DX MAGAZINE No. 1

Vol. XLII

January 2007

Hello again,

Welcome to the first issue of our DX MAGAZINE in this new year 2007. Let me take this opportunity to wish you a very happy, healthy and successful year. Additionally, let me thank all of you who have paid their membership/subscription fees for the year 2007 recently and especially those who have added a donation for the club to their payment. The same applies to all those who have ordered their copy of WORLD RADIO TV HANDBOOK 2007 from us. All orders for WRTH 2007 received until December 14th have been mailed on December 14th and 15th and should have arrived until Christmas.

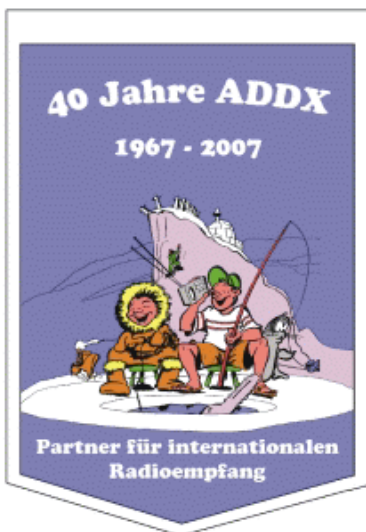

OM Mathias Kropf, Bad Hersfeld, Germany (E-Mail <100144.232@compuserve.com>), has recently sent us the results of his **2006 Clandestine Activity Survey**: During 2006 the activity of political clandestine stations broadcasting on shortwave has increased by 5.4 % to 1260 WBHs (Weekly Broadcasting Hours). This is the result of the latest Clandestine Activity Survey which has been compiled annually since 1986.

Activity of clandestine stations broadcasting to target areas on the Asian continent has increased by 3 % to 870 WBHs and activity to target areas on the African continent has increased by the same percentage amount to 197 WBHs. On the American continent the increase was 19 % to now 193 WBHs.

The three most active target areas worldwide are now China with 200 WBHs (+122 when compared with the previous year), Afghanistan with 196 WBHs (+6) and Cuba with 193 WBHs (+31). Activity to Iraq which had been the most active target area each year since 1994 has dropped considerably.

The number of different target areas active worldwide has decreased by one to 24. While Syria and Pakistan are considered to be no longer active, Libya has been listed for the first time since 1990.

Die **ADDX e. V.** begeht im Januar 2007 ihr 40. Jubiläum. Am 14. Januar 1967 setzten sich sieben Kurzwellenfreunde zusammen und gründeten in Köln die ADDX. Treibende Kraft war Gustav-Georg Thiele, ehemaliger Leiter der Abteilung Hochfrequenztechnik bei der DW in Köln. In den ersten Monaten gab es für die ADDX finanzielle Unterstützung von der DW. Gleich zu Beginn gab es zweimal im Monat die DX-Mitteilungen, die in der Hausdruckerei der DW gedruckt wurden. Im Jubiläumsjahr wird es einige Aktivitäten geben. Mitte des Jahres gibt es ein weiteres Jubiläum: Seit 40 Jahren ist dann die ADDX mit ihrem ADDX-DX-Programm über Radio HCJB zu hören. Zum 40. Jubiläum gibt es auch eine neue ADDX-QSL-Karte.

(Hans Werner Lange, DX-Editor, ADDX e. V.)

And with this best wishes and good DX until next month from

Walter Eibl · Buchenstrasse 20 · D-91074 Herzogenaurach · GERMANY

Hello everybody – and with some strange „winter“ weather outside (some 14 degrees plus celsius, lovely sunshine after stormy winds ...) it is not easy to stay inside and edit the news ...

Recall: My aim is to give you information about radio stations, as much as possible, as updated as possible and verified by different sources, and perhaps with some connections to political developments. It is also my aim to encourage you to contribute to our magazine. Would be nice to hear from you!

**ALGERIA** - Algeria plans multilingual international radio station. The BBC World Service Trust sent a team led by Jean-Michel Duffrene to Algeria in November to assess the training needs of Algerian National Television (ENTV) and National Algerian Radio. The Algerian Communication Minister, Hachemi Djar, recently announced an ambitious programme to upgrade the State media (radio and television). There are also plans to launch several thematic TV channels, a new international multilingual radio station and a number of regional stations. (Source: BBC World Service Trust)  
Andy Sennitt comments: Algerian Radio has been conducting shortwave tests recently via transmitters in the UK, which may be connected with its plans to start an international service. Algeria has its own shortwave transmitters, but they have been out of commission for a while.

**AUSTRALIA** - 2310 ABC Alice Springs at 2020-2030 UT. Talk by man about christmas with some MX beeing played. Then ABC-NX. SIO 222 (Dec 24) Seems to be off for some days due to heat failure: More than 40 degrees C plus outside ... (we, Jan 14)

2485 ABC Kathrine at 2030-2037 UT, ABC-NX presented by female about crashes in Australia and the inundations in Indonesia. Signal improved drastically compared to 2310. At 2037 ABC-ID followed by local program starting with another ID as "ABC local-radio...". SIO 323. (Dec 24)

5025 ABC Kathrine at 2142 UT. NX from ABC presented probably by the same woman as one hour before ending the nx saying: "...This is the end of ABC-news...". Signal was weak and QRG was heavily contested between ABC and Radio Rebelde. The day after Cuba won, no trace from Australia SIO 222. (Dec 24). (Zeljko Crncic-D, BC-DX Dec 27)

12010 R Australia via Darwin, En at 2230-2240 UT, interview of a young lady about Maserati fan gang. S=9. (wb, Jan 2)

Radio Australia noted in English on 9500 December 7th at 1513 UT in // to 11660 kHz, noted until late evening. Nothing on 9475 but was back there the next day. Switching error or testing the frequency? (Edwin Southwell-UK, WDXC Contact

**BAHRAIN** - I have been noting Bahrain on 9745 AM/USB lately at significantly improved levels (S-4 to 4+) on DX Tuner Sweden in the 2130 time frame, with no hint of the former co-channel stas V. of Han or HCJB. A few months ago it was hard to dig Bahrain out of these co-channel occupants. Of course this channel is continuous Arabic music, so programming much different than 6010. Seems like they might be using full 60 KW power now, whereas before using only lesser output - maybe a revival all around with Bahrain?!

(Bruce Churchill, CA, DXLD)

Definite ID: "You are listening to Radio Bahrain" at 1805 on 6010.11 kHz with pure AM, equal audio on lower side. I remember vaguely hearing the sound of the low het, but didn't pay attention to it then. I don't think this has been here very long. (Mauno Ritola, Joensuu, Finland)

Hi Glenn, I hear Radio Bahrain on 6010.10, very good reception after 1900 China International closing transmission and the frequency was clear, nice program with popmusic (hardrock). Signal and audio are verry good 44333. At 1925 time signal, Arab station, QRM. Best with EKD300, nice and very good filters (prof.), antenna LW100m. +LW25m. Gr (Maurits Van Driessche from Belgium, member dxAntwerp and BDXC, DXLD)

**BANGLADESH** - In case you haven't heard, there is a state of emergency in Bangladesh. It might be interesting to monitor Bangladesh Betar, if you can get it, with English scheduled 1745-1900 on 7185 (Glenn Hauser, OK, Jan 12, in advance, dxldyg via DXLD)

2300-2400 on 7360, 7390, 7420 in Russian (DX Mix News, Bulgaria, Jan 9, via DXLD)

6070, Jan 01 2007, 0140 UT, Belarusskoye Radio 1 via Brest, in Russian with dance music. Surprisingly strong signal from a Belarussian lowpower, at SINPO 53443. The only other frequency of BR1 at similar strength was the second Brest frequency, 6010, at SINPO 42432 with IRIB disturbing Rx: JRC NRD-525, Antenna: 25m wire in trees (Eike Bierwirth, Mainz / Germany, via DXLD)

**CYPRUS (Greek)** – Friday through Sunday there are transmissions via VT station Limassol by the Cyprus Broadcasting Corporation in Greek, 2215 to 2245 on 6180, 7210 and 9760 for Cypriots living in UK. Detailed QSL via Yprus Broadcasting Corp. CyBC Street, Nicosia 2120, Cyprus.

**CYPRUS (Turkish)** - 6150 Radio Bayrak International, from the Turkish (occupied) part of Cyprus, noted at Dec 23 past 0515 till 0545 UT, at first with O=3, but "audio, desperately wanted!"

At the beginning ROI on 6155 kHz did not disturb much, but this was changing past 0530 UTC. Then better reception on 6149 kHz. Now Bayrak was disappearing slowly, often announcing the name of the station. The program was in English. (Herbert Meixner-AUT, A-DX Dec 23)

I was rather skeptical, too. But now, back from a fewday in my quiet DX location far off Milano and her terrible noises, I'm a believer. No kidding, Bayrak International is alive and kicking and its programs are quite enjoyable, aat that. I logged it last January 5 in the early morning, after 05.00z. Curiously, Gene Scott is alive and kicking as well on the same channel from Costa Rica according to Eibi, but his sermons couldn't make it against Bayrak nostalgic soul and pop sound. A few IDs, time checks, some later program announcements and headlines. Only frequencies mentioned were the station's two FM outlets (87.8 and 105). So, best time to try for it in Western Europe could be around 05, slightly off frequency 6150.04 or so, and I tuned it on LSB, in spite of Scott's being lower than that to reduce splatters from 6155), but last night I've heard them starting from 0300 UTC. **GREECE** - 15630 ERA 5 Athens Avlis. Foreign language service in En/Fr/Sp 0700-1000 UT.

I checked the ERA Athens foreign service in 0700-1000 UT slot on Jan 8/9/10.

Noted En 0700, Fr 0800, Sp 0900 UT news and magazine feature, like international news, local Greece weather report for tourists. Program of 60 minutes duration each.

News also at half hour xx.30 in En&Fr, but not in Spanish. I guess only local MW 665/666 and FM channel announced. Schedule and SW frequency given in Greek language on the transmission end at 09.59:30 UT. (wb)

**GREENLAND** - 3815U, \*2100-2212\*, GRL, 30-12, KNR, Tasiilaq, Greenlandic talks, music, 2200 news in Danish, 2210 orchestral music and song. Very weak with deep fades and not heard daily. Frequent QRM >from a digital transmission on 3816.2. From \*2204 also QRM from a female talk by a Russian utility station 15/1211 AP-DNK (Anker Petersen, Denmark, via Dario Monferini, via DXLD)

3815 kHz, Kalaalit Nunaata R, via Tasiilaq coastal station, 2202-..., 27 Dec 06, Danish, newscast; 23341 (Carlos Gonçalves, SW coast of Portugal, DXLD)

Theoretical chances to be caught by „big ears“ in W Europe around 2130. (we)

**JAPAN (SINGAPUR / AUSTRALIA)** - JSWC QSLs: JSWC has been issuing its own QSL-cards to those who send in reports to our club-participated prgms. Every year we have a newly designed card symbolizing Chinese Zodiac sign. The year 2007 is the year of the Bore in Chinese astrology, so we have printed a Bore picture card. The card will be issued to all correct rpts of JSWC-participated prgms, which are:

- (1) "DX Express" of R. Japan, which is every 2d and 4th weekend in the "World Interactive" programme.
- (2) "Wavescan" programme of AWR in Singapore. Our club-edited prgm will be aired on the 1st Sunday of the month.
- (3) "DXPL" of HCJB-Australia. Our club contribution will be on the 4th Saturday of the month. All rpts should be sent to Japan Short Wave Club, or simply JSWC, CPO Box 29, Sendai 980-8691, Japan. Please enclose one IRC or one U.S. \$.

(Toshimichi Ohtake-JPN, JSWC / dswci DXW Dec 31)

**JORDAN** - R. Jordan, 11690, Dec 12 at 1500-1503 with R. Jordan 96.3 FM ID and 3 minutes of news during pause in pop music before and after. All the news concerned the Middle East. (Glenn Hauser, OK, DXLD)  
One of the few (nearly) independant ME information source at all on shortwaves. (we)

**MALDIVE ISLANDS** - MINIVAN RADIO WILL CONTINUE ON SHORTWAVE: Minivan Radio, the independent station broadcasting to the Maldives, has advised us that the news published about the imminent suspension of shortwave transmissions resulted in an offer of new sponsorship, which means that the shortwave service can now continue. Minivan Radio broadcasts at 1600-1700 UT on 11800 kHz (January 13, 2007, 13:57 UTC by Andy, Media Network blog via DXLD)

**KASHMIR** - 4760, AIR, Leh heard 0245-0250, Dec 29, English news from Delhi // 4830, 4860, 6030, 7235 and 11830; 0300 Kashmiri (presumed) announcement, songs, 35333 (Anker Petersen, Denmark, DSWCI DX Window Jan 10 via DXLD))

**MALI** - 5995 Radio Mali on Dec 19 at 2254 UT. Local music on koran, ID at 2301, more music; splash from RTL 5990-DRM occasionally making listening difficult, but synching the E1 on USB helps a lot.. (Ralph Brandi-NJ-USA, DXplorer Dec 24)

4835.40 // 5995 Dec 24 at 0157-0231 UT. On exceptionally late. Played several long, slow songs featuring deep percussion and some string instruments along with vocals. Probably local folk music, but almost sounded like hip hop. Audio on both frequencies was mushy-sounding and somewhat undermodulated. 4835.40 kHz slightly better with fair signal and no interference. 5995 kHz best in LSB to fight off RHC's splatter on 6000. NA at 0227, followed very briefly by local folk music and abruptly off air at 0231 UT.  
(Ross Comeau-MA-USA, DXplorer Dec 24)

**NIGER** - 9704.5, LV du Sahel, 2003-2023, Dec 18, French. OM with talks between musical selections. Fair, in the clear after Ethiopia sign-off (Scott R. Barbour Jr., Sugar Hill Outlook DX-pedition, Kancamaugus Hwy, NH-USA, R75, 150' longwire, dxldyg via DXLD)  
Interesting frequency to look for Niger and / or Ethopia, in Euope too. (we)

**OMAN** - 15140 R. Sultanate Oman, noted at 1450 UT, on Dec. 23, with YL talks followed by local songs. At 1459.30 UT Arabic ID, plus "Big Ben"-like chimes, excerpt of presumed National Anthem and news. Weak/fair. (Jose Turner-POR, BC-DX Dec 28)  
Best for ID and RR items when news past 1400, but not each day. (we)

Few chances for a catch the next weeks before local sunrise in Europe.

**POLAND [non]** - 9525, R. Polonia via Wertachtal relay, 1306-1318 Jan 3, program in English, commentary about Poland, Romania and Bulgaria and the EU. A strong signal, but heard with an ear splitting het from another station (Voice of Indonesia?) (Ron Howard, Monterey, CA, Etón E5, via DXLD)

NO MORE RADIO POLONIA --- During the Multimedia Show of January 2nd 2007 the presenter Slawek announced that Radio Polonia is to be known as of January 1st as The External Service of Polish Radio following the decision by the Polish Radio Company Board. This is a return to the old name of the station and it is unclear whether this name change is permanent or a step towards a different name, Radio Warsaw being implied. The reasons behind such a change in name were not given. Other changes at Polish Radio include the change of head of the English Section last month, Aleksander Kropiwnicki [spelling?]. He was formerly the head of the press section in the Polish Embassy in London (Jonathan Murphy, Ireland, World DX Club via Mike Barraclough, DXLD)

**RUSSIA** - Russian International Radio on 7125 in Russian between 0001 and 0600 UT; anyone have a QTH for that broadcast? The Russian ID for my last question is, "RadioKompaniya Golos Rossii" if you're interested? (Chuck Bolland, FL, dxldyg via DX LISTENING DIGEST)

HFCC B06 shows ARM which equates to Armavir. Russian International Radio is apparently just an arm (no pun intended) of Voice of Russia as they share the same street address in Moscow. Email address is rir (at) vor.ru (Steve Lare, Holland, MI USA, ibid.)

However, other sources always located 7125 at Grigoriopol, and I assume that this site is still in use here. Usually the input of the Russian delegation to the HFCC is one story while it is another story what the transmitter operators are in fact doing. I have an impression that this results from a combination of old Soviet behaviours (one should never forget that the involved people were socialized in and by the USSR, and I can see almost daily here in eastern Germany how

hard to overcome such kind of shaping is, if not on other people then on myself) and some kind of "left hand not knowing what the right one is doing". The particular case of Grigoriopol outlets being shown as ARM could also be connected to the Pridnestrovye situation, but here one would need to know what the designation of "KCH" registrations as "MDA" is worth (I guess nothing and it is de facto an entirely Russian operation).

The TOH ID on Russkoye Mezhdunarodnoye Radio is "radio company Voice of Russia presents Russian International Radio". This program is a coproduction of VOR with the commercial Russkoye Radio. So far I saw no evidence about the location of the continuity studio which is probably but not necessarily at the editorial offices. If it's indeed at ul. Pyatnitskaya 25 they must have built an entirely new studio with commercial-style audio processing, probably designed by or on behalf of Russkoye Radio, in any case not related to the recent replacement of the old studio facilities there (which still leave me wondering what they are now using instead of the fine Oktava mic's they previously had, often worked from a considerable distance, resulting in the well-known reverb). (Kai Ludwig, Germany)

Voice of Russia unveiled its new official site: <<http://www.ruvr.ru>> It is unclear what the abbreviation RUVR stands for. The old site <<http://www.vor.ru>> is still operational. However, it is safe to assume that the old address will eventually disappear, due to its unpleasant sound to a Russian ear. - In most Slavic languages, the word "vor" means "thief." (Sergei Sosedkin, IL, Dec 25, dxldyg via DX LISTENING DIGEST)

**UGANDA** - According to my sources a new religious station "Dunamis Shortwave" will start broadcasting 1 Feb 2007 on 4750 kHz. Located near Kampala, Uganda and using a 1 kW Crown transmitter with wire NVIS antenna. Starts with 4 hrs/day in Luganda, Swahili and English. Later 9 hrs/day. The schedule given is: 1500-1700 UT English and 1700-1900 UT local languages. Not too good frequency choice when Sudanese Radio Peace is on the channel too. (... and Bangladesh, too ...we) I told them there will be co-channel interference and it seems they had forgot the Sudanese station being on this frequency. **Publications - U K. FIFTY YEARS OF TRANSMITTING AT BBC WOF 1943 - 1993**

"Fifty years of transmitting at BBC Wof 1943 - 1993" covers the social and technical history of this major transmitting station. It is probably the most extensive history of a short wave station that is presently available. Jeff Cant started it in 1990 at the request of BBC Transmission management and an earlier version was issued at the time of the station's 50th anniversary in 1993. In his retirement, Jeff has developed it much further (including 90 pictures) and I am delighted to say that he has contributed it for publication on this web site. It is a 75 page PDF document in which Jeff weaves technical, personal and organisational issues together and paints a very interesting picture of life at the station. Dear Friends,

Welcome to the first Logbook for 2007.

Welcome to our new contributors Zeljko and Germanas. I have included their loggings in this Logbook.

Anybody sending their logs please include the details of your radio and antenna including the SIO of the signal. That helps me to compile. Till next time take care and please keep your logs pouring in.

Thanks,

*Ashok Kumar Bose*
