DX MAGAZINE No. 11

Vol. LX

November 2025

Hello again,

Welcome to another issue of our DX MAGAZINE. As I have already informed you, our long time NEWS EDITOR Walter Eibl has resigned in March last year.

Therefore we still need a new NEWS EDITOR as soon as possible. If you are able and interested to become our new NEWS EDITOR, please do not hesitate to contact me. I shall support our new NEWS EDITOR with all news material we get from our members, from other DX clubs and from radio stations.

Unfortunately, the contributions of our members to the DX News section have been very rare in the last months and we had only very few contributions to our News, Logbook and QSL sections. Therefore, if you have any News, Logs or QSL information, please do not hesitate to send it to me or to the other editors on page 2 of this DX MAGAZINE.

Due to the same reason, we don't have a QSL CORNER this month. Our QSL EDITOR Dario wrote to me today that he has not received any contributions in October or November.

Als Erinnerung: Auch in diesem Jahr können unsere Mitglieder in Deutschland das neue WORLD RADIO TV HANDBOOK 2026 wieder bei uns bestellen. Dies wird zugleich die letzte gedruckte Ausgabe des Buches sein. Gleichzeitig wurde leider der offizielle Verkaufspreis um € 10,00 auf € 59,90 erhöht.

Den Subskriptionspreis haben wir bis zum 30. November verlängert und er beträgt für unsere Mitglieder und Freunde € 52,90, danach € 59,90 (= offizieller Ladenverkaufspreis, soweit noch bei uns vorrätig). Das Buch soll Anfang/Mitte Dezember erscheinen und wird dann von uns gleich an die Besteller ausgeliefert werden. Der obige Preis enthält Porto und Verpackung.

Lieferung nur gegen Vorauszahlung durch Überweisung auf unser Konto: Raiffeisenbank Grävenwiesbach (IBAN: DE75 5006 9345 0100 0199 84 - BIC/SWIFT-Code: GENODE51GWB). **Bitte keine Zahlungen mit PayPal.**

And with this best wishes and good DX until next month from

NEWS ABOUT BROADCASTING (+other) STATIONS

ALASKA/MADAGASCAR: Good times to catch radio New Life Station KNLS, studio in Anchor Point. Heard from 1600 h on 9585 kHz in Russian & from 1700 on 9605 kHz both from Alaska and from 1800 on 9885 kHz & from 1900 on 9845 kHz - both via Madagascar. The programme from 1600 h was repeated from 1700, 1800, 1900. (Rumen Pankov-BUL, Nov. 6)

ALBANIA: An interview with June Taylor former presenter of Radio Tirana. There is an extended interview with June Taylor (former presenter on Radio Tirana) in this 2022 radio programme (broadcast on the London radio station Resonance FM) at:

<<https://www.monitorproductioninsound.eu/voice-from-the-east>>

Also, Bryan Clark-NZL in the New Zealand Radio DX League's DX Dialog io.group found some short clips of June Taylor (pre-Radio Tirana) in this unfinished film at:

<<https://www.ngataonga.org.nz/search-use-collection/search/F46927/>> (at 2m.15)

(Alan Roe, Teddington-UK, BrDXC-UK iogr Oct 7)

ALGERIA: 13855 kHz Sat Oct 11, at 2150-2200 UT, Ifriky FM, Ouargla-ALG, in Arabic. A musical program; 2200 UT Ending and no returns. Fair reception, target to West Africa: 35533.

(Jose Ronaldo Xavier, Cabedelo-PB-BRA, hcdx Oct 11)

ARGENTINA: On 25 September 2025, Radio Club Uruguayo <<https://www.cx1aa.org>> welcomed prominent guests: Adrian Korol, Director of Radiodifusion Argentina Al Exterior and promoter of LRA36 Radio Nacional Arcangel San Gabriel in Antarctica, joined radio listeners both in person and online at TikTok. On this occasion, Korol emphasised his intention to bring back to Argentine territory the overseas broadcasts that are currently dependent on WRMI Okeechobee (USA) leasing.

However, æregaining national sovereigntyÆ in this regard requires considerable investment. Another prominent guest was the director of Uruguay's public broadcaster, Dr. Daniel Ayala, also a well-known DX listener and presenter of the programme Radioactividades for 35 years.

(Gabriel Gomez - wor; via Dr. Hansjoerg Biener-D, Bieners DX Digest October #64 column via wwdxc BC-DX TopNews Oct 3)

ARMENIA/BULGARIA/GERMANY/UZBEKISTAN: BIBLE VOICE BROADCASTING Program Schedule Winter. All times in UTC (Universal Time).

Programs are available on <<http://www.bvbroadcasting.org>>. Programmers love to hear from you directly. Please send your reports to <mail@bvbroadcasting.org> or mail to BVB, P.O.Box 95561, Newmarket, ON L3Y 8J8, Canada.

(Reach Beyond schedule via ED)

BRAZIL: 6010 kHz **Radio Inconfidencia**, Belo Horizonte, at 0539-0555 UT, Oct 11, Brazilian songs, Portuguese, comments, ID. "A Radio Inconfidencia", "Estamos apresentando Memoria Nacional". 15422. More than three months out on this frequency.
(Manuel Mendez Lugo-ESP, wor Oct 11)

9665 kHz **Radio Voz Missionaria**, Camboriu SC, on 11 Oct at 1539-1545 UT. Christian songs, transmission of an external event with audience, applause, ID. S=9+20dB.

9820 kHz **Radio Nove de Julho**, Sao Paulo SP, on 11 Oct at 1528-1533 UT. Songs by Roberto Carlos, program 'Almoco com o rei', information about the past period of regions of the city of Sao Paulo. S=9+20dB.

11750 kHz **Radio Voz Missionaria**, Camboriu SC, on 11 Oct at 1545-1550 UT. Parallel signal with the frequency 9665 kHz. S=9+20dB.

15190 kHz **Radio Inconfidencia**, Belo Horizonte MG, on 11 Oct at 1534-1539 UT. Brazilian pop songs, 'sequencia da MPB', ID. S=9+10dB.
(Rudolf Grimm, Sao Bernardo-SP-BRA, hcdx via wwdxc BC-DX TopNews Oct 11)

CHINA: DRM digital encoded **CNR1** domestic radio in this mode this Nov 1 morning:

11695 kHz via Dong Fang Island, S=5 poor at 01.13 UT, 00.55-09.00 UT.
13790 kHz via Qiqihar far north eastern stn, 00 - 10 UT, S=7 at 01.21 UT.
13825 kHz via Beijing capital site, S=6 at 01.22 UT, 01 - 09 UT requested.
15640 kHz via Kunming site, 01 - 06 UT scheduled, S=7 fair at 01.36 UT.
17650 kHz via Kunming site, requested 01 - 06 UT, S=6-7 in Tokyo JP SDR unit remotely.
15730 kHz via Kunming site 02 - 09 UT, S=8 at 02.00 UT.

13840 kHz one of the 500 kW beasts **China mainland jamming** struggle against SOH TWN Falun Gong sect radio in Mandarin Chinese, 21 - 14 UT on 13839.973 kHz co-channel odd fq, 01.25 UT Nov 1. // similar 13920 kHz at same time.

[selected SDR options, span 12.5 kHz RBW 15.3 Hertz]
(wb df5sx, wwdxc BC-DX TopNews Nov 1)

9820 kHz **Voice of Beibu Bay Radio** via Nanning bcast center, noted at 1205 UT mixing with CNR2 but dominant this morning with Westernized Chinese popular mx and YL in Viet tlks. Checking one of all the numerous CNR2 // fqys to hear that one cleanly helps keep this mix straight. At 1235 UT recheck, BBR now fully faded in and absolutely burying CNR2. My, how the situation can shift, hour by hour and day to day.
(Ralph Perry-Wheaton-IL-USA, wor Oct 24)

13810 kHz Kashi Kashgar foreign radio bcast center in Xinjiang province western China on KAZ border {WB.} **China Radio International** at 1830 UT, interesting Chinese music program. This is supposed to be the German language service, but there is always canned Chinese elevator music in place of German programming. What makes this different is they're playing a different style of Chinese music from what is usually used for these "German" and "Portuguese" services. Fair to Good on Oct 12.
(Rick Barton, Sun City-AZ-USA, Arizona Update via wor Oct 12 - 15)

COLOMBIA: 5910 kHz, **Alcaravan Radio**, Puerto Lleras, 0441-0723 UT, 22 Oct, Colombian songs, Spanish, female, religious comment, male, more religious comments, more Colombian songs, at 0536 UT ID. by male: "Alcaravan Radio", religious comments, Mexican song, Colombian songs "Llaneras". 15422. Thank you very much to Ron Howard for the timely alert about the reactivation of this station.

6010 kHz **La Voz de tu Conciencia**, Puerto Lleras, 0503-0725 UT, 22 Oct, Spanish, religious comments and songs, female, male. Slight QRM from Radio Inconfidencia on the same frequency. Very weak. 13421. Thank you very much to Ron Howard for the timely alert about the reactivation of this station.
(Manuel Mendez-Lugo-ESP, wor Oct 22)

CUBA: 13780 kHz **RHC** in Spanish excellent audio tonight sce, S=9+15dB strong signal at 22.40 UT, and two strong Quivican bcast center signals of S=9+15dB also, but no audio, only strong S=9+15dB carriers noted on both 11950 and 15230 kHz.

Nothing on 6000, 9580, 9650, 9710, nor 11760 kHz.

{later}

13780 kHz txion was off from next check at 23.30 UT onwards ?

9710 kHz RHC Quivican on air then instead, at 23.34 UT at S=9+25dB signal noted in Edmonton-AB-CAN remotely.

Actually a rather nice signal today on 11950 kHz from 2330 to 2357 UT in Spanish with a talk about the revolution. At about 2340 UT or so there was an audio cut for about 30 seconds but carrier remained. Then at 2357 UT, give or take, the talk ended and that was it. It wasn't an abrupt cut but a natural end. Ah ... but carrier is still up nice and bright at 0003 UT. Edit - carrier off at just past 0004 UT !

(Tony Pavick-BC-CAN, via NASWA Electronic Flashsheet Oct 30)

5990 kHz disturbed audio txion of **CRI Beijing** via Quivican relay site, at 23 - 24 UT scheduled on itu andhfcc.org databases. S=9+5dB signal noted at 23.39 UT on Oct 26; all other RHC / CRI QUI frequencies off air.

[selected SDR options, span 12.5 kHz RBW 15.3 Hertz]

(wb df5sx, wwdxc BC-DX TopNews Oct 26)

750 kHz **CMFL Radio Ciudad del Mar**, Palmira heard on 4 October with co-channel WSB cancelled; ? "Esta es CMFL Radio Ciudad del Mar, desde Cienfuegos, patrimonio cultural de la humanidad,". At 0401 UT, choral National Anthem. Rx listed Radio Progreso.

(Bruce Conti NH-USA via Real DX.io.Group; via NZDXT The New Zealand Radio DX League Nov 2025, Nov 2)

CUBA [non]: As of Oct 22 at 0634 UT, I have realized that **Cuban whoopers**, or wobblers, or squeakers as I have sometimes called them, have not been heard for almost two months during routine late night MW bandscans. Last noted under WWL 870 kHz was August 16; under WHO 1040 kHz on August 19; and once under WSB 750 kHz on August 26.

(Glenn Hauser-OK-USA, hcdx and wor Oct 23)

CYPRUS: Extracts from BBC World Service broadcasting schedule effective 25 October 2025 to 28 March 2026 to the Middle East & Gulf States, for the two 250 kW AM transmitters at Limassol Cyprus:

14:00-15:00 Sat & Sun on 639 & 720 kHz.

14:30-15:00 Daily on 639 & 720 kHz.

15:30-17:00 Daily on 639 & 720 kHz.

17:30-18:00 Daily on 639 & 720 kHz.

19:00-19:30 Sat & Sun on 639 & 720 kHz.

(Mike Cooper-GA-USA, Glenn Campbell's wor.io.group; via NZDXT The New Zealand Radio DX League Nov 2025, Nov 2)

DENMARK: Since 29 October, World Music Radio has also been broadcasting around the clock on the frequency 3965 kHz with a power of six hundred watts. This frequency, which uses a transmitter in Hvidovre/Copenhagen, complements the frequencies 5930, 15700 and 25800 kHz. The frequency 15700 kHz, which is received quite well in Italy, is only used from 08:00 to 16:00.

(Roger Thauer-D, via wwdxc BC-DX TopNews Nov 2)

World Music Radio transmitter update. 'World Music Radio' on F_Book this morning. Transmitter update:

3965 kHz	500 W	Hvidovre, Copenhagen	24/7 h/d
5930 kHz	500 W	Ishøj, Copenhagen	24/7
5930 kHz	200 W	Bramming	24/7 (alternative site)
15700 kHz	300 W	Randers	Daily 08-16 UTC.
25800 kHz	150 W	Marslet, Aarhus	24/7

PS: 5930 kHz currently off the air since Thursday - but hopefully back next week.

Kind regards, Stig Hartvig Nielsen-Denmark (wwdxc BC-DX TopNews Nov 2)

ECUADOR: 6050 kHz HCBJ via Pichincha mountain, excellent signal as always at this time, with live (as occasional t/cks hrd) OM ancr doing bilingual preaching in Spanish and Quechua. Pinquillos at 0958 UT and Spanish / Quechua ID for "H-C-J-B, Quito, Ecuador". Second ID 0959 UT mentioning "las cinco en punto" at local 5 a.m. Then HC folklorica mx with group of women singing sanjuanito with strummed acoustic guitar. Cut short 1001 UT and into more preaching in Quechua.

(Ralph Perry-Wheaton-IL-USA, wor Oct 24)

EGYPT: Radio Cairo has registered the same frequencies for the B25 period as in A25:

9410	1800	1900	28	ABS	125	325	211	Ita	EGY ERU
9410	1900	2000	27,28W	ABS	125	325	211	Deu	EGY ERU

<<http://www.hfcc.org/data/schedbyfmo.php?seas=B25&fmo=ERU>>

All are on 9 MHz band - no doubt an antenna limitation. Any these ever heard ?
 (via Glenn Hauser-OK-USA, hcdx and wor Oct 7 + B25 HFCC registrations)

ESWATINI {former SWAZILAND}: 15105 kHz Trans World Radio manzini relay site at 1530 UT, very nice ethnic vocal music, talk by man in (listed) Tigrinya (Ethiopia target). Tigrinya sce still after 1600 UT and to 1621 UT close. - ALSO: yesterday (Oct 28) at 1935UT, theme music, man in (listed) Lingala (Congo Rep. audience target) Gone at 2000 UT. Fair; Flutter signal on Oct 29.
 (Rick Barton, Sun City-AZ-USA, 'Arizona Update' via wor Oct 31)

FRANCE: 21660 kHz via TDF Issoudun '**Mini Transat La Boulangere**', The biennial 'Mini Transat' single-handed yacht race (sponsored by La Boulangere) began on Sunday 21st September with 90 small (6.50m) boats Continuation sailing tour of the Canary Islands towards the Caribbean at Guadeloupe.

Hello, Mini Transat La Boulangere. The second leg, the Canary Islands to Guadeloupe, will begin on October 25. From that moment on, weather reports in French and English should be broadcast at 1500 UTC on 21660 kHz, from TDF Issoudun.

(Christian Ghibaudo-Nice-France, BrDXC-UK iogr news Oct 20)

9490even Target Radio '**Radio Republica**' anti-Cuban communist party and government radio studio outlet from Miami-FL-USA, ID many times noted as "La Voz Democratico Cubano ..." bcast via TDF Issoudun bcast center in France, S=9+40dB powerhouse signal tonight propagate much very well, heard in Edmonton-AB-CAN remotely, scheduled 01-02 UT. Audio band covered extreme wide 9473 - 9499 kHz.

EXCELLENT AUDIO MODULATION transmitter in use at ISS relay, - not the old 100 kW reserve unit in use tonight as in previous months.

73 wolfie - well done Jeff tonight !

[selected SDR options, span 12.5 kHz RBW 15.3 Hertz]

GERMANY/France: Deutsche Welle has the following 2 transmissions in the B25 period:

Language	Time/UTC	Freq.	Transm.	Target Weekdays	Valid from - to
ARABIC	1215-1300	15390	ISSOUDUN	Sudan Wednesday	26.10.2025-31.12.2025
ARABIC	1215-1300	17570	ISSOUDUN	Sudan Wednesday	26.10.2025-31.12.2025
ARABIC	1830-1915	11830	NAUEN	Sudan Wednesday	26.10.2025-31.12.2025
ARABIC	1830-1915	15275	NAUEN	Sudan Wednesday	26.10.2025-31.12.2025

These transmissions will run until December 31, 2025 - afterwards there will be no Deutsche Welle broadcasts on shortwave anymore. Deutsche Welle - R.I.P.

(DW schedule via Michael Bethge-D, Nov. 2025)

GERMANY: (Cf. DXM 10/2025) The announced end of broadcasting by ShortwaveService Kall prompted US shortwave specialist Glenn Hauser (World of Radio) to inquire with Shortwave Radio Winsen-Aller (3975, 6160 kHz) on 20 September 2025:

"I also heard this news. I guess it was kind of inevitable. No response from listeners. Only requests for QSLs and no interest in the programme. The same applies to us, as most listeners seem to have no interest in the content of our own programmes. We only get feedback on our relay programmes ü presumably because of the QSLs. However, we will continue until at least 2028." The broadcasting licence for 'Europa 24' (6150 kHz) is valid until 2029, but HCJB Weenermoor-D or 'Channel 292' Rohrbach Bavaria are unknown due to a lack of contact.

('Shortwave Radio' via wor; via Dr. Hansjoerg Biener-D, Bieners DX Digest October #64 column via wwdxc BC-DX TopNews Oct 3)

GERMANY: DWD Pinneberg / Hamburg Meteo only on 6180 kHz ? {at present}

EiBi database list still lists 5905 + 6180 kHz.

So does DWD web site and a pdf file dated July 2025

<https://www.dwd.de/DE/fachnutzer/schiffahrt/service/dauerbrenner_072025_barrierearm.pdf>

I have found confirmation that 5905 kHz is off-air right now:

<<https://www.dwd.de/DE/fachnutzer/schiffahrt/funkausstrahlung/rttyinfo.html>>

(Sebastian Schlueter-D, wor Oct 21 - 22; / Alexander Miatlikov-Dnipro-UKR)

Re: DWD Pinneberg Meteo only on 6180 kHz?
 I asked them and they hope to get 5905kHz back by year end at the earliest.
 (Mauno Ritola-FIN, wor Oct 22)

GERMANY/AUSTRIA/UNITED KINGDOM: (Cf. DXM 10/2025) To mark its ninth anniversary of **SM Radio Dessau**, there will be a special broadcast on 23 November 2025.

The broadcast schedule is as follows:

11 UTC	125 kW	9670 kHz	ENC Woofferton transmitter	(UK)
13 UTC	100 kW	6095 kHz	MBR Nauen transmitter	(D)
21 UTC	1 kW	1476 kHz	Bad Ischl transmitter (Museumsradio)	(AUT)
22 UTC	10 kW	3955 kHz	Rohrbach Waa1 Bavaria transmitter	(Germany)

Email address: <maxberger@smradio-dessau.de>

Christmas Marathon (Weihnachtsmarathon) 2025 for the first time over two days. This time it is being organised by Channel 292, but reception reports should be sent to the individual providers themselves.

Broadcasting schedule **25 December** - 9670 kHz with 250 kW from ENC Woofferton (UK), Times in UTC:

0800-0900	Radio Six
0900-1000	Superclan Radio (but only with 10 kW from Rohrbach)
1000-1100	Yake FM
1100-1300	Radio Marabu
1300-1400	Radio Klein Paris
1400-1500	RNEI
1500-1530	Radio Powerrumpel
1530-1600	Decade AM

26 December - 9670 kHz with 250 kW from ENC Woofferton (UK), Times in UTC:

0800-0900	Radio Six
0900-1000	Superclan Radio (but only with 10 kW from Rohrbach)
1000-1100	Pop Shop Radio
1100-1200	Welle 370
1200-1300	RWI
1300-1400	Radio DARC
1400-1500	Yake FM
1500-1600	SM Radio Dessau

(Harald Suess-AUT, via wwdxc BC-DX TopNews Nov 1)

From the Isle of Music & Uncle Bill's Melting Pot:

The semi-annual time and season changes always bring challenges to FTIOM and UBMP on 6070 and 9670, and we will be pausing our shows on those two frequencies for a month or two until things sort themselves out. We will have two transmissions of each show on 3955 on Radio Channel 292 from Germany during the interim as follows:

From the Isle of Music

November's show will feature some Cuban music recordings that entered the Latin and regular GRAMMY competitions this year (it will be too soon to tell if any of them won either.)

Friday, November 14:

3955 kHz at 1700 UTC, repeats 2200 UTC

Uncle Bill's Melting Pot

November's show will be a polka party featuring Polish-American bands from the northeast US and Chicago. If you think you don't like polkas, you just haven't listened to the right bands.

Friday, November 21:

3955 kHz at 1700 UTC, repeats 2200 UTC

In addition to direct radio reception, we do honor reception reports using remote SDRs as long as the whole program is described and which SDR is specified. All QSLs are e-QSLs only. Reports to: <bill@tilfordproductions.com>.

Thanks for all you do for radio. Contrary to what some its critics are fond of chanting, shortwave can still be a voice of and for peace, and in these times, that is more important than ever.

(Bill Tilford-IN-USA, Tilford Productions, Sept 28)

Day 1 = Sunday ... Day 7 = Saturday SDA=Agat, Guam MDG=Madagascar NAU=Nauen/Germany
(AWR B25 Schedule via Siegbert Gerhard, Oct. 17)

Final broadcasts of **KTWR Guam** Agat Merizo bcast center now: 9900 kHz signed off about 1601 UT with an English ID for KTWR Agat, Guam. The DRM signal didn't come on until after that on 15390 kHz, and cochannel REE. Too weak to demodulate into Masset-BC-CAN, unfortunately, so it'll be a visual goodbye only !
(Walt Salmaniew-BC-CAN, wor / NASWA Oct 25)

INDIA/BHARAT: B-25 Season Schedule of Akashvani External Services (earlier known as All India Radio):

UTC	Language	kHz (Tx site)		Target Area	Old kHz
0030-0830	Bangla	594(C)		Bangladesh

INDONESIA: There has been speculation about the transmitter locations of new 7205 kHz **Pro 3 RRI** and 9690 kHz Voice of Indonesia. The Facebook group Pendengar Setia AM/MW & SW di Indonesia says it has the answers. This is a translated compilation of their investigations.

7205 kHz The transmitter is located at Kebayoran Baru, South Jakarta. In a 14 Sept post there is a video of a rather brutalist-looking 4 storey RRI building with a simple 2 element Yagi antenna on the roof. The video is taken from Jl. Antena II, a graffiti-filled lane at the rear. Next door building is RRI's Education and Training Research and Development Centre which has the address Jl. Dalam Radio Raya 4.

This post also includes a photo of the inner workings of the very small transmitter constructed by RRI technicians. The Pro 3 RRI studios are located at Medan Merdeka Barat in Central Jakarta.

A post from Mohammad Rohanudin says that the 7205 kHz transmitter has 600 Watts PEP power. It has a solid stage [state?] AM PWM modulation system, the VFO is like a custom-made SSB radio made for BITX USDX, and it uses DDS. Its beam is east through Java to Papua. It turns out that Mr Rohanudin is not just any listener but is a 2021-26 member of RRI's supervisory board, and from 2016-21 he was RRI's President-Director. He apparently led a team in construction of this transmitter. He has also encouraged DRM testing on AM and FM.

There has been speculation about the transmitter locations of new 7205 kHz Pro 3 RRI and 9690 kHz Voice of Indonesia. The Facebook group Pendengar Setia AM/MW & SW di Indonesia says it has the answers. This is a translated compilation of their investigations.

7205 kHz The transmitter is located at Kebayoran Baru, South Jakarta. In a 14 Sept post there is a video of a rather brutalist-looking 4 storey RRI building with a simple 2 element Yagi antenna on the roof. The video is taken from Jl. Antena II, a graffiti-filled lane at the rear. Next door building is RRI's Education and Training Research and Development Centre which has the address Jl. Dalam Radio Raya 4.

This post also includes a photo of the inner workings of the very small transmitter constructed by RRI technicians. The Pro 3 RRI studios are located at Medan Merdeka Barat in Central Jakarta.

A post from Mohammad Rohanudin says that the 7205 kHz transmitter has 600 Watts PEP power. It has a solid stage [state?] AM PWM modulation system, the VFO is like a custom-made SSB radio made for BITX USDX, and it uses DDS. Its beam is east through Java to Papua. It turns out that Mr Rohanudin is not just any listener but is a 2021-26 member of RRI's supervisory board, and from 2016-21 he was RRI's President-Director. He apparently led a team in construction of this transmitter. He has also encouraged DRM testing on AM and FM.

Malik Zinedine points out that from 1945 Kebayoran Baru was used for Voice of Free Indonesia (which lasted for 19 days in 1945 then was rebranded as RRI) and RRI Jakarta SW broadcasts, then used for RRI's AM until 2005 and finally in 2019 for an FM transmitter.

9690 kHz: This transmitter is located at Cimanggis, Depok, West Java. In a 21 Sept post there is a photo of a rotatable log periodic dipole array, quite an impressive antenna, used for 9690 kHz. It seems that it is in the same area as the 4755 kHz antenna tower which is variously described as a 30 metre dipole. It's seemingly the second photo in this post.

The new and quite stylish Voice of Indonesia building at Cimanggis has the address Jl. Umum No. 2 RT. 1/RW. 1, Cisalak, Kec. Sukmajaya, Depok. In a 20 Sept post there is a photo of the building with an antenna tower partly visible nearby, not clear for which transmitter/frequency. Other RRI buildings close by are RRI Powerhouse Cimanggis and the RRI Multiplatform Broadcast Centre.

Mauno Ritola-FIN at WRTH reported that Voice of Indonesia 9690 kHz is 1 kW although Bryan Clark-NZ reporting in World of Radio 19 Sept states that a tip from Mauno said that the power is 400 Watts so maybe 1 kW is nominal. Mauno adds that VOINS on 4755 kHz is nominally 10kW but operating at 3 kW. He says Palangkaraya 3325 kHz is 30 kW (WRTH 2025 shows 40 kW) but it is clearly operating at a tiny fraction of that output. (David Foster-AUS, ADXN Oct; via Ron Howard-Monterey-CA-USA, Oct 28)

IRAN: 6000 kHz Voice of Islamic Rep. Iran, Sirjan, in listed Tajik on Oct 26; at 0137-0140* & 0156-0211 UT, playing two typical local slow chants by men, at 0140 UT sudden s/ off abruptly interrupting the second chant; very good w/ loud audio when on air; On air when I tuned in at 0156 UT (6000.000 kHz; then .005 - .004 - .005 - .004 etc. up and down very often per UniEnschede Twente-HOL, very good), w/ typical local slow chants by men, time pips at 0200 UT, woman and man hinting unid words, then woman reading news w/ brief lively music breaks (ment. Irani, Istanbul etc) till 0204 UT, woman talk over music, typical local slow chants w/ bow sounds; very good w/ loud audio. (Serra-DXpedition in Cincinnato-Anzio-ITA, via NASWA Electronic Flashsheet #1227 Oct 26)

11780.008 IRIB VoIRN Sirjan Dari sce to AFG/PAK target, S=9+15dB at 12.20 UT Nov 1. 09.20-12.50 UT scheduled.

15134.958 much oddity fq of IRIB VoIRN Sirjan Arabic peninsula target sce to UAE/Saudi/OMAN/YEMEN target, S=9+45dB powerhouse signal at 13.20 UT on Nov 1. 11.30-17.30 UT scheduled.

LITHUANIA/POLAND: Re: B-25 DX program list, V-1c - updated on Oct 22nd:
 Polish Radio rent as always MW 1386 kHz in Lithuania, at 17.30 UT ?

If you mean Polish Radio in German, it will be at 17 UTC as always in B-seasons - in contrast to 16:30 UT in A-seasons.
 (Alexander Miatlikov-Dnipro-UKR, via wwdxc BC-DX TopNews Oct 22)

MADAGASCAR: 6065 kHz Wed, Nov 5, at 0308-0322 UT, AWR Africa, via MGLOB Talata Volonondry Madagascar relay facility, in Malagasy to EaAfrica. Man talking, preaching, during this log; 0318UT A hymn by a couple of singers; 0320 UT Woman talking, says ID and more ..., till 0322 UT. Poor reception: 35432.
 (Jose Ronaldo Xavier-Cabedelo-PB-BRA, hcdx Nov 5)

13760 kHz **MWV New Life Station**, via Mahajanga to South Asia, English, on 12 Oct at 0206-0214 UT. ID. 'New Life Station ... true stories from the Bible, Samaria, king of Israel ...', a Christian song. S=5.
 (Rudolf Grimm, Sao Bernardo-SP-BRA, hcdx via wwdxc BC-DX TopNews Oct 11)

21565 kHz **BBC London** via MGLOB Talata Volonondry Madagascar relay facility heard at 1331 UT on Sept 30 with a woman reading news headlines in English. Mostly poor.
 (Bob Brossell, Pewaukee-WI-USA, via NASWA Electronic Flashsheet #1224 Oct 5)

MALI: 15125 kHz (CRI AF relay site Bamako II site) China Radio Intl. at 1700 UT // 13645 kHz, w/ talk by woman, then man, in (listed) Swahili (Kenya, Uganda, the Congo Rep., etal.), some lively African vocal music at 1720 UT. Fair to Good on Oct 7.
 (Rick Barton, Sun City-AZ-USA, Arizona Update via wor Oct 12 - 15)

MYANMAR: 9730 kHz **Myanmar Radio** via Yengu-Yangon site, fair and fluttery signal but okay on fqy clear of QRM at this time. Familiar YL newsreader at 1142 UT in soft Burmese tongue, assuredly the national nx relay that starts around 1130 UT (= 6 p.m. in Myanmar). Mx fanfare at 1148 UT at end of nx and OM anmts. This fqy is not often hrd by me here, mainly due to mix of sked v propagation window. Sked here to -1230a* UT
 (Ralph Perry-Wheaton-IL-USA, wor Oct 22)

7345 kHz **Thazin Radio** via Pyin Oo Lwin site, Myanmar, fair to good at 1125UT underneath CNR7 signal this morning Oct 26. Playing Burmese local choral selections while China outlet on same fqy transmitting a Cantonese conversation between OM and YL - very easy to keep the two pgms separate using the cerebral filter, hi. But also, if the two get mixed up too much, good to tune CNR7 on 13770kHz for at clean sample. If Thazin follows past practice, signal should rise to dominate the channel before the approx -1230a* UT.
 (Ralph Perry, Wheaton-IL-USA, wor Oct 26)

NETHERLANDS: 6130 kHz **Radio Europe**, Alphen a/d Rijn, The Netherlands, 6 October. Tune-in at 1635 UT to oldies, interspersed with ID's. Fair.
 (Tony Rogers-Birmingham-UK; NASWA Electronic Flashsheet #1225 Oct 12)

9800 kHz **Radio Delta International**, Elburg, The Netherlands. Noted at 1020 UT with electronic music, DJ chat, ID's in English and Dutch. Fair.
 (Tony Rogers-Birmingham-UK; NASWA Electronic Flashsheet #1225 Oct 12)

12085 kHz **Radio Delta from Elberg-HOL**, heard around 1904 UT on Saturday, October 25 in Alaska with rock n roll type music. SINPO was like 45344. Listed with HFCC.org as 5 kW non directional antenna.
 (Paul Walker-McGrath-AK-USA, via NASWA Electronic Flashsheet #1227 Oct 26)

NEW ZEALAND: B25 schedule of RNZI (26 Oct 2025 - 28 Mar 2026):

12119.973 kHz FEBC Manila Liangyou via Bocaue site, in Lisu mountain people ministry sce, 13.08 UT on Nov 1. S=9+5dB sidelobe. 13.00-13.30 UT.

[selected SDR options, span 12.5 kHz RBW 15.3 Hertz]

(wb df5sx, wwdxc BC-DX TopNews Nov 1)

13870 kHz Fri, Nov 7, at 0119-0130 UT, FEBC Philippines, via Bocaue-PHL bcast center, in Burmese language to SoEaAsia. Woman Pastor makes a preaching, presumably; 0125 UT man talking and a religious song; at 0128 UT Other song; 0130 UT Ending w/ FEBC IS. Fair reception: 35433.

(Jose Ronaldo Xavier, Cabedelo-PB-BRA, hcdx Nov 7)

15435 kHz Sun, Oct 5, at 0056-0100 UT, FEBC Manila, from Bocaue-PHL, in Tai-Nua language. A religious hymn by female vocal; A song by man singer; 0100UT A fast IS and program ending. Fair reception, target to SoEastAsia: 3~45543.

(Jose Ronaldo Xavier, Cabedelo-PB-BRA, hcdx Oct 5)

ROMANIA: Re: Radio Romania International. {translated by Wolfgang Bueschel}

Since August 1, 2023, RRI has been broadcasting "temporarily" on only one frequency (instead of the usual two simultaneously) per target area. However, two frequencies per broadcast will continue to be coordinated and programmed into the respective transmitter controls.

In Galbeni and Tiganesti, only one of the two transmitters will actually be switched on. In the event of maintenance work or defects in the transmitter that was actually intended to be used, the other transmitter will be switched on as a replacement - with the "second frequency" that has already been programmed.

(Alexander Busneag-D, wwdxc BC-DX TopNews Oct 8)

SLOVAK REPUBLIC: Re: Radio Slovakia International in danger.

Hello ! On Oct 10th, I had a brief exchange with Russian Service editor Tatyana Zhitnikova about QSL cards. She mentioned the Fico government's plans to close the station.

Here's what Tatyana said about the threat of RSI's closure:

"We're in a very serious situation at RSI. We're considering closing our radio station as part of a public finance consolidation effort. We're awaiting a management decision ... We're currently sending out paper cards very rarely. Cards for 2025 have been printed, but in small batches. We no longer have a technical department; we, the editors, are sending out the cards ourselves.

Thank you for your reception reports; they're very important to us, as they allow us to understand how our signal is being received in your region, particularly in Saratov. Our broadcasting situation is challenging, and we thank all our listeners for their support."

P.S. I also asked Tatiana if the station's employees were planning to create a petition to management and the government, with listeners' signatures, to preserve the station's broadcasts. She didn't respond to this question. However, I think the Russian service also needs support.

Contact addresses are <rsi_russian@rtvs.sk>
 Zitnikova Tatiana <Tatiana.Zitnikova@rtvs.sk>
 (Dmitry Elagin-Saratov-RUS, wor Oct 25)

SLOVAKIA/USA/UAE: Re: Radio Slovakia International on shortwave output in danger.

It has continued broadcasting on shortwave via WRMI in Okeechobee-Florida and Shortwave Service in Germany to this day.

Recently also via Encompass-operated station in the UAE (courtesy of World Radio Network) with 250 kW against 100 kW at WRMI and 1 kW at SWS. From October 26, the frequency will be 5990 kHz at 1700-2000 UTC (Radio Slovakia International at 1930-2000 UTC).
 (Alexander Miatlikov-Dnipro-UKR. wor Oct 23)

We also ask you to support Radio Slovakia International by writing to your responsible department at RSI.

Updated B25 programme grids for BBC, CGTN, Turkiye, Romania & Taiwan are now available. My "at-a-glance" single-page PDF programme grids for the English language programmes on shortwave for:

* BBC World Service,

* CGTN Radio,

* Voice of Turkiye,

* Radio Romania International,

* Radio Taiwan International, and

* Music Programmes on Shortwave

have all been updated for the new B-25 broadcast season and are now available to download from the permanent link at: <<https://app.box.com/s/kbidxb4c5lwpju0kpoi27aiwc35br2g2a>>

I hope that you find these of interest.

As always, I appreciate any updates or corrections to: <alan-roe-swl@randa33.co.uk>
(Alan Roe, Teddington-UK, BrDXC-UK iogr / wor / cidx Oct 29)

U.S.A./KUWAIT/TAJIKISTAN: VOA Dari/Pashto off air since October 1, 2025.

As expected, the Voice of America remaining broadcasts on SW/MW were last aired on September 30. The schedule was 16:30-17:00 UTC Mon-Fri on 972 kHz (Orzu southern Tajikistan) and 11575 kHz (* Kuwait), with the first 15 min being in Dari and the last 15 min in Pashto.

(Alexander Miatlikov-Dnipro-UKR, wor Oct 9)

U.S.A.: Radio Free Asia - R.I.P.

Our radio world loses another with the passing of US 'Radio Free Asia'. I'm sure that the independent information and alternative views offered to some of the most repressed people on Earth, desperate for freedoms of the Western World, will surely be sorely missed ! Another one bites the dust !

(Rick Wald, Great White 51st !?, Galaxy wor Oct 31)

USAGM has registered the following Greenville shortwave frequencies for **Radio Marti** for the B25 period:

9275even **WMLK** 'Assemblies of Yahweh' new powerful 300 kW Ampegon tx transmission from Bethel PA, excellent audio signal performance, S=9+10dB (in short skip path to Alberta-CAN considered) at 01.33 UT on Monday Nov 3rd. [selected SDR options, span 12.5 kHz RBW 15.3 Hertz]

(wb df5sx, wwdxc BC-DX TopNews Nov 3)

17525 kHz **WMLK** - Bethel PA, 1740 UT on October 31. Choir music, clear ID at 1745 UT, not heard by me for a good month until now. Elder Jacob lectures and choir music and piano just bf each hour during this session monitoring. Still on as late as 2200 UT, but after ID at 2230 UT, went to open carrier. Very Good. WMLK reactivated as of today.

(Rick Barton, Sun City-AZ-USA, Arizona Update via NASWA Electronic Flashsheet #1228 Nov 2)

WBCQ: Radio Angela returns on 6160 kHz 24/7 hrs/d from Nov 1st. WBCQ - The Planet announced on their F_Book page this morning (31 Oct): "We are excited to announce that the return of "Radio Angela" on 6160 kHz will start early today at 9 pm est {sic}. after A+A World Wide*! Radio Angela on 6160 kHz will be a 24/7 hrs/d service! Listen by regular shortwave radio or by SDR. Happy Halloween!"

A+A World Wide Allan & Angela Worldwide. Also on 'X' (Twitter): "That's right. Radio Angela returns to the shortwaves - Nov. 1st on our 6160 kHz transmitter. 24/7 hrs/d. Featuring the best of WBCQ, music, theatre, science, information, and great creativity. All free speech. All only on the radio. Listen and support. It's all real folks. The last."

(Allan Weiner @ AllanWBCQ on 'X' 29 Oct; via Alan Pennington, Caversham-UK, BrDXC-UK news iogr, Oct 31)

6159.925 USA much poor low power **WBCQ** signal, mx of the 1920_ties at 01.23 UT on Nov 3.

7489.934 USA WBCQ Monticello ME state, poor S=6 at 00.28 UT. WB.

9330 kHz Sat, Oct 11, at 2300-2310 UT, **WBCQ** - WLC Radio, from Monticello-ME state northeastern US, in Portuguese. ID by woman / man presenters; Program themes of the day; Website <<http://www.wlc.com/portuguese>>

Today, they say about "O real sentido do dia de Sabado"! (The real meaning of Saturday!): They talked and talked, and I didn't understand anything! Good reception, target to Brazil / SoAM: 45554.
(Jose Ronaldo Xavier, Cabedelo-PB-BRA, hcdx Oct 11)

UZBEKISTAN/TAJIKISTAN/PHILIPPINES/AUSTRALIA/MADAGASCAR: TRANS WORLD RADIO (TWR) B-25 schedule. Remember, TWR transmissions move to various sites like Australia, Madagascar etc. starting on October 26.

Jose Jacob-IN/BHARAT has posted new frequency and site info for TWR, which is now active: <https://www.qsl.net/vu2jos/B25/TWR_Asia.pdf>, while KTWR Guam Merizo site will go off air on 25 Oct 2025. According to info from the station, KTWR from Guam Merizo bcast center will go off air on Saturday, 25th October 2025 (not 31 Oct 2025).

(Joe Hanlon-NJ-USA, wor Oct 14)

Trans World Radio Asia released its expanded winter broadcast schedule in early October, effective October 26. Of particular interest to DXers are the English broadcasts and their transmitter locations:

TWR Asia - All times UTC - English on Shortwave:

0030-0100	12120 (Mon-Fri)	Bocaue	Philippines
1030-1046	11965 (Mon-Fri)	Kununurra	Australia
1030-1100	11965 (Sun)	Kununurra	Australia
1130-1145	9910 (Sun)	Orzu	Tajikistan
1130-1200	15460 (Mon-Fri)	Kununurra	Australia
1415-1430	17700 (Fri)	Talata-Volonondry	Madagascar
1430-1445	17700 (Mon-Wed)	Talata-Volonondry	Madagascar
1445-1446	17700 (Mon-Fri)	Talata-Volonondry	Madagascar

Mediumwave

0045-0100	882 (Mon-Fri)	Puttalam	Sri Lanka
1445-1500	882 (Fri / Sat)	Puttalam	Sri Lanka
1500-1545	882 (daily)	Puttalam	Sri Lanka

(The Spectrum Monitor/Bits & Bytes/Nov 2025)

For B25, the **DRM schedule** is as below:

Time	Day	Frequency	Power	Language	Coverage area
1200-1230	Sat	12105 kHz	50 kW	Mandarin	China
1230-1300	Sat	12105 kHz	50 kW	Japanese	Japan
1445-1505	Sat	9975 kHz	50 kW	English	India/Southeast Asia

We thank you for your patience while the transmitter was down. We hope you enjoy the broadcasts throughout the B25 broadcast season. Please let us know how they perform. 73 de TWR Asia

(via Patrick Robic-AUT & Roger Thauer-D, via wwdxc BC-DX TopNews Nov 2)

UZBEKISTAN: New language on SW towards Europe. With SW broadcasts towards Europe target constantly declining in the past 30years, it's quite a rare thing to see a new language used for broadcasting to this continent. Now it's Udmurt, a Permian language of the Uralic family with some Turkic influence. From 26 October, Bible Voice Broadcasting will transmit a 30-minute program in Udmurt on Sundays at 18:30 UT on 7520 kHz via RRTM Telecom Tashkent Uzbekistan Shortwave Transmitting bcast center, Uzbekistan (100 kW, 301 degrees).
(Alexander Miatlikov-Dnipro-UKR, wor via wwdxc BC-DX TopNews Oct 22)

EDXC: The future of the European DX Council. An update from Christian Ghibaudo-Nice-France.

Dear friends,

Chrissy Brand-UK and I, Christian Ghibaudo-F, ceased our duties as Secretary General and Assistant Secretary General at the end of 2023. I remain on an interim basis pending the appointment of new leaders. Unfortunately, we have to note that no one has come forward to replace us. Moreover, since the end of the Covid pandemic, we have only noticed a lack of interest in EDXC activities.

The 2024 meeting in Tartu Estonia, was a success thanks to the strong participation of SDXL members from Finland. For this year 2025, no EDXC member club had offered to organise our annual conference. Nevertheless, we were able to meet thanks to an invitation from the Swedish club SDXF to join their annual DX Parliament in Ullared. It was a very interesting and friendly meeting, but unfortunately there were only 12 of us from the EDXC ...

So now we can ask ourselves the question: are you still interested in the EDXC ? It would be nice to hear if at least one person has volunteered to lead the association.

Will it be possible to hold a meeting in 2026 ?

Each club is invited to submit a proposal so that we can meet. If no responses or proposals are forthcoming, we may be forced to dissolve the European DX Council. And that would be in 2027, if that happens, and that would be a tragic anniversary for the EDXC, which will be celebrating its 60th anniversary !

I look forward to receiving your proposals by the end of this year, to know your opinion !

I thank you and hope for your continued support.

Sincerely,

Christian Ghibaudo-Nice-France <chr.ghibaudo@gmail.com> Oct. 3

Thanks a lot to our club members for their contributions:

BH : Bernd Henning, Stipsdorf, Germany. RadioComm CR1 with a bonito whip antenna.

SG : Siegbert Gerhard, Frankfurt am Main, Germany. AOR AR 7030 + 5m-EMF (Electric Magnetic Field) Antenna & Degen DE 1103 + Telescopic.

Dear Friends,

Welcome to the November edition of Logbook which will complete 25 years since I have taken over in December 2001. So some old memories. I joined the Club in December 1979 when Logbook was its peak so much so that we had a separate Utility Bands section in the Logbook edited by a separate member.

Over the years there has been changes and the interest in the hobby seems to have diminished. In my first edition of Logbook there were thirteen different contributors from all around the globe.

But now we have just a few of them. I encourage other members from around the globe to send their loggings as we are WORLDWIDE DX CLUB. I would request them to use the Club format in Word which is similar to the one used in this section. If any member wishes the format to be sent by email please let me know.

I also would request members to avoid the following:

a) having multiple loggings on the same frequency in different languages and same day.

b) having loggings of the same station and same frequency just 15 minutes apart.

DXers in Europe have the privilege of having few local transmitters which are leased out for broadcasting by third party having different names. For DXer located elsewhere it serves little interest to these loggings.

I have included them in this logbook but marked the frequencies in bold.

In my future logbooks I will include just a few of them.

I welcome suggestions from members on the above issues.

Looking forward to your loggings for the next edition,

Ashok Kumar Bose
