DX MAGAZINE No. 4

Vol. XLIII

April 2008

Hello again,

Welcome to another issue of our DX MAGAZINE. Our QSL EDITOR OM Kanwar Sandhu is asking for more contributions to his column. Therefore, please to send your new QSL entries to him regularly. Since we have no news from inside the club this month, let's just start with our usual news from outside the club - only one item this month:

Edition 34 - A08 season of the **AUSTRALIAN SHORTWAVE GUIDE** will be available mid-April. The handy guide in A5 booklet format, commercially printed, saddle stitched, is a no-frills reference, covering the seven-month international shortwave transmission period commencing March 31 2008, and concluding on October 26 2008, known as the "A08 International Transmission Season"

With several hundred entries, it provides comprehensive information of shortwave broadcasting schedules for transmissions intended for Australia, New Zealand and the Pacific Islands, for broadcasts in all languages. The complete schedules for Radio Australia and CVC-Australia are included.

The data is arranged in two sections, by studio country and starting time. Each entry shows broadcasting organization, frequency, starting time, finishing time, language, target area, transmitter site, transmitter country, studio country, and days of operation.

The ASWG is compiled from an extensive worldwide network of broadcasters, frequency planners, engineering consultants, professional monitors, and members of the Electronic DX Press Radio Monitoring Association. Information is also included from the detailed research by the author, himself a communications engineer and journalist, with over 45 years experience at both the professional and hobby level.

Price: US\$10 / 10 Euro / 6 British Pounds / A\$10 (cash, 5 IRC's, international bank draft, PayPal). Cash payment in any other currency is acceptable, to the equivalent of US\$10. Orders and payments should be sent to: ROBERT J. PADULA, 404 Mont Albert Road, Mont Albert, Victoria 3127, AUSTRALIA (E-Mail: <bobpadula@mydesk.net.au>. Full information on the ASWG and a link for PayPal payment can be found at: <<http://bpadula.tripod.com/edxp/id28.html>>.

And with this best wishes and good DX until next month from

BHUTAN - This Kingdom in the high Himalaya has isolated itself for centuries until recently. But the wise, old, absolute King decided that democracy might make the people happier, so it is gradually opening its borders to the outside world. TV was introduced around 1999, but now it goes fast. At the birthday of the young King Jingme Khesar Namgyal Wangchuck (28) on Feb 21, he got a new service as a present from the Bhutan Broadcasting Service:

A website with streaming audio. It is heard well here in Denmark at

<<http://www.bbs.com.bt/Index.html>>

at *0000-1500* with the last hour in English. 6035 on SW is in parallel, but much more difficult to hear. But back to the coming democratic election on Mar 24, as the King has decided. There must be political parties to vote between, and Bhutan recently has developed two parties for this election: People's Democratic Party, lead by Mr. Sangay Ngedup, and The Decent Party of Bhutan, lead by Mr. Jigme Y. Thinley.

NETHERLANDS - RNW A-08 ... now online:

<<http://pdis.rnw.nl/werkman/amschedule.php>>
<<http://pdis.rnw.nl/werkman/drmschedule.php>>

All RNW in DRM via Nauen and Bonaire will cease. The only thing that remains is 5955 via Wertachtal, to be used for DRM Mon-Fri and until June 26 only 1059-1457, Mon-Fri and from Sept 1 only 1000-1457, throughout A08 1659-1757. During the summer season the 1059-1457 airtime will be used in AM instead. Thus on weekends and throughout the whole summer only a one hour token service per day will remain.

A new site, to my knowledge never used by RNW before, will be Issoudun: June 29 til Sep 1 only Dutch to northern Europe and the Baltics on 9835 (until last year this holidaymakers service was on air via Juelich); throughout A08 Dutch to southern Europe 0559-0657 (Sun 0559-0800) on 11655 (replaces Skelton); Dutch to Central Europe Mon-Fri only

0759-1000 on 6035 (replaces Hoerby); July 05-28 only Dutch to Europe 1159-1600 on 7235 and 13825 plus 1159-1657 on 13700, the latter also outside this period 1459-1557/1657; English to western Africa 1859-1957 on 11660 (replaces Wertachtal); June 29 til Sep 1 only Dutch to southern Europe 1959-2057 on 9690.

Another new site: Montsinery! Spanish 2359-0157 on 9895, an addition to Sines which moves to 9450.

The new RNW transmissions via the IBB transmitters on the Northern Marianas have already been revealed here, but perhaps not the full schedule: Via Tinian English 0959-1057 on 11895, via Saipan from May 3 Dutch to AUS/NZL 0900-0957 on 9700; has this 195 deg. beam been ever used since IBB purchased the Saipan site?

Also new: "Dushanbe" 100 kW, i.e. Yangi Yul, English 1359-1557 on 9345. This replaces Tashkent which will no longer be in use.

No longer in use by RNW after March 29 as well will be Skelton, Tbilisskaya (remember RNW English to Africa in the 60 mB from here, way back in the nineties?), Lesnoy / Kurovskaya / Taldom (summarized as "Moskva", still leaving a mystery about which of these three sites is/are in use), Angarsk and Meyerton. And to make sure: Again no transmissions via Flevo anymore. What happened to this plant, does KPN still keep the transmitters there in black heating mode or have they been mothballed if not shut down definitely?

Transmissions of other broadcasters via the RNW-operated sites:

VOA via Talata V. (airtime exchange for TIN/SAI/PHT, of course part of the substitutes for the doomed Briech site): English 0400-0430 on 9575, 0400-0500 on 12080; Portuguese 0430-0500 on 7340 and 1800-1830 on 7125; Kurdish 0500-0600 on 15380; French Mon-Fri only 0530-0600 on 13710 and 1830-1900 on 9815; Somali 1300-1400 on 15115; "Multilingual" to Africa 1700-1800 on 13755. No Radio Farda via Talata Volonondry anymore.

Radio Sweden (airtime exchange for Hoerby) via Talata V.: 0200-0300 Swedish (-0230) and English to Asia on 11550, 2000-2100 Swedish (2030) and English to Africa on 7395.

RCI via Talata V. (airtime exchange for Sackville): Arabic 0300-0400 on 11790.

Deutsche Welle (airtime exchange for Sines): Via Bonaire German to Australia 0800-1000 on 9855 and to the Carribean 1000-1200 on 5905; via Talata V. Indonesian 2200-2300 on 7380.

NHK via Bonaire: Japanese to South America 0200-0359 on 11935 and 2200-2300 on 15325; Portuguese 0230-0259 on 9660; Spanish 0400-0430 and 0500-0530 on 6195.

CRI via Bonaire: Spanish 0000-0100 on 9745.

Family Radio via Talata V.: Portuguese 0500-0600 on 9525; Swahili 1600-1700 on 9590 and 1800-1900 on 5870 (first use of 5800...5900 by Talata V. ever, or do I miss something?); English 1800-2000 on 7395 and 1900-2100 on 6020.

AWR via Talata V.: Local service 0230-0330 and 1530-1630 on 3215; Vietnamese 1300-1400 on 17670.

Malagasy Lutheran Churc via Talata V.: 1630-1700 on 3215.

Voice of the People via Talata V.: 0400-0500 on 11610, 1700-1800 on 7120.

Voice of Tibet via Talata V.: 1400-1430 and 1530-1600 on 17550.

Democratic Voice of Burma via Talata V.: 1430-1500 on 17625.

 9510 0930-1200 UTC Sun to Europe,MidEast,North Africa
 9825 1500-1800 UTC daily to Africa

Here are the main changes for the A08 season:

- 1) To allow cleaner reception on our target area, there will be a 5 kHz frequency shift from 7285 to 7290 kHz eff April 4, 2008, for our evening broadcasts. Two hours on Saturday evening have also been added on 7,290 kHz, to complement our Friday and Sunday broadcasts on weeeek-ends between 1800-2000 UTC (2000-2200 CET, summertime).
- 2) The antenna type and direction for all broadcasts on 7290 kHz (150 kW) has been changed to allow better coverage of Middle East and the whole of Africa. Europe will be covered through the back and sides of the directional antenna.
- 3) Broadcast on 9510 kHz on Sundays will still use an antenna favoring reception of Europe, North Africa and the near Middle East. DX reception, however, may be also possible outside of the above mentioned targets.

NEXUS-IBA and its members broadcasters welcome all reception reports, and above all comments on programs heard. Emails and letters received at NEXUS-IBA HQ will be forwarded to the original program producer who may reply with a letter or QSL of their own. Please address your correspondence to IRRS-Shortwave, PO Box 10980, 20110 Milano, Italy or by email at: <reports (at) nexus.org> or to the addresses that you hear on the air.

Our programs may also be heard online via streaming audio 7/7 and 24/24 at
 <<http://mp3.nexus.org>> - Frequency and program schedules, as well as last minute changes are available at:

SOMALIA - Re Hargeisa new transmitter: Checked 7120 on 19 March when the frequency was "clear", 1700-1730 and 1830-1900 UT, but nothing noticed here. The tests might still be irregular. (Jari Savolainen-FIN, dxing.info via dxld Mar 24)

24 March after 1700 UT noted a station on approx. 7120.2 (Mauno Ritola measured the carrier 7120.18, thanks) with male talks in unID language. There was a RTTY-station about 2 kHz above, making it difficult to get clear audio. Later when the RTTY signed off, the station played HOA-like music. Then, just before 1730 the huge carrier spoiled reception. Maybe my imagination, but there might have been a mention of Hargeysa during the male speech. Worth checking further at this time of evening. (Jari Savolainen-FIN, dxld Mar 24)

7120 is the old frequency, listed as inactive in WRTH 1990, when the civil war (Siad Barre government against oppositional clans) was actually already ongoing in the north of the country. So this frequency choice is maybe also somewhat a symbolic step back to normality. (Thorsten Hallmann-D, dxld ibid.)

See also this and the three additional stories linked there, although there is hardly anything clandestine about this station: <<http://www.clandestineradio.com/intel/station.php?id=168&stn=332>>

Perhaps the item about a new 5 kW transmitter from 2000, to be used on the old 7120/11640 frequencies, had no substance, since it was apparently still ham-like gear they were using on 7530: <<http://www.dxing.info/community/viewtopic.php?p=4553>>

The "Baldur-Germany" source as well as the Bergheim address belong to Baldur Drobnica, a ham radio operator who also acts as consul of Somaliland in Germany:

<http://www.laenderkontakte.de/region/afrika/somaliland/diplomatische_konsularische_vertretungen/29890/index.html>

Note the mention of another 25 kW transmitter in the April 2005 item about Radio Hargeysa launching FM. It must have referred to what now in all likelihood turned out to be an Elcor SW-25 K.

A German publication from 1990 mentions rumours about the transmitters of Radio Hargeysa being destroyed. Perhaps by the bombardment of Hargeysa by the Siad Barre government forces in 1988? (Kai Ludwig-D, dxld Mar 24)

SOUTH AFRICA/KENYA [non] - Interesting to see IRIN Radio in this list. This is the UN's Integrated Regional Information Network, based in Nairobi. They have had a radio production service for quite a while, but as far as I know this just produced programmes and relied on other stations to broadcast them. I think that this may be the first time they have hired SW transmitter airtime themselves. See <<http://www.irinnews.org/radio.aspx>> (Chris Greenway-UK, dxld Mar 21)

Preserving the VOA Bethany shortwave site. West Chester, Ohio.

The township is working to convert the 1940s Voice of America broadcast building into a public museum. It was at this station that messages were sent in more than 50 languages, waging war on Nazi Germany's radio propaganda.

Dear Friends,

Welcome to the April edition of our Logbook.

I was in Corner Brook, Newfoundland in the last week of March. It is small town with a population of just 22,000 smaller even by Canadian standards. Newfoundland was a British colony and later on a dominion before joining Canada in 1949. It has a very rich and interesting history. This island which is rugged and mountainous is very beautiful with most of the local people depending on fishing. Radio still plays an important part as an information media for the remotely inhabited community.

Only two stations during daytime on the AM dial one of which is CBC One. After dusk it is interesting to note the relays of CBC One from the all nearby small communities on the AM dial made possible by ground wave propagation.

Being the eastern most province of Canada it is a good place to DX European and African stations.

Till next month,

Ashok Kumar Bose

Technischer Hinweis bei Frequenz:

/USB = oberes Seitenband, /LSB = unteres Seitenband, v = variabel,

= meist schwieriger Empfang bzw. gelegentlicher Senderausfall,

= (eventuell) inaktiv

* = digitale Sendungen (DRM), ** mit geringer Sendeleistung (DRM-Empfang nur mit geeigneten Empfängern möglich)

DRM-Sendungen sind nur insoweit berücksichtigt als sie auch tatsächlich Programm anbieten und nicht lediglich Musikteppiche.

Die Auflistung erhebt keinen Anspruch auf Vollständigkeit, alle Angaben erfolgen nach bestem Wissen und ohne Gewähr. Einige Sendungen sind auch außerhalb der eigentlichen Zielgebiete hörbar. Kurzfristig sind Änderungen möglich, um z.B. störenden Stationen auszuweichen. Mittelwellensendungen sind stets für die Region gedacht. Es gibt noch eine Reihe lokaler Sender außerhalb Europas mit teils geringer Leistung (z.B. in den USA und Kanada) die stundenweise deutschsprachige Programme ausstrahlen.

**Die Sendeperiode A08 dauert bis 26. Oktober 2008.
Der nächste Hörfahrplan erscheint binnen 14 Tagen:
