DX MAGAZINE No. 1

Vol. XLVII

January 2012

Hello again,

Welcome to the first issue of our DX MAGAZINE in this new year 2012. Let me take this opportunity to wish you a very happy, healthy and successful year. Additionally, let me thank all of you who have paid their membership/subscription fees for the year 2012 recently and especially those who have added a donation for the club to their payment. Many thanks also to all of you who have ordered the new WORLD RADIO TV HANDBOOK 2012 from us. This also helps to keep our membership fees stable for another financial year.

Our member Richard A. D'Angelo has informed us that a new edition of John Figliozi's **WORLDWIDE LISTENING GUIDE** has been published in November 2011. This book of 160 pages explains radio listening in all of today's formats: "live", on-demand, podcast, terrestrial, satellite, Internet, digital, analog, AM, FM, shortwave and WiFi. It is a comprehensive guide to what can be heard how, where and when. The introductory section explains the many new ways to enjoy world band radio. The main section details programming available to you on an hour-by-hour basis. It actually shows program names, so you may quickly scan it for items of interest. Wire-bound to open in a flat, easy-to-use format, available for US\$24.95 from Universal Radio Inc. <<http://www.universal-radio.com/catalog/books/0341.html>>.

And with this best wishes and good DX until next month from

## NEWS ABOUT BROADCASTING (+other) STATIONS

Walter Eibl · Postfach 15 45 · D-91005 Erlangen · GERMANY

**BULGARIA** - Dear listeners and friends of the shortwaves and Radio Bulgaria: With a huge regret to inform you by very bad news. After more than 75 years in the world broadcasting from January 31, 2012 at 2200UT Radio Bulgaria cease broadcasting on short and medium waves. The solution is that Radio Bulgaria is not necessary now its short waves and medium waves listeners. The reason -no money for broadcast on short and medium waves. And who listens to shortwaves today? Already has internet. Maintaining the short waves was "Mission Impossible"! Hope dies last. As a frequency manager in the last 19 years my main task was to provide best quality signal of Radio Bulgaria in worldwide coverage. There will be no short waves, there will be no frequency manager. For all people who work in Radio Bulgaria that bad news is shock and horror Beginning of the end. But expect your moral support. Please send e-mail to:

#### **AFGHANISTAN** - B-11 of Radio Afghanistan in English and Urdu from Nov. 27:

1530-1630 NF 7200 YAK 100 kW 125 deg to SAs, ex6102 to avoid CRI & AWR  
(R BULGARIA DX MIX News, Ivo Ivanov, Dec 14)

Some downunderite has been claiming that 7200 from R. Afghanistan is via "Irkutsk", Russia! Or Yakutsk. DX Mix News, Bulgaria, published the site as YAK, but that means, of course, the old site near Kabul, Yakutat, not Yakutsk, Russia. See the Wavescan historical article to follow below. There is no confusion in current HFCC/ITU site abbreviations. Nothing from Afghanistan is yet registered, but Yakutsk, Russia, is spelt under French influence at ITU, as lakutsk = abbreviated IAK. Tsk, Tsk (gh)

Fellas, I'm monitoring the frequency from 1452 UT. I saw 3 carriers on the display: 2 equally strong and fairly "wide" on 7199.999 and 7199.982; wondering whether they are from the same (presumed Sudan) transmitter, as they're identical side by side with a little gap between them. I hear Horn of Africa music only. There's a weak carrier on 7199.960 as well. Rechecking at 1517, I now measure things on 7200.004, 7199.986, and the weaker one again on 7199.961. Same Horn of Africa music with talk. I'm not clear whether this is talk over the music (same station) or two different stations. Perhaps the muddy audio I'm hearing has to do with the width of the carrier, and that I'm seeing the double pattern. Each one measures some 12 Hz wide with a 5 Hz gap between them. I wonder if persons closer to the transmitter site could provide us with exact frequencies. By 1534, no change in the situation. Signals not as strong as yesterday morning, and we now have ham QRM. I'll check once more before heading to work (Walt Salmaniw, Dec 21, dxldyg via DXLD)

That's right, three stations:

7199.982-3, Eritrea, ID at 1500 with "Irtay" and Asmara mentioned.

7199.999, Arabic at 1500, so most probably Sudan

7200.000, Afghanistan, signed on today around 1510 and English started at 1530.

(Mauno Ritola, Finland, via Don Moman, dxldyg via WOR 1596, DXLD)

7200: "National Radio of Afghanistan" heard with its 1530-1600 English service on both 7 and 8 January. Reception was much better on the 8th. The previous day the hams were very active indeed throughout 7000-7200 (having one of their contests?). On the 8th, with less ham activity, I could use LSB to avoid splatter from Voice of Russia in Persian on 7205. Afghanistan was already in-progress with local music at 1525 tune-in. The English service started at 1529 with an announcement that still mentioned the former 6100 frequency, so this is another station where the transmitter engineers and the studio presenters don't speak to each other. They are still using the same distinctive interval signal I remember from the 1970s, which is played between items. Did someone keep the tape safe during the various civil wars and upheavals over the past 30+ years (including the Taleban era, when interval signals were presumably banned, like all music), or has it been re-recorded?

The "Urdu Service" (as given on WRTH page 432, the English word "Service" is used in the ID) started at 1600 (Chris Greenway, England, Jan 8, dxldyg via WOR 1599, DXLD)

#### **ALASKA** - Winter B-11 of KNLS New Life Station:

0800-0900 on 9655 NLS 100 kW / 315 deg in Russian

0900-1000 on 9655 NLS 100 kW / 285 deg in Chinese

1000-1100 on 9615 NLS 100 kW / 270 deg in English

1100-1200 on 9615 NLS 100 kW / 285 deg in Chinese

1200-1300 on 9615 NLS 100 kW / 270 deg in English

1300-1400 on 9680 NLS 100 kW / 285 deg in Chinese

1400-1500 on 9615 NLS 100 kW / 285 deg in Chinese

1500-1600 on 9655 NLS 100 kW / 270 deg in English

1600-1800 on 6190 NLS 100 kW / 315 deg in Russian

(DX Mix News 13 Dec)

**AUSTRALIA** - December 16, 2011 --- Radio Australia has increased shortwave broadcasts to PNG during the political crisis: an extra frequency, 17750 kHz, between 0930-1700.

(Deborah Steel, ABC News, Melbourne on Twitter, via Mike Terry, Dec 16, dxldyg via WOR 1596, DXLD)

**BAHRAIN** - 6010, R Bahrain, 1857, Jan 2, mellow New Age kind of music interrupted for English news at TOH. Threshold signal but in the clear for about 30 minutes between co/channel CRI off and VOIRI on 1927. Presumed

as no definite ID, BLR still off the air here (Martien Groot, Schoorl, Netherlands (TenTec RX-340, 25m. longwire), dxldyg via WOR 1598, DXLD)

Did you notice if both sidebands were on? Usually when I've heard Bahrain on 6010 there has been only upper side band available (Am/U I guess). 73, (Jari Savolainen, Finland)

6010, R Bahrain, 1900-1907, Jan 3, English news read by female, sung ID, better than yesterday. As Jari Savolainen rightly remarked this is Am + USB. Fortunately BLR continues to be off (Martien Groot, Schoorl, Netherlands (TenTec RX-340, 25m. longwire), dxldyg via WOR 1598, DXLD)

**BHUTAN** - The SW engineer from Bhutan was at the conference at Kuala Lumpur and choose some QRGs for registration in A-12 from March 25, 2012.

5030 or 6035 kHz. 0000-0300 UT 42SE,43SW THI 100kW non-dir ant-#700 Dzo BTN BBS.

0300-0400 Sha, 0400-0500 Nep, 0500-0600 Eng, 0600-0700 Sha, 0700-0800 Dzo, 0800-0900 Eng, 0900-1000 Sha, 1000-1100 Lho, 1100-1500 Dzo, 1500-1600 Eng.

5070 0000-1600 Eng, 5900 0000-1600 Eng, 6225 0000-1600 Eng.  
(HFCC K-L Jan 13)

Thanking you for your reception report. After verifying the frequency with Shortwave coordination conference which is conducting in Kuala Lumpur, Malaysia, we may use or look for good free frequency and will do our second channel broadcasting. Are you coming to KL Malaysia to attend 8th global shortwave coordination conference? With warm regards, Thinley Dorji, Transmission head, Thimphu, Bhutan. (dxld Jan 13)

**BOLIVIA** - 6134.821 Radio Santa Cruz, at 0923-0945 UT Dec 23. Noted a male commenting in Spanish briefly between musical tunes. Signal alone on the frequency this morning. At 0927 UT, male comments with TC and next song's title, "... Adoro". At 0931 UT, announcer comments as he mentions "Lima" often. At 0936 UT promos and Ads presented. Signal remained good during the period.  
(Chuck Bolland, Clewiston FL, Excalibur, 26N 081W, dxldyg via DXLD)

5952.37 everyone's favorite CP mining town station, Radioemisoras Pio XII, Oruro, hrd with nx show in progress at 1010 UT on Dec 27. Never an easy logging, this one is much more likely of late to be heard in early local evenings than in the mornings. (Ralph Perry-IL-USA, DXplorer Dec 30)

3309.98 Radio Mosoj Chaski, Cochabamba at 0030 UT, good signal, 28 Dec.

4409.8 Radio Eco, Reyes, at 0025 UT, om fair to good signal, 28 Dec.

4699.6 Radio San Miguel, Riberalta noted in passing 0026 UT, strong signal, 28 Dec.

5580.26 Radio San Jose, San Jose de Chiquitos at 0000 UT, om en slow espanol, 0013 UT musica, 0020 to 0025 UT voice ute on top, mas musica, ments de"... la hora proxima.." 0040 UT fade to 0040 UT, om talk and some music ... on the phone with Russell Scotka whose QTH a half a mile away. This the best reception for Radio San Jose this season. Russell Scotka sing the Drake TR7 transceiver with a 40 meter dipole. Using 746Pro here. 8 Dec.  
(Robert Wilkner / Russell Scotka-FL-USA, DXplorer Jan 3)

**BRAZIL** - 4875.733, 28.12 0159, R Roraima noted again with wobbling signal +/- 10-15 Hz. Strong. Drifting (Thomas Nilsson, Sweden, SW Bulletin Jan 8, via DXLD)

4876, 12.29 0000, R Roraima apparently has the same problem with their transmitter as when previously noticed: freq. wobbles about + / - 10 Hz. This time I measured the freq. to 4875.9, but on Jan 1 at 0000 it was on 4876.45. AN (Arne Nilsson, Sweden, SW Bulletin Jan 8, translated by editor Thomas Nilsson for DXLD)

4915, presumed R. Daqui, Goiânia, 0924 Jan 6, Portuguese; LA ballad then silence from 0926-0936 when I gave up; very weak; again at 2237-2256 with EZL pop music & short, canned ads/promos between selections; abruptly gone at 0956 & still so on several rechecks; fair. (Barbour-NH)

5035, R. Aparecida, Aparecida, 2221-2230 Jan 6, Portuguese; M & W announcer with talk & ballads; // 9630; poor-fair.  
(Scott R. Barbour Jr. Intervale, N.H. USA, NRD-545, MLB-1, 200' Beverages, 60m dipole, dxldyg via DXLD)

4865, R. Verdes Florestas, Cruz.º do Sul AC, 2251-2306, 05 Jan, local news, ID+fqs announcement at 2257 followed by some rlg. propag. prgr; 33442, QRM de CODAR+BOL.

## 6

5035, R. Aparecida, Aparecida SP, 2205-2227, 06 Jan, program 'Com a Mãe Aparecida', featuring the Campanha dos Devotos as usual; 34422, QRM de R.Educação Rural. Silent on 31 & 25 m.

5035, R. Educação Rural, Coari AM, 2205-2223, 06 Jan, talks, songs; 24331, QRM de R. Aparecida.

6120, SRDA, São Paulo SP, 2251-..., 08 Jan, pathetic [religious] show of testimonials; 23431, adj. QRM.

9550.15, R. Boa Vontade, Pt.º Alegre RS, 2326-2339, 05 Jan, religious propaganda; 35433. Nothing heard on // 11895.

9629.9, R. Aparecida, Aparecida SP, 2327-2342, 05 Jan, songs; 45433. Audio/modulation problem solved, good audio this time! Parallel to 5035, 6135 (barely heard thanks to QRM), 11855.

9645.4, R. Bandeirantes, São Paulo SP, 2309-2325, 07 Jan, interview with a singer who even disclosed her e-mail address, advertisements, webpage announcement, then a program consisting of a retrospective of R. Bandeirantes vintage programs (I missed the name of this program though); 45433.

9819.7, R. 9 de Julho, São Paulo SP, 2311-2329, 07 Jan, songs; 44422, adjacent QRM de China on 9820.

11815, R. Brasil Central, Goiânia GO, 1943-1958, 06 Jan, program 'Brasil Sertanejo' answering listeners' music requests; 54444.

11815 ditto, 1110-1157 (when blocked by REE in Castillian via CR), 09 Jan, songs, TCs, chatter & infos; 35433.

11925.2, R. Bandeirantes, São Paulo SP, 1836-1853, 07 Jan, f/ball match report Corinthians vs. Atlético, comments & infos. on other simultaneous matches; 33432, adj. QRM de Saudi Arabia.

15189.9, R. Inconfidência, Belo Horizonte MG, 1838-1904, 07 Jan, songs program, advertisements; 35544. Also fair~good throughout the day. (Carlos Gonçalves, PORTUGAL, dxldyg via DXLD)

Voz Missionaria Camboriú, 9665, is coming in S4 at my location with some QRM from Cuba on 9660 [Mesa Redonda TV simulcast // 6000]. This at 2250 UT, 04 January 2012. This station is located in the southeastern state of Santa Catarina in Brazil and may be a harbinger of good SAm DX for this evening. Long-winded announcer extolling the virtues of Jesus, Mary and Josef. Sounded like he was chiding the audience at one point. Several station IDs. Full station ID given by a woman on the hour, including a singing ID. (Al Muick, Whitehall PA USA, WinRadio G-303e, Wellbrook ALA1350P active loop, dxldyg via DXLD)

**CHAD** - 6164.96 at 0212-0230 UT, 0440-0448 UT. TCD Radiodiffusion Nationale Tchadienne, Ndjamena, Jan 2, French, OM talks, Afropop music - strong signal, but fair only due to RNW, and weak starting from 0228'45 UT under BBC (24 hrs a day during last two months at least?), almost good at 0440-0448 UT. (Mikhail Timofeyev-RUS, DXplorer Jan 2)

**CHINA P. REP.** - 5050, Beibu Bay Radio, 1300 + 1330, Dec 12. Last month changed ToH and BoH IDs to "Learn about the world. Get to know China. This is Beibu Bay Radio", but today found they have reverted to their former multi-language IDs which includes English: "FM 96.4 Beibu Bay Radio"; mixing with AIR Aizawl. No sign of Ozy Radio.

5050, Beibu Bay Radio, random checking from 1311 to 1537, Dec 14. Unique format of long running bi-lingual drama in Chinese and Vietnamese; by 1537 back to normal format of pops songs and DJ in Vietnamese; moderate to strong AIR Aizawl QRM.

6035, PBS Yunnan/Voice of Shangri-La, 1256-1303, Dec 14. As Alokesh Gupta (India) has already reported in dxldyg, BBS/Bhutan was off the air today, so Yunnan again had sole possession here; pips and ID in English at ToH. Subsequent check at 1403 also found only Yunnan. (Ron Howard, Asilomar State Beach, CA, Etón E1, dxldyg via DXLD)

6155, CNR 2 China Business Radio, 1430-1442, Chinese. EiBi lists this channel as China Business Radio and says it would be in English at 1430-1500, but I heard only Chinese. Western music, such as Rod Stewart, and woman often speaking over soft, instrumental music. Poor with splatter, Jan 3. (Harold Sellers, Vernon, BC, dxldyg via DXLD)

For many years CNR2/CBR had a show called "English Evening" that I regularly listened to on their many // frequencies. Alas it is about a year since I last heard it and am fairly sure it is off the air. I have heard a similar show, with announcers who sound to be the same, now via CRI. So it has been a long time since I last listened to CNR2/CBR. In the past they were good with regular IDs in English for "China Business Radio". MP3 audio of "English Evening" sign off announcement from Sept 10, 2009 at <<http://www.box.com/s/y2yptsncs0nv41bk443n>> (Ron Howard, Monterey, Calif.)

**COLOMBIA** - 5910, Sun Jan 1 at 0648, Alcaraván [note spelling] Radio with music in the clear since TWR at 0645-0700 in Polish is M-F only via Wertachtal; that also clear of 7225 via Austria (gh, DXLD)

5909.958, Alcaraván Radio, Puerto Lleras. 0407 January 1, 2012. Good and in the clear with nice Colombian vocals, male canned "Alcaraván Radio, 1530 KHz... y 5910 kHz onda corta." A short inspirational talk segment, but worth sitting through for the music before/thereafter. Note that it's Alcaraván Radio, nor Radio Alcaraván as frequently and wrongly reported for some reason.

(Terry L Krueger, Clearwater, Florida USA, 27.55.83 N, 82.46.08 W, dxldyg via DXLD)

6010.04v, 0353-0411, La Voz de tu Conciencia, Puerto Lleras, 02/01, Spanish, mostly OM talks - poor-fair in LSB to avoid BAHRAIN [q.v.] till 0400, then poor-weak with strong splashes from 6015 (RFE) (Mikhail Timofeyev, North-East part of the St. Petersburg city, Russia, Receiver: Drake R8A, Antenna: long wire (30 m), DSWCI member no.2987, <<http://dxcorner.narod.ru>> HCDX via DXLD)

**CROATIA** - 7370.004 Croatian Radio via Deanovec, S=9+30dB heard in southern Germany at 0800 UT Dec 26. Lot's of news from Kosovo, Macedonia, Montenegro, and Serbia.  
(wb, wwdxc BC-DX TopNews Dec 26)

**CUBA** - 6150, Radio Havana Cuba with English news re climate change convention in Durban, S Africa, and into other regional news about Trinidad and Tobago, and cultural items about films, and IDs and info about the web page etc. Some serious splatter from Austria started at 0559 when that station came on! I miss ORF in English. 54+54+4 with a hum in modulation 0540-0559 10/Dec.

11760, R Havana Cuba with English News. Items re "Cuban Five" appeal details and Argentina election news, the Durban Climate Change conference, and at :14 past a T/c (as 14 past the hour) and into a commentary. Then Sports news, headlines at the BoH and into Cuban Music in the second half hour. Into French at 2100. ADDX shows English from them at 19-20 but apparently it is from 20-21! In OK despite local QRM. 4+45 2004-2104 10/Dec (Kenneth Vito Zichi, Williamston MI, MARE Tipsheet Dec 16 via DXLD)

6150 was on an occasion when RHC failed to switch to 6125 as now scheduled for English starting at 0500. As reported here soon after it happened Nov 13, the 19-20 English broadcast shifted to 20-21, altho both Ken and ADDX were unaware of it (gh, DXLD)

**CYPRUS** - 6135, Dec 17 at 2235, good signal with 'ME' music, no announcements. Only QRM a bit o' bonker on the lo side which was evitable by tuning to the hi side. Only when it cut off abruptly at 2244\* did it occur to me that it's probably CyBC, scheduled 2215-2245 on Fri/Sat/Sun, but I didn't realize 6135 is their B-11 channel on 49m. It was 6180 last B-season and 5925 in A-11. 6135 is 250 kW, 314 degrees to W Europe and hence USward too from the BaBcoCk Zyyi site, same as // 7220 and 9760. HFCC doesn't distinguish between this and BBC relays except for listing language as Greek (Glenn Hauser, OK, WOR 1596, DXLD)

I was also listening at the same time on Dec 17 to Cyprus on 9760 (best reception here) with 7220 and 6135 all heard in parallel. I tuned-in from 2220 with a Radio Play or Radio Serial in progress (plenty of goat/sheep sound effects in background!). This until 2231, then a brief announcement by a woman followed by local music until abruptly off at 2245. (Alan Roe, Teddington, UK, WOR 1596)

**DJIBOUTI** - Reactivated: Hearing Djibouti now - 4780 - 1645 UT Jan 4 with HoA music. Not noted previous day. Very good signal in NSW (David Sharp, NSW, dxldyg via WOR 1598, DXLD)

Thanks to tip from Victor Goonetilleke via Mauno Ritola on WRTH Facebook page, currently hearing Radio Djibouti back on 4780 kHz with fair clear signal, but rapid fading (at 1930 UT). Local songs and female announcer (Alan Pennington, Caversham, UK, AOR 7030+ / long wire, Jan 4, BDXC-UK yg via DXLD)

 (DX Mix News, Bulgaria, Dec 29)

13580, Dec 29 at 1518, open carrier with flutter, then maybe a trace of just-barely-modulation in R. Cairo's Albanian service, no doubt causing great frustration among the Tiranans if not the Qahirans (gh, DXLD)

**ETHIOPIA** - 6110, Radio Fana, \*0258-0320, sign on with IS. Opening announcements at 0300. Amharic talk. Horn of Africa music. Fair. // 7210 - weak with adjacent channel splatter. Dec 28 (Brian Alexander, PA, DXLD)

9558.87, Radio Ethiopia, Geja Jewe. 1417 December 25, 2011. On the low side for a change, with Horn Of Africa vocals poking through with their usual low audio. Should be Arabic in this hour block (Terry L Krueger, Clearwater, Florida USA, 27.55.83 N, 82.46.08 W, DXLD)

9705.00, R. Ethiopia, Addis Ababa, heard 1947-2020 on 12/15 on a nice precise frequency. Initially heard underneath Family Radio Meyerton on same, which thankfully clears out after ToH. Good signal by 2010 with pleasant program of Horn of Africa style pops and jazz. OM announcer in English and presumed Amharic. (Ralph Perry, Wheaton, Illinois, Drake R8B; Japan Radio NRD-545; Eton E1; Hallicrafters SX100; Knightkit Star Roamer; Dentron Super Tuner + Ameco PLF-2 + Palomar P-408 + Quantum Phaser antenna unit; Longwires (150' + 100'); Tuned Multi-Turn 20" Small Loop; Single-Turn Coax Loop, dxldyg via DXLD)

7200, 1514-, Radio Ethiopia, Dec 23. Parked on this frequency just after 1500. The dominant station, which now appears to be the external service of Radio Ethiopia, is quite strong in a presumed local language (?Amharic). There is definitely a much weaker cochannel as well. Horn of Africa music. I continued monitoring the channel past 1530. The signal improved substantially. I'm still hearing the dominant station, but there is clearly a cochannel playing music (I can't be sure of the genre; could be Horn of Africa, or more central Asian?). The male speaker on the dominant station has been speaking non-stop (not in English) and does not sound Arabic. I have to use LSB to avoid ham QRM on the high side of 7200.

At 1600 there was a weak ID in English under a cochannel station mentioning the 41 meter band and also 300 and something on the Medium Wave band. I couldn't make out the ID for certain. This fascinating station remains a real mystery to me! Listening again at 1630, fair level English news. This must be from Ethiopia, but levels down from an hour ago. Finally, transmitter is off when I rechecked at 1647.  
(Walt Salmaniw, Mass., BC, dxldyg via WOR 1598, DXLD)

9705, 2034-, Radio Ethiopia, Dec 26. Presumably them, with Horn of Africa type music at good level. Seems to be right on 9705.00 on my AOR 7030+. Could also be La Voix du Sahel, as well. Music only during the 15 minutes I've been listening. Sounds more Saharan than Horn of Africa. Well, listened to the sign-off and into the National Anthem. The language was apparently Amharic, so difficult to understand, but obviously was Radio Ethiopia at very

good level! Open carrier remains after 2102. Something down there in the mud, but can't be sure. Measured with my Perseus, and it's on 9704.985 kHz.

**GERMANY** - News from Kall TX site (6085 / 3995 kHz): die 6085 und 3995 kHz Sender haben eine neue Röhre bekommen. Um diese zu schonen, läuft die 3995 kHz nun täglich von 05-22 Uhr MEZ (06-21 Uhr UTC) durchgehend ohne Abschaltung. Der Röhrenverschleiss wäre langfristig höher beim 2-maligen ein- und ausschalten als der Stromverbrauch beim durchsenden.

**GUATEMALA** - 4055, R. Verdad, Chiquimula, 1057-1114 Jan 2, Six note IS at tune/in; sounds like 80's era Casio keyboard; NA at 1059; multi-lingual ID at 1104 with QSL contact info; W at 1111 in Spanish, into choral music; M with 'Voice of Revival', good.

**INDIA** - 4880, 1530-, AIR Lucknow, Dec 26. Best ever reception into English news right at 1530. Very clear modulation and strong signal makes for armchair copy. Parallels heard are: 4760 (fair), 4775 Imphal (very good, with only minor CODAR interference), possibly 4800 Hyderabad, way under CNR1, 4810 Bhopal (good), 4834 (not on 4835!) Gangtok (good to very good), NOT 4840 AIR Mumbai (fair to good in Hindi), 4895 Kurseong (very good), 4910 Jaipur (fair with lots of splatter from Holy Tibet on 4905 which was very strong!), 4920 Chennai (fair under incredibly strong Holy Tibet). I hadn't checked anything higher before they changed back to local programming at 1545. Just an incredible 60 m morning! (Walt Salmaniw, Mass., BC, dxldyg via DXLD)

4990, AIR Itanagar, randomly from 1332 to 1433\*, Dec 14. News in vernacular till 1336; into subcontinent music; 1415 local news in Hindi followed by local news in English; Itanagar weather forecast (rain) and max-min temperatures; followed by talk in English; poor with persistent heavy CW QRM. Dec 13 till 1431\* (Ron Howard, Asilomar State Beach, CA, Etón E1, dxldyg via DXLD)

5010, AIR, Thiruvananthapuram, 0007 December 7, 2011. 0007:59 carrier up, 1000 cycle tone in progress 0017 recheck, interval signal 0018:43. Still decent signal 0045 with Indi-flutes and vocals (Terry L Krueger, Clearwater, Florida USA, 27.55.83 N, 82.46.08 W, dxldyg via DXLD)

5050, AIR Aizawl, 1300, Dec 12. Two nice local IDs for "All India Radio Aizawl"; one just before the BBR time pips and the other just after; into news in probably Hindi (certainly not English). As the IDs were local perhaps the news might also have been local? Mixing with Beibu Bay Radio (BBR).

(Ron Howard, Asilomar State Beach, CA, Etón E1, dxldyg via DXLD)

6165, Dec 12 1355, what a pleasure to hear something besides Chinese all over the 49m band! Instead, S Asian songs, 1400 timesignal (maybe from QRM), brief announcement in unknown language, and change to other music. Aoki shows this is the AIR Sindhi service from Delhi/Khampur site. BTW, 6165 is really crammed full of overlapping usages, such as Vietnam VOV4, and China CNR6, both supposedly also on before and after 1400, not to mention Chad and Zambia (gh, DXLD)

All India Radio on 15020 kHz --- with English language program from 1000 to 1100 UT. Audible this morning with O=3. But from which transmitter site? AOKI lists Aligarh, EiBi has Panaji, and HFCC has nothing at all. (Günter Lorenz, Freising, Germany, RX: Perseus ANT: ALA1530+SSB, Dec 10, HCDX via DXLD)

re 15020 kHz, DXindia shows Aligarh site. AIR is NOT a member of HFCC (any more?). No attender of AIR India took part on US Dallas B-11 HFCC conference in September. In case of AIR frequency interference collisions in 22 and 41mb, AIR bureaucrats were NOT willing to answer protests from other HFCC members in past seasons. (wb)

All India Radio, General Overseas Service in English on 15020 at 1000-1100 is via Panaji 250 kW. The B-11 AIR schedule frequency wise is available in: <<http://www.qsl.net/vv2jos/sw/freq.htm>>

(Jose Jacob, VU2JOS, India)

9425, AIR National Channel from Bangaluru, Dec 15 at 1424 has good signal and modulation in Hindi, but // 9470 from Aligarh is JBM (just barely modulated) as I can tell on weaker signal, despite splash from 9479 WTWW. I listen for the 5-minute English newscast at 1430: soon after it starts there is a semiminute of dead air where apparently a clip of the Chief Minister was supposed to go, then about Indian-Russian coöperation; food inflation in India is at a 4-year low. Caster speaks too rapidly but fortunately with good diction; can't decide if the voice is M or F, androgyny being ideal to appeal to all audiences. 1435 back into Hindi, music and talk (gh, DXLD)

**INDONESIA** - Voice of Indonesia regular terrestrial transmission is still off the air on 9525 kHz. They are in talk for re-transmission using Babcock system. For details please see here: <http://tinyurl.com/7pe5k5o>.

3965, Voice of the Islamic Republic of Iran, Zahedan. 0223-0228\* January 1, 2012. Talk in SE Asian language (Urdu listed 0130-0230), EZL instrumental music, transmitter abruptly cut off 0228:38. Caught a few seconds parallel audio on 6100 (Kamalabad) but that transmitter's audio fell silent before 3965 did. Something with Qur'an poetry on 6185 under XEPPM at 0222 which prompted my frequency checks, but unable to tell if 6185 was actually parallel by the time I got back to it. Someone (Iran, still?) left a slightly warbly carrier on from 0228+ checks through 0245 tune-out (Terry L Krueger, Clearwater, Florida USA, 27.55.83 N, 82.46.08 W, dxldyg via DXLD)

7200, 0331-, Voice of Justice (VOIRI), Dec 28. Excellent reception at sign-on in English after flute signature tune. At 0332:30, Qur'an reading began. 7365 equally strong. I earlier noted Tajikistan on 60 m propagating very well.

7365, 0407-, VOIRI Voice of Justice, Dec 24. Good reception with their North American program, Voice of Justice with two American accented females debating human rights. Jamming (Cuba) is just audible in the background. Parallel 7200 is very good (Walt Salmaniw, Masset, BC, dxldyg via DXLD)

**ISRAEL** - 7635 Israel's Army radio station Galei Tzahal noted with identification at 0536 UT Dec 20. But hit heavily of UTE station in two tone like RTTY mode, latter S=9+10dB signals on both 7634.755 and 7635.255 kHz. // 15850 kHz very poor S=4, just above threshold in dead zone at this hour.

**LAOS** - 6130, RN Lao, Vientiane: Highlight of the month has been the reëmergence of this one, loggable on many mornings. Was best in early Dec, after Chuck Rippel tip, but still hearing this week tho not as well as earlier in Dec (12/3,4,5,6). Propagation window for here opens up around 1245 and holds thru 1300+, tho was hearing as early as 1230 in early Dec. Best signal was on 12/4 with very enjoyable program of Laotian pop music -- very familiar to me after my years of working in Laos. Very enjoyable programming! Usually tones on the hour, but one time noted playing straight thru on a local Sunday nite in Laos (Ralph Perry, Wheaton, Illinois, Drake R8B; Japan Radio NRD-545; Eton E1; Hallicrafters SX100; Knightkit Star Roamer; Dentron Super Tuner + Ameco PLF-2 + Palomar P-408 + Quantum Phaser antenna unit; Longwires (150' + 100'); Tuned Multi-Turn 20" Small Loop; Single-Turn Coax Loop, dxldyg via DXLD)

**LIBYA** - 11600, 1710-1730 04+05+06.01, R Télévision Libye, Sabrata. French comments about the assistance from France to the Libyan Revolution in Benghazi, with Vienna Waltzes in the background. Now good voice audio! 55444 (Anker Petersen, Skovlunde, Denmark, on my AOR AR7030PLUS with 28 metres of longwire, via Dario Monferini, playdx yg via DXLD)

11600, Radio Télévision Libye - Radio Libye, \*1612-1806\*, sign on with French talk and lite French instrumental music. French ballads. IDs. Talk. Fair, but some occasional strong noise [DRM de Bulgaria?? Until 1700]. Jan 6 (Brian Alexander, PA, DXLD)

**MADAGASCAR** - 5010.18 Radio Madagasikara, at \*0231-0250 UT Dec 21, abrupt sign on with Malagasy talk. Local choral music. Local pop music. Weak. Very poor in noisy conditions. (Brian Alexander-PA-USA, DXplorer Dec 21)

Winter B-11 of WYFR Family Radio via RNW:

1600-1700 9590 MDG 250 kW 320 deg to EAf Swahili  
 1700-1800 7385 MDG 050 kW 310 deg to EAf English  
 1800-2000 7395 MDG 250 kW 320 deg to EAf English  
 1900-2100 6020 MDG 050 kW 255 deg to SAf English  
 (R BULGARIA DX MIX News, Dec 21)

5010.2, R. Madagasikara, Ambohidrano, 1722-1751, 07 Jan, Malagasy, local pops; 45433! (Carlos Gonçalves, PORTUGAL, dxldyg via DXLD)

5010.0-USB, R. Madagasikara, 1510-1526, Jan 11. For several months now people have been reporting this on about 5010.2, but I have not had much luck hearing them there. Today found they had switched transmitters back to the exact frequency and heard with almost fair reception via long path; EZL music; in French; IDs and ad; QRM from AIR was light, but slowing increasing. (Ron Howard, San Francisco at Ocean Beach, CA, Etón E1, dxldyg via DXLD)

**MALI** - 9635, RTM, Bamako. \*0800 December 26, 2011. Transmitter brought up abruptly seconds after 0800 with fantastic local highlife vocals in progress, most sounding like very vintage recordings, French male quick ID between tracks at 0809 and 0815. Very good, but signal dropping off rather fast by 0825 tune-out. (Terry L Krueger, Clearwater, Florida USA, 27.55.83 N, 82.46.08 W, WOR 1597, DXLD)

**MEXICO** - 6185, Radio Educación, México D. F., 0900-0945, 08-01, classic music. At 0935 identification: "Radio Educación, 85 años, 1060 AM, en internet: <http://www.radioeducacion.mx/> y en onda corta, 6185 kHz, banda internacional de 49 metros, desde la Ciudad de México". 34333. **MONGOLIA** - 12085, Voice of Mongolia, \*1030-1058\* Dec 13 [Tuesday], woman announcer with ID and opening of English program followed by news. Later it was time for the mailbag program with a letter from Alan Loudell. It was good to hear a familiar name on shortwave. Closed with a Mongolian folk tune. Poor to fair with a lot of flutter (Rich D'Angelo, French Creek State Park DXpedition, PA, Ten-Tec RX-340, Drake R-8B and an Eton E1, 500-foot wire essentially north for the RX-340 and 250-foot wire essentially northeast for the R-8B and a whip antenna for the E1, NAsWA yg via WOR 1595, DXLD)

**NETHERLANDS** - RNW management & unions sign redundancy package, Jan 10th, 2012.

The future of Radio Netherlands Worldwide.

Today (10 Jan 2012) Radio Netherlands Worldwide and the three unions representing the employees of RNW signed the agreement for the redundancy package that will apply during the reorganization that takes place this year. The Dutch government has reduced RNW's budget by more than 70 percent from 46 million to 14 million euros a year as from 1 January 2013. RNW will in future focus exclusively on providing reliable and independent information to people in countries without a free press.

The redundancy package has been designed to maximize the opportunities for employees to find new jobs. "We are now organizing a lot of courses and training designed to widen the perspective of employees," says Director General Jan Hoek. "We have also taken into account the fact that our workforce includes people of more than thirty nationalities. So part of the plan is aimed at helping with repatriation, for those people who want to return to their country of origin."

RNW is currently working intensively on transforming itself into a new organization focusing on free speech. The station is finalising a list of the most important target areas and groups, and determining what type of content has the most added value. It is expected that a detailed plan for the new RNW will be ready in the second quarter of 2012, to be followed in the summer by the reorganization.

**NIGER** - NIGER, 9705, La Voix du Sahel, Goudel, 2240-2304\*, 16/12, French, phone-ins, anthem; 55433. There was a 2nd distorted, FM-like feed audible underneath the signal that went through up till 2304, i.e. some 2-3 minutes after the anthem was played.

9705 ditto, 1057-..., 17/12, Vernacular, tribal songs; 24432, QRM de ETHIOPIA, but very weak.  
(Carlos Gonçalves, PORTUGAL, dxldyg via DXLD)

9704.99, LV du Sahel, 2101-2300\*, audible after Ethiopia 9705 sign off at 2100. Indigenous vocals. French talk. Short flute IS at 2258:25 followed by National Anthem at 2259. Short test tone at 2300 and off. Weak to very weak levels. Threshold signal at times. Irregular. Dec 16 (Brian Alexander, PA, DXLD)

**NIGERIA** - 6089.9 R. Nigeria, Kaduna, at 2212-2223 UT on Dec 18, Vernacular, talks; 44422, QRM de AIA (parallel to 1610 kHz). (Carlos Goncalves-POR, dxld Dec 20)

6089.857 Radio Nigeria, Kaduna-Jarji, poor - just above threshold, but hit heavily by Chinese program CNR2 Geermu-CHN on adjacent 6090 kHz even, 2225 UT Dec 23.

6089.859 R. Nigeria Kaduna-Jarji on right night/grey line DX path, 0550 UT Dec 27. Well stronger than En prayer from co-ch CBB Caribbean Beacon (University Network) Anguilla even frequency.

**OMAN** - 15140, Radio Sultanate of Oman, 1428-1450, tune-in to lite pop music. Chimes at 1433 followed by the usual filler theme music. ID. English news at 1434-1447. Pop music at 1448. Poor in local noise. Jan 2 (Brian Alexander, Mechanicsburg, PA, USA. Icom IC-7600, two 100 foot longwires, dxldyg via DXLD)

**PERU** - 4789.85, Radio Visión, 1115, presumed with Spanish sermon by a man; noted in passing, didn't stay with it. 29/12.

4824.49, LV de la Selva, 1056, no ID so tentative -- but it certainly "sounds the part" with mensajes by a man, then huaynos. Low audio. 29/12.

5039.17, R. Libertad, 1105, talk by excited Spanish man, noticias or mensajes, into huaynos. Strongest of all OA's here. 29/12 (David Sharp, NSW, partial list of equipment: FT-950, NRD-535D, R8, R30A, Timewave 599ZX, various Palstar and MFJ accessories, Quantum Phaser, various Sangean and Tecsun portables, EWE aerials, dxldyg via WOR 1598, DXLD)

Changes in the schedule "Voice of Russia" from January 1, 2012:

In connection with the load optimization of technical means of powerful HF radio and CB programs to FGBU WGD "Voice of Russia" in the autumn-winter 2011-2012 year, from January 1, 2012 broadcast in Asia, the Middle East,

Central Asia, Africa, the Baltic States, Europe, the Caucasus, Central and South America, as well as Belarus, Ukraine and Moldavia changed. Broadcasting in the Atlantic was withdrawn in accordance with the program schedule. Schedule in other areas (which is North America, Australia and New Zealand) remains unchanged.

I noticed from the significant changes note the following:

- Programs in Arabic shifted forward one hour, and now on the air at 1600-2100, and 2200-2300 UT abolished;
- Added the morning hour of broadcasting in Kurdish 0500-0600 UT - 1314 kHz, the evening moved back one hour at 1500 UT - on MW 1314 kHz + and 5945 kHz shortwave, 7215 kHz;
- Significantly enhanced broadcasting in Turkish: added a morning block of 0100-0500 UT (the first two hours in 1314 kHz, then 1350 kHz), a three-hour evening block has been added hour at 1300 UT on the above two frequencies, NE;
- There is a change in the schedule and broadcast in English, in particular the increased broadcasting to BI. East {Far East, Alaska, WeNOAM from Vladivostok and Petropavlovsk-Kamchatsky sites ?} - added units 0100-0500 UT, 1200-1300 UT and 2100-2200 UT.

In some cases, change the frequency of broadcasts on shortwave. All changes can be viewed in the Russian DX Portal under Voice of Russia (changes must be made within the next couple of days).

In broadcasting in Russian focus on the HF schedule, which now are broadcasting 24 hours a day, instead of 23 last year. It seems to me, and the number of frequencies a bit grown up. Here is the schedule with the Russian service January 1, 2012

**TURKEY** - 17755, Dec 22 at 1327, VOT is back on proper frequency for German at 1230, still on air with IS alternating with English IDs, the first one of which heard skipped, "Voi--ey", but the next one was OK. I fervently hoped they would again neglect to change to 12035 for 1330 English, but 17755 cut off at 1329:23\*. Was that with enough time to get 12035 on the air by its start? 1344 check, 12035 was very poor but recognizably the usual YL announcer in English.

5960, Dec 24 at 2325, VOT English to NAM is playing "Here Comes Santa Claus" by Gene Autry (an Oklahoman), 2326 YL not missing this chance to remind us that Santa Claus (St. Nicholas) originally hailed from what is now Turkey. BTW, in public I only wear a green stocking cap.

15200, Dec 26 at 1540, VOT fair signal with VG Turkish music, 1551 liner and Arabic ID as 'Huna Saut Turkiye'. Fortunately, I tuned in after the collision from KTWR Guam in English until 1525/1535 depending on day of week.

**U.A.E.** - 6175, UNITED ARAB EMIRATES, Voice of Vietnam (relay). \*2031:26 December 31, 2011. Transmitter abruptly up with German programming in progress. Mostly news-type topics by female with really odd accented German, maybe she's a native Viet? Audio abruptly cut at 2059, then back up with opening of German programming (again) with ID. Very good.

11795.040, One of the 'odd frequency' transmitters on Babcock served transmitting center at Al Dhabbaya. Radio Okapi in French language, heard at 1654-1700 UT, S=7-8 fair signal. ID, and feed cut at 1659:09 UT. Three bars tones of FEBA interval signal occurred at 1659:44 UT, scheduled at 17 UT on 6180 kHz in Somali, also via UAE.

**UGANDA** - Radio Dunamis reactivated since going off on the 8th of December, back last night 3rd weak, tonight on my homebrew K9AY. Will post a sound clip soon. 4750 kHz. Tune in 1550 going past 1620 as I type this. And here is Dounamis SW this night playing "What A Friend We Have in Jesus". For a DXer like me, this is the most beautiful version of it. A full 5 minutes. Enjoy!

**VIETNAM** - 9730, V. of Vietnam Hanoi-Sontay 2050-2103 Dec 12, English/French; W announcer with soundbites in (presumed) Vietnamese with English translation; lite, jazz-like ballad; W announcer at 2057, cut off mid-sentence; IS at 2100 into French service; M & W announcers with news; fair at tune/in; booming signal after 2100. (Scott R. Barbour, Jr., Intervale, NH, NRD-545, MLB-1, 200' Beverages, 60m dipole, dxldyg via DXLD)

Noted in German 1530-1558 in January – occasional or TEST? (we)

**ZAMBIA** - 4965, 1707-, Christian Voice, Dec 23. It's a shame there's so little to hear on the tropical bands anymore. Good to very good reception of CV in English with contemporary programming aimed at young people.

4965, 1746-, CV, Dec 27. Good reception still noted at 9:50 Am local with English programming (rap at the moment) to south/central Africa. This propagation path only open in the depths of winter!

4965, 0351-, CVC, Christian Voice, Dec 28. Very good reception with American accented preacher with a Bible story about multi-headed beasts. One of the strongest signals on 60 meters at this time.

13590, 2011-, CVC, One Africa, Dec 28. Superb reception with American inspirational songs in English (Walt Salmaniw, Mass., BC, dxldyg via DXLD)

17695, Dec 31 at 1940, CVC 1 Africa VG signal, better than CVC Chile 17680, but lots of IADs making a salvation story unlistenable; not that their thinly-disguised monomania is ever listenable. Then a longer period of dead air. I see that Jorge Freitas in Brasil independently noted the same problem after change to 13590, Dec 31 at 2016-2021, "Transmission with constant cuts in the modulation". God'll get 'em (gh, DXLD)

**ZIMBABWE** - 4828.00, Voice of Zimbabwe, 0349 tune in with African music and singing. Considerable hum on signal, but strongest heard in months. Pop music followed at 0354, then short interlude to 0400 with F singer and ballad. No break at TOH. African singers at 0401 with tape/recording speed varying. Jazz piano music followed past 0411, with station ID in English by F as "...the Voice of Zimbabwe. Music program continued, but it faded badly by 0427. 1/3 (Jim Young, Wrightwood, California, ICOM IC-756 ProIII + 40-M yagi + 80-M inverted Vee, NASWA yg via DXLD)

## Babcock wins contract with BBC World Service

Babcock International Group (Babcock) has won a 10-year contract to continue providing services relating to the transmission and distribution of radio and television for the BBC World Service.

The contract was awarded to Babcock following a rigorous competitive process. It is designed to ensure that the BBC receives the optimum value for money that continues to deliver high levels of service for its audience. The contract start date is 1 April 2012; it is worth circa £200 million over 10 years.

Babcock has been a trusted delivery partner for the BBC World Service for 15 years, and has ensured that the BBC World Service reached its audience of 166 million. Under the terms of the new contract, Babcock will build upon this heritage and provide essential support to ensure that the BBC provides a reliable and resilient service to its global audience. This will include:

- Scheduling and co-ordination of all BBC World Service shortwave broadcasts across the globe. In the first year of the new contract Babcock will co-ordinate a total of 180,335 hours of transmissions for the BBC.
- Operating and maintaining the BBC's six high power sites and a power station to ensure global coverage. This includes the BBC key target areas of Africa and the Middle East, the Indian Sub-Continent and South East Asia.
- Monitoring of high frequency broadcast performance (using independent data). The BBC is committed to offering the best quality of service to its worldwide audience and Babcock's monitoring ensures the best possible audio quality is achieved in the desired target areas.
- Managing the satellite network contracts and support of the satellite distribution systems including 1,300 receivers worldwide in over 650 locations in 128 countries.
- Maintaining the BBC World Service's FM Relay network. In addition to the satellite receiver maintenance, Babcock will support the equipment of more than 150 FM relay sites around the world. This will underpin the resilience of the service offered by the BBC.

By the end of the new contract the partnership will have lasted for a quarter of a century.

Here are the loggings from Richard A. D'Angelo of Wyomissing, Pennslyvania, USA during French Creek State Park DXpedition No. 40 (December 11, 12 and 13, 2011):

- 3250.0 HONDURAS. Radio Luz y Vida, 0336-0402\* Dec 12, English language religious program. It has been a while since I last heard them seemingly gone around 0402. Weak but clear.
- 3290.0 GUYANA. Voice of Guyana, 2231-0300+ Dec 11, noted early but heard all evening with music programming and man announcer with English talk, IDs, announcements, etc. Fair to good signal.
- 3985.0 CROATIA. Croatia Radio, 0310-0330 Dec 13, noted with English segment with a man and woman talking providing schedule and contact information. Then it was back to music programming including some Christmas stuff. Good signal.
- 4716.7 BOLIVIA. Radio Yura, 1008-1024 Dec 13, woman announcer with long talk followed by rustic vocals.
- 4746.9 PERU. Radio Huanta 2000, 1014-1023 Dec 13, talk in Spanish by a man announcer. ID and TC followed by OA vocals. Poor.
- 4775.0 PERU. Radio Tarma, 1017-1032 Dec 13, rustic OA vocals hosted by a man announcer with Spanish talk. Poor to fair with slight CODAR QRM.
- 4825.0 BRAZIL. Radio Cancao Nova, 2320-2337 Dec 11, Man with preaching in Portuguese language. Poor to fair with //9675 fair.
- 4920.0 INDIA. All India Radio – Shimla, 1234-1255 Dec 13, woman announcer with news in Hindi Language. Some talk followed by flute music. Poor to fair but fading quickly.
- 5010.0 INDIA. All India Radio - Thiruvananthapuram, 1233-1242 Dec 13, woman announcer with news in Hindi language. Poor to fair.
- 5010.1 MADAGASCAR. Radio Madagaskara, 0216-0239 Dec 13, non-stop music program to opening by a woman announcer in Malagasy with ID and announcements. Back to music but the fair signal was deteriorating rapidly.
- 5039.1 PERU. Radio Libertad, 1018-1033 Dec 13, nice selection of OA males hosted; male announcer with Spanish talk. Poor.
- 5820.0 SOUTH AFRICA. RTE Radio Worldwide via Meyerton, 2012-2031\* Dec 12, could make out tail end of features program in English but hard to distinguish words although seemingly getting slightly better each minute. Closed with instrumental music followed by World Radio Network ID at 2029, news headline followed by UN Radio program before carrier was terminated. Weak.
- 5950.0 NEW ZEALAND. Radio New Zealand International, 1318-1351 Dec 12, man talking about Kiribati. ID at 1319 ("You are listening to Radio New Zealand International, Dateline Pacific"). End of program at 1329 followed by another ID "Radio New Zealand International, the Voice of the Pacific." The Mailbox program began at 1330 with Silent Night opening followed by a DX Report about utilities listening. Fair.
- 6055.0 RWANDA. Radio Rwanda, 2047-2100\* Dec 11, man announcer with French talk followed by local vocal selection. Man returned at 2049 and continued talking until program ended at Top of the Hour when broadcast ended suddenly. Poor to fair.
- 6075.0 RUSSIA. Radio Rossii via Petropavlovsk-Kamchatskij, 1343-1300\* Dec 12, techno music until brief announcement in Russian by a man announcer at 1258. Music continued until 5+1 time pips at 1300 before carrier was terminated. Fair with flutter.
- 6110.0 ETHIOPIA, Radio Fana, 0414-0438 Dec 12, nice Horn of Africa vocals followed by two men with discussion in Amharic language. More HoA music followed by a woman with ID and long talk from 0426. Fair.
- 6115.0 CHINA. Voice of the Strait via Fuzhou, 1054-1116 Dec 12, Amoy language program with talks and music with 5+1 time pips at 1100. Poor to fair with flutter.
- 6150.0 CYPRUS (Northern). Radio Bayrak International (tentative), 2234-2311 Dec 11, program of pop music with only announcement heard at 2302 in presumably Turkish language. More music programming. Periodically, heard some Chinese language programming fading up mixing with this. Poor.
- 6155.0 BELARUS. Radio Belarus, 2157-2213 Dec 11, group singing followed by musical fanfare at Top of Hour, ID and news with a woman announcer in English. News ended at 2205 followed by another ID into features. Poor to fair. No // heard.
- 7255.0 THAILAND, Radio Thailand, 1114-1118 Dec 12, tuned in to familiar bells followed by English ID by man announcer ("This is HSK9, Radio Thailand World Service"). Into Khmer program. Good signal but fluttery.
- 7260.0 RUSSIA. Radio Moscow World Service via Vladivostok, 1118-1140 Dec 12, man and woman in English with program about hobbies in Russia. ID at 1129 followed by promo announcements. Russian Hits music program followed at 1230. Poor to fair.
- 7465.0 THAILAND, Radio Thailand, 1303-1323 Dec 13, woman announcer with talk (news?) in Japanese language. Male vocals at 1311 followed by closedown at 1313 in Japanese then in English followed by bells. Poor to fair with flutter. Carrier cut but antenna apparently re-oriented as returned with slightly stronger signal and Mandarin language transmission.
- 9280.0 TAIWAN. Family Radio via Huwei, 1210-1240 Dec 12, Mandarin program with slow special English Bible reading from Roman's at 1239. Prior to that was Oakland address information and familiar Family Radio theme music. Fair to good.
- 9335.0 KOREA (North). Voice of Korea, 1302-1318 Dec 12, tuned in during orchestra National Anthem, ID followed by Song to Great Leader plus another march type song. After another ID a man announcer began English program with the news which was the same program as the previous night. Good signal with some flutter.
- 9380.0 CLANDESTINE (North Korea). Radio Free North Korea via Tashkent (presumed), \*1200-1224 Dec 13, man and woman with Korean talks. Poor to fair with some fluttery conditions.
- 9535.0 THAILAND. Radio Thailand, 2035-2047 Dec 11, man and woman announcer with news in English. ID at 2040: "You're listening to Radio Thailand news." Promo announcement from Air Asia. Followed by International Update. Bells at 2045 followed by opening of Thai language program Fair.
- 9625.0 JAPAN. Radio Japan, 1028-1030\* Dec 13, end of English program with ID, closedown announcements and contact information. Fair but //9840 was poor.
- 9680.0 THAILAND, Radio Thailand, 1932-1959\* Dec 12, man and woman announcers in English with news. ID at 1939 followed by a couple of ads for power company and insurance outfit. More IDs followed by Sports, Bells at 1959 followed by closedown announcements for this European Service, Poor to fair.
- 9745.0 BAHRAIN. Radio Bahrain (presumed), 2153-2225 Dec 12, program of continuous Middle Eastern vocals without any announcements. Poor to fair.
- 9835.0 MALAYSIA. Sarawak FM, 1126-1202 Dec 13, woman announcer with Malay talks hosting traditional music program. Poor.
- 9840.0 VIETNAM. Voice of Vietnam via Son Tay, 1138-1158\* Dec 12, woman announcer with news in English, several IDs plus a commentary. Closed with ID and traditional Vietnamese vocals. Poor.

- 11680.0 KOREA (North), Korean Central Broadcasting System, 1114-1132 Dec 13, long winded Korean talk by a man and a woman announcer. This is what they must listen to domestically ... ouch! Fair and //9665 was also fair.
- 12085.0 MONGOLIA, Voice of Mongolia, \*1030-1058\* Dec 13, woman announcer with ID and opening of English program followed by news. Later it was time for the mailbag program with a letter from Alan Loudell. Closed with a Mongolian folk tune. Poor to fair with a lot of flutter.
- 12095.0 PHILIPPINES. FEBC Radio, \*2252-2329\* Dec 12, IS mixing with ID announcements under BBC-Ascension which eventually closed at 2259 leaving this in clear with fair signal. Hmong program featuring a very long talk by a man announcer after one song.
- 13745.0 THAILAND, Radio Thailand, 0008-0032 Dec 12, usual man and woman announcer with live news in English with several IDs: "You're listening to Radio Thailand news." Announcements for Bangkok Airways Cargo, Department of Trade International Promotion, Air Asia and Hyatt Regency. Mention of The King and many wonderful things he has done. Apparent antenna change at 0029 when signal briefly lost but came back at slightly reduced level with Business Report. Fair to good. s and Promo announcement from Air Asia. Followed by International Update. Bells at 2045 followed by opening of Thai language program Fair.
- 13760.0 KOREA (North), Voice of Korea, \*0100-0136 Dec 12, IS with multiple IDs followed by National Anthem, Song to Great Leader and another march type song. After another ID a man announcer began English program with the news. Korean vocals at 0122 followed by 2nd installment of Restoration of the Fatherland. Fair but //11735 was fair to good.
- 15140.0 OMAN, Radio Oman, 1420-1442 Dec 12, pop music program to 1430 ID followed by news in English. News ended at 1438. Poor and fading badly by tune out. (D'Angelo/FCDX-PA)3240.0 SWAZILAND. Trans World Radio – Manzini, 0304-0331 Nov 5, religious talks in listed Shona language with musical selections, poor and deteriorated unusable by 0325.

- 6055.0 RWANDA. Radio Rwanda, 2057-2221+ Dec 31, discussions in French and local languages among announcers but also with phone calls from listeners. Lively musical selections. Several nice IDs at 2136 during three way conversation among announcers. Running late for New Year celebrations. Local group singing from 2157 to top of hour and New Year's in Rwanda. Apparently, a politician gave a speech after the song (only non-lively piece of programming) followed by more songs, phone calls and general merriment. Fair.
- 6105.0 GERMANY. Trans World Radio – Moosbrunn, \*0800-0835 Nov 22, instrumental music opening followed by religious program entitled "Rendezvous. TWR ID at 0814 including contact information followed by Through the Bible program. Good with //7310 (Moosbrunn) good.
- 6130.0 LAOS. Lao National Radio, 1157-1213 Jan 2, exotic Asian vocals and flute music. Familiar 7 gongs at 1200 followed by flute music. Man announcer with presumed ID and news. Poor.
- 6165.0 CHAD. Radio Chad, 0429-0446 Dec 4, tuned in to hear a man announcer in French with phone calls from listeners with short music segments between phone calls. Must have opened earlier than usual \*0430 today? ID by male host at 0436 between phone calls. Fair.
- 6260.0 UZBEKISTAN. CVC International via Tashkent (presumed), 0327-0400\* Dec. 8, instrumental music followed by long talk in listed Hindi language for broadcast to India. Mentions of Pakistan later followed by two men talking. Soft instrumental music from 0357 until carrier cut at 0400. Poor to fair.
- 7200.0 IRAN. Voice of Justice, 0334-0341 Dec 1, man with recitations followed by a woman with prayer in English. At 0337 ID followed by program previews and the news. Fair but //7365 was quite poor.
- 7280.0 CHINA. China National Radio – 1, 1154-1300\* Jan 4, plenty of Mandarin talk with announcements at 1159 followed by 5+1 time pips at 1200. Closed with announcements at 1258 with one time pip at 1300 as carrier was terminated. Apparently, here so Sound of Hope can't be heard. Thanks to Stave Handler with some help on this. Fair to good.
- 7310.0 AUSTRIA. Trans World Radio – Moosbrunn, \*0800-0835 Nov 22, instrumental music opening followed by religious program entitled "Rendezvous. TWR ID at 0814 including contact information followed by Through the Bible program. Good with //6105 (Nauen) fair.
- 7315.0 CLANDESTINE (Sudan). Radio Dabanga via Issoudun, \*0428-0452 Nov 19, man singing "Radio Dabanga" song until 0429 opening ID and announcements in Arabic by another man. New followed at 0430 by a man announcer. Features followed after the news. Good signal.

- 7385.0 ASCENSION ISLAND. BBC, 0324-0345 Dec 1, man in English with report from Morocco. World Today ID at 0328 followed by BBC ID at 0329 and promo announcements for upcoming Libya program. TC at 0330 followed by BBC Network Africa. African news including a report from Nigeria. Fair to good.
- 7450.0 GREECE. Radiofonikos Stathmos Makedonias (ERT3), 2149-2217 Nov 19, Greek music until 2200 ID by woman announcer in Greek over music. Man with news until 2204. Another ID and several announcements. More Greek music. Fair to good.
- 7550.0 INDIA. All India Radio – Delhi (Khampur), 2121-2216 Dec 30, English service with program called Bain of Domestic Violence followed by General Overseas Service ID. At 2136 a Roundup of 2011 by a man announcer. Musical selection to 2200 ID and news. Commentary at 2210 about Japanese Prime Minister's visit to India on Dec 27 and 28. Good signal.
- 9470.0 PAKISTAN. Radio Pakistan - Islamabad, 1702-1717 Nov 19, woman announcer with English language news. ID at 1710 followed by presumed Urdu language program with male vocals and announcements. Poor but presumably will get better as winter approaches.
- 9526.0 INDONESIA. Voice of Indonesia, 21051-2059\* Dec 30, nice selection of Indonesian vocal by a woman singer hosted by a woman announcer with brief French talks. ID by woman announcer in English at 2058 including frequency announcement. Program ended by carrier stayed on until 2112. Poor.
- 9535.0 THAILAND. Radio Thailand, 2034-2048 Dec 30, woman announcer with English news. Several IDs, promotional announcements. Carrier broke around 2043 but returned at 2044 with familiar bells. Commenced Thai program at 2045. Poor to fair.
- 9655.0 TURKEY. Voice of Turkey, \*0357-0409 Nov 19, IS with periodic "This is the Voice of Turkey" IDs by a woman announcer. English program opened at 0400 with 5+1 time pips, ID, opening announcements and news ready by a woman announcer. Poor to fair in noisy conditions.
- 9725.0 TUNESIA. Radio TV Tunisia, 1951-2010\* Nov 20, Middle Eastern music to 2000 ID followed by man announcer with news in Arabic. Carrier cut at 2010 in mid-sentence but seemingly at end of news. Fair.
- 9720.0 THAILAND. Radio Thailand, 1245-1254 Jan 1, woman announcer in English with news, IDs ("You are listening to Radio Thailand News.") and ads. Reports on New Year celebration activities from different parts of the world. Fair.
- 9730.0 VIETNAM. Voice of Vietnam – Son Tay, 2047-2058\* Nov 23, man and woman announcer team in English with features and one selection of Vietnamese vocals. ID at 2057 followed by closedown announcements and address. Poor with deep fades.
- 9885.0 BOTSWANA. Voice of America via Moepeng Hill, 0417-0429\* Nov 19, man announcer in English interviewing Congressman Frank Woolf who had just written a new book discussing human rights. VOA News ID as program closed followed by editorial. Good signal.
- 11600.0 LIBYA. Radio Television Libye – Sabrata, 1736-1807\* Dec 31, man announcer with talk in the French language. This was followed by a pop vocal selection. At 1745 a woman announcer gave the station identification: "Radio Television Libye". She began a talk alternating with instrumental music. Nice close down ID at 1806 before program closed with very brief instrumental music. Poor with some fair peaks toward the end of the transmission.
- 11610.0 CLANDESTINE (Zimbabwe). Radio Voice of the People via Madagascar, 0400-0422 Dec 8, man announcer with news in English with ID and frequency announcements at 0402 inviting listeners to "Stay tuned". After a brief segment of instrumental music news in a local language commenced. Several IDs as local languages continued to tune out. Fair.
- 11710.8 ARGENTINA. RAE, 0251-0307 Dec 7, English features with a man announcer followed by a woman with closing ID and announcements at 0254. Tango music closed program. Multi-lingo IDs beginning at 0259 with 5+1 time pips at 0300 with a man commencing the French program. Fair but fluttery.
- 15200.0 TURKEY. Voice of Turkey, 1543-1612 Dec 4, Middle Eastern music programming until 1551 when Arabic announcements were heard followed by VoT IS. Several multi-lingo IDs until 5+1 time pips and more Arabic language programming with news. Poor.
- 17695.0 ZAMBIA. CVC International, 1633-1706 Jan 7, woman hosting English discussion about "peer pressure". Religious vocals followed by a talk about edge shoes. Program closedown at 1656 with phone numbers. 1700 started program looking for listeners to share their stories.
- 25910.0 FM USA. WBAP – Forth Worth, Texas, 1904-1922 Nov 26, series of local ads followed in English by an ID at 1907; home improvement program with host Jim Denton was next. Fair with very deep fades.
