site, **'Bible Voice Broadcasting'** En and Tigrinya language: Although listed as Tigrinya, programming seemed to consist of a mix of English and Tigrinya. ID was "Welcome to today's programming on Bible Voice East Africa. You're listening to Bible Voice Broadcasting. Please stay tuned for contact information at the end of our broadcast." Good.  
(Tony Pavick Hope-BC-CAN, wor Febr 1)

**GERMANY/ITALY: Radio City** - The station of the cars is now scheduled as follows: Every 3<sup>rd</sup> Saturday of the month at 21.30-22.30 UTC via AM Italia on medium wave 1323 kHz and on th 4th Saturday of the month at 09.00- 10.00 UTC via Channel 292 on 6070 and 9670 kHz.  
(Bernd Seiser-D, Feb 7)

**GERMANY/USA:** Shortwave Schedule of Texas Radio Shortwave (TRSW) in March 2025:

Program: Music of Joe "King" Carrasco

Date	UTC	Freq	Target
Mar 1	2200	3955	Europe
Mar 2	0200	9670	NAm E
	0400	9670	NAm W
	1200	6070	Europe
	1300	9670	Europe
Mar 9	1800	Mixcloud	Worldwide

(Terry Colgan N5RTC, Texas Radio Shortwave, Feb 9)

**GUAM/GERMANY/MADAGASCAR:** (cf. DXM 1/2025) According to the latest AWR schedule of January 24, 2025, **Adventist World Radio** is now relayed as follows via Nauen/Germany & Talata/Madagascar:  
StartStop Site Language Area kHz kW Days

0300-0400	Talata	Malagasy	Madagascar	6065	100	daily
1400-1500	Talata	Malagasy	Madagascar	6065	100	daily
1730-1800	Nauen	Oromo	So-Ethiopia	15460	250	daily
1800-1830	Nauen	Tigrinya	Eritrea	15460	250	daily
1830-1900	Nauen	Amharic	Ethiopia	15460	250	daily
1900-1930	Nauen	Hausa	Nigeria	11700	250	daily
1930-2000	Nauen	Ibo	E-Nigeria	11700	250	daily
2000-2030	Nauen	Yoruba	Nigeria	11700	250	daily
2030-2100	Nauen	Pidgin	Nigeria	11700	250	daily

The transmissions via KSDA Guam remain unchanged (see DXM 12/2024).

(AWR via Siegbert Gerhard-D wwdx; of Giuseppe Cirillo, Jan 24)

**GUAM:** 15530 kHz KSDA Adventist World Radio, via Agat site, in Burmese, on Febr 3 at 1444 UT, Message, talk, instrumental music. 15431. \*Target: SoEaAsia.

15710 kHz KSDA Adventist World Radio, via Agat, in Mandarin, Febr 3, at 1438 UT. Message, song, talk. 15421.

\*Target: China.

(Rudolf Grimm, Sao Bernardo Ibiuna SP Brazil, hcdx Febr 5)

**INDONESIA:** 3325 kHz Voice of Indonesia (Channel One), via Palangkaraya, 1145+ UT, Jan 30, via Kiwi SDR remote at Morley, WeAustralia; had been silent since about late Oct or early Nov 2024; clearly // 4755 kHz, via Cimanggis / Jakarta; 1200 UT, into Japanese; 4755 kHz much stronger than poor on 3325 kHz. Wonderful to have this frequency active again!

(Ron Howard-CA-USA, direct and wor Jan 31)

VOI English transmission on 4755 kHz at 1300 UT to SoEaAsia was well audible also in Europe. Nice music! Thanks for the hint !

(Kari in Finland, wor Jan 30)

VOINS on 3325 kHz was unheard today at both 1300 and 2100 UT.

(Ron Howard-Monterey-CA\_USA, direct and wor Febr 4)

**IRAN:** 9650 kHz at 1530- UT, Voice of the Islamic Republic of Iran Jan 24. Big empty carrier noted, without a hint of modulation. Supposed to be in English.

(Volodya Salmaniew-Masset-BC-CAN, hcdx Dec 26)

11880 kHz at 1927-UT, Voice of the Islamic Republic of Iran Jan 22. Still zero modulation on their scheduled English broadcast at this time.

(Volodya Salmaniew-Masset-BC-CAN, hcdx Dec 26)

**ITALY:** At times in early and mid-January 2025, the programme of **Power 927** was not heard on MW 927 kHz, but RDE Radio (Radio Diffusione Europea). RDE Radio used to broadcast via 1584 kHz. However, Power 927 and RDE Radio can also be heard via the internet.

(Steffen Mehnert-D via Dr. Hansjoerg Biener-D, Radio-Kurier MW-News March 2025; Febr 1)

Please take note of the next transmissions of **Marconi Radio International** (MRI) from Italy: on 9th February and on 9th March, from 1330 to 1730 UTC on 7400 kHz (50 Watts) and 11390 kHz (25 watts).

Reception reports are welcome to this e-mail address: <marconiradiointernational@gmail.com>

Last but not least, we need your help! If you are a DX blogger, or use social networks, please post an announcement on your own blog and/or Facebook or send out a tweet. You can also forward this message to a friend.

(Marconi Radio International via Manuel Méndez, Lugo, Spain, Feb 7)

**JAPAN:** 6055 kHz **Radio Nikkei 1** via Chiba. 1230-1250+ UT spirited man and woman in Japanese. Slick production - fill mx, sound effects at times. Fair signal on a subpar Asian morning. This one hangs in there, slowly fading. 29 Jan. (David Potter Gainesville-FL-USA, wor Febr 2)

6115 kHz **Radio Nikkei 2**, Tokyo, 0636 UT, Dec 27. Mixed program of English and Japanese pop and rock music, occasional canned announcements by man then woman, although music continued non-stop over the top of the hour. Outstanding signal.

(Brandon Jordan K2SWL, TN, via NASWA Electronic Flashsheet #1186 Jan 12)

6085 kHz {target radio towards North Korea} '**Shiokaze**' (Sea Breeze) has new frequencies as of 6 January 2025:

1300-1400 on 5935 and 6085 kHz, 1405-1435 on 7260 and 7325 kHz, 1600-1700 on 6165 and 6180 kHz and 1705-1805 on 7225 and 7320 kHz. Shiokaze broadcasts to North Korea and is operated by the independent investigating organisation "Investigation Commission on Missing Japanese Probably Related to North Korea", regarding persons believed to have been abducted by North Korea prior to 1983. All broadcasts are from Yamata in Japan (300 kW). They usually have an English programme at 1300-1400 and 1600-1700 on Wednesdays (otherwise they are in Korean and Japanese).

(Frequencies updated with thanks to Hiroshi's Blog at <<http://hiroshi.mediacat-blog.jp/>>)

**KOREA D.P.R. of {North}:** 3250 kHz KCBS - Pyongyang, 1105 UT, Korean. commentary and music from a choir and orchestra. Fair signal. Also heard // 6100 kHz (clashing with the co-channel CRI Mongolian service) and 11680 kHz, where it was the strongest. Jan 11.

(Rob Wagner VK3BVW, Mount Evelyn-Vic-AUS; via NASWA Electronic Flashsheet #1186 Jan 12)

**KOREA REP. OF {South}:** 3480.009 kHz **Voice of the People** in Korean, from Goyang Kyonggi, scheduled 11.00-03.00 UT, S=9+30dB signal strength in Akitakata-JP remotely on Perseus SDR. BUBBLE jammed by communist KRE underneath signal.

// 3910.004 kHz S=9+30dB strength in JP, 3930.009 kHz S=9+35dB in peaks.

(wb df5sx, wwdx BC-DX TopNews Jan 13)

7719.99 kHz **Echo of Hope-VoH**, in Korean, Jan 18; at 1727- 1750 UT. (7719.997 - . 995 kHz per UTwente, fair). man and woman talk in turns, other man talk, w/ brief music breaks, woman talk over slow music, at about 1733:20 UT" man chatting with a woman, woman talk over slow piano music, slow song, at 1740 UT man announcements, brief music pause, then playing some slow songs, interspersed by man talk; better in usb/lsb sync, nonstop rapid qsb, moderate rustle qrn, fair/almost good; // 6250 kHz poor/very poor w/ loud rustle qrn (6249.995 kHz per UTwente, fair); // 4885 kHz heard in usb sync w/ inter filter to nullify a very loud noise qrm, poor/very poor (4885.003 kHz per UTwente, almost fair).

(Gianni Serra-Roma-ITA, via NASWA Electronic Flashsheet #1187 Jan 19)

**KUWAIT:** The transmitter in Kuwait is excluded from the "strategic" downsizing of USAGM shortwave use. Here, for example, the antenna field for Africa was rebuilt by 2021. The installation of four shortwave transmitters is currently announced for 2025. The Kuwait Transmitting Station is favourably located in terms of broadcasting strategy and has comparatively low operating costs.

(Dr. Hansjoerg Biener-D, Radio-Kurier Nachrichten March 2025; Febr 1)

**LAOS:** 567 kHz Lao National Radio, 2355-0020 UT, Jan 29-30, 2025, via Kiwi SDR remote net unit at Cha-Am, Thailand; a much better site for LNR reception than Dimapur, India, due to strong QRM from Akashvani Dibrugarh at that site; heard nice Lao music / singing; today was early with their local 7AM bell / gong, which was rung seven times at 2358 UT; then choral National Anthem ("Hymn of the Lao People" - Pheng Xat Lao); 0000+ UT, news in assume Laotian. My remote audio - <<https://app.box.com/s/ek3w50cxswg4t3mtfcavjch0ga9s6cii>>

with bell / gong on audio clip at 03:32 UT; some QRN and light India QRM at 0000 UT (patriotic song "Vande Mataram" heard faintly underneath LNR).

(Ron Howard-CA-USA, direct and wor Jan 30)

**MADAGASCAR:** 9884 kHz **MWV New Life Station** via Mahajanga-MDG, 1800 UT, 21 Jan. Russian: Off nominal 9885 kHz. IS to ToH. I struggled to maintain audio as ID was choppy. Into music that may have been filler. Fair. (Tony Pavick-BC-CAN, via NASWA Electronic Flashsheet #1188 Jan 26)

11965 kHz **MWV New Life Station** via Mahajanga-MDG 'African Pathways Radio' at 2020 UT, man with religious lecture (all English) to program on country music after the half hour. Very Good on Jan13.

(Rick Barton, Sun City-AZ-USA, NASWA Electronic Flashsheet #1188 Jan 26)

15550 kHz **Radio Tamazuj** via MGLOB Talata Volonondry Madagascar relay facility heard at 1504 UT on Jan 21 with a two-man discussion in Arabic. Poor-fair.

(Bob Brossell, Pewaukee-WI-USA, NASWA Electronic Flashsheet #1188 Jan 26)

11610 kHz **World Christian Broadcasting** 'The Light of Life', via Mahajanga, Mandarin, Jan 31 2135 UT. Christian commentary, '... Jesus ....', instrumental music. 35553. Target: WeEurope.

17700 kHz **KTWR**, via Talata-Volonondry, Awadhi, Feb 3 at 1417 UT. Message, typical instrumental music, announcement, song. 25332. Sign-off on 1429UT. Target: SouthAsia. Awadhi, also known as Audhi, is an Indo-Aryan language spoken in the Awadh region of Uttar Pradesh in northern India and in Terai region of western Nepal. Language

spoken by 38.5 million inhabitants. (Wikipedia).  
(Rudolf Grimm, Sao Bernardo Ibiuna SP Brazil, hcdx Febr 5)

15420kHz **BBC London** via MGLOB Talata Volonondry Madagascar relay facility, at 0400 UT on Jan 28. Somali. Sign-on announcements mentioning BBC London. Time Pips at ToH. news. Fair to good.  
(Tony Pavick-BC-CAN, via NASWA Electronic Flashsheet #1189 Feb 2)

**MALI:** China Radio International, transmitting from Bamako relay site II, Mali, was logged on 19 January 2025. An English language broadcast about an American healthcare entrepreneur in China was monitored from 15.00 till 15.40 UT. Reception on 17630 kHz rated a SINPO of 55444 -- slight fading with atmospheric noise, otherwise a strong signal and clear audio content. Reception report was emailed to CRI shortly after the broadcast on the same day. An eQSL was received on 21 January 2025.

(T.L.Breyel, Malaysia <<https://shortwavedxer.blogspot.com/>> via RUSdx #1327 via wwdx BC-DX TopNews Feb 2)

13630 kHz CGTN Radio (CRI), Bamako bcast center II {CRI Africa relay}, 2002 UT on Dec 27, 2024. English news bulletin in The Bridge with host Jason Smith interviewing Dr. Jeffery Sachs. Excellent signal // 11640 kHz via Bamako fair, 9600 kHz via Kashi-Kashgar Xinjiang province, poor- fair, 9440 kHz via Kunming jba.  
(Brandon Jordan K2SWL, TN, via NASWA Electronic Flashsheet #1186 Jan 12)

**MYANMAR:** 5915 kHz **Myanmar Radio** via Nay Pyi Daw. Tentative, 29 Jan 2025, et. al. Initially heard here two weeks ago. Confirmed as being the same as heard on the LA6LU, Cha-Am, Thailand KiwiSDR remotely. The monitored format has the carrier coming on at varying times, anywhere from before 2315 UT to 2327 UT, sign-on is 2330 UT with an instrumental music IS, s/on annmt, music segment, and news(?) in presumed Burmese. The signal is audible here from before 2315 UT to at least 2345 UT, and often later, at a weak to very weak level here in Florida via grayline reception.

The most recent log on Jan 29 also had the sign-on at 2330 UT with ID and s/on annmt, it was very weak here, very good on the Cha-Am SDR. Myanmar is the logical choice. However, I can't pull an ID and am unable to prove that the IS I heard was Myanmar. Also, the 2025 WRTH lists a 2315 UT s/on for this frequency - with nothing to the contrary in the DX press.

(David Potter-Gainesville-FL-USA, via NASWA Electronic Flashsheet #1189 Febr 2)

9730 kHz **Myanmar Radio**, 0208 UT on Jan 31 Friday, via Kiwi SDR remote at Cha-Am, Thailand; brief spot in English, "Something to shout about"; then in Burmese and indigenous music/singing. This English spot after 0200UT is NOT on every day, but needs more monitoring to determine what is happening daily between 0200-0230 UT. My brief remote audio attached.

(Ron Howard-CA-USA, direct and wor Jan 31)

**Myanmar Radio** active again on 5985 kHz. Myanmar Radio, 0042+ UT, Jan 15, via So Phisal, Thailand Kiwi\_SDR remote; announcers and indigenous music; this frequency had been silent for about a week; the former 9730kHz at this time is now absent. Nice to have them on this frequency again, especially for the English segment at 1530 UT. My remote audio: <<https://app.box.com/s/04d3kud03mwazv10mh3ugwgddytojl0q>>  
(Ron Howard-CA-USA, direct and wor Jan 15)

7345 kHz **Thazin Radio** via Pyin Oo Lwin bcast center site, on Jan 21, good signal today at 1250UT mixing with CNR-7. Burma stn was playing a lot of schmalty vocal mx selections w/orchl backing, interspersing with anmts by breathy YL in sing-song Burmese. At this time, China pgming mainly OM tlks in Mandarin, so easy to mentally keep them separate. As always, the CNR-7 // on 13770 kHz acts as the North Star for DX listeners, with nice, clear audio of CNR-7 being a very helpful aid in keeping the two signals on 7345 kHz straight. China with time pips at 1300 UT while Thazin lady just talks through UTC TOH. By 1310 UT Thazin's saccharine mx selections overriding CNR-7! Based on recent observations, Thazin seems to leave this fqy at unsked -1330a\* UT.

(Ralph Perry, Wheaton-IL-USA, NASWA Electronic Flashsheet #1188 Jan 26)

**NETHERLANDS:** **Radio Delta** 12085 kHz.

Propagation has been rather rough for the past several days. I noted 12085 kHz a few hours ago, but too weak. Now coming in at fair level at 18:04 UT with music. This is a 1 kW station from Elburg, Netherlands. [later] Followed by a lot of IDs for Radio Delta, then into the Lion King, and now (18:09 UT) Johny Cash with, "If I were a Carpenter".  
(Walt Salmaniw-BC-CAN, wor Jan 19)

**Radio Delta** Elburg tested the frequency 9800 kHz for the first time on 25 January 2025. A special QSL was promised for meaningful reception reports. The reactions on the website and in the World of Radio newsgroup were encouraging, and in fact the frequency already appeared for Sunday 26 January at <<https://radiodelta.am/broadcast-schedule>>, which can also be consulted for current operations.

(Dr. Hansjoerg Biener-D, Radio-Kurier SW-News March 2025; Febr 1)

5944.989 kHz **Radio Veronica**, Westdorpel / Overslag, at 0544 UT, Dec 27. Generally moderate signal with fair peaks. Eclectic mix of pop and rock music, from Lynyrd Skynyrd to Miami Sound Machine. Occasional chatter by man and woman although a bit muffled compared to the music. Reported 1 kW.

(Brandon Jordan K2SWL, TN, via NASWA Electronic Flashsheet #1186 Jan 12)

6129.99 kHz **Radio Europe** Alphen a/d Rijn, 0452 UT Dec 27. Good signal with an eclectic mix of pop songs. Frequent "From the heart of Holland on Shortwave, this is Radio Europe" ID's. Very nice signal for reported 1 kW!

(Brandon Jordan K2SWL, TN, via NASWA Electronic Flashsheet #1186 Jan 12)

**NEW ZEALAND:** Re: RNZ Pacific DRM mode on 9780 kHz.

They may just be slow in updating their published schedules, though they also can change on a daily basis to improve reception for the partner stations in the Pacific. Those are the prime target for the DRM service, not us general listeners.

Cheers,

(Chris Mackerell-NZL, wor Jan 15)

Not quite sure what's happening, but RNZ's 1650 UT DRM mode transmission has been showing up regularly on 9780 kHz instead of 11690 kHz as listed at their website and as in the B24 schedules. On Monday UT, they started on 9780 kHz but moved to 11690 kHz at 1709 UT. Tuesday and Wednesday UT (yesterday and today) they've been on 9780 kHz for the full time slot.

Even though I'm not in the target area, a move to 31 metres is a bit of shame as 11690 kHz was a pretty solid performer at my QTH. The AM frequency of 11725 kHz is unaffected.

(Tony Pavick, Hope-BC-CAN, wor Jan 16)

**OMAN:** 9410 BBC World Service was noted today 8 Jan 2025 on new 7410 kHz (ex 7430 kHz) at 0100-0200 UT. Weak reception at first, later it was very strong. {EiBi database list has both as ENC Oman to SouthAsia. Glenn} (Jose Jacob-IND VU2JOS, Hyderabad-IND, wor Jan 8)

7410 0100 0200 41NE SLA 250 63 0 151 1234567 071224 300325 English  
OMA BBC ENC request #6607 ENASS

previously:

7430 0100 0200 41NE SLA 250 63 0 151 1234567 271024 300325 English  
OMA BBC ENC request #2206 ENASS

**PALAU:** 9930 kHz Hope Radio, Palau at 1142 UT, on Feb 4. Just caught ending of music, song by YL. Then OM in English w/ anncmnts for end of program and ID. Into Asian Lang program at 1144 UT. Fair signal, S4 with moderate flutter causing some audio distortion.

(Stephen C Wood - KC1QEM, Cape Cod-MA state US, wor Febr 4)

**PERU:** 4809.9 kHz **Radio Logos**, Chazuta, 0905 UT on Dec 27. Monologue by male in presumed Quechua, flute interlude, time check and string of announcements in Spanish then back-to-back rustic vocals. Canned ID at 0923 UT followed by vocals by Banda Apocalipsis and another canned Radio Logos ID at 0930 UT. Excellent modulation and nice signal despite thunderstorm crashes. {not Bolivia like wrongly put in topnews-bcdx #1604, WB.} (Brandon Jordan K2SWL, TN, via NASWA Electronic Flashsheet #1186 Jan 12)

4775.012 kHz **Radio Tarma**, Tarma, 1004 UT on Dec 27, 2024. Andean vocal, ID and announcement over flute music then to song Tu Abandono by Cazador Huanca. Fair with thunderstorm crashes.

(Brandon Jordan K2SWL, TN, via NASWA Electronic Flashsheet #1186 Jan 12)

**PHILIPPINES:** 9275 kHz Jan 12 at 1549 UT, song with good signal: not WMLK since it's huxtering on 15150 kHz now. EiBi & Aoki list databases show Radio Liangyou at 1000-1600 UT via FEBC Bocae site. WRTH treats this as merely another Chinese broadcast from FEBC, nothing about Liangyou; EiBi implies it originates in Hong Kong. But here it is:

<<https://www.febchk.org/en/liangyou-en/>>

Searching that for 9275 kHz gets NO hits !

(Glenn Hauser-OK-USA, via NASWA Electronic Flashsheet #1186 Jan 12)

9919.978 PHL **FEBC Radio Teos**, Bocae, Ukr Mon/Tue/Wed 15.00-15.45 UT, Rus Thu-Sun 15.30-16.00 UT

The correct schedule is:

1500-1530 daily Russian  
 1530-1545 Mon-Sat Russian  
 1530-1545 Sun Ukrainian

1545-1600 Thu-Sun Russian - as shown in EiBi, WRTH, dxguide lists ...  
 (Alexander Miatlikov-Dnipro-UKR, via wwdx BC-DX TopNews Jan 31)

**ROMANIA:** Tiganesti RRI transmitter fixed:

<<https://www.rri.ro/en/useful-information-en/how-to-listen/back-to-the-usual-winter-frequencies-id848446.html>>  
 Radiocom has managed to fix the malfunction of the BD 300-2 shortwave transmitters in Tiganesti. "Our programs can be received again, including digitally, for some areas, in the DRM system, on the frequencies originally announced at the end of October 2024. Thank you for listening to our programs!"

(Glenn Hauser-OK-USA, hcdx & wor Febr 6)

**SAUDI ARABIA {YEMEN target}** : 11934.894 kHz 1938- UT, Republic of Yemen Radio Jan 22. Very good reception over the Pole with quite a smeared carrier. Clean audio in Arabic. No sign of scheduled Vatican Radio in Latin at 19:40 UT.  
 (Volodya Salmaniew-Masset-BC-CAN, hcdx Dec 25)

**SPAIN:** 9690 kHz Thur, Jan 23, at 0120-0135 UT, Radio Exterior de Espana, from Noblejas-ESP, in Spanish. Man announcer in conversation with a man; 0123 UT A song; 0125 UT Woman/man announcers talking, w/ pieces of song; 0130 UT Pips and REE ID; Now, man/woman announcers present the program "Hora America": News at moment, mainly about DJT 3th inauguration day. Good reception and moderate fading: 45533.

Note: The other frequencies, 12030, 17715 and 17755 kHz, all off-air !

(Jose Ronaldo Xavier, Cabedelo-PB-BRA, hcdx Jan 23)

**TAIWAN:** 9685 kHz 'Furusato no Kaze' via Paochung-TWN, at 1600 UT on Jan 28. Japanese. Welcome message and ID by woman. A story about the inauguration in Washington.DC on 20Jan followed as was heard an hour earlier on 'Nippon no Kaze'. Very Good. RSP1b  
 (Tony Pavick-BC-CAN, via NASWA Electronic Flashsheet #1189 Feb 2)

7295 kHz {target radio to NoKorea} 'Furusato no kaze' /Wind from hometown at 1345 UT from Taipei Tanshui-TWN // 7205 kHz. Excellent on Jan 10.  
 (Rick Barton, Sun City-AZ-USA, NASWA Electronic Flashsheet #1188 Jan 26)

6155 kHz 'Furusato no Kaze', target radio at 1700 UT, on 17 Jan. Japanese. Typical sign-on from them.Woman announcer explained about plight of Japanese held in North Korea since the 60s and 70s. Upbeat song by male chorus followed. Good but noisy. RSP1b. {via Tamsui Taipei site, WB.}  
 (Tony Pavick-BC-CAN, via NASWA Electronic Flashsheet #1187 Jan 19)

9705 kHz target radio 'Furusato no kaze' via Paochung-TWN, Jan 14; excellent signal with inspiring instl mx on synthesizer accompanied by piano and orchestra at 1354 UT. Best fqy but also noted // 7295 kHz from Tamsui site also good and 12045 kHz Tashkent-UZB relay, fair. Audio fades down 1357 UT and dead air to -1357.40\* UT.  
 (Ralph Perry, Wheaton-IL-USA, NASWA Electronic Flashsheet #1187 Jan 19)

9670 kHz {target radio towards Vietnam} **Radio DLSN** via Paochung-TWN site, Jan 27. Quite a nice signal from abrupt s/on \*1230 UT - with orchl burst and YL with clear IDs,more orch and then into OM live with nx. No Hanoi siren jammer yet.  
 (Ralph Perry, Wheaton-IL-USA, NASWA Electronic Flashsheet #1189 Feb 2)

6115 kHz {target radio towards Koreas} **'National Unity Radio'**

via Taipei Tamshui-TWN, at 0156 UT on Jan 21 in Korean. an and woman announcers in lively conversation into the man speaking alone, 1200 UT brief theme like music, YL announcement (ID?) into same man and woman as earlier then man solo. Weak, although clear enough signal.  
 (Mark Taylor, Madison-WI-USA, via NASWA Electronic Flashsheet #1188 Jan 26)

9685 kHz 'Nippon no Kaze' clandestine to North Korea D.P.R. target (tent) in Korean, Febr 2, 2025, 1548-1552 UT. SIO 333. OM with POP MX in Korean. YL announcer with a plea, probably broadcast from Paochung Taiwan.  
 (Vince Henley-WA-USA, via NASWA Electronic Flashsheet #1189 Feb 2)

9705 kHz {target radio towards Koreas} **'Nippon No Kaze'** via Paochung-TWN  
 heard at 1341 UT on Jan 27. A woman speaking alone in Korean and introducing instrumental music at 1344 UT. Mostly

fair.

(Bob Brossell, Pewaukee-WI-USA, NASWA Electronic Flashsheet #1189 Feb 2)

9409.995 kHz another log in Canada and Hiroshima JP on Perseus worldwide net at 07.48 UT. The only Taiwanese **Fu Hsing BS** Kuanyin center outlet today scheduled 07 - 09 UT in Mandarin Chinese language, fair S=6 or -84dBm signal heard remotely in Hiroshima Akitakata JP, no signals observed on usual // frequencies 9774 nor 15375 kHz. [selected SDR options, span 12.5 kHz RBW 15.3 Hertz]

(wb df5sx, wwdx BC-DX TopNews Jan 15)

15245 kHz Sun, Jan 19, at 0047-0103 UT, **Radio Free Asia**, Paochung-TWN, in Burmese. Woman/man announcers talking news, w/ a fast music pause between news; A conversation with a woman about Israel vs Gaza agreement and more news by man; 0059 UT Woman talks and a RFA Station ID jingle; 0100 UT Burmese edition continues w/ news by woman announcer. Good reception: 45544.

Parallel logs on 15110 kHz, Tinang-PHL, 45544 and 7515 kHz, Dushanbe-TJK, barely audible reception.  
(Jota Ronaldo Xavier-Cabedelo-Paraiba-BRA, hcdx Jan 19)

**TAJIKISTAN:** 5875 kHz Radio Free Asia via Dushanbe-TJK (per EiBi, HFCC lists). 2308 UT t/in to USAGM RFA on top of the channel in listed Tibetan, and not the CNR1 jammer per check of // jammers against SOH: 6105, 7290, 9900 kHz. CNR1 gradually noticed underneath RFA at 2315 UT, mixing at times. RFA still noted on top 2345 UT. Oriental string music 2357 UT, into western instl mx w/annmts by M. 2400\* UT. In checking the RFA program archive for the 0700 UT local program for local 18th, it shows that the distinct mx and annmt segment from 57:20 to the end matches my log. 17 January 2025.

(David Potter-Gainesville-FL-USA, wor Jan 19)

9990 kHz Radio Free Asia, at 2144 UT on Jan 21 in Korean. YL perhaps reading a story. // 11510 kHz at 2153 UT - 44334. OM w/ explanatory talk. Fair.

(Mark Taylor, Madison-WI-USA, via NASWA Electronic Flashsheet #1188 Jan 26)

This is an interesting situation with both locations showing Korean language transmission at this hour in Dan Ferguson's combined schedules listing.

(Rich D'Angelo-PA-USA)

**THAILAND:** Radio Thailand sends out a nice 2025 calendar for reception reports. The evening program from this friendly country is always good to listen to.

The calendar can also be downloaded here:

<[https://www.wwdxc.de/download/Radio\\_Thailand\\_Wall\\_Calendar\\_2025.pdf](https://www.wwdxc.de/download/Radio_Thailand_Wall_Calendar_2025.pdf)>

(Evgeny Kornikhin, Moscow-RUS, deneb-radio-dx; via RUSdx #1326 via wwdx BC-DX TopNews Jan 26)

The current schedule of Radio Thailand is as follows:

0000-0030	English	13750	kHz
0200-0230	English	13750	kHz
0500-0530	English	17640	kHz
1200-1230	English	9385	kHz
1230-1245	Mandarin	9940	kHz
1245-1300	Malay	9940	kHz
1300-1315	Japanese	9940	kHz
1315-1330	English	9940	kHz
1800-1930	English	7475	kHz

(Atsuhiko Takezawa via Tony Rogers via BDXC-UK)

**TURKEY:** 11545.04 kHz Radio Recep Erdogan via TRT Emirler, Turkish jammer (troops station), Jan 9 2025. Playing usual energetic military chorus music with horn and drums accompaniment at 1315 UT, fair signal. {against nearby in 25 meterband 'Denge Gel' Kurdish national stn program via - likely - Yerevan Gavar site in Armenian, WB.}

(Ralph Perry, Wheaton-IL-USA, NASWA Electronic Flashsheet #1186 Jan 12)

**UNITED ARAB EMIRATES:** 15215 kHz Gawaylon Tibetan Radio (FEBA), transmitting from Dhabbaya, UAE, was logged on 20 January 2025. Tibetan language program was monitored from 12.20 till 12.30 UT. Reception on 15.215.1 kHz rated a SINPO of 23332 weak signal but audible with possibly some light jamming which disappeared around 12.25 UT. Reception report was submitted on the same day. An eQSL was received on January 30, 2025.

## UNITED KINGDOM: BBC World Service London to cut 130 jobs in savings plan.

<<https://www.bbc.com/news/articles/cpql1vvdn58o>>

The BBC World Service has announced it will cut 130 jobs as part of a plan to save around £6m in the next financial year.

Planned cost-saving measures include closing posts in the UK and internationally as well as roles in BBC Monitoring, a division which reports and analyses news from media around the world.

The World Service was given a funding boost by the government as part of the autumn Budget, but financial pressures and the previous two-year freeze in the licence fee means the corporation's projected total deficit will increase to GBP\_492 million for the 2024/25 financial year.

Despite the cuts, it said it will continue to provide journalistic coverage across its 42 language services.

Jonathan Munro, global director and deputy chief executive of BBC News, said: "While the result of the latest grant-in-aid funding settlement means we are able to maintain all of our existing language services, we were clear it would not stave off difficult decisions in order to remain globally competitive and meet our savings requirements.

"These changes will ensure we operate effectively with the resource we have, creating the most impact for audiences internationally."

The BBC added that the service is "operating in a highly competitive global media environment" which has "international news providers investing billions in state-backed media that sees increased competition for staff, platforms and frequencies, and audiences".

The broadcaster said it will "continue to counter disinformation, provide emergency services in times of crisis and report from all corners of the globe".

As part of the Budget in October, Chancellor Rachel Reeves announced that the Foreign, Commonwealth and Development Office (FCDO) settlement for the next financial year "provides an increase in funding to the BBC World Service, protecting existing foreign language service provision and its mission to deliver globally trusted media, in support of the UK's global presence and soft power".

The BBC World Service is predominantly funded by the UK licence fee and has received a grant of GBP\_104.4 million from the FCDO in previous years.

(Richard Langley-NB-CAN, wor Jan 31)

### re: Unidentified DRM digital mode on SW 17575 kHz.

I am receiving audio from RRI and other stations now using the xHE-AAC codec, but reception on 11630 kHz at 1800 UT is not great, as the signal often fades out after about 15 minutes, and I suspect that their choice of 11 MHz at this time of the year was not a good one. Their German, French and Italian DRM services on 7 and 5 MHz come through with excellent audio though.

I could not get my old version of Dream to decode the new codec, but downloaded a modified version from the [drmrx.org](http://drmrx.org) forum, but even that didn't work until by chance I downloaded a copy of the 'K-Lite mega codec pack', and now it is working a treat and I'm hearing good quality audio from a number of stations in this mode.

The modified version 2.2x can be found on this page if Dream is what you are using, if you are using a DRM radio then it may not work now unless it supports the xHE-AAC codec.

<<https://www.drmrx.org/forum/forum/drm-reception-project/general-topics/1580-how-often-does-dream-start-to-crash-when-decoding-xhe-aac>>

If it doesn't work and anyone needs to try the K-Lite codecs they can be found here:

<[https://codecguide.com/download\\_k-lite\\_codec\\_pack\\_mega.htm](https://codecguide.com/download_k-lite_codec_pack_mega.htm)>

(Alan Gale-UK, BrDXC-UK iogr news Jan 16)

Saudi KiwiSDR receives it almost without interruptions: <<http://21472.proxy.kiwisdr.com:8073/?f=17575.00drmz9>>  
(Best regards, Mauno Ritola-FIN, BrDXC-UK iogr news Jan 18)

**BBC World Service** to South Asia is now scheduled as follows:

0000-0100 on 6035-Tashkent & 6155-A'Seela;  
 0100-0200 on 6035-Tashkent & 7410-A'Seela;  
 1200-1300 on 11630-Tashkent & 12080-A'Seela & 15295-A'Seela;  
 1300-1400 on 11630-Tashkent & 12080-A'Seela.  
 (Jose Jacob and Zenon Teles via DX GUIDES, Jan 19)

9535 kHz at 0600- UT, '**Radio Ndarason International**' on Jan 19. While waiting for VOA on 9550 kHz, I noticed a crash start on 9535 kHz, at good to very good level, mentioning Ghana, and Mali, in presumed Kanuri. By the way, 9550 kHz didn't come on until 06:03 UT (VOA English from Botswana).  
 (Volodya Salmaniew-Masset-BC-CAN, wor Jan 19)

9835 kHz VoA **Radio Ashna** via ENC Woofferton-UK relay site, at 1559 UT on 28 Jan. Southern Pashto or Dari. No clear ID at ToH. Schedules list Dari at 1600 UT but there was no clear transition from Pashto language at 1530 UT. Man speaking. Good. RSP1b  
 (Tony Pavick-BC-CAN, via NASWA Electronic Flashsheet #1189 Feb 2)

15510 kHz FEBA '**Radio Sama**' via ENC Woofferton relay site, heard at 1743 UT on Jan 28. A man speaking in listed Tigrinya language and followed at 1745 UT by stringed music. Poor-fair.  
 (Bob Brossell, Pewaukee-WI-USA, via NASWA Electronic Flashsheet #1189 Feb 2)

#### **U.S.A.: WBCQ 5130 kHz in 59 meterband.**

The **Radio Angela** transmitter of **WBCQ** Radio 5130 kHz is back on the air ready for your programming. We have reconditioned the classic Collins transmitter for more power and improved modulation. The transmitter is available now for program bookings. Prime time is 6pm-12midnight eastern time. The transmitter is available on a 24/7 hr/d basis. We are offering a discount rate of \$30 an hour with discounts available for four or more hours booked weekly. Now is the time to get your programming on the air to a worldwide audience at a very attractive rate. Book now for the best time slots."

(WBCQ website <<http://www.wbcq.com/>> [undated] ).

On WBCQ's Facebook:

"Hello all, With the new year we are making some changes to our Area 51 service. Effective 4 January 2024 we are moving all of our programming from 6160 kHz to 5130 kHz. In addition to the frequency change, we are reducing our broadcast schedule by two hours.

Our new schedule is Saturday and Sunday Sunday and Monday 0000-0400 UT. We really dislike having to drop the 11-midnight hours but increased transmission costs and lack of sustaining donations are to blame. If we are able to get more regular contributions we will consider expanding the service in the future. You can donate to us via Paypal at <[radio@zappahead.net](mailto:radio@zappahead.net)> Thanks, Lw".

(WBCQ The Planet on F\_B, 4 Jan)

12050 kHz on Febr 6 at 1620 UT, R. Catolica Mundial, **WEWN**, reactivated in Spanish with hymns, DJ announcements, S6/S8 direct. This was first reported by Tony Pavick, Hope BC-CAN at 0040 UT on Febr 6:

"Radio Catolica Mundial is back on the air on 12050 kHz. In Spanish of course. China ACI from 12045 & 12055 kHz. They appear to have left the air sometime between 0045 and 0100 UT"

WEWN used to have some lower frequencies at night, but current HFCC shows only:

12050 1400-0600 Spanish 155 degrees to CIRAF 11 & 15 with 100 kW;

15610 1900-0600 English 85 degrees to CIRAF 46 & 47 with 250 kW.

(Glenn Hauser-OK-USA, hcdx & wor Febr 7)

15610 kHz Jan 30 at 1625 UT, S8/9 almost steady open carrier direct. Suspect WEWN making comeback. Had been missing for about a year! EiBi also has CHiCom jamming vs SOH until 1600 UT.

I asked Glen Tapley: "Glen, At 1625 UT today I have a strong S9 and steady open carrier on 15610 kHz. Is that WEWN, about to come back ? How about the other transmitter which had been on 12050 kHz ? Regards, Glenn Hauser" and he replies:

"Hi Glenn, Yes it is WEWN. Should notice 12050 UT soon, but no definite ETA. Glen" At 1640 UT, Maine SDR also has S=9+10/20dB on 15610.005 kHz, with a slight whine, not sure whether transmitted. Still on at 1951 UT on 15610.005 kHz, Jan 31 at 1644 UT, WEWN on again with open carrier except for low level hi-pitched whine, audible on more than one remote, which also agree on the +5 Hz offset: S9+3 into Maryland SDR; S7/S9 into UTwente. Still no signal yet on 12050 kHz.

(Glenn Hauser-OK-USA, via NASWA Electronic Flashsheet #1189 Feb 2)

15150 kHz at 1600 UT on Jan 30, **WMLK** Bethel PA state in English: Somewhat firey sermon from Elder Jacob O Meyer with very quick station ID at ToH  
<20250130\_1600\_UT\_15150\_khz\_WMLK.mp4>  
(Tony Pavick Hope-BC-CAN, wor Febr 1)

9275 kHz Jan 27 at 0345 UT, WMLK Bethel PA state, S=9+30/40dB of "bilge" as Ralph Perry rates their output; accompanied by squealy spurs +/- only 5 kHz, so better than some brethren.  
(Glenn Hauser-OK-USA, hcdx & wor Jan 27)

17525 kHz WMLK via Bethel PA state US, 1859 UT on 13 Jan. English. Preaching by Elder Jacob O Meyer explaining meaning behind the name Israel. Also talk about second Samuel chapter 23. No ToH ID heard. Good.  
(Tony Pavick-BC-CAN, via NASWA Electronic Flashsheet #1187 Jan 19)

5920 kHz **WTWW** Lebanon TN in En religious program to NoAM, January 19, at 0448-0454 UT. SIO 444. OM preacher with convoluted sermon. Confused sermon and commentary about the "Wailing Wall," and its original construction and / or its ultimate destruction.

(Vince Henley-WA-USA, via NASWA Electronic Flashsheet #1187 Jan 19)

9930 Jan 16 at 1645 UT, WTWB is running 13 seconds behind // 9980 kHz WWCR with TOMBS. Both extremely strong signals, from almost the same location, what a duplicative waste. But far be it from me to advise them how to allocate resources more effectively!

Anyhow, kudos to WWCR for getting TOMBS on the air first !

(Glenn Hauser, OK-USA, wor Jan 16)

**URUGUAY:** 1480 kHz Radio Internacional, Rivera, in Spanish, Febr 3 at 0506 UT. Identification 'AM 14-80, Radio Internacional. La radio como la gente'. Commercial advertisements in Spanish mentioning the city of Rivera.

Among these, there was an advertisement in Portuguese about the 'Supermercado Atacarejo, em Livramento'. Rivera (Uruguay) and Santana do Livramento (Brazil) form the same physical concentration, with no international borders between them, which is why there is a mix of languages on a Uruguayan radio station.

(Rudolf Grimm, Sao Bernardo Ibiuna SP Brazil, hcdx Febr 5)

**UZBEKISTAN:** 7530 kHz Mon, Jan 13, at 2111-2120 UT, **'The Voice of the Martyrs'**, Tashkent-UZB relay in Korean. Woman announcer makes a preaching. Poor reception for this CLA Station: 25522.

7625 kHz Mon, Jan 13, at 2101-2110 UT, **'The Voice of the Martyrs'**, Tashkent-UZB relay in Chinese/Mandarin. Man announcer makes a preaching, presumably. Poor reception for this CLA Station: 35522.

(Jota Ronaldo Xavier-Cabedelo-Paraiba-BRA, hcdx Jan 13)

9330 kHz **CMI 'Voice of Wilderness'** via CRRT RRTM Telecom Tashkent Uzbekistan Shortwave Transmitting bcast center. 1600UT on Jan 28. Korean. Presumed to be 'Voice of Wilderness' because WBCQ / World's Last Chance doesn't usually make it to me at this hour and ToH legal ID heard. Man speaking. Fair. RSP1b.

(Tony Pavick-BC-CAN, via NASWA Electronic Flashsheet #1189 Feb 2)

12045 kHz **'Furusato No Kaze'** program via CRRT RRTM Telecom Tashkent Uzbekistan Shortwave Transmitting bcast center heard at 1356 UT on Jan 27. A man speaking in Japanese to music at 1357 UT and shut down at 1400 UT. Mostly poor.

(Bob Brossell, Pewaukee-WI-USA, NASWA Electronic Flashsheet #1189 Feb 2)

**VANUATU:** 3945 kHz, Radio Vanuatu, 19 January. Tune-in at 1025 to Polynesian and Reggae music, psa in Bislama about livestock, ID and time check at 1032 for "half past nine", then into Evening Devotion until 1042, followed by usual selection of gospel-themed songs. Native instrumental sounds at 1101, ID, promo and closing announcement (with 10 o'clock time check) in Bislama, then National Anthem and off at 1104.  
(Tony Rogers using NZRDXL Mangawhai KiwiSDR, New Zealand)

The shortwave schedule for Radio Vanuatu as of 19 January 2025 based on observations appears to be:

Time/UTC Vanuatu Time kHz

1830v-1958 0530-0658 7260

1959 -0658 0659-1758 9960

0659 -1100v 1759-2200 3945

(Compiled by Tony Rogers <dxguides@gmail.com> Jan 19)

**VATICAN STATE:** 17555 kHz {rather NGO sponsored opposition target radio} January 26, at 1622-1630 UT. SIO 444. Radio Dabanga in Darfuri Arabic to Sudan. OM with long monologue. Program origin is the Netherlands. Via Santa Maria di Galeria relay broadcast center.  
(Vince Henley-WA-USA, via NASWA Electronic Flashsheet #1188 Jan 26)

**VENEZUELA:** 4939.985 kHz on Febr 1 at 0221 UT, checking 'Estacion 4940' into {Kiwi\_net SDR unit TWR} Bonaire, S=9/10dB with "nuestro pais, lecciones de la historia colombiana", which might imply it's not in Venezuela, but am not convinced. Talking about the Nueva Granada era, which of course encompassed both present-day countries as well as Ecuador and Panama. Programming has always had a strong Colombian connexion. Calibrated vs 5000.00000 kHz WWV standard fqy stn.  
(Glenn Hauser-OK-USA, via NASWA Electronic Flashsheet #1189 Feb 2)

**VIETNAM:** 9839.937 kHz Voice of Vietnam, Hanoi Son Tay, 2352 UT, Dec 27. English service with Vietnamese pop song 'Co Em Doi Bong Vui' by Chillies, quick ID then "Goodbye" and off at 2357\* UT. Fair signal.  
(Brandon Jordan K2SWL, TN, via NASWA Electronic Flashsheet #1186 Jan 12)

### **Thanks a lot to our club members for their contributions:**

AB : Ashok Bose on vacation at Kolkata, India. SIEMENS RK 759 Digital Radio with built in Telescopic 0.7 Metres long.  
 SG : Siegbert Gerhard, Frankfurt am Main, Germany. AOR AR 7030 + 5m-EMF (Electric Magnetic Field) Antenna & Degen DE 1103 + Telescopic.

\*\*\*\*\*

Dear Friends,

Welcome to the February 2025 edition of Logbook which I am editing from Kolkata, India.

I was able to listen to shortwave and include my loggings.

Thanks also to OM Siegbert Gerhard for his contributions,

*Ashok Kumar Bose*

	<b>QSL CORNER</b> Editor: Dáario Gabrielli, Viale della Resistenza 33b, 30031 Dolo (Ve), ITALY eMail: < <a href="mailto:qsl@wwdxc.de">qsl@wwdxc.de</a> >	
---	--	---

We are pleased to have received several contributions again this month. I ask all contributors to write their initials immediately after the details of each QSL and that the next deadline is March 8, 2025, at 2300 CET time.

We also remind you that the exact compilation of the contribution must be done in this way: country, station name, frequency, type of QSL received, e.g. QSL or e-QSL (or QSL letter), waiting time and any other details that may be useful for filling out this page.

We appreciate scans of your QSLs in jpg format so that we can publish them. Thanking you, I wish you good health and listening.

My best 73, *Dáario*

\*\*\*\*\*

**AUSTRIA:** Special -QSL for the sixth (probably the last) 100 KW-MARATHON of the stations Radio DARC, SM Radio Dessau, Radio Klein Paris, FM Kompakt, Jake FM, Decade FM and Radio PowerRumpel via Moosbrunn on 6070 kHz received in one day for report sent to: <[100kwqsl@jake-fm.de](mailto:100kwqsl@jake-fm.de)> (RS)
