DX MAGAZINE No. 5

Vol. XLIV

May 2009

Hello again,

Welcome to another issue of our DX MAGAZINE. I have no news to report from inside the club this month - therefore let's just start with our usual news from outside the club - only one item this month:

WRTH is pleased to announce that the 'A' season schedules file is available for download from the WRTH website at: <<http://www.wrth.com>> and follow the links. The file contains schedules for over 230 international and clandestine/target broadcasters. The schedules file is in PDF format (you will require the free Acrobat reader (v6 or above) available from <<http://www.adobe.com>>) to read the file. The file is 102 pages long and is 355 kb in size. We hope you find this a useful accompaniment to the printed WRTH.

(Sean Gilbert, International Editor, WRTH editorial Team)

And with this best wishes and good DX until next month from

Ethiopia's new (Chinese?! we) jamming equipment covers the 15343.34 to 15356.80 kHz portion of the adjacent 15350 kHz channel today. It's the same digital DRM like jamming, which appeared last November against Deutsche Welle's Amharic broadcasts also in 15 MHz band. All jamming against TDP broadcasts via Samara Russia site, 250 kW at 188 degrees, A09:

The Orator was talking about the differences between Islamic and Christian regions of Nigeria --- emirs had divine rights,

BOLIVIA - 6134.74, Radio Santa Cruz, 0916-0930 May 12, Haven't heard this well enough to report in recent days,

CHILE [non] - Originally, CVC was going to terminate the Brazilian service on SW at the end of April, but it has continued to be heard all day on 15410 via Chile. Now comes word from Célio Romais in his blog that a sesquimonth from now, not only will SW be closed down, but also Internet streaming, i.e. the entire service is being terminated, one reason being the difficulty of finding qualified staff in Miami. But the staff they have in Miami have been given notice and are very upset about it. Starting May 18, announcements will be made on each program, including Radio DX, that the service will terminate at June end. Nothing is mentioned here about the fate of the Spanish service, but as far as we know, that will continue. (gh, May 14, DXLD)

CHINA - A09 CHINA RADIO INTERNATIONAL As of Apr 26, 2009.

All relay transmissions of CRI via Bonaire-ATN, Montsinery-GUF, Meyerton-AFS, and Santiago-CHL ceased now.

CENTRAL AFRICAN REP - 7220 R. Centrafrique, Bimbo, 1216-1411, 02 May, Vernacular, Afr. pops, news at 1300 when the signal was much better, pops, another newscast at 1400 UT; 25432, QRM at 1400 UT. CYPRUS - Cyprus BC, 9760, surely the source of unannounced Greek folk music, Sunday May 3 from 2240 to abrupt cutoff without a word of goodbye at 2244:30. How rude! Reception was good. This is the Fri-Sat-Sun-only 2215-2244:30 transmission via BBC relay station; per EiBi, // are 7210 and 5930, not checked, but surely best here on 9760 anyway. If there were any announcements, they would be in Greek, as non-Turkish Cyprus misses a golden opportunity for outreach to the English-speaking world and its potential tourists (Glenn Hauser, DXLD)

INDONESIA - [Re 9-038]: 11784.92, Voice of Indonesia, 1351-1435, May 4. Under a strong VOA in Chinese till 1400; under a strong BBC in Hindi after ToH; 1435 finally a clear VOI ID. Frequency assumed from my May 3 reception in the clear at 1614, QRM too strong today to accurately measure (Ron Howard, Asilomar Beach, CA, Etón E1, dxldyg via DXLD)

INDONESIA [and non] - Looking for VOI on reactivated 11785, May 6 at 1300 in English, but could not unearth it below the barrage of at least two ChiCom echoing jammers starting with a 5+1 timesignal, and VOA Chinese. Tried for a few more minutes and again later in the hour but no trace of VOI, so either totally buried, not propagating or off the air today.

Meanwhile 9525 remained empty as VOI foolishly abandoned what had been a good clear frequency for them during the 1300 hour only. Tried 11785 again at 1400 when the radio war stopped, but now could hear nothing but weak Hindi from BBC Singapore, which is no doubt a big obstacle for Indonesia's 1400 Malay broadcast when it is on 11785.

Altho could not detect VOI on reactivated 11785 May 6, recheck May 7 at 1345 found its kind of music mixing with the USA/China radio war; 1356 VOI's recognizable YL host in English, and after war truce at 1400, new slogan ``VOI helps to make the world green`` punctuated by birdtweets. After the hour in Malay, another check at 1501 found ID in English, still on at 1504, weakening signal, but apparently off by 1514 recheck; typically on ex-9525 they would re-open English at 1500 for a few minutes, then chop it off, and appear after 1600 in other languages on 11785.

Next day May 8, VOI actually atop the mess on 11785, but still plenty of QRM, at 1302 in English, and at 1354 Indonesian music further atop. So far VOI has ignored my advice to go back to 9525.

Anyhow, for what's really going on in Indonesia, better to listen to R. Australia, e.g. May 8 at 1320 in Asia-Pacific, a report on how freedom of speech is threatened by three laws being applied against the Internet, such as an anti-Megawati Facebook site being closed down repeatedly and upopping again.

Another RA item was on how some Melanesian countries are looking at how Fiji is controlling the media, and thinking, we could do that too. In these countries where wantok prevails, there is no tradition of criticising the leadership.

Sat on 11785 before 1300 Saturday May 9 to see what would happen. At 1258 could not really make out anything from VOI, just voanews.com spelled out, mixed with CNR1 ChiCom echoing jamming; at 1259 on pops WHRI with OCS in progress, sign-on, and 1300 into Hmong Lao Radio overriding everything, so strong that it overloads the FRG-7 and audio can be heard elsewhere on 25m unless attenuated. Meanwhile open 9525 goes begging for VOI to return (Glenn Hauser, DXLD)

11784.96..97v Voice of Indonesia ID at 1356 UT. Music song program well AHEAD of China mainland jammer talk echo (ex Firedrake music network) on even 11785.00. Nothing noted of VOA Mandarin program, which is UdornThani 30 degrees, unfortunately far away of real path to Europe. (wb)

11784.96v, Voice of Indonesia, 1410, May 10. Fair, with a hum and well above the QRM. In assume Malay. Same frequency on May 8 from 1410 to 1503*. Almost fair, in Malay with IDs in English, usual English segment at 1501 with their program schedule. (Ron Howard, Asilomar Beach, CA, Etón E1, dxldyg via DXLD)

These past few weeks have had the Solomon Islands Broadcasting Corp. coming in at rather good levels late in my local evening. For instance tonight, I'm listening to a parliamentary broadcast on 9541.538.

Signal is relatively strong, but somewhat distorted. Usually there's island music, so more interesting than what's on tonight, especially since much is in Pidgin English. All this around 0630 UT. Of course, BBCWS relays are also commonly heard (Walt Salmaniw, Victoria, BC, Canada, May 6, dxldyg via DXLD)

9541.50, SIBC, 0817-0830 May 6; Noted two males discussing current affairs in English language. Seemed that this portion of the program was pre-recorded. At 0900 a local announcer gives the news in Pidgin language. At 0907 a female continues in Pidgin with some English words noted. Signal remained fair during the period.

(Chuck Bolland, Clewiston, Florida, USA, DXLD)

SIBC, 9541.5, May 9 at 1240, American-accented YL being interviewed about freedom of speech, Michael Savage being banned from the UK. This time I was able to match it with BBCWS via Singapore 9740, running about one second behind that. R4 readability on 9541.5, not bad; still het from weaker China 9540, and unlike other days, no DentreCuban jamming on 9545 against nothing (Glenn Hauser, DXLD)

WEWN's dirty transmitters only 20 kHz apart, 11530 English and 11550 Spanish, May 6 at 1403 effectively block anything else from 11510 to 11570, as they produce mixing products on those two frequencies, and 11530 also has the spurs around 11520 and 11540 previously reported. The squealing sound could also be heard on 11510. Add to that the general receiver overload and desensitization. There are a number of IBB broadcasts in this range (Glenn Hauser, OK, DXLD)

"Wavescan" DX Program to Continue from New Location

The final edition of AWR's DX program "Wavescan" produced in Singapore is scheduled for broadcast on May 31, 2009, with the usual scheduled repeats during the first few days into June. Beginning in the first week of June, "Wavescan" will be written and produced in the United States for broadcast worldwide. In the new arrangement, the scripts for "Wavescan" will be researched and written in Indianapolis, Indiana, and the program will be assembled and produced in the Miami, Florida, studios of shortwave station WRMI/Radio Miami International. QSL cards acknowledging the reception of "Wavescan" will be available from both WRMI and Adventist World Radio.

At the end of May, AWR's Singapore office and studio will be transferred to nearby Batam Island, Indonesia. This move will achieve considerable cost savings for AWR.

Many long-time listeners will remember that the original AWR DX program, "Radio Monitors International," was produced in the Poona (Pune), India, studios of Adventist World Radio and broadcast on the domestic and international shortwave services of the Sri Lanka Broadcasting Corporation. Beginning in 1984, North American coverage was achieved through the services of Jeff White and his original Radio Earth/Radio Discovery service. "Radio Monitors International" became "Wavescan," and Radio Earth/Radio Discovery became Radio Miami International/WRMI.

The new presentations of "Wavescan" will be very similar to the earlier editions as produced in Singapore. Each edition will include a station profile on an important or a little-known shortwave station from a historical perspective. There will also be other features from the fascinating world of international radio broadcasting, as well as regular bulletins of DX news. It is intended that the regular DX bulletins from Japan, Bangladesh, Philippines and Australia will be included as usual in these new broadcasts of "Wavescan."

Other radio entities are welcome to re-broadcast "Wavescan," archive the programs on Internet websites, and reprint items and articles from the scripts and archive the scripts, with the usual attribution to AWR "Wavescan" and to Radio Miami International/WRMI.

As was announced in "Wavescan" earlier, the annual worldwide listener contest during the month of June will continue as planned. Listeners are invited to prepare a list and give details and photocopies of 5 QSLs from silent shortwave stations; to submit 3 reception reports on AWR transmissions; and, where possible, to submit 3 suitable radio cards to the "Wavescan" address in Indianapolis.

Adventist World Radio would like to express appreciation to AWR assistant program director Rhoen Catolico for his splendid work on the production of "Wavescan" during the past three years and to wish him every success with his endeavors as he returns to his homeland in the Philippines. We would also like to express our appreciation to Jeff White at WRMI for mutual co-operation in the areas of international radio broadcasting over the past quarter century, and we are grateful for this new relationship in the production and distribution of the program in his station in Miami.

Jeff White is currently the president of NASB, the National Association of Shortwave Broadcasters USA, in addition to his management responsibilities at WRMI.

Adrian Peterson is DX editor for Adventist World Radio and a Board Member for NASB, the National Association of Shortwave Broadcasters, USA. The address is:

Adventist World Radio, Box 29235, Indianapolis, Indiana 46229, USA.

4790 PERU R. Vision May 6 0715-0730 Tuned in to preacher in Spanish. Poor signal but lots of "Hallelujahs" could be heard. Still preaching at 0730 tune-out.

4790 PERU Radio Vision Apr 11 0710-0730 SS OM talking on a poor signal. Reception was further hindered by deep fades and a faint het even with ECSS engaged. Full station ID's heard at 0722 and at 0730. Non-stop talk during this period, but nothing religious was heard.

4790.20 PERU Radio Vision Apr 27 0510-0530 Religious music in Spanish at tune-in with preacher speaking in SS between musical selections. ID in SS as "Radio Vision, La Voz de Salvation". Religious programing continued after ID. Signal was poor at best.

4845 MAURITANIA R. Mauritanie Apr. 15 0730-0745 Stringed instruments playing pleasant African music until 0740 when an OM comes on with talk in AA until tune out at 0745. Fair signal with lousy local weather.

4845 MAURITANIA R, Mauritanie Apr 20, 0602-0630. Tuned-in to Koran singing followed at 0608 by music. OM talks in AA over stringed instrument, similar to a guitar. Then switched to piano recording with more AA talk. ID in AA at 0630. Poor to fair signal until CODAR showed up for the first time around 0630 tune-out.

4845 MAURITANIA R. Mauritanie May 6 0700-0715. OM in Arabic with station ID at 0700 and into another OM with talk until tune-out at 0715. Signal was poor to fair.

4885 BRAZIL R. Clube do Para Apr 16, 0725-0750. OM in Portuguese talking and occasionally playing PP balads. Signal fair.

4885 BRAZIL R. Clube do Para Apr 21 0640-0655 Lively Brazilian tunes with OM in PP in-between selections. Partial ID heard at 0646 "Radio Clube..." was all I could pick up because of fading.. More music following the ID. Poor and faded out by 0650.

4985 BRAZIL R. Brasil Central Goiania April 21 0640-0650. Portuguese balads until 0644 ID by OM in PP. This was followed by two short ads and then into OM with religious talk in PP. Fair. Tune out at 0650.

- 5910 COLOMBIA Marfil Estereo. Apr 27, 0700-0715 Missed ID at ToH but OM talking until Spanish ID at 0710 then into bright SS music. Poor signal
- 5995 MALI RTV du Mali Apr 15 0618-0645. Tuned-in to fabulous tribal music featuring great vocal gymnastics and lots of drums. The next songs featured guitars and drums that swept past BoH until 0639 when a high-energy anncr came on, introducing more vocals. Signal was decent and was audible over local lightning crashes. Music continued until tune-out at 0645.
- 5995 MALI RTV du Mali May 6 0730-0800*. Tuned in as OM was talking in French. Piano bridge at 0733 leading into another program, perhaps commentary, at 0735 with an OM in FF. Piano music returned at 0738 to close the show. Padded with the piano until 0740. YL in FF opened and closed the program. OM back at 0740 with long talk until 0758 when sign-off announcement was heard, telling listeners to tune to 9635 kHz for more Radio Mali. At 0759 Waltzing Matilda came on as Radio Australia launched its Pacific service. Could still hear Radio Mali under Matilda until 0800*.
- 5995 ALI RTV du Mali Apr 27 0535-0545. Splendid listening. Tribal music of drums, guitars and whistles, some vocals. Reminiscent of the sound track from one of those long-ago Tarzan movies. OM with Radio Mali ID's throughout. Fair to good signal.
- 5995 MALI RTV du Mali April 11 0610-0630 Spectacular tribal music full of drums with both instrumentals and vocals played until 0630, when an OM started talking in FF. Recheck at 0700 and heard YL with ID in FF followed by an OM in AA. Recheck at 0758 and audio was all but gone. Heard start of sign-off announcement in FF but R. Australia came on with its IS and wiped Mali out.
- 5995 MALI RTV du Mali Apr 20 0620-0640. Sensational tribal drum solo music at tune-in while at 0625 a whistle or flute mixed with drums for a raucus indigenous song. YL had a Radio Mali ID in FF at 0632 with vernacular vocal until tune-out at 0640.
- 6010 COLOMBIA La Voz de Tu Conciencia Puerto Lleras. April 21 0701-0735. Tuned-in to woman preacher in EE being translated by OM into Spanish. Sermon was directed toward Colombians. Continued until 0710 "Amen" and OM with SS ID's, Into SS religious music until 0733 ID by YL in EE and by OM in SS "This is the Voice of Your Conscience."
- 6010 MEXICO R. Mil, Mexico City Apr 16, 0755-0830. OM with ID's in Spanish at 0755 and again at 0800 "Musica de Mexico...? Radio Mil" More talk in SS interspersed with great SS music. Mostly vocals but occasional peppy guitar solos. Tuned out at 0830. Strong signal with no fading.
- 6070 NEW ZEALAND RNZI Apr 16, 0805-0830. Continuous music, mostly great indigenous stuff without interruption until 0822 when there was a YL in EE with ID and postal and web addresses. More music until 0830 when Voice of the Pacific hiccupped a bit. The YL announcer introduced BBC World News but then went into Regional News of New Zealand and the Pacific.
- 6080 BRAZIL R. Anhanguera Apr. 16, 0830-0850. OM with ID in Portuguese at 0830. Brief talk then into non-stop music until tune-out at 0850. Signal was poor.
- 9575 MOROCCO Radio Mediterranee Inter. (Medi 1) Apr 25 0635-0650. OM and YL discussion in FF. Station promos and musical bridges between topics.
- 9635 Mali RTV du Mali Apr 24 *0800-0845. Gangbusters signal out of Mali. YL had sign-on announcement in French with IS of guitar and drums. OM took over with non-stop talk in a vernacular until 0810 when polished and well-produced recording of tribal music came on. More music with a YL dj giving "Ici Radio Mali" ID's in between tunes. OM back with talk in vernacular at 0828 until tribal music returned at 0845 tune-out.
- 9645 BRAZIL Radio Bandeirantes Sao Paulo (Presumed) Apr 25 0658-0715. OM in Portuguese. Strained to hear ID at ToH but no luck. Noise was too high. Very weak signal, but heard before at this QTH and other reports recently seen (DXLD)
- 9690 NIGERIA VON Koduna site. Apr 27 *0800-0835 Abrupt sign-on with no fanfare or s-on announcement. OM talking in listed Hausa until 0830. Sounded like nx and maybe a commentary until ID in English and Hausa at 0830: "This is the Voice of Nigeria...(?) Lagos." Musical bridges seperated more talk until tune-out at 0835. Fair signal with deep fades.
- 9690 NIGERIA VON April 24, 0810-0830 Voice of Nigeria with laryngitis this morning. Hideous modulation wrecked any opportunity to pick out anything intelligible as OM talked in Hausa. Got so bad the signal actually sounded almost like SSB, but a quick check showed that sure enough a carrier was present and the modulation continued to be way too hot. Tune-out at 0830 because signal was too annoying to continue trying to copy.
- 9690 NIGERIA Voice of Nigeria May 6 *0800-0820 Tuned in to hear sign-on announcement by OM in Hausa. Immediately into News of Nigeria, followed at 0815 by VON Interval Signal, birds calling and chirping with flutes and drums. Then into OM in Hausa with News of Africa. Several countries mentioned as nx continued at tune-out. Fair signal.
