DX MAGAZINE No. 5

Vol. XLV

Mai 2010

Hello again,

Welcome to another issue of our DX MAGAZINE. I have no news to report from inside the club this month - therefore let's just start with our usual news from outside the club, this time only one item:

The WRTH Editorial team is pleased to announce that the Summer season broadcasting schedules file is now available to download free of charge from the WRTH website - click on <<http://www.wrth.com>> and follow the link "Latest PDF Updates". The file is in PDF format (you will require the free Adobe Acrobat reader, v6 or above to open this file). The 100 page file is just over 400kB in size and contains the following information: Summer / 'A' Season broadcasting schedules for well over 200 international and Clandestine/target stations; Frequency listing of the above stations to facilitate band scanning; Broadcasts in English, French, German, Portuguese and Spanish and International DRM broadcasts. For contact details, transmitter sites and much more, please refer to the printed WRTH, which is available to order from the website. We hope you find this a useful accompaniment to the printed WRTH. On behalf of the publisher and editorial team at WRTH, happy listening!

(Sean Gilbert - WRTH International Editor)

And with this best wishes and good DX until next month from

NEWS ABOUT BROADCASTING (+other) STATIONS

Walter Eibl · Postfach 15 45 · D-91005 Erlangen · GERMANY

ASCENSION ISLAND - The BBC English Bay Wind Farm has started to generate clean electricity for Ascension Island. On Thursday 18 March the first of the wind turbines started generating electricity. Since then three more of the five wind turbines have been comm/Fioned, and last one should be running soon.

The wind turbines were made by Enercon in Germany who chartered a ship to send them to Ascension. Each turbine is 37m to the top of the tower with a 33m rotor diameter, making them 53.5m (176 ft) tall to the tip of the blades. The rotor spins at approximately 35rpm and always in a clockwise direction. The turbine automatically turns to face into the wind. The towers are steel and the blades are made of fibreglass. The wind turbines are the same model as on the Falklands .

Each wind turbine can generate up to 330 kW (450 hp) when the wind speed is 30 mph (25 knots) or more. If the wind speed is lower than this the turbine will produce less power. The wind on Ascension is excellent for generating power as it is both strong and consistent; the wind also seems to be well correlated with the electrical load on Ascension - that is, the wind is strongest at peak times for electricity usage. The power from the wind farm goes directly into the island electricity system.

Once finished the wind farm will be capable of generating up to 1650 kW on a windy day although most of the time it will average about 900 kW. Ascension Island uses between 1000 kW and 3000 kW depending on the time of day and the BBC transmitting schedule. This means that the wind farm will contribute a significant percentage of the island's electricity and help to reduce the amount of diesel burnt. This is better for the environment as it means

cleaner electricity, a lower carbon footprint, fewer diesel tankers and less reliance on fossil fuels. (The Islander, Apr 6, by Andy Sennitt-HOL, RNW MN via dxld)

AUSTRALIA - 3210 kHz, the 1 kW Pifo HCJB transmitter, Craig Allen has been busy in other areas, so as soon as he gets time, whammo, ex Schofields in Sydney's west a new DX station.

Also Symban 2368.5 currently off air, so I guess we win one, we lose one.
(Johno Wright-NSW-AUS, May ARDXC ADXN direct and via dxld)

CENTRAL AFRICAN REP. - According to my sources, Radio ICDI night-time frequency will be 3390 kHz. Web-blog of Dan Anderson at <<http://danhcjb.org/>> tells us that another transmitter will be installed by HCJB engineers as a gift for Radio Centrafrique at Bangui-Bimbo site. Frequency not yet announced but probably 5035 kHz. The website also has photos of antenna installation at both sites. Please note that these two transmitters are low power, rated only as 1 kW. (Jari Savolainen-FIN, DXplorer May 8)

CHAD - 6165 R Dif. Nat. Tchadienne, N'Djamena, 2137-2158, Apr 09, French talks, ID, songs, African music, 32432/35443. (Alexander Beryozkin St.P.-RUS in dswci DX Window May 5)

... in the gap when Croatia co-channel off at nighttime.

... and fade in on 7120 kHz at 1515 UTC, noted also at 1720 UTC.

(japbi2_web + div.)

6035, PBS Yunnan/Voice of Shangri-La, 1400, April 30. Pips and the standard ID in English; "This is the Voice of Shangri-La, brought to you by Yunnan Radio"; this is the first time I have heard this other than at 1300; usually 1400 has very strong adjacent QRM that completely blocks out Yunnan. Myanmar was not here today. May 2, at 1212 heard decent signal in Vietnamese; Myanmar not here today and could not make out anything from Bhutan.

6060, PBS-2 Sichuan, 1505-1515*, April 29. Non-stop indigenous instrumental music; fair; // 7225; suddenly went off the air.

Xingjiang PBS A-10 summer sked (Xingjiang PBS started summer schedule at 1100 UT on May 13):

Uighur:

2300-1800 (off the air Tu. & Th. 0800-1100)

6120 2300-0300, 1200-1800

9560 0300-1200

7205 2300-0230, 1400-1800

13670 0230-1400

7275 2300-1800

Chinese:

2300-1800 (off the air Tu. & Th. 0800-1100)

5960 2300-1800

7260 2300-1800

DJIBOUTI [non] - Note that LV Djibouti has a new time and frequency, [see BELGIUM [non] TDP A-10 schedule] still on Thursdays only, but now at 1200-1300 on 17880, ex 1530-1630 on 15165. Wolfgang Bueschel has researched the transmitter sites and 17880 he says is Samara, Russia.

(Glenn Hauser, WOR 1511, DXLD 18) TDP gives the only language as Somali; I would hazard a guess that French is also used; Afar? (gh)

ETHIOPIA / USA [non] - VOA services in Oromo, Amharic, and Tigrigna at 1730-1930 UT were subject of hiss jamming today May 3rd. Noted Oromo at 1730-1800 and hiss on all three 11925, 12140, and 13870[not 13780 as typo on VOA website]. Amharic at 1800 UT and annoying hiss noise on 9620, 11925, 11975, 12140, 13835, 13870, and 15730 kHz. (wb, wwdxc BC-DX TopNews May 3)

17565 now also jammed. Ethiopia/USA: I tuned in again today, 01 May, at 1800 UT to 17565 kHz. The carrier came on at 1759 UT, shortly jumping into a program in what seemed to be an African language with music. After a short break, it was in fact the VOA Amharic Service that started with an ID and information about the Arabsat relay. I started a recording at 1814 UT when an interview was going on.

At 1818 UT, the jamming signal appeared with a strong signal, modulated with noise. I had checked the // frequencies before, of which at least 12140 kHz and 13870 kHz showed similar jamming phenomena. On 17565 kHz, the jamming is only partly effective, as most of the modulation gets through in spite of it, while one may doubt about its effectiveness in the target area. That's it for today, have a good Sunday.
 (Robert Foerster-D, dxld May 6)

ETHIOPIA / RUSSIA - Ethiopian hiss on 15195 kHz, 1600-1700 UT today May 3rd.
 Last year in A-09 TDP had this service to Ethiopia, on 15195 kHz via
 Samara Russia - only Mondays - 1600-1700 UT

EOTC Holy Synod Radio <<http://www.eotcholysynod.org/>>

But only hiss sound noted here in southern Germany today. Signal from Samara is usually weak here. Our DXers in Greece and Cyprus, Zacharias and Costas will have more powerful signals on their sets ...
 (wb, wwdxc BC-DX TopNews May 3)

GERMANY - Additional transmission of BVBN in Arabic to WAs:
 1730-1800 NF 11860 W 125 kW 120 deg, ex11645 to avoid VOA Kurdish.
 (R BULGARIA DX MIX News, May 1)

GUINEA REP. - One source in West Africa told me that Familia FM (105.3) in Guinea is broadcasting on shortwave 4900 kHz. Station website is <<http://www.familiafm.com>>

Briefly googling I found only one reference of them being on shortwave. At <<http://jamesgiroux.ca/adventure/guinea-day-5-timbi-medine/>> there's a mention like this:

"The technology is cutting edge and doesn't even have a patent yet because to do so would make it public and they don't want to do that yet but it's very cool. I don't know much about it but they've been able to cut the number of watts needed and still hit a radius of about 700 miles with their shortwave signal. It means that all of Guinea is able to receive the moral and spiritual teachings broadcast everyday on Familia."

If Familia FM is indeed on 4900, I think it's unauthorized transmitter and no wonder if they keep low profile. Anyway, it's worth checking if there's Familia ID on 4900.

[later:] Now on Familia FM website also appeared confirmation:

Nouvelle Station PDF Imprimer Envoyer

``Bientôt écoutez la radio Familia en ondes courtes sur 4.900MHz dans tous le pays ...``

(Jari Savolainen, Kuusankoski, Finland, May 14, DX LISTENING DIGEST)

GUYANA - 3290, Voice of Guyana noted briefly and somewhat poorly at 0230 on 4/25. On a quick check, with orchestral music and vocal with heavy QRN. My last official log of this station was in 2000 (Gerry Dexter, Lake Geneva WI, NRD 545, TenTec 340, Mark (MK-1) and Parker balanced doublet antennas, NASWA Flashsheet May 2 via DXLD 18)

3289.99, Voice of Guyana reactivated, tentatively heard 25 Apr when weak but much improved signal 26 Apr at 0820 and positively identified. Programme consisted of Hindi music, Islamic talk in English and Qur`an readings, local Guyana commercials, Christian hymns and message. Morning music program from 0855. Most recently heard 0655 4 May when on BBC World Service relay across the hour. But also see PAPUA NEW GUINEA (Bryan Clark, Mangawhai, Northland, New Zealand, AOR7030+ with EWEs aimed at North, Central & South America, May 6, DXLD 18)

3289.99, V. of Guyana, at 0905-0940 UT on April 26, good level despite constant static crashes. Soft spoken man DJ in English, oldies pops "My Cup Runneth Over With Love," "You Light Up My Life," etc. TC's, birthday greetings, local announcements, "Good morning to you," "plenty of sunshine today." Starting to drop fast by 0940 UT. Great to have this one back per recent reports (John Herkimer-NY-USA, DXplorer Apr 26 via BC-DX May 1)

Here's an update on Radio Guyana. I have the transmitter on 3290 full time. We did some tests on 5950, but they were getting heavy interference from a station in Portuguese (BRAZIL?). They are going to apply for a frequency in the 60 meter band for daytime.

I saw some of the reports, and guess they're not doing so well Stateside. One "glitch" I noticed when I was there is the board ops tend to let the audio levels "drift" around, and much of the recorded material is "hummy", and very low level. They have a very basic "channel strip" processor (DBX-266XL compressor-gate). I tried to set it up to compensate for the large variations in level, but it just can't cope with the noisy low stuff.

The direct feeds from the B.B.C. are loud enough to work with, as well as some of the live talk shows, so hopefully some of the listeners will be able to get an I.D. Although the transmitter is a 10 kW, they requested I run it at 8 kW, to save on peak demand charges. I know the frequency is low, and summer conditions are here, but does the signal seem rather weak for that power level and area?

Also a little concerned about the frequency being reported. The frequency synthesizer is a commercial unit, and although I verified it with a counter, worried the regular power outages might have damaged the reference oscillator. Will be returning when they get new daytime allocation.

The 560 kHz A.M. transmitter is now running 7000 watts (was 2500.)

All in all, was a pleasure to work down there. Had a couple of mishaps during first few days of testing the shortwave, but quite frankly, Guyana is one of the best countries I've been to in South America.

Shame it's known mostly for "Jonestown". Hope all is well with everybody, and thanks for the reports. Next stop, Liberia. (Jamie Labadia, 0244 UT May 1, WOR 1511, DXLD 18)

(R BULGARIA DX MIX News, Apr 27)

ISRAEL - T.R. RAJEESH forwards this article on Galei Zahal Radio written by Isack Tunik, Galei Zahal commander which accompanied the 2008 issue of a stamp commemorating the station. Galei Zahal's shortwave frequencies are 6973 and 15785. Station address is Military Post Office Box 01005, Israel; email <glz@galatz.co.il>

On Sunday, 24 September, 1950 a trumpet blast erupted from the radio at precisely 6:30 p.m., followed by "HaTikva", Israel's national anthem. Thus began the very first broadcast of Galei Zahal, the IDF Broadcasting Service. The improvised studio was located inside a former school building in Ramat Gan. Army blankets were hung along the walls in an attempt to muffle background noise.

Galei Zahal was born in the State of Israel, which, at that time, was dealing with the absorption of waves of immigrants and contending with distress and poverty. For many years Galei Zahal broadcasts were mainly geared toward soldiers, including music programs bearing soldiers' greetings and various broadcasts related to the IDF. The station was unique in that it incorporated soldiers serving in the regular army into journalistic positions, including reporters, editors, producers, news broadcasters, music broadcasters, musical editors, announcers, etc.

Following the Yom Kippur War in 1973, the station began broadcasting 24 hours a day, expanding its broadcasts to include all citizens by adding news broadcasts and current affairs programming. For years, it was the only Israeli station that continued to broadcast throughout the night, to be joined later by "Kol Israel" Broadcasting. Suggestions have been raised on more than one occasion stating that the station should be closed and its broadcasts ceased, but due to protests by the public, the Knesset and the Israel Broadcasting Authority Governing Council, none of these proposals has even come to fruition.

In November 1993 Galei Zahal began operating another station, establishing Galgalaz, which broadcasts music interspersed with traffic reports and has extremely high listener rates. Galei Zahal's various programs are currently presented by leading broadcasters, who are among the most highly esteemed journalists in Israel, alongside young, talented and energetic reporters, producers and editors. This combination makes Galei Zahal a relevant, young and characteristically Israeli media outlet.

Thanks to a widespread array of transmitters located throughout the entire country, as well as through the internet, the station's broadcasts reach IDF bases and private homes throughout Israel and abroad, making it a central component of Israeli media in general and of public broadcasting in particular.

(R BULGARIA DX MIX News, May 10)

15540, Radio Kuwait fair to good in clear at 2029 28 Apr with western pops e.g. Tom Jones. Carrying English news at 2050 recheck. Closing ident 2058 still announces old 11990 frequency, schedule 1800-2100. First noted on NF 27 Apr when reception was poor (Bryan Clark, Mangawhai, Northland, New Zealand, AOR7030+ with EWES aimed at North, Central & South America, May 6, DX LISTENING DIGEST)

15540, R. Kuwait in English, Friday April 30: at 1933 UT ``This Day in History``, detailed features on Casey Jones, end of Vietnam War, then a bunch of short items: 1770, David Thompson born, something to do with Canada. 1803, Louisiana Purchase. 1870 Lehar born. 1948 first Land Rover exhibited. 1957 Egypt reopens Suez Canal. 1993 Balanchine becomes director of NYC Ballet. This lasted until 1942 UT, co-narrated by Paul Kennedy and a YL, probably Arab whose name I couldn't catch. Was there anything about Kuwait? If so, I missed it. (gh, DXLD 18)

R. Kuwait on 6055 kHz, May 1 returns to 6050 kHz at *1609-2102*. de Hiroshi

(S. Hasegawa, May 2, dxldyg via DXLD 18)

Yes, noted on 6050 kHz yesterday night again. Latter is much better frequency for reception in central Europe, due of IRIB Sitkunai Lithuania on 6055 kHz. (wb, May 2)

LAOS [non] - 11785 via WHRI, Hmong World Christian Radio, May 1 at 1324 with traditional music but messed up by talkover, plus heavy CCI from Chinese radio war. HWCR is Saturdays only at 1300-1330 (gh, DXLD 18)

LITHUANIA - Summer A-10 of Sitkunai Relays:

0100-0158 on 9490 SIT 100 kW / 079 deg to EAs Radio Free Asia in Uyghur
0300-0358 on 9635 SIT 100 kW / 079 deg to CAs Radio Liberty in Tatar
0430-0458 on 6130 SIT 100 kW / 079 deg to EEU Radio Japan NHK in Russian
0500-0558 on 9635 SIT 100 kW / 079 deg to CAs Radio Liberty in Tatar
0630-0728 on 9770 SIT 100 kW / 259 deg to WEU VOIROI/IRIB in Italian
1430-1528 on 9555 SIT 100 kW / 079 deg to EEU VOIROI/IRIB in Russian
1530-1558 on 9770 SIT 100 kW / 079 deg to EEU HCJB Global in Russian Sun
1600-1628 on 9770 SIT 100 kW / 079 deg to EEU HCJB Global in Chechen Sun
1630-1728 on 5940 SIT 100 kW / 259 deg to WEU HCJB Global in German

1830-1928 on 5940 SIT 100 kW / 259 deg to WEU VOIROI/IRIB in French
1930-2028 on 5940 SIT 100 kW / 259 deg to WEU VOIROI/IRIB in English
2030-2128 on 6055 SIT 100 kW / 259 deg to WEU VOIROI/IRIB in Spanish

(R BULGARIA DX MIX News, April 7)

MADAGASCAR - Some changes from RNW's relay station in Madagascar:

Voice of People in English/Shona/Ndebele from April 25:

0400-0500 NF 9875 MDG 050 kW 265 deg to SoAf, x9895

WYFR Family Radio in English, additional transmission from May 2:

1700-1800 on 7395 MDG 050 kW 310 deg to EaAF

(R BULGARIA DX MIX News, May 1)

MEXICO - 6185, RADIO EDUCACION, Con música instrumental a ritmo de Jazz "...Radio Educación, 85 años; voz de todas las voces..." Anunciando nuevos programas y conductores para varios programas." ...aquí en el 1060 de Radio Educación..."

Escuchas realizadas con el Sony ICF 2010 y antena hilo largo de 15 metros. Buen DX!

(Rafael Rodriguez R., Bogotá D.C. - COLOMBIA, May 9, Visite mi blog en <<http://dxdesdecolombia.blogspot.com>> condiglist yg via DXLD)

6185, R. Educación, May 14 from 0550 with nice Brazilian songs, vs ACI from 6190 CRI Sackville, clear after 0600, and same continued as I dozed off until turnoff at 0650. Not of course to be confused with RNA Brasil which is not on during these hours except UT Sundays (gh, DXLD)

MONACO - Radio Monaco still on the air, with news in French: 1100-1103 UT (M-F) on 4363 8728 13146 17260 kHz SSB. (Christian Ghibaudo, Nice, France, April 30, WOR 1511, DXLD 18)

MYANMAR - 7186, Heard with poor signal on April 22 & 23: 2320 UT Carrier, 2326 IDs by Lady Voice in language close to Chinese, 2328 UT sw/on with song and at 2330 UT gongs, pipes and lady says "Sankua Konmua", choir with mantra singing. 2332 UT Bells and pop songs in vernacular etc. At 2339 UT a lady voice announcement "... kilohertz ...", next songs and talks. At 0030 UT string sounds, mantra etc. and fade out. A very strange thing is that all time as background sound is heard a man voice reading something (Rumen Pankov, Bulgaria, April 29, wwdxc BC-DX TopNews May 1)

Ron Howard has noted Myanmar with double program feed on some frequencies (gh)

[re 10-17], 6035, Myanma Radio, 1208-1337, May 1. In vernacular with music program till the start of the Minorities and Distance Learning Services lectures at 1330; // 5915. Was able to occasionally hear Vietnamese (PBS Yunnan) underneath, so the real loser here is Bhutan! Yesterday Myanmar was not here during this time period.

So they seriously want to use this frequency! Heard FOUR transmitters on the air at the same time (5915, 5985.76v, 6035 and 7185.75v). Back in mid-March the Naypyidaw transmitter was pulled from service on 5985.0 and replaced with the off frequency Yangon transmitter. Perhaps the 6035 transmitter is the one at Naypyidaw, formerly on 5985.0? (Ron Howard, Asilomar Beach, CA, Etón E1, dxldyg via WOR 1511, DXLD 18)

NETH. ANTILLES - Frequency change of RNW in Dutch effective April 30:
0000-0027 NF 6140 ANT 250 kW 180 deg CeAM,x5970 to avoid RHCSpanish
(R BULGARIA DX MIX News, May 1)

NIGER - 9704.99, LV du Sahel, Niamey, 2150-2301*, May 1, French and vernacular talk. Variety of local flute music, Afro-pops, rustic local tribal music and lite instrumental music. Qur'an at 2254. Sign off with short flute IS and National Anthem at 2259. Poor to fair signal (Brian Alexander, PA, DXLD 18)

OMAN - 15355, Radio Sultanate of Oman, Muscat with English DJ and western pops at 0315. Closing announcements 0356 13 Apr. Heard quite often during the month but generally poor signal (Bryan Clark, Mangawhai, Northland, New Zealand, AOR7030+ with EWEs aimed at North, Central & South America, May 6, WOR 1511, DXLD 18)

PERU - 3329.53, Ondas del Huallaga, Huánuco 1030 usual YL with español, off seemingly for the two previous days

4950, Radio Madre de Dios 1030 to 1050 opening to Florida almost daily [Wilkner & XM Cedar Key]

5039.21, Radio Libertad Junín, 1046 "...en el tiempo de Perú..." brief break in RHC [5040] transmission 26 April.

5120.372, Ondas del Suroriente, Quillabamba, 1033 música latina, quick drift to .512, 29 April (Robert Wilkner, FL, May 1, Drake R8, Icom 746Pro DL, Noise Reducing antenna, 60 meter band dipole, DXLD 18)

R. Victoria, 9720 kHz teilweise mit O=4, derzeit (05:00 UTC). Die ID allerdings (sowohl als "Radio Victoria", denn auch als "Radio Liberacion" und "Deus e Amor") kommen leider von einem verwechselt-ausgeleiterten Band.
(sci in a-dx, May 10)

PHILIPPINES - 9615, Radio Veritas, 1000-1010 May 1, Caught the tail end of the ID in English on the hour as, "... Veritas in Mandarin". This was followed by a program of news and comments in Mandarin language by female and male. Signal was very Good (Chuck Bolland, Clewiston FL, WinRadio G305e/pd, 26.27N 081.05W, DXLD 18)

Radio Veritas Asia heard well from 1500 on 15350 in Tagalog and English (Allen Dean, Lancashire, May World DX Club Contact via DXLD)

Except this is the relay via VATICAN, 130 degrees back to the ME, ex-11715 in the B-season, which was often heard here, but have not yet caught 15350 --- perhaps due to seldom tuning around at that hour in summer (gh, DXLD 18)

PRIDNESTROVYE - Radio PMR is also on 6240, 1700-1900 Monday to Friday, language rotation is 1700 English, 1715 French, 1730 German, 1745 English, 1800 French, 1815 German, 1830 English, 1845 French. (Aoki A10 frequency) But rotation is not stonset (gh, DXLD 18)

RUSSIA - Frequency changes of Radio Rossii in Russian from April 26:
1325-1700 NF 9480 M 250 kW 265 deg WEu,x9470 >>> unregistered
1725-2100 NF 7215*M 250 kW 265 deg WEu,x7220 >>> unregistered
* co-ch 1800-1856 Radio Romania Internat in German, also to WEu
Thanks for this information of Vasily Gulyaev from Astrakhan-RUS.
(R BULGARIA DX MIX News, May 1)

Summer A-10 of Tatarstan Wave in Tatar and Russian:
0410-0500 on 15110 Sam 250 kW 060 deg to FE
0610-0700 on 9690 Sam 250 kW 060 deg to CAS
0810-0900 on 15195 Sam 250 kW 295 deg to WEu
(R BULGARIA DX MIX News, May 10)

Radio Rossii Dubl4 so called, European version:

1325-1700 from April 18 already 9480, ex 9470 same change as in middle April in 2009

1725-2100 from April 25(?) already 7215, ex 7220

The items were first observed by Russian DXer Mr. Diadishchev and Ukrainian Mr. Egorov (Alexander Egorov was the DX-Editor on RUI English Service DX Program). (Rumen Pankov, Bulgaria, May 3, DXLD 18)

RUSSIA [non] - 9810 VoR Spanish via GUIANA FRENCH, May 2 at 0107 with La Voz de Rusia ID, no Cuban jamming for a change. No VOR Spanish at this time on 9735. GUF earlier in A-season was running both during this hour, but apparently 9735 now does not start until 0200, a May 1 mod? At 0215 check it's the other way round, on 9735, off 9810 (gh, DXLD)

SAUDI ARABIA - BSKSA in A10 as were monitored in period March 28-April 24

 0300-0555 Chinese 21665.
 0800-0955 Chinese 15610.
 1400-1555 Pashto 15575, alternative 9695 (wb)

SLOVAKIA - RADIO SLOVAKIA INTERNATIONAL : SCHEDULE CHANGES

"During the period between the 1st of May and the 30th of September 2010 the following changes will be implemented in our broadcasting schedule. Monday, Tuesday, and Wednesday broadcasting will only take place on one frequency. Highlighted frequencies will be broadcast during even weeks. Frequencies which are not highlighted will be broadcast during odd weeks. There will be no changes to broadcasts during Thursday, Friday, Saturday and Sunday."

Very strange frequency schedule (with Highlighted frequencies):

<<http://www.slovakradio.sk/inetportal/rsi/core.php?lang=2&mainpage=maincontentfull&page=frequencies>>
 (JM Aubier, France, April 30, dxldyg via WOR 1511, DXLD 18)

Please note: this strange sched is not implemented in our English scheds. (we)

SRI LANKA - SLBC (Sri Lanka Broadcasting Corpn..) announced during its English transmission today they will be back on 15745 kHz from 7th May onwards at 0055-0330 UT. SLBC is temporarily using 15120 due to transmitter problem for its English at 0055-0330. 15120 kHz suffers from co-channel QRM from CRI English 0300 onwards. Schedule : SLBC All Asia Service : 0055-0330 UT (Sunday upto 0430) on 6005 (10 kW), 9770 (10 kW) & 15745 (35 kW). (Alokesh Gupta)

SUDAN - SUDAN. 7200, R. Omdurman, Al Fitahab, 0230-0250, May 6, Arabic. Wailing vox, sounds like Call to Prayer; brief M announcer; echo FX and passing mention of Sudan at 0248 followed by talk; fair over co-channel VOIRI.

(Scott R. Barbour Jr. Intervale, N.H. USA, NRD-545, MLB1, 200' Beverages, 60m dipole, dxldyg via DXLD)

7200, SRTC, Al-Aitahab, 1351-1415, 03 May'10, Arabic, radioplay, news at 1402, announcements, Arabic pops; 25443, but improving fast (Carlos Gonçalves, PORTUGAL, DXLD 18)

SYRIA - 12085, Radio Damascus, 2150-2202*, May 2, local music. English news summary at 2200. Off the air at 2202. Fair level but loud hum in audio made reception very difficult. 9330 not heard.

(Brian Alexander, PA, WOR 1511, DXLD 18)

Radio Damascus back on 2 frequencies --- 9330 with a good reception at 1903 tune in with French // 12085. I've been hearing 9330 kHz with a good signal since 2 weeks approx. Transmitters finally repaired ?

Regards (JM Aubier, France, May 4, dxldyg via WOR 1511, DXLD 18)

And WBCQ 9330 12+ hours per day not a problem in Europe? I suppose it should not be, aimed oppositeward, <50 vs <500 kW. But is sure is here. Are you implying Damascus` modulation is now up to par to go with the signal strength? (Glenn Hauser, OK, WOR 1511, DXLD 18)

TIBET - 4820, Xizang PBS, 1306, April 30. Special programming; live CNR-1 audio feed from the opening ceremonies of the Shanghai Expo; in Chinese, English and French; // CNR-1 (6125, etc.) (Ron Howard, Asilomar Beach, CA, Etón E1, dxldyg via DXLD 18)

TIBET [and non] - China [Tibet] - As Ron Howard and others reported, 4920, 6200, 6110 kHz are blank last few days, no signal from China, rather other broadcasters are being heard. 4905, 6130 are broadcasting quite different programmes like continuous western classical / orchestra music and weaker than before. MW 594 kHz is continuing normal programming. Thanks & Regards, (Partha Sarathi Goswami, Siliguri – 734001, Dist. Darjeeling, West Bengal, INDIA, dxldyg via DXLD 18)

7350, CNR-11 (Tibetan Service), 1304 + 1335 + 1404 + 1433, May 6; the "Holy Tibet" program in English was not heard. Does anyone have the new schedule for HT here? (Ron Howard, Asilomar Beach, CA, Eton E1, dxldyg via DXLD 18)

Special stricken areas service of Qinghai PBS is finished on Apr. 30. I can't receive Qinghai PBS Tibetan on 6190 and 6090 kHz Chinese from May 1. de Hiroshi (S. Hasegawa, May 2, dxldyg via DXLD 18)

TUNISIA - Summer A-10 of RTTunisia in Arabic:

0400-0610 on 9725 SFA 250 kW / 100 deg to N/ME
 0400-0610 on 12005 SFA 500 kW / 100 deg to N/ME
 0500-0730 on 7275 SFA 500 kW / 340 deg to WEu
 0700-0830 on 7335 SFA 500 kW / 265 deg to NAF
 1700-2110 on 9725 SFA 250 kW / 100 deg to N/ME
 1700-2110 on 12005 SFA 500 kW / 100 deg to N/ME
 1800-2210 on 7225 SFA 500 kW / 340 deg to WEu
 2000-0010 on 7345 SFA 500 kW / 265 deg to NAF
 (R BULGARIA DX MIX News, April 7)

In really "imaginary HFCC lists". I just began to check Radio Tunis broadcasts and the result:

0330(s/on is earlier) - 0400 9725, 12005
 0400-0500 7275, 9725, 12005
 0500-0600 7275
 0600-0625 7275, 7335
 0625-0750 7335 (s/off is later, presumed at 0810).
 (May 4, Rumen Pankov, Bulgaria for WOR/DXLD 18)

TURKEY - Frequency change for Voice of Turkey in Uyghur:

0200-0255 NF 9465 EMR 500 kW 072 deg to CeAS, x7200
 (R BULGARIA DX MIX News, May 1)

11980, at 0449 May 1, good with nice but very repetitive ME music; I was beginning to think it was an IS, but varied somewhat over time. 0500 one-pip timesignal about one second late, W&M with Turkish announcements, news? 0504 back to music but weakening. It's TRT Çakirlar, 04-06 at 310 degrees to Europe and consequently NAM beyond (gh, DXLD 18)

UGANDA - 4976, R. Uganda, Kampala, 2143-2158, 02 May'10, vernacular, talks; 55343. What have they done to the audio?! The modulation was punchy, clear; let's see how long it lasts this way. 73, (Carlos Gonçalves, PORTUGAL, WOR 1511, DXLD 18)

UGANDA [non] - 15410, FRANCE, Radio Y'Abaganda, Ugandan clandestine, at 1709 with repeating no service telephone announcement, tones and "We're sorry, you've reached...", pause and then programming kicked in with two men in Swahili. This broadcast is sked Saturdays only, 1700-1800. Poor, May 1 (Harold Sellers, Vernon, British Columbia, Eton E1 and AN-1 active antenna, dxldyg via DXLD 18)

U.A.E. - Some VT Communications changes:

FEBA Radio in Somali
 1700-1730 NF 5935 UAE 250 kW 215 deg to EAF, ex6180#
 # to avoid VOROI/IRIB in Tajik
 (R BULGARIA DX MIX News, May 10)

UNITED KINGDOM - *TERMINAL' CUTS LOOM AT WORLD SERVICE*

The Sunday Times, By Chris Gourlay, May 2, 2010

The BBC World Service is braced for the loss of up to a quarter of its budget. Executives are planning for cuts of 18%-25% after Foreign Office officials indicated its £272m annual budget would be reduced from April next year. A World Service source said the effect of a 25% cut would be "pretty much terminal". The broadcaster, which has a weekly audience of 188m, is funded by taxpayers through the Foreign Office to promote British culture and values.

BBC sources say services such as BBC Arabic TV and BBC Persian TV are vulnerable because they cost a combined £34m per year. Minority language services are at risk, while the English services are likely to survive. The cuts follow a steady scaling back in the World Service's reach. In 2006 it ended its Falkland Islands service and in 2005 it axed 10 foreign language services, saving £12m. This year it was asked to make a further £7.7m cut because of a funding shortfall caused by a sharp drop in the value of the pound.

The reduced budget will be for the three years from April 2011. A Foreign Office spokesman said the department was unable to give an assurance that the service's budget would be protected (via Mike Terry, dxldyg via WOR 1511, DXLD 18)

First of all, it's not the purpose of BBC World Service "to promote British culture and values."

I would think that Arabic and Persian would be priorities for Foreign Office funding of World Service. And audiences in those and other target areas are nowadays expecting to get their news via television. That's the problem: television is much more expensive than radio. Perhaps World Service should look to EuroNews, not as an exact template, but for ideas on how to consolidate the visual element, while providing multiple audio tracks.

And why would the English service survive? The BBCWS 24-hour English radio offering(s) might be a good candidate for scaling back. It could make more use of BBC domestic radio content. It could even use the sound portion of BBC World News (which aspires to be self funding) for a few hours a day. This news will result in much discussion and politicking, but I would bet against an actual, eventual cut of 25%. Posted: 02 May 2010 (Kim Andrew Elliott, <<http://www.kimandrewelliott.com>> via DXLD 18)

U.S.A. - VOA NEWS NOW IS GONE, REPLACED BY NEW REGIONAL ENGLISH BROADCASTS

Readers have noticed new VOA English programming. This is what I know: "VOA News Now" is no more. In its place, VOA has "soft launched" new regional programming for East/South Asia and for the Middle East. The soft launch means it has not been publicized yet (even though anyone can listen to it). The Middle East transmissions do not yet have shortwave frequencies and are thus available only via internet audio stream. The "hard launch" will be 16 May. Here is the schedule (presumably Monday through Friday):

MORNING TO EAST AND SOUTH ASIA, 2200-0100 UT

2200 Daybreak Asia
2230 International Edition
2300 Daybreak Asia
2330 International Edition
0000 Daybreak Asia
0030 International Edition

EVENING TO EAST AND SOUTH ASIA, 1200-1500 UT

1200 Crossroads Asia
1230 International Edition
1300 Crossroads Asia
1330 International Edition
1400 Crossroads Asia
1430 International Edition

EVENING TO THE MIDDLE EAST, 1700-1800 and 1900-2000 UT

1700 Middle East Monitor
1730 International Edition

Summer A-10 schedule of WEWN Global Catholic Radio:

Spanish

0000-1000 on 11870 EWN 250 kW 155 deg to SoAM
1000-1700 on 12050 EWN 250 kW 155 deg to SoAM
1700-2400 on 13830 EWN 250 kW 155 deg to SoAM

Spanish

0000-0500 on 5810 EWN 250 kW 220 deg to CeAM
0500-1300 on 7555 EWN 250 kW 220 deg to CeAM
1300-1800 on 11550 EWN 250 kW 220 deg to CeAM
1800-2400 on 12050 EWN 250 kW 220 deg to CeAM

English

0000-0300 on 11520 EWN 250 kW 085 deg to WeAF

0300-0500 on 9455 EWN 250 kW 085 deg to WeAF
 0500-0900 on 6890 EWN 250 kW 040 deg to WeEUR
 0900-1300 on 11520 EWN 250 kW 040 deg to WeEUR
 1300-1600 on 13835 EWN 250 kW 355 deg to SoEaAS
 1600-2200 on 15610 EWN 250 kW 040 deg to NE/ME
 2200-2400 on 11520 EWN 250 kW 040 deg to NE/ME
 (R BULGARIA DX MIX News, May 10)

Brother Scare is back on WWCR: May 1 at 0454 on 5890, no longer // 5935 DGS, which was rather pointless. WWCR has put up new pdf program grid as of May 1, showing BS:
 Mo-Fr 1500-2000 13845 Daily 0400-1100 5890
 (gh, WOR 1511, DXLD 18)

While WWCR's transmitters and buildings were spared the floodwaters, the transmitter field for WWCR's four transmitters and its medium wave sister station WNQM flooded to a level estimated between 15 and 20 feet depth. The waters appear to be receding, but there is still a tremendous amount of floodwaters in the transmitter field.

On Wednesday, May 05, afternoon, CT, Engineer Phil Patton was able to bring up transmitters 2, 3 and 4. This is an encouraging outcome, and could lead to more on air time soon, but WWCR is unable to determine at this time how quickly all transmitters will be brought on air. More details will be released as new information is determined. The flooding brings troubles to many Middle Tennessee and Nashville residents, as well as the noted troubles to WWCR. At least two WWCR employees are suffering loss, with home flooding, automobiles being submerged in water to the windshield and being stranded, separated from family and loved ones. WWCR requests the prayers and thoughts of both broadcasters and listeners as WWCR works its way through this major event and returns to the air, as well as for the WWCR employees (and all of Middle Tennessee residents) through this time of loss. WWCR is still without telephone and internet service. WWCR has been included in the "disaster area" by AT&T and offers no timeline for restored services. (DXLD 18)

12 May, 2010 - Thanks to the tireless efforts of WWCR's chief engineer over the last 9 days, all 4 WWCR transmitters and medium wave WNQM are back on the air. Transmitter #4 was the final transmitter to come back on-air. It was returned to service on Tuesday afternoon (WWCR website via gh, WOR 1512, DXLD)

7415, WBCQ, Monticello ME' 1903-1932+, 13-May [Thursday]; Glenn Hauser's World of Radio #1512 [first SW airing]; 1931 promo for Free Speech Radio WBCQ. SIO=454 on peak, but fady.
 (Harold Frogde, Midland MI, USA, Drake R8B + 125 ft. bow-tie; 85 ft. RW & 180 ft. center-fed RW, DXLD)

9265, it seems that WINB is encroaching into airtime reserved for the long-silent WMLK on same: May 8 at 2015 with hymn and nothing on 13570, WINB's normal mid-day frequency. It's // 9385 WWRB, so the Brother Scare service, as soon IDed by himself at 2018. I hope no one list-logs this as WMLK.

Axually WINB staying on 9265 all day Saturday instead of 13570 works out fine, since the late Elder Jacob O. Meyer piously took Sabbaths off when WMLK axually transmitted, so its official imaginary registration is for 16-21 Sun-Fri, while WINB has it 15-21 on Saturdays only. Sabbath is special for both preachers but they observe(d) it oppositely! Stair adds more frequencies and times than ordinary days.

WINB is STILL broadcasting convicted, sentenced and serving time for 175 years child-molester Tony Alamo, as tuned across 13570v May 13 at 1546. Online sked still claims he is on at 16-17, failing to convert UT/EDT correctly. Before 1500, 9265 was still in use at 1439 with Brother Scare, who served much less jail time for sexual offenses, not // or at least not synchro with WWRB 9385 (gh, DXLD)

5755, WTWW is usually loud and clear, but May 3 at 0600 I noticed SFAW was only a fair signal and bothered by a bonker (TADIL-A) on just about the same frequency. The ute, of course, will have priority if anyone complains. There's always 5080 alternative, altho we knew it had ute QRM from the outset (gh, DXLD 18)

5050, WWRB's extended all-night(?) schedule with Bible dramatizations vanished at least a week ago, clearing 5045-5055 for DX. At 0530 check May 4, WWRB not on. Dave Frantz tells me they had some lightning damage and downtime, but no flooding since he had the foresight to spend \$40K on gravel to raise the site near a creek, 3 feet when constructed.

Dave also says he has been inundated by calls from `patriot` broadcasters desperate for airtime while WWCR is down, but he's had it with getting screwed by them and will only sell it at premium rates, payable 6 months in advance. (gh, DXLD 18)

VIETNAM [and non] - 5925, VOV-2, 1638, May 03, Vietnamese, seemed Japanese lesson ending with "Sayonara!", pop ballads & talk to 1659:48 carrier off. Dominated co-channel CNR -5 which then surfaced in Chinese. Reception would have been much more difficult if R Slovakia International hadn't been off 5920. 73, Martien Groot, Schoolr, Netherlands, DXLD 18)

TenTec RX340 und der Watkins Johnson HF-1000

I thought you might be interested in a bit of history I learned yesterday from a Ten-Tec executive. We were talking about the Ten-Tec RX-340 receiver, and I observed how similar the panel layout was to the Watkins-Johnson WJ-8711A and HF-1000 (which I owned for several years). Turns out there's quite a story behind that similarity.

In 1991 the NSA, which buys many high-end HF receivers for surveillance purposes, decided that the cost per receiver was too high. The NSA put together a study group to try and bring the cost down to the \$7K-\$10K range. At that time, the high end HF receiver market was dominated by Watkins-Johnson, Racal, and Cubic, and Ten-Tec wanted to join the group.

Ten-Tec and Watkins-Johnson engineers worked together for a year to define specifications for the NSA's "radio of the future," which would meet the NSA's target price guidelines. The team finally agreed on a common set of specifications and was ready to submit it to the government. In the interim, both T-T and W-J engineers, anticipating sizeable NSA orders, were working to develop the technology for this new breed of radios.

At the last moment, which my source called the "23 hour and 59th minute moment" Watkins-Johnson, to Ten-Tec's complete surprise and dismay, introduced one additional specification: the "radio of the future" must have a 20,000 hour "mean time between failure" specification- a ridiculously stringent requirement which is roughly the same required for space electronics. This was a cagey move on W-J's part, because W-J, having supplied mil-spec radios for decades could meet the MTBF requirement, but poor Ten-Tec, with its background in the consumer electronics market, could not. So, in the end, Ten-Tec dropped out of the competition and W-J got the NSA orders. Ironically, lacking a competitor, W-J was then able to charge the NSA nearly twice the NSA's target price for HF-8711A.

But Ten-Tec then decided to fight back. Since they had already developed the technology during the year of collaboration with W-J, Ten-Tec quickly came out with RX-330, which has no front panel, but which is otherwise the "radio of the future" design, without the MTBF specification. They offered this radio to the government at 1/3 the price of an HF-8711A, and to their delight the NSA and agencies from other countries snapped up this new breed of "black box" receivers in droves. Evidently, users had become comfortable with computer-controlled receivers, and under procurement rules, it was permissible for agencies to purchase "COTS" (Consumer-Off-The-Shelf) radios.

With the success of the RX-330, Ten-Tec subsequently decided to bring the RX-340 to market. And so, the similarity in the front panels is no accident, but a result of a collaboration between the two companies, that ended with some corporate dirty tricks. The government-military market is still an important part of T-T's business.

Thanks a lot to our club members for your contributions:

MF : Michael Frese, Osnabrueck, Germany. Grundig Yatchboy 400 with telescopic aerial.

RAD : Richard A.D'Angelo, Wyomissing, PA, USA. Ten-Tec RX-340, Drake R-8B, Eton E1, Lowe HF-150 with Alpha Delta DX Sloper, Datong FL3.

RL : Richard Lemke, St. Albert, Alberta, Canada. JRC NRD-535 HF Antenna random long wires in the trees.

Here are the loggings from Richard A. D'Angelo of Wyomissing, Pennsylvania, USA:

- 3200 SWAZILAND, Trans World Radio – Manzini, 0305-0316 Apr 9, man with long religious talk in presumably listed Ndebele language. Seemingly gone at 0326 so either off earlier than listed or simply lost in the rising noise level. Very poor.
- 3240 SWAZILAND, Trans World Radio – Manzini, 0334-0341* Mar 31, choir vocals alternating with a man announcer in listed Nda language. At 0340 IS repeated three times before English ID ("This is Trans World Radio, Swaziland"). More IS followed by another ID before carrier terminated. Poor to fair.
- 3240 SWAZILAND, Trans World Radio – Manzini, 0316-0328 Apr 9, man announcer talking presumably in listed Shona language. End of program at 0323 followed by another man with talk over instrumental music. ID at 0325 followed by opening of listed Nda program with another ID. Poor to fair.
- 4775 SWAZILAND, Trans World Radio – Manzini, 0343-0407 Mar 31, mixed choral vocals followed by a man preaching in an unidentified African language. IS at 0359 followed by English ID and program announcement ("This is Trans World Radio broadcasting from Manzini, Swaziland"). He mentioned next program was in German followed by English service. Fair to good.
- 4976 UGANDA, UBC Radio, 0332-0410 Apr 9, noted with continuous soft pop vocal selections. Brief talk by man in local language mentioning "Uganda" at 0340. More music programming. ID at 0401 by a man announcer followed by the news hosted by a woman. Poor to fair.
- 5040 CUBA, Radio Havana Cuba, 0154-0210 Mar 24, woman with French talk until program end at 0157. Long dead period before ID and news in Spanish with a man announcer. Fair to good.
- 5080NF USA, WTWW - Lebanon, TN, 0006-0203 Mar 17, tuned by to note big signal with religious fare in English. Re-tuned at 0140 to another "anti" program complaining census forms, prayer seemingly against Congress and health care bill with Pastor Pete Peters on his Scriptures for America Worldwide program. Weird, strange program with sloppy production techniques. ID at 0200 mentioning they were performing program tests. More Peter J. Peters after the ID. Strong, excellent signal for what its worth.
- 5485.5 PERU, UNID, 0141-0203* Mar 15, program of OA vocals with flute music hosted by a man announcer with Spanish talk and announcements. Off with apparent closedown announcements and no National Anthem. Poor with moderate noise but deep fades.
- 5950 ETHIOPIA, Voice of Tigray Revolution, *0256-0307 Apr 1, familiar IS followed by a man with opening announcements at 0300 by a man announcer in presumed Tigrinya language. Poor.

- 6105 GERMANY, Trans World Radio-UK via Nauen, *0658-0725 Mar 31, IS followed by a man with ID and opening of English program: "This is Trans World radio, UK." Into program called Rendezvous followed by ID and Thru the Bible program. Fair to good.
- 6150 HUNGARY, Radio Budapest, 0142-0200* Apr 4, two women with discussion in Hungarian language. Brief instrumental music at 0155. IS alternating with IDs in several languages including two in English ("This is Radio Budapest, Hungary"). Fair to good.
- 7540 CLANDESTINE, Deng Mezopotamia via Mykolyiv, 2053-2101* Mar 25, various vocals selections until time pips at 2058, ID and more music until carrier cut at 2101. Poor to fair.
- 9665 MOLDOVA, Voice of Russia World Service via Maia/Grigoriopol, 0223-0242 Apr 1, woman in English with "News and Views" program. End of program at 0229 followed by instrumental music. At 0230 ID followed by "News in Brief". A program about orthodox people in Russia was next. Fair.
- 9820 CHINA, China Business Radio, 2310-0006 Mar 16, talk features in Mandarin language. Music fanfare at 2329 followed by announcements and ID. Discussion program from 2331. Several announcements at 2356 followed by music fanfare, 5+1 time pips at 0000, ID and news. Fair.
- 12085 SYRIA, Radio Damascus, 2125-2144 Mar 25, man announcer with English talk features. Music fanfare, ID at 2127 followed by Syrian local vocals. Fair with //9330 poor.

Dear Friends,

Welcome to the May edition of Logbook.

Thanks to our members for their contribution of DX loggings for this Logbook.

Till next time,

Ashok Kumar Bose

Radio Tirana's Chief Technician, Mrs. Drita Cico, with group of listeners of Radio Tirana's German programme visiting Radio Tirana and Albania in May 2010
