AFGHANISTAN [non] - Frequency change of VOA Radio Ashna from June 10:

1500-1630 NF 11540 UD0 250 kW / 300 deg to WeAs Dari, ex 9370

1630-1730 NF 11540 UD0 250 kW / 300 deg to WeAs Pashto, ex 9370

Bad choice, on the same frequency there is very strong STANAG

ALASKA - From Rob Scobey, Senior Producer for International English: As I write this-our engineers in Anchor Point, Alaska are in the final stages of completing repairs to the mesh antenna that sends the signal of KNLS to the Eastern Hemisphere. Weather conditions finally improved enough to allow repair crews to have access to the site. For the time being-KNLS will operate off of one transmitter and antenna. So the English hour will be broadcast three times a day rather than the normal four broadcasts plus one simulcast. Our next step is to get the new transmitter-that is, the second of two transmitters-hooked up to the second antenna. Once that's done-the English hour will be back to our full schedule.

9920 at 1522- UT, KNLS on June 20. Very nice to see them back. Lovely S=9+20 signal. This is my favourite religious broadcaster, since the departure of HCJB. They actually have enjoyable programming and nice music. Not at all like the usual paid programmers that ramble on and on! Paved Paradise and put up a parking lot until 1525 UT. Then into a movie review.

Definitive information received from NBC for the Pacific Games 2015 (July 4th to 18th, 2015):

The program you were listening to is part of our broadcast for the coverage of the 15th Pacific Games hosted by the country for the 3rd time. The first was in 1969 and the last was in 1991.

The current shortwave service is provided by Broadcast Australia from transmitters based in Townsville [25kW Brandon site, wb.]. This is a temporary measure so that the NBC can provide coverage of the games for the whole of the country.

The NBC does have plans to purchase its own transmitters and go back to broadcasting on 4890 and 9675 kHz but this might happen in 2016.

For your information tune into 6075 kHz from 5am to 8am (PNG time), 8am to 8 pm 9860 khz (PNGTime) or the Pacific Islands frequency of 12025 kHz from 8am to 8pm (PNG time)

(Ralph Perry-IL-USA, DXplorer July 6)

New Freq. of P&NG, heard on 6075 kHz at 1040 UT tune in, ID at 1050 & 1113 UT "NBC national radio, Voice of ..." Fair condx. sometimes announcement of "2015 Pacific game".

(Sei-ichi Hasegawa-JPN, dxld July 2)

12025 NBC National Radio - Brandon, at 0818-0852 UT on July 9, coverage of the "2015 Pacific Games" swimming events with numerous IDs ("Special broadcast of the Pacific Games from NBC National Radio"), promotional announcements for National Identity Registration, the 2015 Prime Minister Excellence awards (seeking nominations) and Airlines PNG.

Later another man mentioned the news was coming up at 7 o'clock. PNG was doing well in swimming with four gold medals. Good signal. Noted again on July 11 at 0820-0845 UT with coverage f woman's 200 meter backstroke event, mentions of National Identity Theft System and 2015 Prime Minister Excellence Awards. Fair.

15340 at 1518- UT, Reach Beyond Australia on June 20. Pretty much unuseable due to unwanted CNR 1 jammer cochannel, with the Chinease usually winning out. English language from Australia. Would otherwise be a decent signal. Following morning at 1453 UT recheck (Sunday 21 June), much stronger and dominating the channel, over the Chinese. (Walt Salmaniw-Masset cottage BC-CAN, DXplorer June 28)

BAHRAIN - 9745USB mode R.B./Shabab FM Audible w/AR Pops from 0110 UT t/in in usual carrier +USB. Signal was somewhat choppy. Better in Europe on the Twente web rx. Finally W anncr in AR at 0159 UT. While listening to the Twente rx, it sounded like she mentioned Shabab, but not certain. From the nonstop AR Pop mx format, I presume this is Shabab FM. The <<http://www.984shabab.com/>> website doesn't work. (22 June)

Radio Marumby (Sistema lensen de Comunicacao, Avenida Parana No 1885, Bairro Boa Vista, Curitiba - Parana) has reactivated shortwave 11725 kHz.

Die Frequenz 11725 kHz wurde ab dem 9. Juni 2015 international // zu 6080 und 9515 kHz gehoert. In einer Stationsansage mit der Identifikation als "Radio Novas de Paz" wurden alle drei Frequenzen genannt, wengleich auf der Website aktuell nur "AM 730 kHz, ondas curtas 31 e 49 metros em 9515 e 6080" genannt werden.

Auf der Website <<http://www.radioevangelismo.com/>>

gibt es auch Links zu online-Stroemen

<<http://www.radioevangelismo.com/radionline.htm>> bzw.

<[radionline730.htm](http://www.radioevangelismo.com/radionline730.htm)>

die allerdings wegen laut Google Chrome "veralteter" plug-ins nicht gestartet werden.

Sistema lensen de Comunicacao geht auf Matheus Lensen zurueck, der seine "Radiokarriere" 1964 in Apucarana (Parana) begann, wo er zusammen mit anderen live eine musikbasierte religioese Sendung "Musical Evangelico" gestaltete. Er nahm das Format mit, als er 1966 nach Curitiba (Parana), zog und gewann auch dort eine treue Hoererschaft, die sowohl viele Briefe

einsendete als auch das noetige Geld fuer den Sendezeitkauf. Allerdings wurde die Sendezeit nach einem halben Jahr von heute auf morgen anders belegt, weil der neue Kunde das doppelte bezahlen konnte. Man kann sich das Gespraech als spannungsgeladen vorstellen, und es wird auf der Website auch dramatisch erzaehlt: "Matheus lensen sagte zum Direktor der Station: 'Ich werde diese Sache meinem Anwalt uebergeben.' Der Direktor fragte dann: 'Wer ist Ihr Anwalt?' Matheus lensen antwortete: 'Gott.'"

Zehn Jahre spaeter konnte lensen die Station 1976 kaufen. Zur Flaechendeckung unterhielt er weiterhin Kurzwellensendungen ueber Radio Universo de Curitiba. Als die Sendezeit dort von drei auf eine halbe Stunde reduziert werden sollte, griff lensen andernorts zu und kaufte die frueheren Kurzwellen von Radio Diario da Manha in Florianopolis (Santa Catarina). Diese Station war 1955 von der Familie Bornhausen eroeffnet worden, die im Uebergang zu den achtziger Jahren das Interesse am Medium verlor, und auch Mittelwelle und UKW an die Grupo RBS verkaufte. Seit den neunziger Jahren sendet man als Partner von Rede CBN (Central Brasileira de Noticias) auf der Mittelwelle 740 kHz als CBN Radio Diario.

Incorrect entry in WRTH 2015 for Time Signal Station CHU According to the 2015 edition of the World Radio TV Handbook, the powers of the CHU transmitters are listed as:

3330 kHz: 10 kW

7850 kHz: 3 kW

14670 kHz: 3 kW

These are incorrect. According to a technician at NRC, they are currently:

3330 kHz: 3 kW

6165, July 2 at 0525, RHC English on this frequency is *much* weaker than the others, as usually the case now; strongest is 6100 with 6060, 6000 close behind. The A-15 original schedule from April shows in the 05-07 UTC period:

6060 A1 100 kW Bauta to Nueva York

6100 A7 100 kW Bauta to San Francisco

6165 A10 100 kW Bauta to Chicago

6000 A4 250 kW Titán to Wásh DC

Exact azimuths aren't given but the 6100 San Francisco beam should be closest to us, with Chicago 6165 second best, instead of last; so have they swapped them around, or running 6165 at low power? We should also check if 6000 is really out of synch with the others. (gh, WOR 1781, DXLD)

0600-0700 13775 F 250 kW 170 deg to WeAF English
(Glenn Hauser-OK-USA, dxld June 27)

13775, June 30 from *0600 UT carrier on a few seconds early, then cacophony of crowd noise and drumming, fair signal, OM English announcement "This is the Nigerian Armed Forces Radio, on 11625 kHz, 25 meter band, and 13775 kHz, 21 meter band" and then something about news, but all we hear is music interspersed with IDs. 0601 UT yelling and drums, song; 0606 UT YL ID with meter bands only, more song, "stay with us"; 06.08:20 UT OM ID, "This is the Nigerian Armed Forces Radio", different music; dozing off, I quit at 0617 UT when signal is still fair.

Tnx to tip from Jeff White, this is a test via Issoudun, FRANCE, first airing this date, for seven days? It's brokered by Radio Miami International, which does other Nigerian SW business, but no mention of

From WRMI F_B June 26:

"Radio Miami has arranged for a one-week test transmission of the Armed Forces Radio of Nigeria from the Issoudun, France relay site beginning Tuesday, June 30. The transmission, which will be directed to West Africa, will be from 0600 to 0700 UT on two frequencies. 11825 kHz will carry a Hausa-language program, and 13775 kHz will carry an English-language program"

On 11825 kHz, there was only a much weaker JBA signal, presumably that, but Bill Bingham in RSA says it was in fact English // 13775 kHz, fading out before the hour was over. They were certainly confused about being on 11625 kHz, where I continued to hear Vatican in French. Or did he really say 11825 kHz? I don't think so, but no further frequency mentions heard. Meanwhile, RFI's sole English broadcast on 13725 kHz cut on in progress at *0559 UT with a somewhat stronger signal from same site.

It seems the Nigerian Armed Forces have caught the shortwave bug. See also this story about cooperating with Voice of Nigeria, seemingly more about programming, without any time or frequency details and not referring to the RMI deal, which Jose Miguel Romero2 sent to the dxld yg on June 27. (gh, dxld June 30)

Two different English broadcasts of Nigerian Armed Forces Radio at 0630 UT on July 1st, on both 11825 and 13775 kHz.

re Voice of Greece.

On late tonight July 1st on both 9420 kHz and 9935 kHz with the latter free of tones!!! So, I guess the transmitter or whatever the problem was has been fixed. The two frequencies were noted with about equally good strength at about 0150 UT here in New Brunswick. (Richard Langley-NB-CAN, dxld July 1)

Yes, at 0205 UT on July 1st both channels 9420.005 and 9935.014 kHz are on same clean audio, no whine tones anymore tonight. Both S=9+30dB signals here in southern Germany with Greek folk music played after 0200 UT on July 1st. (wb, wwdxc BC-DX TopNews July 1)

Avlis ERT with a lot of emotional Greek folk music at 0030-0035 UT July 2nd.
9420.005 kHz at 0032 UT July 2nd, strong signal of S=9+35dB in southern Germany.

9934.941v Annoying BUZZ tone accompanied the S=9+10dB ERT audio signal from Avlis here in southern Germany at 0035 UT on July 2nd. [selected SDR options, span 12.5 kHz RBW 15.3 Hertz]

BUZZ signal like GARDEN FENCE showed in Perseus browser screen 9 x accompanied buzz spur peak signals - each sideband - peaks at 279.6 Hertz / 559.3 ... Hertz apart distance ... up to 2796 Hertz apart distance, each sideband.

Nothing noted on either 11645, 15630, nor 15650 kHz channels.

GUAM - 'WIND POWER,' SOLAR POWER KEEP KTWR BUSY

"Construction" is an important word these days at TWR's transmitter facility on the Pacific island of Guam. The most pressing work has involved getting KTWR, as the station is known, back to fully operational mode after Typhoon Dolphin crashed into the island May 15, 2015. A generator and backup system provided power and water after the storm, and repairs had to be made to antennas.

Not affected by the storm was a longer-term construction project at KTWR: the installation of solar panels. A test project generating 23,000 watts of power for the facility has been deemed a big success, so now the team hopes to secure the funding to boost that production level to 60,000 watts - enough to run the station all day.

The goal, of course, is to save on the increasingly expensive cost of electricity so those savings could be applied toward expanding the broadcast ministry to the many countries needing to hear the gospel across Asia. The KTWR team is appealing to supporters for an all-out push this summer.

some comment on Thazin Radio, yes right :
 see Aoki / Nagoya Japan list now on 9590 kHz entry, 0130-0830, a n d 0930-1330 UT ex7345 kHz.

But location Naypyidaw mentioned in Aoki list is wrong, not exactly enough, see detail:
 Southern 'Naypyidaw' site contain only a single antenna of 5915 kHz channel.

Northern 'Pyin U Lwin' site, see 4 frequency channels below.

The Myanmar public radio has three shortwave installations on air

at Rangoon - old capital site of British Empire era, some older 30 and 50 degr
 antennas, but mainly on 356 and 176 degrees now, at 16 51 57.20 N 96 09 46.54 E
 <<http://binged.it/QJ6TWk>>
 <<http://goo.gl/maps/AFw0x>>

and Naypyidaw - new capital site, looks like a single corner reflector quadrant
 non-dir antenna at 20 10 51.01 N 96 08 41.04 E
 <<http://binged.it/QJ7gjU>>
 <<http://goo.gl/maps/Sniyu>>

and Pyin U Lwin - some Nautel / RIZ installations, I guess, antennas at 356 / 176
 degr on 41/49 mb, and at 52 / 232 degrees on 31 mb, 20 14 15.37 N 96 08 03.17 E
 <<http://binged.it/QJ8fAo>>
 <<http://goo.gl/maps/PXHAN>>

see Google Earth od Google Maps images.

But never have been realized the PLANNED 60 mb antenna installation at 017/197degr, as BACKUP for Rangoon
 4725 / 5040 kHz, at northern Pyin U Lwin site.

Rangoon 5985v 7200v 9730v kHz, but also alternate reserve even .000 kHz TX units at access.

Naypyidaw 5915 kHz

Pyin U Lwin 6030, 6165, ex7110-then 7345, 9460, 9590 kHz.

SOLOMON ISLANDS - 5020 SIBC. June 24 - Ad at 1146 UT for Anchor milk contest to win free milk for a year; normal programming through to end of National Anthem at 1203 UT; then suddenly into Wantok FM audio feed; mostly non-stop songs with segments of pop hit songs (Beatles "I Saw Her Standing There," Queen "We Are The Champions") and pop Pacific Islands songs; today something new that I had not heard before - Wantok FM with ads; "Silentworld" for shipping of cargo, with dedicated shipping bay. Ship with the professionals today, for transportation of passengers and cargo. All Silentworld vessels are certified to stringent international standards; their website has a nice map at <http://silentworld.com.au/services/domestic-shipping/>, showing their deliver routes to the various islands that make up the Solomon Islands.

5020 Cyclone Raquel - SIBC - Solomon Islands, at 1200-1312 UT on July 1 anomaly. SIBC programming did not end as usual at about 1203 UT, therefor did not switch over to "Wantok FM" relay today as they normally would have; instead, in Pijin, gave regular "cyclone warnings for all of the Solomon Islands" for Cyclone Raquel, weather updates, phoned in reports from various villages, as well as playing some pop songs; played song "Falling Rain" and after it said "is raining here"; warned of "heavy rains, flooding, landslides"; "Stay safe, stay calm"; many IDs for "SIBC, National Radio"; will probably carry live SIBC programming (not Wantok FM relay) for the next 24 hours or longer; almost fair with QRN (static).

TAIWAN - "Stream of Praise" on 7530 kHz.

One Japanese DXer asked to <ely@sop.org> <<http://www.sop.org>> in Tustin, USA about this station. The answer was "We do not know, and we have no relation to this shortwave broadcast".

I also sent inquiry to their Taiwan office in Taipei. The answer as the same, "We are only the Christian religious organization, and have no relation to this shortwave broadcast", but they add "The station who transmit this broadcast is located somewhere in Taipei. Central Broadcasting Station (BCC) may know about it".

The broadcast has been heard daily at 2100-2130 UT on 7530 kHz. 2100-2115 UT in Cantonese, 2115-2130 UT in Chinese. The program seems to be the same with hymn and preaching everyday.

Here are the loggings from Richard A. D'Angelo of Wyomissing, Pennsylvania, USA:

- 4915.0 BRAZIL Radio Daqui - Goiânia, 0012-0033* Jul 8, man announcer with Portuguese language talks after Brazilian pop vocal. ID at 0020 playing Portuguese language as well as English pop music tunes including Righteous Brothers with "Unchained Melody". Program cut off mid-song at 0033. Fair with some CODAR ORM.
- 5952.4 BOLIVIA Radio Pio Doce - Siglo Veinte, 0218-0229* Jun 16, nice selections of vocals followed by ID and closedown announcements at 0226 and "Colonel Bogey March" at 0227. Carrier terminated at 0227. Poor to fair.
- 6010.0 COLOMBIA La Vox de tu Conciencia - Puerto Lleras, 0051-0110 Jun 25, male vocal selection followed by a man announcer with Spanish language talk. More vocal selections prior to 0100 ID followed by seemingly religious talk and choir vocals. Poor to fair.
- 6040.3 BRAZIL RB2 - R. Clube Paranaense - Curitiba, 0045-0108 Jul 12, man announcer with long religious talk in the Portuguese language followed by several announcements beginning at 0056 until music fanfare, echo effect ID by a man announcer and some group singing. Poor to fair.
- 6050.0 ECUADOR HCJB - Quito, 0231-0253 Jun 16, man announcer talking in the Spanish language with ID and mentions of Quito and Ecuador. Another man with long religious talk. Fair to good with some mild splatter from nearby station.
- 6134.8 BOLIVIA Radio Santa Cruz - Santa Cruz, 2355-0035 Jun 15, nice program of vocals with frequent stations IDs. At 0011 a male announcer began talking in the Spanish language about the results from the Copa America soccer tournament held in Chile. More IDs and time checks a music started up again at 0017. Good signal.
- 6155.1 BOLIVIA Radio Fides - La Paz, 0028-0046 Jun 25, male announcer with Spanish talks hosting a program of vocals with ID noted at 0034 and several mentions of "La Paz" and numerous announcements. Poor signal.
- 6185.0 MEXICO Radio Educacion (XEPPI) - Mexico City, 0107-0125 Jul 8, woman announcer with IDs and several mentions of Mexico hosting a discussion program in Spanish language featuring various men from remote locations discussing topics of interest. Fair signal.
- 9490.0 CLANDESTINE (Cuba) Radio Republica - Issoudun, man announcer with excited talk in the Spanish language. ID at 0242 ("Este es Radio Republica ...") followed by several announcements. Fair to good signal.
- 9400.0 LITHUANIA Radio Free Asia - Sitkunai, 0112-0159* Jun 16, man talking in listed Uyghur language with musical clips and various talks with some via remote connections (telephone). Fair to good signal.
- 9765.0 ROMANIA Radio Romania International - Tiganesti, 2320-2341 Jun 29, woman announcer with Spanish language talk features with brief instrumental music interludes. Fair signal.
- 9830.0 TURKEY Voice of Turkey - Emirler, 2234-2254* Jun 9, English language program with station ID, website address followed by "Today in History" feature. Nice ID at 2244: "This is the Voice of Turkey broadcasting from Ankara." Continuous instrumental music followed until carrier terminated without any announcements. Fair.
- 9955.0 USA Radio Prague - Okeechobee (WRMI facility), 0003-0051 Jun 10, woman announcer with news in the English language with interesting ID: "Radio Prague, the international service of Czech Radio." Various news feature, interviews and remote reports followed. Good signal.
- 11700.0 ROMANIA Radio Romania International - Tiganesti, 2346-2357* Jun 15, a woman announcer with Spanish language talk hosting program of music features. A male announcer with station ID and closedown announcements from 2354 followed by IS at 2356 before carrier was terminated. Fair.
- 11600.0 CLANDESTINE Denge Kurdistane - Issoudun, 0325-0424 Jul 5, non-stop regional music program until 0401 ID by man announcer in Kurdish language followed by news. More music programming from 0406 until talk feature began at 0416 with frequent mention of Kurdistan. Fair.
- 11660.0 CHINA China Radio International - Kashi, 2221-2230* Jun 13, Chinese instrumental music in listed French Service program until carrier terminated at 2230 without ID or any announcements. Poor to fair.
- 11710.7 ARGENTINA RAE - General Pacheco, 0301-0328 Jun 12, multi-lingo station IDs followed by opening English announcements and commencement of the English Service program. A man announcer followed with news followed by vocals and a feature about Buenos Aires. Good signal tonight.
- 11730.0 BELARUS Radio Belarus (presumed), 2241-2300* Jun 29, decent signal but little or no audio heard (doesn't anyone at the station ever check to see if the product is being heard?) until carrier was terminated at 2300. One of the more frustrating stations to attempt to listen to these days.
- 11735.0 ZANZIBAR Zanzibar Broadcasting Corporation - Dole, 2051-2059* Jun 21, noted thanks to tip from Walt Salmani with non-stop vocals and music until carrier cut at 2029. Poor to fair signal.
- 11790.0 ROMANIA Radio Romania International - Tiganesti, 2351-2356* Jun 24, woman announcer with Spanish language talk closing down transmission with ID and announcements followed by light instrumental music before familiar IS. Fair.

- 11815.0 BRAZIL Radio Brasil Central – Goiânia, 0017-0033 Jun 30, man announcer with Portuguese talks, ID and several local announcements hosting a popular music program. Poor to fair.
- 12025.0 AUSTRALIA NBC National Radio – Brandon, 0818-0852 Jul 9, coverage of the 2015 Pacific Games swimming events with numerous IDs ("Special broadcast of the Pacific Games from NBC National Radio"), promotional announcements for National Identity Registration, the 2015 Prime Minister Excellence awards (seeking nominations) and Airlines PNG. Later another man mentioned the news was coming up at 7 o'clock. PNG was doing well in swimming with four gold medals. Good signal. Noted again on Jul 11 at 0820-0845 with coverage of woman's 200 meter backstroke event, mentions of National Identity Theft System and 2015 Prime Minister Excellence Awards. Fair.
- 15120.0 CUBA China Radio International – Havana, 0015-0027 Jun 25, Spanish language service with woman announcer talking followed by light instrumental music and a man announcer with station ID. Woman announcer began segment about events on the world. Several IDs around 0023. Good signal.
- 17550.0 KUWAIT Radio Kuwait – Sulaibyah, 2140-2209 Jun 13, man announcer with remote report in Arabic language; apparent news feature program hosted by a woman announcer. Short music segment at 2250 followed by more talk features. ID followed by news at 2200. Poor to fair reception.
- 17660.0 SAUDI ARABIA Broadcasting Service of the Kingdom of Saudi Arabia – Riyadh, 1512-1536 Jun 22, woman announcer with talk in the French language followed by Middle eastern instrumental music alternating with female announcer talking. Fair.
