DX MAGAZINE No. 10

■ Vol. LX ■

October 2025

Hello again,

Here we are back again after our usual summer break. I hope that you have enjoyed your summer holidays, if you had any, and that you have had also some time for DX'ing. If so, please do not forget to send your news and loggings to our editors.

Please remember that we still need a new NEWS EDITOR as soon as possible. If you are able and interested to become our new NEWS EDITOR, please do not hesitate to contact me. I shall support our new NEWS EDITOR with all news material we get from our members, from other DX clubs and from radio stations.

Unfortunately, the contributions of our members to the DX News section have been very rare in the last months and we had only few contributions to our News, Logbook and QSL sections. Therefore, if you have any News, Logs or QSL information, please do not hesitate to send it to me or to the other editors on page 2 of this DX MAGAZINE.

Auch in diesem Jahr können unsere Mitglieder in Deutschland das neue WORLD RADIO TV HANDBOOK 2026 wieder bei uns bestellen. Dies wird zugleich die letzte gedruckte Ausgabe des Buches sein. Gleichzeitig wurde leider der offizielle Verkaufspreis um € 10,00 auf € 59,90 erhöht.

Der Subskriptionspreis bis zum 15. November beträgt für unsere Mitglieder und Freunde € 52,90, bis zum 30. November € 55,90, danach € 59,90 (= offizieller Ladenverkaufspreis, soweit noch bei uns vorrätig). Das Buch soll Anfang/Mitte Dezember erscheinen und wird dann von uns gleich an die Besteller ausgeliefert werden. Der obige Preis enthält Porto und Verpackung.

Lieferung nur gegen Vorauszahlung durch Überweisung auf unser Konto: Raiffeisenbank Grävenwiesbach (IBAN: DE75 5006 9345 0100 0199 84 - BIC/SWIFT-Code: GENODE51GWB). **Bitte keine Zahlungen mit PayPal.**

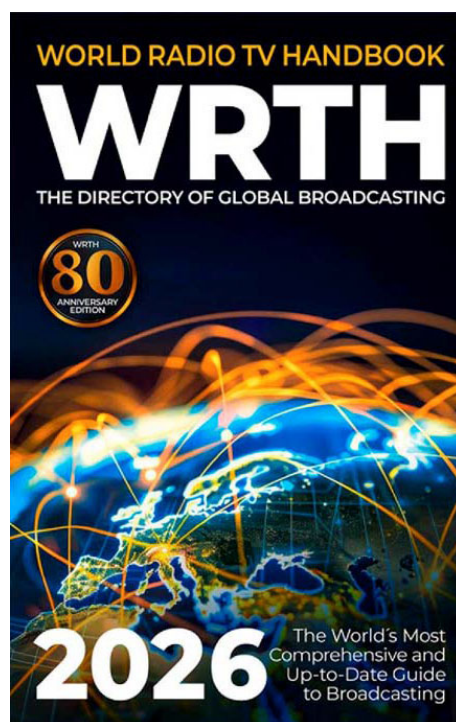

"Das World Radio TV Handbook 2026 ist die 80. Ausgabe und zugleich das letzte gedruckte WRTH vor dem Übergang zu rein digitalen Formaten und damit sowohl ein historischer Meilenstein für Sammler als auch eine unverzichtbare Referenz für DXer, Radioenthusiasten und Rundfunkprofis.

Was den Umfang betrifft, so umfasst die Ausgabe WRTH 2026 voraussichtlich 832 Seiten, wobei der Abschnitt 'Features and Review' auf 96 Seiten erweitert wurde (anstelle der üblichen 64 Seiten).

Das Buch wird neben den ausführlichen Informationen zu Rundfunksendern in aller Welt (analoger Rundfunk, Digitalradio und nationales Fernsehen) wieder diverse Jubiläumsartikel enthalten, z. B. über Norfolk Island, Gibraltar, Åland, Tonga sowie spezielle SDR- und Empfängerbewertungen."

Leider können wir das Buch wegen der geänderten Zoll- und Versandbestimmungen nur unseren Mitgliedern im Inland anbieten. Mitglieder im Ausland bestellen bitte direkt bei dem herausgebenden Verlag Radio Data Center GmbH zum Preis von € 59,90 + Versandkosten. Nähere Informationen bei: <<http://wrth.org>>.

Falls Sie bei dieser Gelegenheit gleich Ihren Mitgliedsbeitrag überweisen möchten: Hier die unveränderten Beitragssätze für 2026: RKwwh + DXM = € 84,00 (Ausland = € 95,00), nur DXM = € 18,00, nur RKwwh = € 69,00 (Ausland = € 80,00), RKwwh + DXM als PDF-Datei = € 51,00, nur DXM als PDF-Datei = € 9,00, nur RKwwh als PDF-Datei = € 45,00. Wann Ihr Mitgliedsbeitrag genau ausläuft, können Sie übrigens jeweils auf dem Adressenaufkleber Ihres DX MAGAZINES (oben rechts = letzter bezahlter Monat + Jahr) sehen, falls Sie die Papier-Ausgabe unseres DX MAGAZINES erhalten. Unseren deutschen Mitgliedern legen wir einen SEPA-Überweisungs-/Zahlschein bei.

Klingenfuss Publications have informed us that they are now working on their new products

- 2026 Shortwave Frequency Guide

- 2026 Super Frequency List on CD
- 2026 Frequency Database for the Perseus SDR
- Supplement January 2026 to the 2025/2026 Guide to Utility Radio Stations

to be published on 10 December 2025. Full information on these products can be found at:

<<https://www.klingenfuss.org>> and full-resolution title page graphics can be found at:

<https://www.klingenfuss.org/r_2026.jpg> and <https://www.klingenfuss.org/r_2026.pdf>

<https://www.klingenfuss.org/s_2026.gif> and <https://www.klingenfuss.org/s_2026.pdf>

If you are able to supply additional new frequencies and stations, your cooperation would be highly appreciated.

Please let us have your data by 25 October 2025.

(Jörg Klingenfuss <info@klingenfuss.org>)

And with this best wishes and good DX until next month from

NEWS ABOUT BROADCASTING (+other) STATIONS

ALASKA: 9800 kHz KNLS religious broadcast in Russian to FE, Aug 30, at 1521-1530 UT, with POP MX. SIO 333. OM announcer with ID and contact information after POP MX. Increasing QRN. YL joins at 1526 UT with homily and / or news items about Putin and the Ukraine conflict. Long monologue.
(Vince Henley-WA-USA, via NASWA Electronic Flashsheet #1219 Aug 31)

ALBANIA: In August, the German section of Radio Tirana confirmed most of the previously unconfirmed reception reports from the last 2.5 years with seven different QSL motifs. I would like to draw particular attention to the listener mail-related broadcasts on Tuesday and Friday shortly after 1200 and 1430 UTC live on the Internet via the link <<http://www.agdx.de/tirana1.html>> or with some Internet radios and afterwards as a podcast at <<http://tirana.agdx.de>>. At present, reception reports can only be sent to the private email addresses of Juxhin <juxhinngjelina@gmail.com> or Kleidja <kleidja_pere@hotmail.de> and hopefully they will be confirmed with a QSL card.
(Bernd Seiser-D, via Dr. Hansjoerg Biener-D, wwdxc BC-DX TopNews Sept 10)

ALGERIA: 17600even RTA Bechar Ifriky FM program, most modern western pop mx program of S=9+15dB signal at 08.29 UT on Sat Sept 27.
(wb df5sx, wwdxc BC-DX TopNews Sept 27)

ARMENIA/TURKEY: { 'Denge Gel' - target radio to all-KURDISTAN, in TUR/SYR/ARM/IRQ/IRN }

On May 12, 2025, the Kurdish PKK announced the end of its armed struggle against the Turkish state, which it had waged since 1984, and the dissolution of its organizational structures. The two-week shutdown of a Kurdish exile radio station and its Turkish jamming transmitter, observed in July 2025, seemed to fit this context. As of July 31, 2025, the cat-and-mouse game resumed. In contrast to much earlier times, the Kurdish radio station's broadcasting hours are limited to 4:00 a.m. to 4:00 p.m. and to a frequency in the 11.5 MHz range.

On August 1, 2025, British shortwave expert Alan Holder_G4ZBH wondered, "Who is actually monitoring the situation? I suspect that someone in both Emirler (Turkey) and Gavar (Armenia) sites is monitoring the situation and making the necessary adjustments.

With 12 hours of daily broadcasting, it must be a rather arduous task to keep the situation under control. I noticed that the Armenian engineer is making the adjustments more quickly, as only one shortwave transmitter is in operation. With up to five transmitters broadcasting simultaneously at Emirler, the workload for the Turkish technician is greater. Hence the delays in tracking the Kurdish transmitter."
(World of Radio-egroup item of 1. August 2025)

During our own monitoring over several hours on August 1, 2025, the part about the freedom from interference for several hours was certainly correct. Mostly, but at 14:18 UTC, 'Denge Gel' "voluntarily" switched for 45 minutes from an interference-free frequency to the shortwave of the jammer, also called Radio Erdogan because of the speeches of some shortwave enthusiasts.

'Denge Gel' repeatedly emitted other noises, but these were likely the transmitter's own products (high-pitched tones, chirping). They disappeared when the transmitter changed frequency. The jammer could also be observed on a different frequency in such cases.

During another attempt on September 1, 2025, the jammer seemed to be quite successful, as it covered most of 'Denge Gel' and then found it again within half an hour. However, at 04:30 UTC, it seemed to switch away. Because the Turkish pop program and the speech could not be clearly identified, the project was ultimately canceled.

During a third project on the morning of September 5, 2025, the Kurdish station repeatedly escaped the Turkish jamming for extended periods. It began after 06:00 UTC with 'Denge Gel' on 11530 kHz and Radio Erdogan on 11510 kHz. Starting at 6:45 a.m., the jamming station blocked 'Denge Gel' on 11530 kHz. At 7:05 a.m., the Kurdish station moved to 11540 kHz and was not blocked there until 7:59 a.m. 'Denge Geld' moved to 11550 kHz at 8:07 a.m. and remained undisturbed until the end of the continuous listening period, fading out after 9:00 a.m.+.

Regarding the program of 'Denge Gel': Every hour on the hour, there seems to be a detailed newscast (15 minutes!?). There were also longer spoken- word segments and Kurdish music throughout the rest of the hour. The jamming station's program consisted of the usual content (alleged Erdogan speeches, words on a background music, military music, the crackling of machine guns, Allah Akber chants, the Turkish national anthem), but also more pop music than the reporter had previously noticed.

(via Dr. Hansjoerg Biener-D, via wwdxc BC-DX TopNews Sept 10)

ASCENSION ISLAND: 21660 kHz Sun, Aug 17, at 1700-1713 UT, 'Follow The Bible Ministries' via ENC Ascension Island-ASC relay site, in Swahili. 1700 UT even Open carrier and a brief talking by man and woman; 1701 UT Begins a preaching about The Bible with the usual presenter, full time. Good reception: 45544.
(Jose Ronaldo Xavier, Cabedelo-PB-BRA, hcdx Aug 17)

AUSTRALIA: 2310 kHz **Shortwave Australia**, Wee Waa, NSW. Aug 25, 0741 UT, Old radio tapes of the U.S. AM station WDRC, Hartford. You hear all sorts of eclectic programming on this station. I'd love to know where he gets the tapes from!

Runs // SW 4835 kHz and good signals on both freqs. Correspondence this week from the station owner, Dave VK3ASE, indicates that for the past two months, he has been running both channels at 30 watts due to high power bills (normally 100+watt).

(Rob Wagner VK3BVW, Mount Evelyn-Vic-AUS; via ARDXC ADXN magazine #694, Sep 2025, direct via wwdxc BC-DX TopNews Sep 3)

2355 kHz **4TRP** low powered station, 1035+ UT Aug 20, heard via KiwiSDR remotely at Townsville, Queensland-AUS; non-stop pop songs and ID "Broadcasting from Kuranda, Queensland, 4TRP"; mostly poor to very poor, but briefly at times fair; I have been checking for this one recently without hearing any signal at all, so today was productive. My brief audio attached.

(Ron Howard-Monterey-CA-USA, via ARDXC ADXN magazine #694, Sep 2025, direct via wwdxc BC-DX TopNews Sep 3)

11945 kHz **Reach Beyond Australia** from Kununurra bcast center, at 1254 UT on Sept 1; in English then Dzonkha language. South Asian music, "This is Reach Beyond Australia. Programs of this frequency will be commencing shortly." Theme IS, same announcement, IS, 1300 UT fanfare, ID in Dzonkha, distinctive string instrument with YL w/ program opening, OM singer w/distinctive music. Good.

(Mark Taylor, Lake Farm Park-WI-USA, via NASWA Electronic Flashsheet #1220 Sep 7)

12010 kHz **Reach Beyond Australia**, Kununurra heard at 1148 UT on Sept 1.
A monologue by a YI in listed Burmese. Mostly fair and clear.

15460 kHz **Reach Beyond Australia**, Kununurra heard at 1216 UT on Sept 1. Sub-continental music which was followed by a woman speaking in listed Hindi at 1217 UT. Poor-fair.

(Bob Brossell, Pewaukee-WI-USA, NASWA Electronic Flashsheet #1220 Sep 7)

11924.985 AUS Reach Beyond Kununurra AUS, Korean singer S=9 09.32UT
11964.946 AUS Reach Beyond Kununurra AUS, Indonesian/Javan. S=9 09.30UT
15459.945 AUS Reach Beyond Kununurra AUS, Hindi/Tel, S=9 fluttery 12.19UT
17649.977 AUS Reach Beyond Kununurra AUS, Jp, S=8 fluttery, Sep 9 22.40UT
(wb df5sx, wwdxc BC-DX TopNews Sept 9 - 10)

Wavescan will be broadcast by Reach Beyond Australia as follows for the B25 season: Sundays at 1330-1400 UTC on 15540 kHz to India and 2230-2300 UTC on 17650 kHz to Japan, as stated by Jeff White in the Wavescan edition of 12 October.

(Jeff White-FL-USA in today's edition of Wavecan; Jose Jacob VU2JOS; Hyderabad-IND; wor Oct 12)

AUSTRIA: Important information from Harald Suess-AUT: There is a second application for an MW licence in Austria with the RTR. The assigned frequency will be medium wave 1143 kHz. The station will broadcast from the Upper Austria area.

The test broadcast has been approved by the RTR (licensing authority in Austria) and has been scheduled for the period from 27 August 00.00 CEST to 29 August 24.00 CEST. If a licence is actually granted, the contact will open up and announce their contact details. I have also been informed that there will be special night-time broadcasts with programmes for DXers.

The selected frequency is practically empty except for two Spanish 5 kW stations. From Asia, the best case scenario would be the VoTadjik from Dushanbe-TJK appearing, most likely at the start of transmission at 02 UTC. If the licence application is successful, Austria will then have two licensed MW stations.

(Harald Suess, Austria, via Siegbert Gerhard-D, via wwdxc BC-DX TopNews Aug 25)

AZERBAIJAN: The oldest radio station in the country, Azerbaijan Radio, will continue to operate in a new office, and a modern complex will appear on the site of the old building.

The building of Azerbaijan Radio is being prepared for demolition. According to the press service of AzTV, the editorial staff will temporarily continue to work in the building of Azerbaijan Television. After dismantling, construction of a new facility will begin on the site. "How many floors will be in the new building of Azerbaijan Radio is still unknown. This will depend on the future situation and the number of employees," the press service clarified.

The history of Azerbaijan Radio goes back almost a century. The first broadcast took place on November 6, 1926, when the phrase "Attention, Baku speaking!" was heard from loudspeakers on the streets of Baku. {...} During the Soviet period, radio played a key role in preserving the language and cultural identity, and later expanded its activities by opening international editorial offices with programs in Turkish, Persian and Arabic.

Today, Azerbaijan Radio is part of the Azerbaijan Television and Radio Broadcasting CJSC and continues to be an important media platform, broadcasting 24-hour news and cultural projects. {...} <oxu.az>

(via Anatoly Klepov-RUS, RUSdx #1358 via wwdxc BC-DX TopNews Sept 7)

BOLIVIA: 3310 kHz Radio Mosoj Chasqui, Cotapachi, 23.51-00.02 UT, Sept 18, Quechua, comments. 15421. (Manuel Mendez-Friol-Lugo-ESP, hcdx BrDXC-UK groups.io>; Sept 19)

BRAZIL: 6180 kHz **Radio Nacional da Amazonia**, Brasilia, 2036-2048 UT, Sept 27, Brazilian songs, Portuguese, comments. // v11780 kHz. 24322.

11780 kHz **Radio Nacional da Amazonia**, Brasilia, 1954-2019 UT, Sept 27, Brazilian songs, Portuguese, comments, ID. "Radio Nacional de Brasilia". 35433.

15189.8 kHz **Radio Inconfidencia**, Belo Horizonte, 1937-2017 UT, Sept 27, Brazilian songs, songs in English, Portuguese, comments, ID. "Radio Inconfidencia". 35433.

(Manuel Méndez, Lugo-ESP, hcdx Sept 28)

5035 **Radio Educacao Rural de Coari** - Coari, Amazonas, at 1025 UT. Preaching. Occasional short music excerpts. Weak reception at Mt. Evelyn, confirmed via the OA4DFF Kiwi unit in Lima, Peru - remotely. Seems to be a regular service now. Sept 24.

(Rob Wagner VK3BVW, Mount Evelyn-Vic-AUS; via NASWA Electronic Flashsheet #1223 Sep 28)

5940.27 kHz **Voz Missionaria** - Camboriu, SC, 0915 UT. Much happy Gospel music with songs such as O Deus de Davi by Duo Paim. Some anncts over the songs. Telephone chats, too. Fair signal but with WWCR signal splash on 5935 kHz. Sept 24.

(Rob Wagner VK3BVW, Mount Evelyn-Vic-AUS; via NASWA Electronic Flashsheet #1223 Sep 28)

11748.7 kHz **Voz Missionaria**, Camboriu, 20.14-20.26 UT, Sept 18, Portuguese, religious comments and songs, ID. "Voz Missionaria ...". // 9665 kHz. 35433.

(Manuel Mendez-Friol-Lugo-ESP, hcdx BrDXC-UK groups.io>; Sept 19)

CANADA: 6070 kHz CFRX, Toronto, 0629-0718 UT, Sunday Sept 28, English, comments, news. QRM from Ch_292 on the same frequency. 13421.

(Manuel Mendez, Lugo-ESP, hcdx Sept 28)

CHINA: 17889.993 oddly kHz - real 7 Hertz down fcy on lower side band, SELDOM observed odd fcy aligned txmitter of **CNR 1 Beijing** here on this channel. S=8-9 in EUR, at 08.33 UT Sat Sept 27.

21590 kHz DRM digital audio mode signal block visible. **CNR1 via Xinjiang** province Urumqi outlet, S=8 into backlobe EUR at 08.14 UT on Saturday Sept 27.

21550 even CHN **CNR1 jammer** of China mainland against 'Falun Gong' sect SOH origin from Taiwan site on 21550.066

kHz string - probably TWN string. S=7 at 08.20 UT.

21490 even CHN **CNR1** stronger **jamming** signal S=8 at 08.23 UT on Sept 27, ahead of 21490.071 kHz likely Mandarin Chinese from SOH TWN origin.

[selected SDR options, span 12.5 kHz RBW 15.3 Hertz]

(wb df5sx, wwdxc BC-DX TopNews Sept 27)

21800 kHz on Aug 17 at 0144 UT, Chinese S7/S9 with Doppler flutter, OSOB, no doubt **CNR1 China mainland jammer** vs Sound of Hope-TWN, at 2300-1400 UT per Aoki database list; except for Denmark on 11mband, highest bc frequency listed. Also JBA carrier on 18970 kHz too, no doubt the same at 22-10 UT. Also at 0148 UT carrier only on 15916 kHz; if on 15920 kHz could be another - against SOH-TWN - jammer.

(Glenn Hauser-OK-USA, via NASWA Electronic Flashsheet #1217 Aug 17)

One interesting aspect of Chinese jamming of SoHope is that it frequently stops and goes off their right at the top of hour no audio, no carrier and then resumes at about 2 minutes past the hour with a carrier and then audio at about 2 minutes 20-30 seconds. Transmitter sight changes for the jammer perhaps?

(Tony Pavick-Hope-BC-CAN, wor Sept 26)

9730 kHz **China Radio International**, via Kashi Xinjiang province to South America, Portuguese service, on 15 Sept at 19.54-19.59 UT. Chinese instrumental music, CRI's schedule performed in Portuguese by OM, sign-off on 19.59 UT. 35333.

(Rudolf Grimm Sao Bernardo-SP-BRA, hcdx via wwdxc BC-DX TopNews Sept 23)

CUBA: 4765 kHz **Radio Progreso**, Bejucal, 0149-0156 UT, Sept 28, Spanish, comments, Cuban songs. 35433.
 Also heard 0441-0443* UT, Sept 28, Cuban songs. Extended program today, usual closing time at 0400 UT. 35433.

5025 kHz **Radio Rebelde**, Bauta, 0449-0624 UT, Sept 28, Cuban songs, Spanish, comments, program "Todo Musica", ID. "Rebelde, la emisora de la revolucion". 35433.
 (Manuel Mendez, Lugo-ESP, hcdx Sept 28)

9710 kHz **RHC** En service w/Cuban news read by YL Betty (Beatrice-?? I missed the last name) who has a significant accent but the better modulation today on this channel helped. ALMOST good but the modulation was at times a BIT muffled, but WAY better than it has been. It was not painful to listen ! 0201-0320 UT 24 Sept.
 (Ken Zichi, Williamston MI-USA, Mare TlpSheet #1373 log via wor Sept 26)

11760 kHz **R Habana Cuba** via Quivincan San Felipe Titan bcast center, at 0029 UT, 25 Sept. English. Programme "Havana Portraits" with item about Ernest Hemingway and his connection to Havana. Music at 0036 UT to news review at 0046 UT. Another edition of programme "Havana Portraits" followed with items about sites in Havana. News at 0056 UT. Carrier cut then.
 (Tony Pavick-BC-CAN, via NASWA Electronic Flashsheet #1223 Sep 28)

15140 kHz Sept 18 at 1424 UT, Spanish, music, **RHC** S=9+25dB; at 1426 UT also on 13780 kHz, S8/S9 undermodulated; 11760 kHz S7/9+5; and S5/S9 of dead air on 15230 kHz.

6000 kHz Sept 19 at 0607 UT, **RHC** still on S=9+25/35dB suported but I can tell it's Spanish, not English.

9790 kHz Sept 19 at 0604 UT, =S9+20/25dB of dead air, obviously the **CRI relay transmitter** still on long beyond its normal hours of 03-05 UT.

11760 & 15140 kHz Sept 21 at 1432 UT, **RHC** Spanish, and dead air on 15230 kHz, no signal on 13780 kHz.

13780 kHz Sept 23 at 2211 UT, **RHC** S=9+20dB with "Revista Nuestra America"; S=9+10dB of deadair on 15230 kHz, nothing on 11760 kHz.

15140 kHz Sept 24 at 1909 UT, **RHC** JBA in English; off by 2006 UT.

15230 kHz Sept 24 at 2216 UT, S=9+10/20dB of dead air or maybe JBM; also 11760 kHz dead air at S=9+20/30dB except for a swishing sound. But 13780 kHz is S=9+20dB modulating Spanish about the year 1898. Somethings always wrong at RHC ...
 (Glenn Hauser-OK-USA, hcdx & wor Sept 24)

CYPRUS/OMAN/ASCENSION ISLAND: BBC World Service London in English was heard at 1600-1700 UT on MW 639 kHz Limassol-CYP, 1413 kHz ENC A'Seela Oman, // 12095 kHz ENC A'Seela Oman and at 1700-1800 UT on 639 kHz, 1413 kHz, // 17780 & 17830 kHz both from Ascensions on Oct 1st.

CZECH REPUBLIC / HFCC.org: Shortwave still connects the world: HFCC Conference returned to Prague_CZE.

Despite the fact that most media are moving their content to the digital space, shortwave broadcasting remains an important pillar of global communication, although not as visible as it was in the past. This week, Prague is hosting the HFCC (High Frequency Coordination Conference), a conference bringing together shortwave broadcasting experts from around the world. Radio Prague International, the international broadcaster of Czech Radio, acted as a media partner for the conference.

"Shortwaves continue to be of great importance. In crisis areas, in countries with limited access to the internet, or where media freedom is under threat, shortwaves are often the only way to stay connected to the world," says Jeff White,

Chairman of the HFCC and founder of Radio Miami International.

FRANCE: re Antennas blown down at TDF Selestat France

A six-tower Radio France-TDF MW antenna array west of Selestat, { Haut- Koenigsbourg near Strasbourg, WB. } France, was dismantled last week, according to the Derniere Nouvelles d'Alsace newspaper. The Selesat transmitter site was first used in 1952 (replacing {pre WW II installation, WB.} Brumath). Most recently, it transmitted on 1278 kHz for 'Radio Bleu Alsace' until it was shut down in 2015. I was told once that in its last few years, only three of the six towers were being used.

The towers could easily be seen from the nearby A35 autoroute and the sight of six sets of blinking red lights was reassuring whenever I drove by. I noticed in July that several of the towers were no longer lit. There were several occasions when I would stop at the site and wonder what was inside the large, majestic transmitter building. There was no signage other than a small metal TDF sign on the drive into the complex.

Several houses surround the greenspace in front of the building. There was talk a couple of years ago that the city might put housing there, but according to the DNA_article the property still belongs to TDF.

Re: 'Mini Transat' yacht race shortwave broadcasts.

Alan Pennington-UK posted all about it yesterday Sept 26 to the British DX Club:

"The biennial 'Mini Transat' single-handed yacht race (sponsored by La Boulangere) began on Sunday 21st September with 90 small (6.50m) boats sailing from Les Sables d'Olonne in France, with a destination on the first stage of the race, Santa Cruz de la Palma in the Canary Islands.

(The second stage is scheduled to begin from La Palma on 25th October, destination Guadeloupe, Caribbean.)

One feature of the race is participants use paper charts and only have a VHF radio (with around 10 mile coverage). But there is a daily shortwave broadcast in French and English giving them weather conditions.

Two frequencies are registered on HFCC.org database for these daily 'Mini Transat' (MT) weather forecasts at 1500-1600 UTC: 7340 and 17545 kHz (both 250 kilowatts from TDF Issoudun bcast center site). (...)

17545 kHz was heard yesterday (25th Sept) at 1500 UT by Adam Amirkhanov in Bucharest-ROU on WRTH F_B: <<https://www.facebook.com/share/v/18mRyaXsEg/>>

However, the first stage of Mini Transat has now been cancelled with boats sheltering in ports on the Portuguese coast because of the impending Category_4 Hurricane Gabriele approaching from the Azores, expected to hit the coast of Portugal on Saturday."

Clandestine and other 'Target Radio' broadcasts.

New station '**Radio Mellat Iran**' heard on 15540 kHz. A new Persian-speaking broadcast was observed on Friday 22 August from 1810 UTC tune-in on 15540 kHz, identifying as 'Radio Mellat Iran' [Radio Iran Nation].

The announcement translated by Google further stated that they are on air for an hour every Friday. The broadcast finished abruptly at 1900 UT, so apparently the schedule is 1800-1900 UTC Fridays. Reception was good via Doha Qatar webSDR remotely. Their Instagram page referencing this frequency can be found at

<<https://www.instagram.com/radiomellatiran>>

(David Kernick, Interval Signals Online via "Communication" monthly magazine Sept 2025, page #30, BrDXC.UK iogroups, Sept 9)

'**Radio Mellat Iran**' confirmed Friday 30 Aug 1800-1900 UT on 15540 kHz - good signal into UK - western Europe. (via "Communication" monthly magazine Sept 2025, pages #30 to #31, BrDXC.UK iogroups, Sept 9)

15540 kHz Fri, Sept 12, at 18.32-18.48 UT, '**Radio Mellat Iran**', TDF Issoudun-F, in Farsi/Persian. Music; woman talking; man talking, speeches, it seems; 18.44 UT Music; Man communication. Poor reception, target to Iran/Middle East: 25422. My 2nd log this CLA Station, Radio Mellat Iran or Radio Omid -e-Iran ?

(Jose Ronaldo Xavier, Cabedelo-PB-BRA, hcdx Sep 12)

Not to be confused with 'Radio Zamane Bidar' which broadcasts on Thursdays from 1830-1930 UTC on 15540 kHz via TDF Issoudun-F site.

15540 kHz 1800-1900 UT Fr CLA Radio Mellat Iran Farsi NE/ME /F-i

15540 kHz 1830-1930 UT Th CLA Radio Omid e-Iran Farsi NE/ME /F-i

(Eibi database, Sept 6; via "Communication" monthly magazine Sept 2025, pages #30 to #31, BrDXC.UK iogroups, Sept 9)

FRANCE/MONACO: 1467 / 1557 kHz. Monaco Media Diffusion (10-12 Quai Antoine 1er, MC-98000 Monaco, EUR, <<https://www.mmd.mc>>) currently has the following AM transmission schedule:

Col de la Madone (F) 1557 kHz (40 kW) reserved for emergencies.

Roumoules (F) 1467 kHz (1 MW) 21:15-23:00 UT TWR Europe
in Arabic and Kabyle to North Africa target.

GERMANY: ShortwaveService in Kall-Krekel will end broadcasts on December 31, 2025

Dear remaining shortwave consumers,

It began on 25 November 2007 and will end on 31 December 2025: when he comes of age, we will release the rascal into freedom. 6005 kHz Kall-Krekel will be no more. Broadcasting on 3985 kHz will also be discontinued at the turn of the year. Further operation of 6085 is currently still being reviewed. Background: Most shortwave licences in Germany expire on 31 December 2025. Connection allocations are possible, but involve significantly higher costs (previously €1,500 for 10 years, in future €4,000 for 10 years). As there are fewer and fewer KW licences in Germany, the annual EMC contributions will also rise significantly, as the Federal Network Agency (BNetzA) allocates the total costs to all active allocations.

Without Lampertheim and a thinned-out Media Broadcast transmission schedule, this means a significant additional burden for the rest. In addition, there is a new VVRuFu, which has different requirements for media law than it did 10 years ago. And honestly: KW is really 'over' in our part of the world. Except for the egos of a few individuals: zero relevance. Neither in disaster control nor as a terrestrial radio broadcasting channel.

When I look at the number of RRs that still come in at all, 95% are 'via Twente SDR'. Come on, just listen to the web stream. It was a good time, and I'm a bit proud that we opened up the market for smaller players back then, even though the excesses were and still are often questionable.

With that in mind, enjoy the remaining 3.5 months of KLL. There will be no more QSLs. But at least the infrastructure will remain intact.

(Christian Milling-D, via A-DX Group & wwdxc BC-DX TopNews Sept 18)

You will find the current schedule of ShortwaveService on our web page <<https://www.wwdxc.de/sws.shtml>> (Michael Bethge/WWDXC-D, Oct. 9)

Uncle Bill's Melting Pot, October 2025

In October we will present a potpourri of recent releases from around the world.

All broadcasts are on Radio Channel 292 from Germany as follows:

Friday, October 17: 6070 kHz at 1700 UTC

3955 kHz at 2100 UTC

Saturday, October 18: 9670 kHz at 1700 UTC using beam H (repeat of October 17 episode).

Note that our Sunday broadcasts have moved to Saturdays.

In addition to direct radio reception, we do honor reception reports using remote SDRs as long as the whole program is described and which SDR is specified.

Reports to: <bill@tilfordproductions.com>

(Bill Tilford-IN-USA, Tilford Productions, Sept 28)

GERMANY/UNITED KINGDOM/AUSTRIA: SM Radio Dessau <<https://www.sradio-dessau.de>> will celebrate nine years on air in November 2025. The following extended broadcast schedule will therefore apply in November on shortwave from Rohrbach (ROB), MBR Nauen and ENC Woofferton-UK, as well as on medium wave via the Bad Ischl museum station 1476 kHz (UTC):

Sun, 02 Nov 2025, 21:00-22:00 UTC: 1467 kHz (Bad Ischl 1 kW) Repeat of old programmes
 Sun, 09 Nov 2025, 12:00-13:00 UTC: 6070 kHz (ROB 10 kW), 6095 kHz (NAU 100 kW) Schallplatte Fahrt frei (2/2)
 Sun, 09 Nov 2025, 21:00-22:00 UTC: 1467 kHz (Bad Ischl 1 kW) "Schallplatte Fahrt frei" (2/2)
 Sun, 16 Nov 2025, 21:00-22:00 UTC: 1467 kHz (Bad Ischl 1 kW) Repeat of old programmes
 Sun, 23 Nov 2025, 11:00-12:00 UTC: 9670 kHz (WOF 125 kW) Special programme: 9 years of SM Radio Dessau
 Sun, 23 Nov 2025, 13:00-14:00 UTC: 6070 kHz (ROB 10 kW), 6095 kHz (NAU 100 kW) 9 years of SM Radio Dessau
 Sun, 23 Nov 2025, 21:00-22:00 UTC: 1467 kHz (Bad Ischl 1 kW) 9 years of SM Radio Dessau
 Sun, 23 Nov 2025, 22:00-23:00 UTC: 3955 kHz (ROB 10 kW) 9 years SM Radio Dessau
 Sun, 30 Nov 2025, 21:00-22:00 UTC: 1467 kHz (Bad Ischl 1 kW) Repeat of old programmes

Meaningful reception reports are always welcome at Max Berger, Saalestrasse 44, 06846 Dessau, Germany - Email: <maxberger@sradio-dessau.de>

Printed QSL cards are only available if sufficient return postage is enclosed: Germany € 0.95, abroad € 1.25.

(Thomas Becker-D, via Dr. Hansjoerg Biener-D, via wwdxc BC-DX TopNews Sept 6)

GUAM: Closure of KTWR Guam on 31 Oct 2025

"For nearly 50 years, TWR has proclaimed the Good News from a powerful shortwave station on Guam Merizo." However, in the summer of 2025, TWR had bad news for listeners and donors: "As valuable as the Guam station has been to the work of Trans World Radio, we have faced many challenges there in recent years, from the high cost of living on the island to the unsustainable workload of the staff and the constant strain on the equipment.

Another pressing issue is our aging transmitters, which are becoming increasingly vulnerable to unforeseen, catastrophic failures. We do not believe that raising funds to replace this expensive equipment would be a wise use of resources already needed in other areas of our work. After months of intense prayer, study, and discussion, TWR's global leadership unanimously decided to cease operations on Guam by October 31, 2025."

<<https://twr.org/story/transition-for-twrs-guam-station>>

The HC100 shortwave transmitter, commissioned in 1995, or parts and other equipment could perhaps be relocated to TWR Eswatini-Swaziland, where HC100s are already in use. On the other hand, an attempt is being made to sell the two Thompson TRE2326 transmitters that arrived from Darwin, Australia, in the early 2010s. At 250 kW, these are somewhat oversized for the capabilities of a radio mission. Furthermore, the HC100s were specifically developed by the HCJB transmitter company with a view to costeffective and repair friendly operation by mission transmitters in developing countries.

The DX world immediately speculated whether KTWR would actually make it to the scheduled end of broadcasting at the end of October. In fact, the situation is somewhat unclear. For example, Bernd Seiser received a broadcast schedule dated May 2025 in response to a reception report. However, according to the HFCC registration, the transfer of broadcasts had already begun long ago.

This not only includes FEBC Manila and Reach Beyond Australia as upcoming partners, but also flexible booking options for shortwave stations in Uzbekistan and Tajikistan. Interestingly, there is no reference to the transmitter in Palau, which is also operated as a mission station. Below, this last available broadcast schedule for the past month is documented

for posterity:

The scenario appears to be as follows:

Tashkent for Korea, as it was already the broadcasting location of choice for the BBC and private North Korea programs.

FEBC Manila for China and Northeast Asia to Southeast Asia. Reach Beyond Australia for the area from Indonesia to India. It is assumed that not all of the broadcasting will find a new home.

Either because an organization is withdrawing from shortwave altogether, or because the programs were already included in the schedules of other locations. It is also important to note that many of the traditional/ renowned radio organizations that were still committed to "the world up to the year 2000" and were able to be won over as sponsors of foreign languages no longer exist today.

(Dr. Hansjoerg Biener-D, translated via wwdxc BC-DX TopNews Sept 10)

Farewell to KTWR, Guam - Jose Jacob, VU2JOS

KTWR Guam of Trans World Radio is ending their broadcasts on 31 Oct 2025 after 48 years of Christian broadcasting on SW. They started broadcasts in Sept 1977 and have used 100 kW and 250 kW transmitters in AM and DRM modes. Their latest schedule shows that KTWR is broadcasting to India follows:

1245-1315 UTC 15400 kHz AM Mode

1600-1630 UTC 15390 DRM Mode Sat

1600-1645 UTC 15390 DRM Mode Sun

Reception Reports to the station may be sent to <asiafeedback@twr.org>.

They are moving their broadcasts to FEBC Philippines, Reach Beyond Australia, Tashkent, Dushanbe etc. Bye bye to KTWR Agana Guam!

(Jose Jacob, Asian DX Review - IDXCI, October 2025)

Closure of DXers Diary and KTWR Guam on 26 October 2025

After nearly five years of dedicated service to the global DXing community, DXers Diary - the SW DX program from Trans World Radio (TWR) - will air its final edition on October 26, 2025, at 1500 UTC on 15390 kHz in DRM mode (broadcast time / kHz subject to change).

This farewell coincides with the closure of KTWR Guam on October 31, 2025.

First launched on January 6, 2021, DXers Diary quickly earned a respected place in the hearts of SW listeners. The weekly five-minute program, created and presented by Arun Kumar Narasimhan, VU2BBF of Chennai, India, became a source of DX news, listener loggings, and station profiles. Originally broadcast in AM mode and later in DRM, the program was transmitted via KTWR Guam, and also for short periods from Erevan, Madagascar, Tashkent and UAE. (Jose Jacob, Asian DX Review - IDXCI, October 2025)

The TWR Asia schedule for B25 shows that broadcasts will then come from transmitters in Australia, Madagascar, Philippines, Tajikistan and Uzbekistan (shortwave) and Kyrgyzstan & Sri Lanka (mediumwave):

Australia TWR Asia will be relayed via the Reach Beyond Australia transmitter at Kununurra, Western Australia for B25 as follows (all at 75 kW): on 11965 kHz at 0930-0945 Sat in Javanese, 0930-1000 Mon-Fri in Madurese, 0930-1000 Sun in Indonesian, 0945-1000 Sat in Indonesian, 1000-1015 Sun in Balinese, 1000-1030 Mon-Fri in Sundanese, 1000-1030 Sat in Indonesian, 1015-1030 Sun in Madurese, 1030-1046 Mon-Fri in English, 1030-1100 Sat in Indonesian, 1030-1100 Sun in English, and 1100-1115 Sat in Malay. And on 15460 kHz at 1130-1200 Mon-Fri in English and 1130-1200 Sun in Japanese.

Madagascar TWR Asia will be relayed via the Madagascar Global Relay Station at Talata Volonondry for B25 as follows (all at 250 kW): on 17700 kHz at 1400-1415 Mon in Ho, 1400-1415 Tue in Bondo, 1400-1415 Wed in Kurukh, 1400-1415 Thu in Kui, 1400-1415 Fri in Santhali, 1400-1415 Sat in Bundeli, 1400-1415 Sun in Harayanvi, 1415-1430 Mon in Awadhi, 1415-1430 Tue/Thu in Hindi, 1415-1430 Wed in Marwari, 1415-1430 Fri in English, 1415-1430 Sun in Braj Bhasha, 1415-1445 Sat in Hindi, 1430-1445 Mon-Wed in English, 1430-1445 Thu in Dzonkha, 1430-1445 Fri in Bengali, 1430-1445 Sun in Manipuri, 1445-1446 Mon-Fri in English, 1446-1500 Mon-Fri in Hindi, 1445-1500 Sat in Desiya and 1445-1500 Sun in Bhatari. And on 15440 kHz at 1430-1500 daily in Urdu.

Philippines TWR Asia will be relayed via FEBC transmitters for B25 as follows: Transmitter DPS (100 kW): 0030-0100 Mon-Fri on 12120 kHz in English, 0900-0930 Mon-Fri on 12160 kHz in Mandarin, 0930-0945 daily on 12160 kHz in Mandarin and 0945-1000 on 12160 kHz in Mandarin. Transmitter DPI (100 kW): 1330-1415 Sat on 11550 kHz in Vietnamese.

Tajikistan TWR Asia will be relayed via Orzu for B25 as follows (all at 250 kW): 1130-1145 Sun on 9910 kHz in English, 1145-1245 Sun on 9910 kHz in Mandarin, 1230-1245 Mon-Fri on 9910 kHz in Yunnanese, 1245-1300 daily on 9910 kHz in Hui, 1300-1330 Sun on 9975 kHz in Mandarin, 1300-1340 Mon-Fri on 9975 kHz in Mandarin, 1300-1345 Sat

on 9975 kHz in Mandarin, 1400-1430 daily on 7540 kHz in Korean and 1900-2000 daily on 7540 kHz in Korean.

Uzbekistan TWR Asia will be relayed via transmitters in Tashkent for B25 as follows (100 kW, except DRM at 50 kW): 1030-1045 Mon-Sat on 11825 kHz in Mongolian, 1045-1100 daily on 11825 kHz in Mongolian, 1100-1130 Sun/Mon on 15400 kHz in Korean, 1100-1200 Tue-Fri on 15400 kHz in Korean, 1200-1230 Sat in DRM on 12105 kHz in English, 1230-1300 Sat in DRM on 12105 kHz in English, 1300-1330 Mon-Fri on 7540 kHz in Korean, 1330-1400 daily on 7540 kHz in Korean, 1400-1430 Sun on 9975 kHz in Burmese, 1430-1445 Sun on 9975 kHz in S'gaw Karen, 1430-1500 daily on 7540 kHz in Korean, 1445-1500 daily on 7480 kHz in Kazakh, 1445-1500 Sun in DRM on 9975 kHz in English, and 1505-1515 in DRM on 9975 kHz in English.

Kyrgyzstan TWR Asia on 1467 kHz from Bishkek: Schedule effective 26 October 2025: 1330-1400 Sun in Kashmiri; 1330-1400 Mon-Sat in Urdu; 1400-1415 Sat in Pahari-Kangri; 1400-1430 Sun in Saraiki; 1400-1430 Mon-Wed in Urdu; 1400-1430 Thu in Pashto; 1400-1430 Fri in Punjabi; 1415-1445 Sat in Punjabi; 1430-1445 Sun/Mon in Urdu; 1430-1445 Tue in Punjabi; 1430-1445 Wed in Sindhi; 1430-1445 Thu in Saraiki; 1430-1445 Fri in Pashto; 1445-1500 Daily in Urdu; 1500-1530 Daily in Dari; 1530-1615 Daily in Pashto; 1615-1630 Mon/Wed/Sun in Pashto; 1615-1630 Tue/Thu-Sat in Dari; 1630-1645 Daily in Tajiki; 1645-1710 Mon-Sat in Farsi; 1645-1715 Sun in Dari; 1710-1715 Mon/Fri in Dari; 1710-1715 Tue-Thu/Sat in Farsi; 1715-1730 Sun-Tue in Hazaragi; 1715-1745 Wed/Fri in Hazaragi; 1715-1745 Thu in Dari; 1700-1730 Mon-Thu in Uyghur.

Sri Lanka TWR Asia on 882 kHz from Puttalam: Schedule effective 26 October 2025: 0000-0015 Daily in Banjara; 0000-0015 Tue in Soura; 0000-0015 Wed in Hindi; 0000-0015 Thu in Telegu; 0000-0015 Fri in Marathi; 0000-0030 Mon in Malayalam; 0000-0030 Sat in Oriya; 0015-0030 Sun in Tulu; 0015-0030 Tue in Chattisgarhi; 0015-0030 Wed in Gondi; 0015-0030 Thu in Hindi; 0015-0045 Fri in Marathi; 0030-0045 Mon in Kui; 0030-0045 Tue in Konkani; 0030-0045 Wed in Gamit; 0030-0045 Thu in Koya; 0030-0100 Sat in Oriya; 0030-0100 Sun in Gujarati; 0045-0100 Mon-Fri in English; 1445-1500 Mon/Tue in Tamil; 1445-1500 Wed in Telegu; 1445-1500 Thu in Oriya; 1445-1500 Fri in English; 1500-1545 Mon-Fri in English.

(DX GUIDES, edited by Tony Rogers-UK, times & freqs as per TWR Asia schedule effective 26 October 2025)

INDONESIA: 7205 kHz **RRI Pro 3**, 0900+ UT, Sept 21, heard via Kiwi SDR remote at Sidoarjo; theme music of Rayuan Pulau Kelapa - Song of the Coconut Islands; time pips; news; 0906 UT, the RRI song "Mars Angkasawan Radio Republik Indonesia." I didn't know they were on this early.

(Ron Howard-CA-USA, wor and via wwdxc BC-DX TopNews Sept 23)

'**RRI Pro 3**' on SW. RRI has replied to an enquiry about the new SW frequency 7300 kHz, which switched to 7335 kHz and more recently to 7205 kHz which is being widely heard by DXers in the region.

Zach Liangas received this reply to his enquiry from Voice of Indonesia: "Thank you very much for your message and continued interest in our broadcasts. We're pleased to confirm that 'RRI Program 3' (News Channel) is now also available via shortwave transmission at frequency 7300 kHz as part of our effort to broaden the reach of RRI services to international audiences.

This addition complements the existing shortwave service of Voice of Indonesia, and we hope it provides more diverse listening choices for shortwave audiences worldwide. Should you have further questions or feed-back, we are always happy to hear from you. Warm regards, Team of Public Relations and International Cooperation."

(via Zacharias Liangas-GRC, wor iog; via "Communication" monthly magazine Sept 2025, page #31, BrDXC.UK iogroups, Sept 9)

['RRI Pro 3' confirmed on 7335 kHz at 1115 UT on 5 August, and on 7205 kHz at 1815UT on 28 August - it was audible on KiwiSDRs in Australia and Indonesia with a good signal.

(Dave Kenny-UK, via "Communication" monthly magazine Sept 2025, page #31, BrDXC.UK iogroups, Sept 9)]

7289.93 kHz **RRI Nabire Pro 1**, 0756-0851* UT, Sept 22, heard at the beach; as usual, the signal was slowly fading up; today was mostly EZL songs and announcers (no Islamic songs heard); didn't make it to the Islamic segment today.

9690 kHz **Voice of Indonesia**, 0150+ UT, Sept 23, heard via Kiwi SDR remote in Bogor; in English; Bali tourism (detailed info about requirements for tourist to drive in Bali and "sustainable tourism" for Bali); ID, list of VOI languages and frequencies; 02.01 UT, still in English, with no intro, but straight into an item about Indonesian President Prabowo Subianto's UN speech strongly condemning Israel's military actions in Gaza; the RRI song "Mars Angkasawan Radio Republik Indonesia"; fairly readable, but still slightly garbled.

Sept 22: While listening at the beach, surprised to be able to dig out definite reception of VOI on 9690 kHz, at 10.59 UT, with positive VOINS theme music, but extremely poor reception; also very poor reception on 4755 kHz; unable to guess the language. 9690 kHz is reportedly low powered, but was able to confirm reception here on the West Coast. Sept 21: Checked 9690 kHz, at 09.10 UT, via Bogor Kiwi SDR remote; in English with info about song that was played; the usual garbled audio. Perhaps on at 0900 UT ? Was not heard during earlier monitoring.

(Ron Howard-CA-USA, wor and via wwdxc BC-DX TopNews Sept 23)

Radio Republik Indonesia Marks 80 Years of Public Service.

Employees of public broadcaster RRI took part in a ceremony marking the institution's 80th anniversary at the RRI headquarters in Jakarta on Thursday, September 11, 2025.

Radio Republik Indonesia is the country's only national radio station owned by the government. It was officially founded on September 11, 1945, a date now commemorated as National Radio Day in Indonesia.

RRI was established following a meeting of delegates from six radio stations at the home of Adang Kadarusman, where Dr. Abdulrahman Saleh was appointed as the organization's first general director.

Prior to RRI's founding, Indonesia's first radio broadcast was launched by Bataviasche Radio Vereniging (BRV) on June 16, 1945 from the Hotel des Indes in Batavia (now Jakarta).

During the Dutch East Indies era, several private radio broadcasters emerged, including NIROM (Nederlandsch-Indische Radio Omroep), SRV (Solossche Radio Vereniging), and MAVRO (Mataramse Vereniging Voor Radio Omroep).

Among these, NIROM was the most extensive, receiving full support from the Dutch colonial government. Meanwhile, SRV, founded in 1933 by Mangkunegoro VII and engineer Sarsito Mangunkusumo, pioneered Indonesian-led radio broadcasting.

Radio broadcasting in Indonesia continued to evolve.

During the Japanese occupation beginning in 1942, Japan seized Dutch- owned stations and consolidated private broadcasters under a centralized system known as Hosokanri Kyoku. Its main station was located in Jakarta, with branches in cities such as Bandung, Yogyakarta, and Surabaya. These stations primarily served as tools for Japanese propaganda. However, broadcasts ceased following Japan's surrender in August 1945.

On September 11, 1945, representatives from eight former Hosokanri Kyoku stations met with the Indonesian government in Jakarta and officially founded Radio Republik Indonesia.

The station was presented to the President and the government as a means of communication between the state and its citizens.

JAPAN/UNITED ARAB EMIRATES: End of **NHK World Radio** Russian broadcasts via WRN 1830-1850 UT 13650 kHz (Al- Dhabbiya, UAE) on 30 September 2025.

Anatoly Klepov announced this news; more info should be coming. And, it's a loss for WRN, as NHK's Russian program is heard through this platform, especially via shortwave (on UAE ENC A'Dhabbaya relay) on 13650 kHz.

(Joe Hanlon-NJ-USA, wor via wwdxc BC-DX TopNews Sept 16)

Other sources say, however, that NHK R Japan has completely withdrawn from WRN, see (for how there is nothing left to see there): <<https://wrn.world/programs/>>

see also:

<https://www.radioeins.de/programm/sendungen/medienmagazin/radio_news/beitraege/2020/japan.html>

(Kai Ludwig; radioeins (RBB) Oct. 5)

NHK World Radio, however, continues broadcasting in Russian on SW/MW. According to the new B25 HFCC plan, the programmes in Russian will be on the air on shortwaves at:

0430-0450 daily from Nauen with 125 kW on 6165 kHz

0540-0600 daily from Yamata with 300 kW on 7375 kHz

1030-1050 daily from Yamata with 400 kW on 7430 kHz

(Alexander Miatlikov-Dnipro-UKR & HFCC.org via Editor Oct. 9)

JAPAN/TAIWAN: 6110 kHz OPPOSITION target radio '**Nippon no kaze**' 'Wind from Japan' (from Japan - {via KDDI national telecommunication provider at Koga-Ibaragi-Yamata Japan site, WB.}: to/against North Korea) at 1500 UT and // 9685 kHz {via Paochung/Baozhong TWN relay center, WB.} too. Opening themes, talk in Korean. Fair at tune-in, faded out here and on 31 meter // with rising sun (np pun intended).

(Rick Barton, Sun City-AZ-USA, Arizona Update via wor Sept 20)

KOREA D.P.R. {North}: North Korea halts jamming following close of target broadcasts. The National Intelligence Service [of South Korea] has confirmed that North Korea has mostly stopped broadcasting 'jamming signals' after it completely halted its broadcasts to North Korea this month.

The government has assessed this as an 'unexpected corresponding action' from North Korea. While two or three jamming signals remain, the government assesses that North Korea is reacting sensitively to a series of conciliatory measures, including the cessation of loudspeaker broadcasts to the North.

(KBS News via British DX Club; via Listener's Notebook, NASWA Journal

#10 / 2025 Oct 2025, page #32-33)

6140 kHz DRM digital mode domestic sce of **KCBS 2**, 1300 UT, 27 Aug. Strong DRM signal that decoded the ID as Korean Central Radio 2 (in Korean language). No audio but sources have indicated that this is not untypical. Signal was so strong that had there been audio it would have decoded. Off at 1358 UT as opposed to 1800 UT as shown. (Tony Pavick-BC-CAN, via NASWA Electronic Flashsheet #1219 Aug 31)

11710 kHz **Voice of Korea** in En to NoAM, Aug 30 at 1512 - 1520 UT. SIO 444 OM announcer with news, North Korean style. Minor QRN / QSB. OM extolling the accomplishments of the Communist system, especially claimed gains in science and technology. Station ID given, followed by YL announcer introducing choral MX with YL chorus.

(Vince Henley-WA-USA, via NASWA Electronic Flashsheet #1219 Aug 31)

KOREA REPUBLIC: The South Korean Ministry of Defense announced a complete cessation of broadcasting of the propaganda radio station "Voice of Freedom", which for 15 years broadcast news and popular music for residents of North Korea. This was reported by the Yonhap agency.

The station's closure was a continuation of President Lee Jae-myung's policy aimed at easing the situation and finding ways to dialogue with Pyongyang. Radio "Voice of Freedom" first went on air in May 2010 - as a response to the sinking of the South Korean corvette "Cheonan", which, according to Seoul, was sunk by a North Korean submarine.

Since then, the radio station has become an important tool of information pressure: its broadcasts included reports on events in the world and on the Korean Peninsula, including information about the dispatch of North Korean troops to Russia last year.

KUWAIT: **Kuwait News Agency:** **Kuwait radio chosen for Gulf broadcast on World Radio Day '26**

<<https://www.kuna.net.kw/ArticleDetails.aspx?id=3250326>>

TUNIS, Sept 26 (K_U_N_A) The Permanent Committee for Broadcasting at the Arab States Broadcasting Union announced Friday, that Kuwait Radio will conduct international broadcasting for the Gulf region as part of the activities celebrating World Radio Day 2026.

The Arab States Broadcasting Union stated in a press release that UNESCO organizes this annual celebration, with the 2026 theme focusing on "Radio and Artificial Intelligence," and Kuwait Radio will broadcast alongside Iraq, Algeria, and Jordan.

Following the committee meeting, the union announced topics for the 2026 broadcasting competitions, including "Through Arab Eyes", exploring the history of ancient Arab cities, and "Arab Figures", highlighting prominent personalities protecting the Arabic language across the region.

The union also confirmed ongoing media support for the Palestinian cause, discussed developing the 15th Arab Music and Singing Competition, proposed the Arab Audiobooks Group, and selected "Radio Content Security in the Digital Environment" for the annual 2026 workshop with practical experiences shared.

LIBERIA: 6050 kHz ELWA Radio, Monrovia, 1931-1957 UT, Sept 27, English, religious comments and songs. 15422. Also heard 0603-0621 UT, Sept 28, English, religious comments and songs. 25422. (Manuel Mendez, Lugo-ESP, hcdx Sept 27-28)

LUXEMBOURG: Re: 6140 kHz reception report; from <info@radiogloria.ch>

Dear Siegbert Gerhard,

We are very pleased to hear from you. Please excuse the delayed response.

We began shortwave broadcasts from Luxembourg in the spring of 2025 Luxembourg in the spring of this year – with only a few hundred watts of transmission power. Thanks to the excellent grounding at the former RTL Luxembourg transmission site, the signal nevertheless achieves a remarkable range. Our dipole antenna is roughly aligned in your direction, but remains largely omnidirectional / omnidirectional.

Our current broadcast schedule on shortwave 6140 kHz is daily from 06:00-21:00 UTC.

Enclosed is our current QSL card to confirm the reception report. Our programme offers a diverse mix of classical music and religious contributions. Since our foundation in 2004, we have been the first Catholic radio station in Switzerland.

With warm regards and blessings from Switzerland, Peter Galliker. Station manager Radio Gloria, HB9JCD.

Radio Gloria, Alte Klosterstr. 1, CH-6283 Baldegg - Switzerland

Postal address: P.O. Box, CH-6281 Hochdorf - Switzerland

MADAGASCAR: 11640 kHz Wed, Oct 1st, at 0430-0440 UT, '**Radio Dabanga**', via MGLOB Talata Volonondry Madagascar relay facility, WB., in Darfur Arabic. A brief music, woman says ID; She presents news, presumably; Man talking news, too; ID. Fair reception, target to Southern Sudan: 35433.

(Jose Ronaldo Xavier-Cabedelo-PB-BRA, hcdx Oct 2)

'**Radio Dabanga**' {target radio to Southern Sudan} - Due to the end of USAID, 'Radio Dabanga' <<https://www.dabangasudan.org/en>> lost a major donor the spring and had to reduce its broadcast time to one and a half hours. However, it is by no means the case that only the USA is rethinking its donation practices.

According to current estimates, 'Radio Dabanga' will also no longer receive funding from the Netherlands and will cease operations in January 2026. In this context, the station launched a charm offensive in August 2025. Numerous Dutch media outlets (De Volkskrant, NPO Radio 1, among others) reported on the important work of the information provider from and to Sudan.

Co-founder Leon Willems did not want to play one off against the other: "The focus [of European interest] is on Gaza strip Palestine, Ukraine, and our own problems. That is all justified. But Sudan must also be in focus."

Editor-in-Chief Kamal Elsadig was apparently less diplomatic - A press report stated: " 'Radio Dabanga' is the only independent news source for millions of Sudanese. The question is, for how long? Funding is drying up, and it is becoming increasingly difficult to connect with people in this famine- and war-stricken country. [...]"

The war in Sudan is a 'forgotten conflict', to which Western media and politicians pay relatively little attention. This is partly because the West has virtually no direct interest in Sudan. It does not supply weapons to warring parties and does not maintain close economic ties with the country."

(via Dr. Hansjoerg Biener-D, via wwdxc BC-DX TopNews Sept 10)

6050 kHz **Adventist World Radio**, via MGLOB Talata Volonondry Madagascar relay facility - to Madagascar in Malagasy language, 17 Sept at 03.46-03.54 UT. A Christian message by OM, instrumental music, song 'Soon he will come' by a choir, ID. 'The Voice of Hope'. 35443.

9755 kHz **'La Voz Alegre'**, via MWV New Life Station, Mahajanga, Madagascar; to South America, Spanish, 16 Sept at 02.10-02.21 UT. Talk by OM, ID., instrumental music, a Biblical message. 45544.

9765 kHz **'Palavra Alegre'**, via MWV New Life Station, Mahajanga, Madagascar to Brazil, in Portuguese, 17 Sept at 21.10-21.20 UT. ID. 'Palavra Alegre', a Christian song by a quartet, message about 'Vivendo com Jesus', a song in English. 45554.

13670 kHz MWV **'Radio Feda'**, via MWV New Life Station, Mahajanga, Madagascar to Middle East, Arabic, 16 Sept at 19.15-19.22 UT. Talk by OM, instrumental music, ID. 'Radio Feda', talk by YL. 45554.

NETHERLANDS: FRS HOLLAND 45th anniversary.

On Sunday, November 2nd 2025, FRS-Holland will celebrate its 45th anniversary. Together with you! We warmly invite you to be part of the celebratory broadcast. That day we will be on the air from 09:52 to 15:05 CET on several frequencies. Of course we will share the exact frequencies with you ahead of the broadcast by e-mail and on our website <[http:// www.frsholland.nl](http://www.frsholland.nl)>.

What can you expect? A day full of surprises. We'll present a number of entertaining and varied programmes with music from the period 1980- 2015. Several interesting topics will run as a common thread through the shows. In one segment you, as a listener, will play an important role! We'd like to ask you to be part of our programme content that day. How? If you can, please send us a one-sentence answer to the following question: What does FRS-Holland mean to you? Let us know! Reply by e-mail <frs@frsholland.nl> or via our P.O. Box 2702 in 6049 ZG Herten. A written message is fine; a spoken answer (mp3) is of course even better, but we realize that not everyone has recording facilities. Please put in the 'subject' line of your mail: 'FRS 45 years'.

Because the November broadcast requires a lot of preparation, please send your contribution as soon as possible in any case before Sunday, October 5th, 2025! It's not much work; think it over and send it. You'll make us very happy: after all, we'd love to involve you, as a loyal listener, in the celebratory broadcast.

Sunday, November 2nd, 2025: FRS-Holland 45 years of free radio on shortwave. It will be a broadcast not soon to be forgotten! We count on you! 73s the FRS Team

NIGERIA: Work to restore Voice of Nigeria SW transmitter commenced:

The Federal Government has commenced the restoration of the Voice of Nigeria (VON) shortwave transmission, with work set to begin on the 250 kW TX2 transmitter at the Lugbe transmitting station in Abuja.

The Minister of Information and National Orientation, Mohammed Idris, represented by the Permanent Secretary, Ogbodo Chinasa Nnam, flagged off the project on Monday [25 August], describing it as a landmark step in reviving Africa's largest and most powerful transmission station, now set to operate with modern, digitally compatible technology.

Idris commended President Bola Tinubu for prioritizing the upgrade of Nigeria's broadcasting infrastructure, noting that the project will reposition VON as a global radio brand and significantly transform terrestrial broadcasting in the country.

He urged the contractor to deliver the project on time and to the highest standards, while charging the VON technical team to show diligence in supervising the execution. The minister further encouraged VON to maintain its role as a pro-Nigeria and pan-African station dedicated to telling positive stories about Nigeria and the continent. (British DX Club; via Listener's Notebook, NASWA Journal #10 / Oct 2025, page #35-36)

Poor-fair. (Bob Brossell, Pewaukee-WI-USA, via NASWA Electronic Flashsheet #1223 Sep 28)

RUSSIA: {Putin's imperial war music radio?} 3940 kHz, 'Music Wave Radio', 1842-2024 UT, Sept 27, Russian songs and comments. 25422. (Manuel Mendez, Lugo-ESP, hcdx Sept 28) {rather Russian pirate stn ? }

For a long time I've been noticing logs of a Russian station on 3940 kHz named 'Music Wave Radio'. I never managed to hear this ID but the other day I heard "Russkoe Piratskoe Radio" (Russian Pirate Radio) and e-mail address <podradio@mail.ru>.

I sent off a report and the next day came a response from Evgeny Shaden with a QSL and some info: 'Russian Pirate Radio' is indeed the name of the station, "Music Wave Radio" together with "Nostalgic Broadcasts" and "Radio Wagner" {Russian Legion of Foreign Soldiers group left Mali territory recently} are just the titles of the programmes. My observation is, that their programmes are generally biased towards patriotism. Their schedule is Saturday and Sunday 1900 "until early in the morning". They give the transmitter power as 20 kW, which would explain the strength, but they will not disclose even the country where the transmitter is located. (Vashek Korintek-Czech Republic / 'Shortwave Bulletin'; Sept 27)

SPAIN: REE English reducing to once a week. Announcement on REE English: Alan Roe-UK writes: It looks like the revised REE schedule for foreign languages effective from 1 September will be as follows:

REE shortwave scheduled frequencies: 15390, 15500, 15520 & 17715 kHz; 15500 kHz seems currently off-air. (via Alan Roe-UK of 29 August; via Dave Kenny-UK, "Communication" monthly magazine Sept 2025, pages #30 to #33, BrDXC.UK iogroups, Sept 9)

TAIWAN: Radio Taiwan International's German service gave details about this year's reception reports on the direct shortwave transmissions from Tamsui in July, on 11995 and 15145 kHz, in its Sept 12 mailbag program. The test transmission on Saturday, June 28, got 516 reception reports from 27 countries. The regular transmissions during the July weekends got 1,146 reports. Regular broadcasts (without test transmissions): Germany 784, Japan 67, Austria 52, Switzerland 28, India 25, Netherlands 21, Belgium 21, Italy 21, Bulgaria 20, Luxemburg 20, Sweden 13.
(Franz Bleeker-D 'Shortwave Bulletin'; via Listener's Notebook, NASWA Journal #10 / 2025 Oct 2025, page #37)

11600 kHz '**Sound of Hope**', at 2347 UT on Sept 22. Choral singing then talk by a man with urging to pray and lots of hallelujahs. Gospel singing and "glory, glory hallelujah". No discernable ID at 0000 UT just continued preaching. Reception varied from poor to almost good at 2355 UT.
(Ed Cichorek-NJ-USA, via NASWA Electronic Flashsheet #1223 Sep 28)

'National Unity Radio' {target radio CLANDESTINE to North Korea target}

7340 kHz 'National Unity Radio' (National Unification Broadcasting - Unification Media Group), broadcasting from Paochung Taiwan bcast center to North Korea; 1238-1239 UT, Sept 29 (Monday); mostly in Korean, but also briefly in English with quotation; "Peace cannot be kept by force; it can only be achieved by understanding" (Albert Einstein); fair/good with light North Korea jamming. These days it's good to still be able to hear any of these stations broadcasting to North Korea.
(Ron Howard-CA-USA, hcdx & wor and via wwdxc BC-DX TopNews Oct 1)

Fu-Hsin Broadcasting Station is holding another QSL contest in September/October 2025.

"Dear listeners worldwide, it's that time again – our annual highlight event is back! We sincerely thank listeners worldwide for their continued support of our shortwave programs. 'Fu-Hsin Broadcasting Station' is pleased to announce the 2025 International Shortwave Event from September 1 to October 31."

Full information can be found on their web page <<https://fhbs.com.tw>>.

The World Radio TV Handbook 2025 lists the station under Taiwan/Domestic with the following schedule:

07:00-09:00 and 10:00-13:00 on 9410 kHz and 15375 kHz.

Even China expert Ron Howard has only reported the station very sporadically on Glenn Hauser's World of Radio in recent years.

(Alan Holder-UK _ G4ZBH, wor; via Dr. Hansjoerg Biener-D, wwdxc BC-DX TopNews Sept 10)

{target radio to KOREAS} **National Unity Radio** on 7340 kHz, at September 2 via Danshui Taiwan site. 7340 kHz National Unity Radio (National Unification Broadcasting - Unification Media Group), broadcasting from Taiwan; directed to North Korea; heard via Kiwi SDR remote at Okayama, Japan; Sept 2 (Tuesday) from 1243 to 1244 UT; intro and exit theme music for the segment mostly in Korean, but with today's weekday quotation in English - "Don't count the days, make the days count," which is attributed to Muhammad Ali; very poor audio (muffled) and light N. Korea jamming. Most of these types of stations broadcasting to North Korea are now off the air.
(Ron Howard-Monterey-CA, via wwdxc BC-DX TopNews Sep 3)

{target radio towards Burma - Myanmar} 17790 kHz **Radio NUG**, Paochung-TWN relay site. 0200 UT s/on Burmese with many IDs and then news and commentaries. Interestingly, one announcer ID'ed several times as "Radio Noo-Gee" (with the 'G' sounded as in 'geyser'), which I had never heard before. Another announcer spelled out the letters as in "Radio N-U-G". Fair to poor signal, and returning to shortwave after a relatively long absence. Aug 25.
(Rob Wagner VK3BVW, Mount Evelyn-Vic-AUS; via ARDXC ADXN magazine #694, Sep 2025, direct via wwdxc BC-DX TopNews Sep 3)

TUNISIA: RTT Chaîne Internationale observed on Monday 22 Sept on MW Tunis 963 kHz. At 18.00 & at 19.00 UTC news in French, from 18.22 UT ID. in German: "Radio Tunesien mit dem deutschsprachigen Programm" (confirmed till 19.00 UT).
(Rumen Pankov-Sofia-BUL, via wwdxc BC-DX TopNews Sept 24)

TURKEY: 11550 kHz (Turkish State Jamming v. R. Denge Gel - Kurdish national radio stn) at 1420 UT. In progress at tune-in. Male chorus, pounding drums (if not for the drums, this sounds just like a bunch of Iowa State frat boys, locked arms, stumbling back to the house from the Billboard Lounge). Some guy doing angry Ralph Kramden / Mark Levin shouting, then more music at 1445 UT. Strong signal today, (w/ Drake SW8, indoor wire). Good. Aug 29.
(Rick Barton, Sun City-AZ-USA, Arizona Update via via NASWA Electronic Flashsheet #1219 Aug 31)

UNITED ARAB EMIRATES: 17744.990 oddity fqy via Abu Dhabi Media resp. operated by ENC Dhabbaya_UAE;
BBC London in Somali NoEaAF sce S=9+10dB strength at 15.25UT on Saturday Sept 27.

[selected SDR options, span 12.5 kHz RBW 15.3 Hertz]
(wb df5sx, wwdxc BC-DX TopNews Sept 27)

17745 kHz Wed, Oct 1st, at 0414-0425 UT, **BBC London**, via ENC Al'Dhabbaya- UAE, Somali svce. Man announcer in conversation w/a Somali reporter, I think! ID: BBC Somalia; Woman/man announcers talking news. Good reception, target to EastAfrica: 45544.
(Jose Ronaldo Xavier-Cabedelo-PB-BRA, hcdx Oct 2)

17510 kHz **Mizzima Radio** - {Abu Dhabi Media owned - but ENC operated} Dhabayya relay site, 1230-1255 UT. Burmese to SoEastAsia. Commentaries and nx. Returning after an absence and on a NF. Excellent signal, Sept 12.
(Rob Wagner VK3BVW, Mount Evelyn-Vic-AUS; via NASWA Electronic Flashsheet #1223 Sep 28)

17670 kHz '**Radio Sama**' / IBRA Media (ENC Woofferton site), at 1845 UT. (In progress at tune-in.) Dialogue w/ man and woman in Arabic to theme music at 1854 UT, then ME vocal music. Fair to Good. Sept 22.
(Rick Barton, Sun City-AZ-USA, Arizona Update via via NASWA Electronic Flashsheet #1223 Sep 28)

13650 kHz Sept 12, at 19.00-19.15 UT **WRN** - Radio Exterior de Espana, Al'Dhabbaya-UAE of ENC operated Abu Dhabi Media organization relay site, in Russian. ID, and next, an interesting fact: An exceptional song, "Granada" by a Spanish tenor, followed by a woman announcer, in Russian. Today, she presents a program w/ pieces of Spanish songs, including flamenca music; ID. Excellent programming !! Good reception, target to East Europe: 45544.
(Jose Ronaldo Xavier, Cabedelo-PB-BRA, hcdx Sept 12)

UNITED ARAB EMIRATES/UNITED KINGDOM: Since 20 June, Radio Farda, Radio Free Europe/Radio Liberty's Iran programme, has once again been broadcasting on shortwave. After exactly three months, the broadcasts ordered by RFE/RL from Encompass Digital Media via transmitters in Abu Dhabi and England have come to an end.
(Kai Ludwig-D via Radio Eins (RBB), Sept 28)

UNITED KINGDOM: 9500 kHz Final Love Warbler broadcast on Sat 20 Sept at 1900 UT.

The FINAL shortwave transmission for 'RADIO LOVE WARBLER' ?

Over the course of Folkestone Triennial, 'Love (Warbler Remix)' has been broadcasting internationally on analogue shortwave radio to places along the Love Warbler's migration flyway. The final broadcast goes out this Saturday 20 September, transmitting over Southeastern Africa. Tune in to hear the Love Warbler singing from the Lade Pits Sound Mirrors in Dungeness at 19.00 hrs UTC on 9500 kHz. ?

Shortwave really is an incredible technology, allowing for long distance transmissions. Using 'skywave' propagation, signals are sent upwards and reflect off layers of charged particles in the ionosphere, returning to earth beyond the horizon, meaning shortwave radio can transmit across oceans and continents. With the emergence of satellite and digital radio, its rapidly becoming obsolete, so its been such an amazing opportunity to experiment with this form, and I'm so grateful to the radio wizards at Encompass who've been relaying the broadcast from ENC Woofferton-UK broadcast center - the last remaining shortwave radio broadcasting site in the U.K ?

Thank you to everyone who has tuned in so far from around the world, and to all who have sent messages and recorded video / audio clips - I'll edit some of these together and share soon.
(Hanna Tuulikki-FIN? @ hanna_tuulikki on Instagram; via Alan Pennington-UK, BrDXC-UK iogr Sept 19)

21540 kHz **DRM digital mode BBC World Service**, via ENC Woofferton-UK site to South Asia, English, Sept 16 at 15.08-15.13 UT. Talk by OM, interview (YL), 'Israel, Palestinian ...'. 45554.
(Rudolf Grimm Sao Bernardo-SP-BRA, hcdx via wwdxc BC-DX TopNews Sept 23)

17670 kHz Wed, Oct 1st, at 1820-1830 UT, IBRA Media - '**Radio Sama**', ENC Woofferton bcast center, in Fur (Sudanese Fur language). Man talking; 1821 UT Music; 1826 UT Returns man communication; He says ID, website and more ... 1829 UT Woman talking and a song. Fair reception, target to East AF: 35533.
(Jose Ronaldo Xavier-Cabedelo-PB-BRA, hcdx Oct 2)

U.S.A.: 9565 and 11860 kHz **Radio Marti**, via Greenville-NC bcast center:

Two F/D eQSLs 2 days after F/Up. V/S: Macon Dail, Supervisory Electronics Engineer, Transmitter Plant supervisor, Engineering and technical operations, Edward R. Murrow Transmitting Station. NB: Mr.Macon Dail wrote, that currently he is not able to send QSL cards by US Postal mail, therefore, he attached a copy of my QSL cards. Report send via E-Mail to: <mdail@usagm.gov>

(Harald Suess, Strasshof an der Nordbahn-AUT, via F_Book Group "QSL Chasers" via DX Fanzine #144, via wwdxc BC-DX TopNews Sep 4)

(Cf. DXM 7/2025) **Radio Marti** is currently broadcasting its shortwave transmissions via relay station Greenville in addition to the mediumwave station on 1180 kHz as follows:

UTC	Days	Language	kHz	Transmitter site	kW	Target area
1400-2100	Mon-Fri	Spanish	11860	Greenville, North Carolina	100	Cuba
			11930	Greenville, North Carolina	100	Cuba
			13605	Greenville, North Carolina	100	Cuba
2100-2200	Mon-Fri	Spanish	9565	Greenville, North Carolina	100	Cuba
			11860	Greenville, North Carolina	100	Cuba
			11930	Greenville, North Carolina	100	Cuba

(Tony Rogers, British DX Club <<https://www.bdx.org.uk/americas.pdf>>, Oct. 1)

VOA broadcasts to Afghanistan discontinued

Alex Miatlikov reports that, as expected, the Voice of America remaining broadcasts on SW/MW were last aired on September 30. The schedule was 1630-1700 UTC Mon-Fri on 972 kHz (Tajikistan) and 11575 kHz (Kuwait), with the first 15 min being in Dari and the last 15 min in Pashto.

(Alex Miatlikov on World of Radio IO Group, 9 October 2025)

VORW Radio International currently has the following broadcast schedule on shortwave and mediumwave:

Main broadcasts via WOCR Nashville (Tennessee)

Sat, 06:00 UTC 4840 kHz (WOCR 100 kW)

Mon, 04:00 UTC 4840 kHz (WOCR 100 kW)

Repeats via WRMI Okeechobee (Florida) and mediumwave transmitters of the WOCR group.

Tue, 08:00 UTC 5850 kHz (WRMI 100 kW) for North America West

Tue, 20:00 UTC 15770 kHz (WRMI 100 kW) for North America East and secondary Europe

Wed, 23:00 UTC 9455 kHz (WRMI 100 kW)

Thu, 02:00 UTC 9395 kHz (WRMI 100 kW)

Thu, 16:00 UTC 15770 kHz (WRMI 100 kW) for North America East and secondary Europe

Thu, 22:00 UTC 9955 kHz (WRMI 100 kW) for South America

Sat, 04:00 UTC 15770 kHz (WRMI 100 kW) for Europe to the Middle East

Sat, 07:00 UTC 1300 kHz (WNQM 5 kW) for the Nashville area (Tennessee)

Sat, 23:00 UTC 5950 kHz (WRMI 100 kW)

Sat, 01:00 UTC 1490 kHz (WITA 1 kW) for the Knoxville (Tennessee) area

Mon, 00:00 UTC 5950 kHz (WRMI 100 kW)

The international service of The Report of the Week began in 2015 with sporadic shortwave broadcasts. Since 22 December 2016, John Jurasek has been regularly broadcasting on shortwave with his privately funded programme. There are two new programmes each week with thematic discussions and music requests from listeners. Meaningful reception reports, constructive comments and music requests are welcome at <vorwinfo@gmail.com>.

(John Jurasek, Dr Hansjörg Biener Sept 2025)

17790even USA PAB 'Radio Africa' in En via WRMI Okeechobee relay site, poor and tiny only S=6 signal at 17.06 UT, scheduled 15.00-21.30 UT.

(wb df5sx, wwdxc BC-DX TopNews Tue Sept 30)

I've seen a couple of reports that the FCC has renewed the 'experimental' license for the "high frequency trading" station in Aurora IL state, **WL2XEE**, now extended to September 2027. Most often heard here from 7450-8400 and 9040-9400 kHz but they are authorized to use several other band segments.

Most interesting in this is that the FCC apparently did NOT 'waive' the ID requirements which leads me to the question: has anyone EVER at ANY time heard this station ID in ANY way?

(Ken Zichi, Williamston MI-USA, Mare TlpSheet #1373 log via wor Sept 26)

WTWW - George McClintock advises me early UT Sept 27: new relay costing \$26K has come in but not yet confident to run 5085 kHz. By October should also be re-active daytimes on 9475 kHz which has been inaccessible for a long time.

(Glenn Hauser-OK-USA, hcdx & wor Sept 26)

WTWW: George explains the heavy spurs out of 5920 kHz (and 9930 kHz - WB.) as caused by an inductor that needed cleaning, which he did, so it was OK the next night. Also, an out-of-service transmitter has been sold to someone who extracted it with a huge forklift and hauled it off, unknown exactly where but not a current SW station; maybe just wanted it for parts.

(Glenn Hauser-OK-USA, wor & hcdx Sept 29)

15555 kHz Sept 26 at 2202 UT, **WJHR** {Milton FL USstate - low power 1 kW stn in SSB mode, WB.}, S9 direct playing 'Rock of Ages' in s/off to 2203* UT. Not heard for several days in random daytime chex, so has been off air, or is pipsqueak totally dependent on random sporadic E to propagate ?

(Glenn Hauser-OK-USA, via NASWA Electronic Flashsheet #1223 Sep 28)

WRMI Radio Miami International 25mb Notice to WRMI Listeners: "Our 9955 kHz transmitter is temporarily off air for some repair work. In the meantime, programming normally heard on 9955 kHz is being broadcast on 17790 kHz, as

well as on the regular Internet live stream at <www.wrmi.net> "
(Glenn Hauser-OK-USA, hcdx & wor Sept 24)

WRMI Okeechobee (Florida) has lost its major customer Classic Redneck Radio, which had replaced the Overcomer programmes. On 3 September 2025, the shortwave station published a broadcast schedule that now showed the World Radio Network's collection of English-language foreign programmes in many of its slots. In the context of these changes, there was also a two-hour broadcast block from Radio Prague International, including German:

01:00-03:00: 7780 & 9455 kHz: French. 01:30 English. 02:00 Spanish. 02:30 German.

However, it became apparent that the broadcast directions to western North America and Mexico were not suitable for direct reception in Europe.

(Peter W Hansen World of Radio, Dr Hansjörg Biener, Sep 2025)

7520 kHz **WWCR #4**, Nashville TN state to North America, English, 16 Sept at 00.01-00.07 UT. Instrumental music, a long speech by OM. 15421.

13845 kHz **WWCR #3**, Nashville TN state to North America, English, 16 Sept at 21.55-22.02 UT. A religious speech. 25542.

(Rudolf Grimm Sao Bernardo-SP-BRA, hcdx via wwdxc BC-DX TopNews Sept 23)

9330 kHz, Sept 5 at 06.13 UT, no signal from 'World's Last Chance' {sic} Radio on the **WBCQ** Super-Stition, apparently really off rather than unpropped. Out of order ? BCQ has made an emergency substitution on its itty-bitty "classic" transmitters still available and mostly unused, probably 24h like 9330 kHz was:

Sept 5 at 0620 UTC I find it JBA on 6159.93 kHz, typical off frequenciness. And at 0626 UT also on 5129.9 kHz at S=9+20dB // 6160- kHz but 3265 kHz is still silent. Then in daytime Sept 5 at 14.34 UT, WLCR still absent from 9330 kHz direct, so at 14.47 UT I try the NH remote, and there they are: slightly out of calibration but obviously both still offset-minus as required at WBCQ: 6160- kHz S9 // 5130- kHz S7 with WLCR haughty Britaccent, and canned ID at 15.00 UT still claiming to be on 9330 kHz - what do they know? Beyond the Earth being Flat?

(Glenn Hauser-OK-USA, wor & hcdx Sept 5)

U.S.A./POLAND: 9455 kHz Polish Radio relay via WRMI Okeechobee-FL bcaster. Just to remind you who read our posts Polish Radio is in English from 0300- 0400 UT on 9455 kHz via WRMI in Okeechobee Florida US state. Followed by Israel Radio in English to keep up with the latest news.

(Ron Trotto-WDX4KWI, Virden-IL-USA, ODXA/wor Sept 11)

UZBEKISTAN: 7520 kHz {Canadian ministry origin, WB.}

In Russian: '**The Voice of the Bible**' BVB High Adventur Gospel Communication, from Newmarket-Ontario-CAN, see WRTM 2025, page#564 - but Saturday sce given so far though, via RRTM Telecom Tashkent Uzbekistan Shortwave Transmitting bcast center. On Sundays, starting at 6 PM, {18.00-18.20 UT} a Christian program is broadcast on 7520 kHz. It begins with the announcement 'Radio Station Voice of the Bible', but no address is given.

(Rumen Pankov-Sofia-BUL, via wwdxc BC-DX TopNews Sept 28)

11510 kHz '**Radio Free North Korea**' via RRTM Telecom Tashkent Uzbekistan Shortwave Transmitting bcast center. 1318 UT on Sept 1; in Korean. A man speaking at some length. Poor - fair signal with North Korean jamming audible. (Mark Taylor, Lake Farm Park-WI-USA, via NASWA Electronic Flashsheet #1220 Sep 7)

'Voice of the Martyrs' {target radio to Korea D.P.R.}

Pastor Eric Foley, director of 'Voice of the Martyrs,' announced the reintroduction of a fifth shortwave broadcast for North Korea at the end of August 2025. He stated that it had to be discontinued in 2024 due to a lack of donations. The pastor directly links the announcement to the end of US and South Korean broadcasts for North Korea:

1200-1229 UTC 15580 kHz (100 kW, 76 degr) Korean

1330-1359 UTC 9340 kHz (100 kW, 76 degr) Korean, from 6. Sept 2025

1500-1530 UTC 7625 kHz (100 kW, 76 degr) Chinese

1530-1600 UTC 7530 kHz (100 kW, 76 degr) Korean

1900-1930 UTC 7490 kHz (100 kW, 76 degr) Korean

2100-2130 UTC 7540 kHz (100 kW, 76 degr) Korean

2100-2130 UTC 7625 kHz (100 kW, 76 degr) Chinese

{Transmissions via RRTM Telecom Tashkent Uzbekistan Shortwave Transmitting bcast center.}

(Mission Network News ARDXC, via Dr. Hansjoerg Biener-D, via wwdxc BC-DX TopNews Sept 10)

VATICAN STATE: 11640 kHz Wed, Oct 1st, at 0403-0413 UT, 'Radio Tamazuj', Santa Maria de Galeria-CVA, in Juba Arabic. Woman announcer talking during this log and a conversation w/a man; ID. Poor reception, target to Southern Sudan 35322.

(Jose Ronaldo Xavier-Cabedelo-PB-BRA, hcdx Oct 2)

VIETNAM: 12020 kHz. Voice of Vietnam in Japanese to FE, Aug 29, at 1421- 1428 UT. SIO 444. YL announcer. Good signal with minor QRN / QSB. POP MX with YL singer follows. Via Hanoi - Sontay bcast center. YL announcer continues to sign-off at 1428 UT.
(Vince Henley-WA-USA, via NASWA Electronic Flashsheet #1219 Aug 31)

Voice of Vietnam, Hanoi German sce:

World Radio TV Handbook in the future? An Important Message to the WRTH Community

Dear Friends of WRTH,

As we approach the publication of the 80th edition of the World Radio TV Handbook (WRTH 2026), we find ourselves at both a moment of celebration and of change. For eight decades, WRTH has been a constant companion to radio

listeners, broadcasters, and enthusiasts worldwide. We know that many of you treasure the annual arrival of the printed book, and it is with great care and reflection that we share the following news.

The Final Printed Edition.

WRTH 2026 will be the last edition to appear in print. After this milestone 80th edition, WRTH will move entirely to digital formats-our regularly updated Web App and the twice-yearly E-book (Winter and Summer schedules). This is not a decision we have taken lightly. The printed WRTH has been part of the identity of our community, and we understand what it means to see it come to a close.

Why This Change Is Necessary.

Over the past years, the costs of producing WRTH in print have risen sharply. Printing, paper, tariffs, shipping, and logistics have all become increasingly expensive and difficult to manage. Despite our best efforts to absorb these pressures, continuing to publish in print on a yearly basis is no longer sustainable. In order for WRTH to survive as a publication, and continue serving the global broadcasting community, we must adapt.

Pre-Order Only: A Collector's Edition.

The WRTH 2026 printed book will be available exclusively through pre-order, with delivery scheduled for December 2025. There will be no launch stock or reprints. Once pre-orders close, the book will not be available again. This makes WRTH 2026 a true collector's edition-our final tribute in print to 80 years of The World's Most Comprehensive and Up-to-Date Guide to Broadcasting.

Pre-orders will open on Wednesday, September 24, 2025, and close on Friday, October 31, 2025. Please watch our communication channels for the official announcement, and subscribe to our newsletter to always stay up-to-date:
<<https://wrth.info/newsletter/>>

(Newsletter from WRTH.org Sept 16 <<https://www.facebook.com/groups/wrthgroup/posts/10163927327448698/>>)

The 2026 WRTH will be the last print version of the book and will be available exclusively by pre-order from Radio Data Center GmbH for members outside Germany.

WRTH 2026 - 'Radio Data Center' has 'opened the portal' to pre-order the WRTH 2026, and I'm confused. The page says it will cost 60 EURO, but when you add it to your cart, that changes to 70 EURO, and then they add 17 EURO to the total for 'shipping' and it ends up costing \$102 at current exchange rates to order it in the USA.

I know things are expensive now, and shipping stuff from other countries to the USA is crazy at the moment, but over US\$100 for a book ? That is more expensive than text books in college !

If you're so inclined to get 'the last edition' you can order it at: <<https://shop.radiodatacenter.net/rdc-shop/>>

The "Pre-order" deadline is October 31st.

(Ken Zichi, Williamston MI-USA, Mare TlpSheet #1373 log via wor Sept 26)

Universal Radio Notice: 2026 WRTH & Klingenfuss Handbooks.

Universal Radio has announced that it will take orders for the 2026 WRTH.

Universal has ordered a limited number of this final edition. WRTH has indicated they are only doing one print run. We suggest ordering early as we expect to run out, before our order arrives in late December. As always, we will not charge your card until we ship. This book is available for shipment to U.S. addresses only."

<<https://www.universal-radio.com/catalog/books/2026.html>>

(Mike Cooper-GA-USA, wor Oct. 11)

HFCC.org Radio Broadcasting. The 2025/26 Winter (B25) season will begin on Sunday, October 26, 2025. New shortwave radio schedules will begin appearing soon. Shortwave news and reports to support the various DX guides will resume in October ahead of the Winter (B25) season.

HFCC Transmission Schedules for the B25 season will be published after October 12, 2025:

Thanks a lot to our club members for their contributions:

BH : Bernd Henning, Stipsdorf, Germany. RadioComm CR1 with a bonito whip antenna.
 RL : Richard Lemke, St. Albert, Alberta, Canada. JRD NRC 535 HF with random long wires in the trees antenna.
 SG : Siegbert Gerhard, Frankfurt am Main, Germany. AOR AR 7030 + 5m-EMF (Electric Magnetic Field) Antenna
 & Degen DE 1103 + Telescopic.

Dear Friends,

Welcome to the October edition of Logbook.

I like to thank Bernd for his loggings. He has been a member of our Club since May 2000.

Thanks also to Siegbert and Richard for their loggings.

Keep the loggings coming in for the next edition,

Ashok Kumar Bose

---	---	---

We are pleased to have received several contributions again this month. I ask all contributors to remember to write their initials immediately after the details of each QSL. I remind you that the deadline for the next edition of this page is November 7, 2025. We appreciate your QSL scans in jpg format, so we can show them on the page. We also ask you to include not only your name and surname but also the city where you live in order to insert at the bottom of the page. Thank you, I wish you happy listening.

My best 73, *Dario*

GERMANY: Channel292 6070 kHz. e-QSL received in 1 day in reply to report sent to: <info@channel292.de>. (GK)

INDIA: All India Radio 9860 kHz. QSL received in 14 days in reply to report sent to: <spectrum-manager@prasarbharati.gov>. (GK)

NETHERLANDS: Free Radio Service Holland 5870/7705/9301 kHz. Full data colour e-QSL (Memorial broadcast) and personalized info letter received in 29 days in reply to report sent to: <frs@frsholland.nl>. (HB)

Radio Veronica 5955 kHz. e-QSL received in 2 days in reply to report sent to: <qsl@mediahuisradio.nl>. (GK)

U.S.A.: WEWN 12050 kHz. Spanish programme. Full data QSL card (black/white/blue: feeder lines, microphone) received in 60 days (28 days for mail delivery, card damaged) in replay to report sent to <https://www.ewtn.com/radio/monitoring-form>. (HB)

WRNO 7505 kHz. QSL received in 16 days in reply to report sent to: <rnworldwide@mailup.net>. (GK)
