DX MAGAZINE No. 3

Vol. XLIX

March 2014

Hello again,

Welcome to another issue of our DX MAGAZINE. Our NEWS EDITOR Walter Eibl has recently suggested that we should establish a separate mediumwave news section in our DX MAGAZINE. This would need a separate new editor for this section. If anyone among you is a mediumwave specialist and is willing to compile this new section for us, please do not hesitate to contact me.

And now let's start with our usual news from outside the club - only one item this month:

The **EUROPEAN DX COUNCIL** would like to invite you to the **EDXC Conference 2014** to be held in the Southern France on 19-22 September 2014. The first part of the conference (19-21 September) will take place in a beautiful small village Saint-Dalmas de Tende situated approximately 80 km North-East from Nice. The latter part of the conference (21-22 September) will take place in the city of Nice.

It is understandable that people are coming from and going to different places and different times. That is why we will try to be very flexible with the conference packages. The price for the basic package will be around 175 € (single) / 120 € (double) including: Accommodation (2 nights in Saint-Dalmas de Tende), Banquet dinner, 2 Coffee breaks and the Conference fee.

If you have anything to ask, please, do not hesitate to contact Kari <ksk@sdxl.org> or the main organizer Mr. Christian Ghibaudo <chr.ghibaudo@gmail.com>.

More information and the preliminary programme can be found also on the EDXC blog at: <<http://edxcnews.wordpress.com/category/edxc-conference-2014>>.

Once again, we would like to see you at EDXC conference 2014 in September. You are warmly welcome!
(Kari Kivekäs, Secretary General of EDXC)

And with this best wishes and good DX until next month from

NEWS ABOUT BROADCASTING (+other) STATIONS
Walter Eibl · Postfach 15 45 · D-91005 Erlangen · GERMANY

ANGOLA - 4950, R Nacional de Angola, Mulenvos, 1925 27 Feb, px local in Portuguese, better modulation [than usual], 33333, 73 Girolla (Mauro Giroletti, playdx yg via DXLD)

Rádio Nacional Angola 1, Mulenvos, 4950, 0428 UT Feb 28 Tune - in to YL in Portuguese, followed by station ID by OM, and very nice music. Time pips at TOH, and into what sounds like a news broadcast. Good signal with static. S-8. (Nick Rumble, Kannapolis, North Carolina U.S.A., Yaesu FRG-100, Drake R8, 220 ft. Inverted L Longwire, Homebrew 1 Meter MagLoop, Feb 28, cumbredx yg via DXLD)

ARMENIA - British Broadcasting Corporation (BBC), Yerevan-Gavar 7505 kHz. 0203 UT March 4, World News in progress with story about Palestinian - Israeli peace talks. "BBC World Service" Station ID at 0207. Fair to Good signal. S-7 (Nick Rumpel, Kannapolis, North Carolina U.S.A., Receiver: Yaesu FRG - 100, Drake R8, Antenna: 220 ft. Inverted L Longwire, Homebrew 1 Meter MagLoop, cumbredxyg via DXLD)

Audiblized only tnx to the absence of WRNO from 7506.6v! (gh, DXLD)

Updated B-13 schedule of Voice of Armenia with new GREEK program:

1315-1345 on 4810 ERV 050 kW / non-dir to N/ME Kurdish, cancelled
 1345-1400 on 4810 ERV 050 kW / non-dir to N/ME Azeri, cancelled
 1400-1415 on 4810 ERV 050 kW / non-dir to N/ME Azeri Mon-Fri, cancelled
 1400-1415 on 4810 ERV 050 kW / non-dir to N/ME Turkish Sat/Sun, cancelled
 1415-1430 on 4810 ERV 050 kW / non-dir to N/ME Turkish, cancelled
 1415-1430 on 4810 ERV 050 kW / non-dir to N/ME Armenian HS, irregular
 1430-1500 on 4810 ERV 050 kW / non-dir to N/ME Farsi
 1500-1530 on 4810 ERV 050 kW / non-dir to N/ME Yezidi
 1530-1545 on 4810 ERV 050 kW / non-dir to N/ME Assyrian
 1545-1615 on 4810 ERV 050 kW / non-dir to N/ME Kurdish, ex 1315-1345
 1615-1630 on 4810 ERV 050 kW / non-dir to N/ME Greek, confirmed March 5-7
 1900-1930 on 4810 ERV 050 kW / non-dir to N/ME Arabic
 (Ivo Ivanov-BUL, via wwdxc BC-DX TopNews March 8)

AUSTRALIA - Changes to Radio Australia operational schedule for A14 (draft version): times = UTC

1, Shepparton, Line B, 1700-2030 has changed from 9500 kHz to 9820 kHz. Target area: West Pacific
 2, Shepparton, Line C, 2030-2200 has changed from 9500 kHz J9/355 to 15415 kHz J15/355. Target area: West Pacific
 3, Shepparton, Line D, 0300-0600 has changed from 15515 kHz to 15300 kHz. Target area: Central South Pacific
 4, Shepparton, Line E, 2100-0100 has changed from 21740 kHz to 17860 kHz. Target area: Central South Pacific
 5, Shepparton, Line E, 0100-0300 has changed from 19000 kHz to 17840 kHz. Target area: Central South Pacific
 6, Shepparton, Line E, 0300-0500 has changed from 21725 kHz J21/355 to 17840 kHz J17/355. Target area: West Pacific
 7, Shepparton, Line F, 1500-1700 has changed from 7240 kHz to 9850 kHz. Target area: Central South Pacific
 8, Brandon, Line G, 1200-1400 has changed from DRM to Analogue AM. Target area: West Pacific (5995 kHz)
 9, Offshore, 0400-0500, HBN/270 has changed from 17840 kHz to 17800 kHz. Target area: Asia [PALAU]
 10, Offshore, 1600-1630, SNG/340 has changed from 9580 kHz to 9540 kHz. Target area: Asia [SINGAPORE]
 11, Offshore, 2200-2300, DHA/105 has changed from 9890 kHz to 9610 kHz. Target area: Asia [UAE]

The changes are required to avoid interference from other broadcasters and to optimise the propagation of transmissions to target areas (via Nigel Holmes, March Australian DX News via DXLD)

BOLIVIA - Radio Yura, Yura, 4717 kHz. 0131 UT Talk by OM at BOH, possible station ID, followed by Andes style music at 0132. Another possible ID or advertisement at 0140. Slowly fading out. Very weak; USB only. S<2 (Nick Rumble, Kannapolis, North Carolina U.S.A., Receiver: Yaesu FRG - 100, Drake R8, Antenna: 220 ft. Inverted L Longwire, Homebrew 1 Meter MagLoop, cumbredx yg via DXLD)

6134.82, R. Santa Cruz. S/on at spot-on 0900 with IDs, announcements and then into music around 0905. Caused a het with Brazil 6136.60 but easily separated using SSB. Quite a respectable signal and similar strength to the Brazilian. Feb 20. Hmmm: I wonder what else is around! ... Will try 60 mb shortly.
(Rob VK3BVW Wagner, Vic., ARDXC mailing list via DXLD)

6134.819, R. Santa Cruz, Santa Cruz, 24-02-14 2300, ID as Santa Cruz, phone number and web address, 33222.
(Maurits Van Driessche, Belgium, Hard-Core-DX mailing list via DXLD)

6

BRAZIL - 4885, Feb 23 at 0643, music in Portuguese, fair signal and better than usual, no doubt from the 24h station, R. Clube do Pará, Belém, and not Acreana. Only other detectable ZY 60m signals are making low audible heterodyne on 4915 from Macapá and Goiânia (gh, DXLD)

DSWCI DBS domestic bcst list show.

6000 R Guaiba, Porto Alegre, RS [Oct-Feb] 0700-0400 Port.

9665.014 R Voz Missionaria, Camboriu, SC [Oct-Feb] 24 h Port // 5940 S=7 at 0630 UT March 12. "Hallelujah" at 0636 UT, // 5939.853 hit heavily by WWCR En next channel adjacent 5935 kHz.

5964.940 Tiny signal at 0700 UT, R Transmundial (RTM), Santa Maria.

5970.008 R Itatiaia, Belo Horizonte, MG, Radio Itatiaia", 0705 UT. "A Radio das Minas", nice light Brazilian song program.

5999.603 Announced Radio Nacional, S=9+15dB, same program like // 6180.006 and 11780.003 kHz. So its not "R Guaiba, Porto Alegre, RS [Oct-Feb] 0700-0400 UT."

6010.048 CLM and 6010.183 BRA kHz, which is which, even lsb/usb switch doesn't help. Both R Inconfidencia, Belo Horizonte, MG, Port or/and Spanish stn from La Voz de tu Conciencia, desde Colombia, Lomalinda, Puerto Lleras, Meta. Both equal S=7 at 0726 UT.

6059.788 SRDA Super R Deus e Amor, Curitiba PR, sermon, both male and female, 0735 UT, S=5-6 strength.

6069.996 SRDA Radio Capital, Rio de Janeiro, RJ. Hit by 6069.952 CFRX Toronto S=8, CFRB? program phone in, on milk shake recipe matter. (wb, wwdxc BC-DX TopNews March 12)

CANADA [NEWFOUNDLAND] - 6159.980, CKZN St. John`s, Canada, 25-02-14 0430 News from Canada by female, poor, 32222. (Maurits Van Driessche, Belgium, Hard-Core-DX mailing list via DXLD)

CANADA / CUBA / GERMANY - 6069.954 CFRX Toronto noted with fine S=6 signal in CA-US remote unit at 0715 UT Febr 14. Phone-in program. (wb, wwdxc BC-DX TopNews Febr 14)

6069.992 Despite instead in Europe noted German pop mx station 'of the sixties' from Rohrbach Waal with poor tiny S=4 signal on 6069.992 kHz, i.e. Radio Channel 292 from Rohrbach Waal site. (wb, wwdxc BC-DX TopNews Febr 14)

CANARY ISLANDS [non] - 5780.01, 2150-2225, CNR [sic], 16.02, Atlantis FM, Tenerife, English ann, pop songs for tourists, 2200 ID, news, ad, 2203 pop songs, 35243 // live streaming on <<http://www.atlantis.fm>> Best 73, (Anker Petersen, Denmark, back home to my AOR AR7030PLUS and 28 metres longwire)

5780 kHz, Horizon FM again heard with good signal here in Germany now at 2020 UT (21 Feb 2014). English pop songs; SW transmission some seconds ahead of otherwise // stream <<http://www.horizon.fm>> 2024 UT, IDs and ads, back to pop songs. Location of the SW tx really Isla de Tenerife? Shortwave transmission here is around 40 seconds ahead of the webstream. 2100 UT Sky News. (Harald Kuhl, Germany, BDXC-UK yg via WOR 1710, DXLD)

Seems to be active only weekends / irregularly and originating not from the Canary Islands, obviously from Ireland (we)

CHINA - Several unregistered frequencies of CRI were active again Febr 14:

0700-0757 17875 KUN 500 kW 175 deg to SEAs Cantonese

0830-0927 15115#KUN 100 kW 175 deg to SEAs Indonesian

0830-0927 17705 KUN 500 kW 177 deg to SEAs Indonesian

1700-1757 7375 KUN 500 kW 283 deg to CEAF Hindi

#QRM Voice of Nigeria in English 15120

*QRM China Radio Int in German 7380 & Radio Romania Int in French 7370

(DX MIX News, Ivo Ivanov-BUL, via wwdxc BC-DX TopNews Febr 14)

COLOMBIA - 5910.067 Alcaravan Radio, Lomalinda, Puerto Lleras, Meta, S=8 at 0656 UT, nice smooth Latin AM mx. SW ID at 0658 UT. (wb, wwdxc BC-DX TopNews March 12)

CUBA - Mit den 60 mb Sendeanlagen hat man in Kuba schon seit November technische Probleme. 5025 kHz R Rebelde kam die vergangenen Tage auch aus Quivican statt aus dem üblichen Bauta Standort, aber in // 5040 kHz RHC und zwei Intermodulationen auf 5010 und 5055 kHz, die sich am gleichen Senderstandort mischten.

Und jetzt kommt auch noch QRM von aussen dazu. Uncle Sam in Gestalt von RMI Jeff White hat bei der HFCC den Nachbarkanal 5030 kHz 24hrs ab dem 9. März registriert. Hierbei könnte es sich um ein Radio Republica Oppositionsprogramm handeln. Es gibt doch genügend andere Kanäle zur Nutzung. Jedenfalls mal wieder ein bizarrer unfreundlicher Akt gegenüber Kuba. (wb)

CUBA [and non] - Confusion reigns at RHC, but that's nothing new; only exacerbated by the imposition of daylight-shifting by Yanqui Imperialism (ha ha, the Cubans certainly didn't have to go along with it on exact same schedule as USA; in fact, it's rather pointless in the tropix with less variation in sunrise/sunset times).

In last report I found that on first day of DST, March 9, RHC had moved its Spanish morning schedule one UT hour earlier to end at 1500 UT (and presumably start at 1100). Based on behavior in previous DST seasons, I was also expecting the 20-21 UT first English broadcast of the day on 11760 kHz to shift to 19-20 UT but nothing there at 1905 UT. Not rechecked

until 1937 UT, and *now* it's on with mailbag, so off to a late start clueless RadioCuba operator may have needed reminding to turn the transmitter on an hour earlier by UT even tho it's same local clock time as before. Got with it on March 10 recheck, 11760 kHz already going at 1902 UT, but more daytime absorption. Off the air after 2000 UT since there's no French now until 2200 instead of 2100 UT which used to follow English, // 11880 kHz.

Further chex on March 9: European service is still on 13680 kHz, at 1940 UT in French; carrier was on way early circa 1910 UT. After 2000 UT in Portuguese too as before. Presumably 2030 UT Arabic, unchecked.

Did not check around 2100 UT, but assumed 13680 kHz and other frequencies would be on an hour earlier instead of from 2200. This did cause 'En Contacto', the DX program to show up at its summer timing of 2244.5 instead of 2340v, as heard best on 13680 kHz, also on 11840 kHz VG level but undermodulated; 9810 kHz poor, 9710 kHz fair. So despite missing its Sunday morning airing which should have been at 1335 UT, show still exists, with this edition being #10 for 2014y: only two birthdays to celebrate, then clip of R. Mil XEOY/XEOI; rerun of perennial Ruben Guillermo Margenet 'Efemerides' this week in radio history, starting with PCJ being heard in Saba on 11-12 March 1927.

Tuning in 13680 kHz a bit earlier, at 2240 UT the Filatelia show was running another quiz; 2243 UT RHC self-promotion with a clip of Fidel about the inauguration of SWBC back on 1961y, and then multi-lingual IDs, including two incomprehensible ones, ergo *still* not only Quechua, but also Guarani which was deleted years ago.

Next day March 10 checked at 2102 UT, and confirmed 13680, 11840 undermodulated, 9810 very poor, 9710 kHz poor, all on the air by this hour now; 5040 kHz could also be on this early but inaudible. It is audible by 2212, poor in high noise level, Spanish.

13780 on March 10 at 2217 UT, RHC VG in Spanish, but not // 13680 kHz; then found 13780 // weak 6000 kHz, so those are the separate 'Mesa Redonda' TV simulcast, starting as early as 2200 UT now.

The African service during standard-time season had been on 11880 kHz at 2100 French, 2130 Portuguese, 2200-2300 UT English. You might assume any change for summer would be one UT hour earlier, but like last summer, these have moved an hour *later*: March 9 at 2230 UT confirmed opening Portuguese, noting that the music is not distorted but the speech is, and it's running about 6 seconds behind another PP playout on 15230 kHz (which as heard March 10 at 2215 UT has additional Portuguese in the previous semihour, also undermodulated; prepeat?). First talking about Amerigo Vespucci, presumably another day-in-history item. And English confirmed now from 2300 UT and // 5040 kHz which is just becoming audible. However, next day March 10 at 2214 UT, 11880 kHz is missing, and no replacement found anywhere on 11 thru 17 MHz bands. Meant to check whether it was on by 2300 UT for English, but missed it.

March 9 being Sunday, I also check 15370 kHz at 2235 UT, and find Esperanto is still running then, but undermodulated, crackled and distorted, and with some understation, per Aoki KSDA in Chinese during this hour to its northwest. Not surprising, as at this time, KSDA is a regular with 'Wavescan' on clear 15320 kHz, at 2236 UT check.

5040 kHz on March 10 at 0552 UTHC English service with music // 6000, 6060, 6100, 6165 kHz, but 5040 goes to dead air by 0600 UT, and off by 0602 UT, while the 4 x 6 MHz overkills resume another hour of English with IS.

9850 kHz on March 10 at 1247 UT, RHC Spanish modulation is cutting out; wiggle that patchcord. This frequency about to go off, but at 1304 check of 19m, the new frequency first heard yesterday, 15370 kHz is gone again, and instead back on 13780 kHz, as well as 15340 kHz mixing with HCJB. So was 15370 kHz a mistake (on their roster for tarde services), or an experiment by self-styled propagation expert Arnie Coro? +Que sera? +Quien sabe?

17730 on March 10 at 1403 UT and later, today's AWOL frequency, while 17580 kHz is on; not sure whether I was hearing 17730 an hour earlier. At 1405 UT on 15230 kHz has fair signal but JBM.
(gh USA, dxld March 11)

RHC Sunday only Esperanto service at 0700-0730 UT March 2nd, logged on two channels, like 6000 kHz S=9+20dB in NY-USA, and much stronger on 6100 kHz at S=9+40dB level (wb, wwdxc BC-DX TopNews March 2)

DJIBOUTI - Radio Djibouti, 4780 kHz. 0250 UT Carrier up and 1000 Hz tone signal. Program starts with music and station ID by YL in Arabic at 0300 UT, then into Horn of Africa style music. Fair signal S4 March 5. (Nick Rumble, Kannapolis, North Carolina U.S.A., Yaesu FRG - 100, Drake R8, 220 ft. Inverted L Longwire, Homebrew 1 Meter MagLoop, cumbredx yg via DXLD)

ECUADOR - Voz Andes Media wird seine deutsche Sendung für Südamerika (2300-2330 auf 9835 kHz aus Nauen) Ende Juni aufgeben. Wie mitgeteilt wurde, sind die Kosten zu hoch und ist der Empfang zu schlecht. Überlegt wird, die eigene Kurzwelle Quito-Pichincha 6050 kHz einzusetzen; aus der Kurzwellenhörerschaft wurde WRMI Okeechobee ins Gespräch gebracht. (Harald Kuhl 13.3.2014)

ETHIOPIA - 5950, March 1 at 0259, apparent IS, repetitive fiddle tune, more melodic than your usual Horn of Africa music, poor signal, presumed V. of Tigray Revolution at sign-on time. Enjoy this while you can, as WRMI has registered 5950 for 24-hour usage in A-14; while unlikely to use all of it, most likely will be on in our evenings like WYFR/RTI were.

6110, March 1 at 0257, chime IS, poor signal, 0259 heard English words ``Broadcasting Corporation`` amid sign-on in other language, surely R. Fana, in Oromo or Amharic. In fact, WRTH shows its full name is Fana Broadcasting Corporation (private). Lhasa and New Delhi are also scheduled, but well into daytime there. (gh, WOR 1711, DXLD)

These two and 6030 R. Oromiya as well in the past months seemed to be much weaker in average than in previous years. 6090 Amhara and 7210 Fana inactive and 7237v the only frequency left for Radio Ethiopia, with very low modulation. So it seems there are only four transmitters active, while about three to five years ago, at least a dozen were used at certain times. And probably the remaining ones are on much lower power? (Thorsten Hallmann, Germany, March 2, DXLD)

ETHIOPIA [BULGARIA] - ESAT Radio, Kostinbrod (Sofia) 15360 kHz. 1742 UT Feb 23. Horn of Africa music with talk and possible station ID by OM in Amharic at 1745 UT. Station ID by OM and s/off At 1800 UT. Good signal. S7. (Nick Rumble, Kannapolis, North Carolina, Receiver : Yaesu FRG - 100, Drake R8, Antenna: 220 ft. Inverted L Longwire, Homebrew 1 Meter MagLoop, Cumbre_dx via DXLD)

INDIA - 4820/7210 AIR Kolkata SW gets lifeline. Some good (or bad?) news on AIR Kolkata SW:
 The summery of info from Joseph Martin about AIR Kolkata flashed in in facebook is as follows: The SW transmitter at Kolkata was scheduled to close down on 22 Feb 2014 as per orders from AIR HQ dated 11 Feb 2014. However due to protest from AIR technical employees union (Association of Radio & TV Engineering Employees), the same has been differed. So AIR Kolkata SW operating with 50 kW on 4820 & 7210 kHz has got a life line for the time being. The correspondence is available in their website (including report received from Australian listener!)
 <<http://www.arteeindia.org/> <http://www.arteeindia.org/>>
 Maybe the same case with other AIR SW Regional transmitters.
 (Jose Jacob-IND VU2JOS, DXindia Febr 21)

4749.95 RRI Makassar. For about ten months now they have not carried the Kang Guru Indonesia (KGI) programs in English, until today (Feb 11). Heard at 1240 UT with bits and pieces of English, sounded like the KGI program, but that still needs to be confirmed. Mostly in English with some Bahasa Indonesia; played a pop song (as usual); signal slowly improving against the QRM of China and Bangladesh; program ended 1255 UT, so probably still close

to a 1230 to 1300 UT schedule.

Certainly believe in the coming Tuesday's that Atsunori Ishida and I will be able to confirm KGI as a regular program. KGI website - <<http://www.kangguru.org/> <http://www.kangguru.org/>>

[later] re: Tuesday - RRI Makassar in English. Feb 18 (Tue.) again at 1240 UT, certainly sounded like the start of the KGI program, but cannot say that I heard a program ID; again with bits and pieces of English; not doing well against Bangladesh and possibly two Chinese stations. Rather a mess and certainly tough to dig out the English. Seemed to be a half hour show till about 1313 UT. Still needs more work. (Ron Howard-CA-USA, dxld Febr 11/18)

ISRAEL - Ein Relais der FM Station GalGalatz von Galei Tzahal ist seit wenigen Tagen abends auf 3291 kHz im 90 Meter Tropenband zu hören. Sehr guter Empfang gegen 1735 UT. Danke an Karel Honzik für den Hinweis! (a-dx)

2000-2400	17550	KBD	500	kW	350 deg	to NAm	Arabic Gen.Sce,	no signal

Probably 1x500 kW transmitter is damaged at present and programs are reduced. Start and end of each broadcasts vary 5-15 minutes. (DX MIX News, Ivo Ivanov-BUL, via wwdxc BC-DX TopNews Febr 22)

LIBERIA - Radio ELWA, Monrovia, 4760, 2258 UT Tuned-in to English Easy Listening music just before the TOH, then station ID by YL in English at 2300, followed by more music. Surprisingly strong signal today. Very Good Signal. S-8/9 March 3 (Nick Rumpel, Kannapolis, North Carolina U.S.A., Yaesu FRG - 100, Drake R8, 220 ft. Inverted L Longwire, Homebrew 1 Meter MagLoop, cumbredx yg via DXLD)

MADAGASCAR - 5011.46, R. Madagasikara, Ambohidrano. Pleasant and lively East African dance music a and announcements in Malagasy at 1820. Still exhibiting tenancies of frequency agility. In recent months I've heard it operating anywhere between 5010.25 and 5015.37! The carrier is quite strong but it could afford to give us a little more audio level, as noted on 12/2.

(Rob Wagner, VK3BVW, Mount Evelyn, VIC (Kenwood TS2000, Yaesu FRG100, Double Bazooka antennas for 80 and 40 metres, Par EF-SWL End Fed antenna, BHI NEIM1031 Digital Noise Eliminating Module, MFJ-1026 Noise Cancelling Module, ATU, March Australian DX News via DXLD)

17540 Radio Impala - Talata Volonondry, at 1730-1755* UT on Mar 8, program of local musical selections with periodicIDs in three languages (Kinyarwanda, English and a local language). Program closed at 1755 UT after song. Still none of the usual talk you would expect from an opposition radio station. Fair. (Rich d'Angelo-PA-USA, DXplorer March 9)

MALAYSIA - 7295, Traxx FM via RTM, 1350, Feb 22. In English with DJ giving ID per brief attached audio; slight audio distortion; fair- good, but periods of ACI.

(Ron Howard, Asilomar State Beach, near Monterey, CA, Etón E1, dxldyg via DXLD)

MONGOLIA - Winter B-13 schedule for Voice of Mongolia:

0900-0930	on 12085	U-B	250	kW	/	178	deg	to SAs	English
0930-1000	on 12085	U-B	250	kW	/	178	deg	to SAs	Mongolian
1000-1030	on 12085	U-B	250	kW	/	116	deg	to EAs	Chinese
1030-1100	on 12085	U-B	250	kW	/	116	deg	to EAs	Japanese
1400-1430	on 12015*U-B	250	kW	/	178	deg	to SAs	Mongolian	
1430-1500	on 12015*U-B	250	kW	/	178	deg	to SAs	Chinese	
1500-1530	on 12015*U-B	250	kW	/	116	deg	to EAs	Japanese	
1530-1600	on 12015*U-B	250	kW	/	116	deg	to EAs	English	

* co-channel Voice of Korea in French and English

(DX MIX NEWS #840, March 1, 2014)

12084.89, V of Mongolia - Khonhor. This station has returned after an absence of some weeks. First noted here on Feb 26 with IS at 0859, then full ID at the start of the English transmission, followed by the news. The signal was at a fair level and the audio was of a reasonable quality. But there was considerable splash from the very strong RA-Brandon (12080 kHz) which also s/on at 0900. Good to see it back in business!

(Rob Wagner VK3BVW <<http://www.medr.blogspot.com>> ARDXC via DXLD)

MYANMAR - 5985.00, Myanmar Radio, 1250 through random subsequent checking till 1517. Slightly better reception with the newer transmitter than the older off frequency tx.

(Ron Howard, Asilomar State Beach, CA, Etón E1, dxldyg via DXLD) Feb 24 or 25

PHILIPPINES - 9465, R. Teos via Philippines, Feb 25 1501-1511, 45444, Russian, Theme music and ID at 1501, Talk.

9465, R. Teos via Philippines, Mar 04 *1500-1510, 43443, Russian, 1500 sign on with ID, Opening announce, Talk (Kouji Hashimoto, JAPAN, RX, IC-R75, NRD-525+RD-9830, NRD-515, NRD-345, Satellite 750, DE-1121; ANT, 70m Sloper Wire, DXLD) i.e. FEBC Bocaue site, daily except Sundays at 1500-1600, Aoki (gh)

^ Saftica 100 kW, all other Galbeni and Tiganesti 300 kW.

* DRM via Saftica 100 kW; Galbeni or Tiganesti 300 kW.

(RRI-RRO schedule; via Radiocom.facilities at Saftica, Galbeni and Tiganesti; via wwdxc BC-DX TopNews March 11)

The following two transmissions of NEXUS-IBA IRRS Shortwave via Radiocom Romania already are jammed with

white noise like broadband DRM:

Radio Xoriyo

1500-1530 15515 TIG 150 kW 175 deg to EAF Somali Fri

Radio Warra Wangeelaa-ti

1500-1530 15515 TIG 150 kW 165 deg to EAF Oromo Sat

UNIDentified broadcast of NEXUS-IBA IRRS Shortwave after Radio Xoriyo

1500-1530

1530-1600 15515 TIG 150 kW 175 deg to EAF Arabic Fri, Febr 21.

This broadcast is not jammed with white noise like broadband DRM.

(DX MIX News, Ivo Ivanov-BUL, via wwdxc BC-DX TopNews Febr 22)

RUSSIA - 25900 kHz, Radio MTUCI at 1215 UT puts a splendid S9-Signal into Germany today (Friday, 21 Feb 2014). Russian program with studio talking. Every now and then ID as Radiostation Moscow Technical University (in Russian) playing some beautiful Motorhead songs :-)

The band is wide open with countless Russian AM / FM pirate communications channels heard from 25 MHz up to 28 MHz and above. (Harald Kuhl, Germany, Feb 21, BDXC-UK yg via DXLD)

Good afternoon, Excellent signal from MTUCI from tune in at 1220 UT, chat between two YLs plus music; at 1240 heard Ace of Spades by Motorhead from 1980 and chat by OM. SIO 544.

(John Hoadd, Faversham UK, NRD-515 + ALA1530LF, 1252 UT Feb 21)

E-mail: <arb@radiostation.ru>

WEB: <http://www.radiostation.ru> and <http://www.cqf.su>

Plant manager Sergey Komarov said: "The station is in the Air: On Fridays from 1200 to 1500 UT. Frequency 25900 kHz AM - until the end of March. Then there will be a change of frequency - we are running out temporary permit for her". (Anatoly Klepov, Editor, RusDX Feb 23 via DXLD)

RWANDA - 6055, Radio Rwanda, 1501, Feb 25. Listening to hear if they re-instated the multi-language news headlines, but they have not. Just news in detail (assume Kinyarwanda) from 1501 to 1508, followed by series of ads and into pop African songs. Via long path. (Ron Howard, Asilomar State Beach, CA, Etón E1, dxldyg via DXLD)

SOLOMON ISLANDS - 9545.000 SIBC Honiara, at 0605 UT on March 12. Half hour show of C&W songs in English with DJ in Solomon Pijin; 0700 UT news in English (story about "giant African snails," etc.); shipping schedule; weather ("heavy rain warning number seven," etc.). Honiara sunset at 0736 UT. (Ron Howard-CA-USA, dxld March 12)

SOUTH AFRICA - 15255, Channel Africa, Mar 05 0645-0659*, 35333, English, News and Music, Theme music at 0645 and 0655, 0659 sign off.

17770, Channel Africa, Feb 27 *1458-1511, 25322, Swahili, 1458 sign on with IS, IS and ID, Drums at 1459, Opening music, Opening announce, News (Kouji Hashimoto, JAPAN, RX, IC-R75, NRD-525+RD-9830, NRD-515, NRD-345, Satellite 750, DE-1121; ANT, 70m Sloper Wire, DXLD)

FEBA English transmission heard on 9720 ending at 0200 UT today. Very good reception noted. While I contacted the announced telephone number, I got info that it is a test transmission from Sri Lanka and to look out tomorrow also. -- Thanking you, Yours sincerely, (Jose Jacob, VU2JOS, National Institute of Amateur Radio, Hyderabad, India, <<http://www.niar.org>> 0352 UT March 5, DXLD)

Reply from FEBA Bangalore on today's broadcast on 9720 that I monitored ending at 0200 UT:

"The transmission you heard was a test transmission which was intended for broadcast this evening and tomorrow evening. The transmission station accidentally broadcast this morning.

The 2 days test broadcast details were as follows...

1. March 5th 1330-1400 UTC 31 MB 9720 Khz Azimuth 345
2. March 6th 1330-1400 UTC 31 MB 9720 Khz Azimuth 345"

(Jose Jacob, VU2JOS, National Institute of Amateur Radio, Hyderabad, India, <http://www.niar.org> , dxldyg via DX LD)

UKRAINE - 11980.089, the dubious rather amateur radio station of the transmitter engineering in 25mb listed 0800-1000 UT as UKR Radio Dniprovskaya Hvylya Ukr Zaporizhia is now on air, heard at 0825 UT on 1st March, with S=7 here in western Europe, in eastern Europe and Russia a bit stronger like S=8 on air. But sounds more like a preserve program of religiosity, ideology, literature, tradition, - But I don't understand anything anyway; now at 0826 UT a piece UKR Pop music. (wb)

01.03.2014 took station "Dniprovskaya volna" from Zaporozhye 0800 UT (start of transmission) to 0930 UT (end of transmission) at a frequency of 11980 kHz. SINPO: 35333. Ukrainian radio broadcast transmission. Receiver: Tecsun PL-660. Antenna: telescopic.

(Dmitry Kutuzov, Ryazan, Russia / "deneb-radio-dx", Rus DX March 2 via WOR 1711, DXLD)

UNITED KINGDOM - BBC WORLD SERVICE TO CUT BACK SHORTWAVE TRANSMISSIONS:

According to a report in The Guardian newspaper, the BBC World Service will further reduce its shortwave profile next year, diverting a projected saving of more than \$25 million to fund television and digital services. As of April 1, the BBC World Service and BBC Monitoring will be funded directly from the TV license fee instead of through the Foreign Office. In cutbacks 3 years ago, the BBC eliminated more than 500 jobs, closed five language services, ended radio broadcasts in seven languages, and reduced short and medium-wave transmissions

(DX MIX NEWS # 842)

... I know the pre-recorded test audio did ask for reports, but we don't actually need reports for that test this afternoon (although we will of course verify any that are received). The purpose of the test (which continued for several hours after our regular sign-off at 2000 UTC Monday) was for our engineering staff to be able to work on some of the technical issues we have been experiencing. We take Glenn's and others' comments seriously, and have implemented filtering to better restrict the bandwidth of our signals (on both 17775 and 9975 kHz). We were also working on the unintentional 'reverb' sound Glenn commented on a week or two ago, and have at least identified next steps needed to address that. It requires more equipment, so can't be fixed instantly, but hopefully very soon.

Ray Robinson, Operations Manager

TUNISIA - 963 kHz now carrying Radio Tunis Chaine Internationale. According to the Winter 2013 programme guide Radio Tunis Chaine Internationale RTCI broadcast on 963 kHz in the following languages (times UT), French, except at: 1300-1400 UT English, 1403-1500 UT German, 1503-1600 UT Italian, 1900-2000 UT Spanish.

Available in podcast at the RTCI website; the Spanish service at 1900 UT is regular in Barcelona with strong signal, mainly Spanish pops along short news and features. Italian also confirmed in starting at 1503 UT (Rafael Martinez, Barcelona, 25-27 Jan). Also confirmed here during the evening with French identifying as Radio Tunis Chaine Internationale.

Until recently 963 kHz had been carrying Radio Tunis cultural channel in Arabic but has now reverted to carrying Chaine Internationale in French & other languages - as was the case until a few years ago.
 (via Dave Kenny-UK, in BrDXC Communication magazine QSL report 02-2014)

Editor's info desk was closed for this edition on March 15th, 2014, at 17:00 UTC.

21800.0	0800	353	RUS	VoR via Irkutsk	English	ID; NX; rpts; Sochi	1302	SG

Here are the loggings from Richard A. D'Angelo of Wyomissing, Pennsylvania, USA:

- 5875.0 ENGLAND. BBC – Woofferton, 0320-0359* Mar 7, man and woman hosting a program of Arabic language news features. Several nice IDs and jingle at closedown at 0358. Poor to fair.
- 6045.0 AUSTRIA. Adventist World Radio – Moosbrunn, 0431-0443 Feb 12, Man announcer with ID and conclusion of program opening in French language. Two men began long discussion. Fair.
- 6070.0 CANADA. CFRX – Toronto, 1553-1612 Feb 15, finally noted after hearing from Chris Lobdell that they were reactivated but noted with poor signal man and woman announcer with talk features, several local ads (one for audio components) and announcements. Poor signal. Drifted back several times over the next few hours with signal improving periodically until I finally tuned out around 2320 during a program seemingly about Debbie Reynolds hosted by Alec Baldwin.
- 7120.0 SOMALIA. Radio Hargeisa – Somaliland, 0340-0417 Mar 2, man announcer with Somali language talk followed by Horn of Africa vocals. ID and news at 0400. Fair.
- 7240.0 TURKEY. Voice of Turkey – Emirler, 0413-0453* Feb 5, English program with features, Question of the Month hosted by a woman announcer, popular music vocals. At 0452 a woman gave ID and closedown announcements. Fair with //9655 fair to good.
- 7290.0 ROMANIA. Radio city via IRRS-Tiganesti, 1944-1957* Feb 14, deep, gravelly voiced man announcer – who was difficult to understand - with brief talk in English hosting program of oldies. Noted a Simon and Garfunkel tune among others. Off suddenly before the last song ended without any formal closedown announcements. Fair.
- 9435.0 CHINA. China Radio International – Kunming, 0037-0100* Mar 5, man and woman with talk in Mandarin language, light vocals and ID at closedown with frequency announcements. Closed program at 0057 but kept transmitter on until top of the hour for some reason. Fair.
- 9480.0 KUWAIT. Radio Free Asia (presumed), 0107-0158* Mar 5, man announcer with long talks in listed Uyghur language. Carrier cut at 0158 after brief announcement. Poor signal.
- 9500.0 SWAZILAND. Trans World Radio-Manzini (presumed), 0520-0547 Feb 20, snippets of English talk but gone in the noise by the top of the hour so never caught an ID. Poor.
- 9690.0 INDIA. All India Radio – Bengaluru, 2314-0004 Mar 8, nice mixture of Indian vocals; ID at 2330 by a woman announcer for the General Overseas Service

- followed by the news in English. More Indian instrumental music at 2340 until 0000 when a woman announcer gave ID followed by another newscast. Poor to fair in noisy conditions.
- 9775.0 CLANDESTINE (North Korea). Radio Free Chosun – Palauig (presumed), 1354-1416 Feb 13, musical opening followed by a man announcer in listed Korean language with apparent opening of program. News which appeared to be followed by a conversation with several voices heard. Poor.
- 9940.0 CLANDESTINE (Sudan). Radio Miraya – Kishinev, 0410-0536 Feb 8, continuous music program with some rap tunes and some more local music. Brief announcements by a man at 0500 followed by more music programming. None of the usual English talk heard. Fair.
- 11625.0 VATICAN, Vatican Radio – Santa Maria de Galeria, 0404-0428* Feb 12, man announcer with Amharic language talk, some Horn of Africa music segments presumably slipping into listed Tigrinya language at 0415. Fair.
- 11645.0 GREECE. ERT – Avilis, 0322-0425+ Mar 2, thanks to Harold Sellers tip noted on this frequency with program of Greek pop music. Poor to fair signal with some very deep fades. //7475 and 9420 were very good.
- 11915.0 SAUDI ARABIA. Broadcasting Service of the Kingdom of Saudi Arabia, 2240-2301* Mar 5, noted with man announcer with long Arabic language talk followed by another man with a recitation. Carrier closed at 2301. Fair to good.
- 15275.0 RWANDA. Radio Deutsche Welle – Kigali, 1822-1840 Feb 13, man announcer with long talk in listed Hausa language with English heard in background which was being translated. Several IDs. More news features. Fair.
- 15215.0 GERMANY. Radio Öömrang – Nauen, *1559-1658 Feb 21, open carrier followed by brief instrumental music before opening English ID and announcement about the annual program. Interviews with local residents about tourism and travels to/from the Amrum Island. Interviews by the producer with local residents in local language but then translated portions into English. Off rather suddenly after a song which the announcer said he would not translate because of atmospheric. This annual broadcast is always interesting. Fair signal with moderate noise and fading. Unfortunately, not nearly as strong as last year's transmission.
- 15540.0 KUWAIT. Radio Kuwait, 2046-2100* Mar 8, pop music until ID by a man announcer at 2050 ("This is Radio Kuwait") followed by a news update. Back to pop music at 2057 with closedown announcements by another male announcer at 2059 followed by brief instrumental music (Anthem?). Fair to good signal.
- 17540.0 CLANDESTINE (Rwanda). Radio Impala - Talata Volonondry, 1730-1755* Mar 8, program of local musical selections with periodic IDs in three languages (Kinyarwanda, English and a local language). Program closed at 1755 after song. Still none of the usual talk you would expect from an opposition radio station. Fair.
- 25900.0 RUSSIA. Radio MTUCI – Moscow, [1310-1405+](#) Mar 7, thanks to a tip from Harald Kuhl in Germany noted with woman announcer in Russian hosting a music program with long talks. At around 1330 after a quick station ID, a man began hosting playing Iron maiden music. Fair signal with periodic deep fades.

Thanks a lot to our club members for your contributions:

- HD : Harald Denzel, Egelsbach, Germany. JRC NRD 545-DSP, Lowe HF& Perseus 150 with paOrdt Mini-whip, Grahn GS5SE Modul MI3
- MF : Michael Frese, Osnabrueck, Germany. Grundig Yatchboy with telescopic aerial.
- PH : Paul Hayes, Limerick, Ireland. Sangean 909 with Telescopic antenna
- RAD : Richard A. D'Angelo, Wyomissing, PA, USA. Ten-Tec RX-340, Drake R-8B, Eton E1, Lowe HF-150 with Alpha Delta DX Sloper, Datong FL3.
- RL : Richard Lemke, St. Albert, Alberta, Canada. JRC NRD-535 HF with random long wire in the trees.
- SG : Siegbert Gerhard, Frankfurt, Germany. AOR AR 7030 with EMF Satellit 700 & Sangean ATS 808 with built in Telescopic antenna.

Dear Friends,

Welcome to the March edition of Logbook. We have a shorter edition this month.

I request our members to please check the dates are properly indicated in the loggings submitted.

It would be a lot easier if the logging date is mentioned in the format as **DDMM** i.e. **Feb. 28** as **2802**.

It is not necessary to indicate the year which can save you some time.

In the ITU country code it is the location of the transmitter that has to be mentioned and not the origin of the Radio station. So if Deutsche Welle signals are heard from the Kigali relay in Rwanda the ITU should be **RRW** instead of **D** and the station details mentioned as **Deutsche Welle relay**.

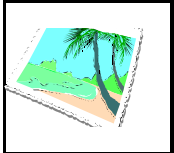

For those members who are not sure of the transmitter location I will take care at my end.

Last last month I forgot Richard Lemke in the list of contributors although I included his loggings.

I thank Richard for pointing this error caused by me within a few hours of the release of the electronic edition of DX magazine.

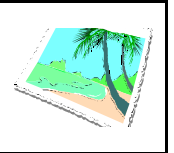

Till next time,

Ashok Kumar Bose

QSL CORNER

Editor: Dario Gabrielli, Viale della Resistenza 33b, IT-30031 Dolo (Ve), ITALY
eMail: qsl@wwdxc.de

Australia:

HCJB Australia 15525 kHz. Japanese program. Full data QSL card "December 2013" received in 37 days for report with two 80 yen stamps to: HCJB Japan c/o Yodobashi Church, 1-17-8 Hyakunin-cho, Shinjuku-ku, Tokyo, 169-0073 Japan (HT)

- HT** = Hironori Takeuchi, Chiba, Japan
- JPT** = José Pedro Turner, Gondomar, Portugal
- GK** = Gerard Koopal, Almere, Netherlands

Dear Friends,

With great pleasure I received some contributions and I thank those members that send them even if they are the same people as in the last couple of months. I should like to receive contributions also from other subscribers that read this monthly magazine. In fact, I think, that everyone can send his contributions to the QSL pages so that it is possible to continue to print this section in the DX journal 'DX MAGAZINE' regularly. We hope that in the next editions the contributions can be larger and I remember that the next contribution deadline is on April 12th, 2014. Naturally I'm grateful to receive copies of QSL Cards in .jpg format to insert them eventually on the page.

NOTE: When you received normal QSLs by mail please write in your contribution "QSL", while if you received any Electronic Card please inform in this way: "e-QSL" card. Thanks in advance,

Dario
