Für die Teilnahme sind 4 Empfangsberichte im Zeitraum 17. Dezember 2012 bis 15. Januar 2013 zu notieren und ein Fragebogen über die Sendungen von Radio Tirana auszufüllen. Dafür erhalten alle Teilnehmer eine Sonder-QLS-Karte und ein Diplom. Begleitet wird der Kontest von einem kleinen Quiz, für dessen Gewinner zahlreiche Sachpreise aus und über Albanien zur Verfügung stehen. Die Teilnahme am Kontest ist kostenlos.

Die Unterlagen werden ab Ende November per Post bzw. Internet verschickt, Interessenten außerhalb des Hörerklubs erhalten diese über: Werner Schubert, Poststr. 8/1, 85567 Grafing, Telefon & Fax 08092-5784 oder EMail <tirana-hk@finkhaus.de>. CANADA - Listened to the last 15 minutes of CBC Sackville on 9625 starting at 0450 November 1. Reception actually quite good, much better than normal for this service into Texas. Last part of "As It Happens Midnight Edition," then usual English ID and address announcement at 0459:30, CBC News at 0500, then usual closing announcement in French, followed by "O Canada." Tone came up afterwards, carrier off at 0509:15.

And just like that, 68 years of transmissions from this facility come to an end. I first heard it in the mid-1960's, when all it had were the old 50 kW RCA units, and just one program feed. It was a pretty big deal when the five 250 kW Collins units were added in the early 1970's. The RCA units were replaced by 100 kW Harris transmitters in the mid 1980's, and the Collins were replaced by ABB units during the 90's, IIRC.

Goodbye Sackville, and thank you. As with RNW, good memories, although the final few years of RCI left much to be desired. Anyone need some used shortwave transmitters? Between Sackville and Bonaire, there are a dozen up for grabs. :-) (Steve Luce, Houston, Texas)

CHAD - 6164.96, RNT, 0446-0503*, *0513-0550+, Oct 25, tune-in to French talk African choral music. African hi-life music. Weak under Japan, but in the clear with a good signal when Japan signed off at 0459. Abruptly cut programming at 0503 mid-song and turned off transmitter at 0505. Back on the air at 0513 with hi-life music. French talk. Promos. Children talking.

6164.96, RNT, 2120-2200*, Oct 25, continuous French talk. Afro-pop music and Euro-pop music after 2136. Very poor signal. Weak in noisy conditions but signal slowly improved after 2130.

6164.96, RNT, 2010-2129*, Oct 26, French talk. Afro-pop music. African hi-life music. Abrupt sign off. Very weak at 2010 tune-in, but improved to a poor to fair condition by 2100.

CONGO [Brazzaville] - 6115.000 R. Congo, Brazzaville, thanks to a tip of Thorsten in A-DX ng, heard 1830-1845 UT Congo, fair signal on Nov 16. At same time slot also RTVC N'djamena Chad in French on 6164.960 kHz. (wb, wwdxc BC-DX TopNews Nov 12)

CROATIA - Winter B-12 schedule of Croatian Radio HS-1 in Croatian

 1658-0557 on 3985 DEA 100 kW / 000 deg to WEU/NAF
 (DX Mix News, Bulgaria, 01 November)

7375, Oct 28 at 0514, CRZ with Croatian rock music now extending one hour later via GERMANY until 0600. HFCC shows that for B-12, site has also changed from Wertachtal to 100 kW Nauen, viz.:

23-04 255 degrees to SAm
 00-02 300 degrees to ENAm
 02-04 315 degrees to CNAm
 04-06 325 degrees to WNAAm

So the overlaps with two transmitters are different now. English segment should now be at 0300 (gh, WOR 1641, DXLD)

(RHC Correspondence Dept. via George Thurman and Juan Franco Crespo, Oct 30, tidied up by gh, for WOR 1641, DXLD) *Nov 4

I tuned into Radio Havana Cuba on 5040 kHz this morning (7 Nov) at 0625 UT and was surprised to find their English hour in progress. A few minutes later, during the mid-week 'DXers Unlimited' programme, Arnie Coro confirmed that from November 7th there was an extra hour of English on 5040 from 0600 to 0700 UT. Arnie also confirmed that RHC had dropped 6050 kHz and was now using 6165 instead via the same 100 kW transmitter and 340 degree antenna. He requested reports on the new frequency to info@enet.cu. So their new English schedule is (times UT):

11760 kHz 2000-2100

5040 kHz 0000-0100

6000 kHz 0100-0500

6165 kHz 0100-0700

6010 kHz 0500-0700

6060 kHz 0500-0700

6125 kHz 0500-0700

5040 kHz 0600-0700

(the same hour in English is repeated during these times)

Strongest frequency here for the 0600-0700 hour was 6060 kHz, though 5040, 6125 and 6165 were also fairly clear frequencies at this time just on my Sony portable.

DJIBOUTI - Djibouti on with extended broadcast tonight. Very good signal into Germany, no QRM! 4780 kHz, 1 Nov 2012, first noted at 2147, still ongoing with regional music and cheerful hosts at 2211. DXers around Europe might also want to try // 1539 where it is sometimes reported.

GUINEA - Radio Familia (ex-4900 kHz & FM) ceased operations in February 2011 after a dispute between manager and director. The 1 kW transmitter still is inside the country, but will not be reactivated there. There are plans for shipping it to a neighbouring country, but nothing definite yet. This according to direct communications with the former management of Radio Familia.

MEXICO - 6185, Radio Educación, 0455-0605*, Nov 4, local pop music. Ranchero style music. Spanish talk. IDs. National Anthem at 0600. Sign off at 0605 with local guitar music.

(Brian Alexander, PA, DXLD)

SOMALILAND - 7120, Nov 8 at 1325, R. Hargeisa is making it this early now, very poor signal but equal to Myanmar 7110. Talk by YL sounds like English intonation, which has been reported in this segment, and I make out a few words such as "people". 1329 brief music with heavy beat, back to more talk by another announcer, OM, maybe still English. It's less than a semihour after sunrise here, but sunset in Hargeisa is not until 1439 UT, per gaisma.com, contrary to an hour earlier as thought by Dave Valko, PA, who has also been hearing it at this time. One hour is close enough for grayline on this band, where signals penetrate considerably into the dayside, and could it even be short-path now instead of longpath? (gh, WOR 1642, DXLD)

SOUTH AFRICA - AFS Sentec - see comment under U.K. - BBC cuts. B-12 schedule.

Count 119 tx hours daily {I don't know alternates though}, but minus 19 hrs, not on Sa/Su.

- 4780.0 DJIBOUTI, Radiodiffusion Télévision de Djibouti, *0259-0316 Nov 10, open carrier followed by orchestra National Anthem, man announcer with opening ID and announcements followed by brief news. Qur'an recitations from 0303. Poor to fair.
- 4785.0 BRAZIL. Radio Caiari-Porto Velho (presumed), 0948-1009 Oct 28, noted with man announcer with rapid fire Portuguese talk with vocals. Almost fair at tune in but starting to deteriorate.
- 4877.5 BRAZIL. Radio Roraima – Boa Vista, 0335-0411* Sep 22, interesting mix of English lyric oldies music with a man announcer with Portuguese talk, ID and sign off announcement at 0356.
