Shortwaveservice Kurzwellenprogramm auf 7310 kHz - nicht mehr Radio 700?

RADIO700 war 2002 eine Erfindung des Vereins Bürgerfunk für Euskirchen e.V., später umbenannt in Funkhaus Euskirchen e.V.. Der Verein ist 2007 an eine Kurzwellenlizenz gekommen. Von dort an lief das Programm "RADIO 700" auf KW.

Parallel hat sich in Ostbelgien ein zweiter Verein gegründet, die VOG Privater Rundfunk in Ostbelgien, der mit dem Verein Funkhaus Euskirchen e.V. zusammen das in Ostbelgien per UKW verbreitete gleichnamige Programm "RADIO 700" (allerdings mit unterschiedlichem Content) produziert. Mittlerweile liegt der inhaltliche Schwerpunkt auf der UKW Verbreitung in Belgien.

...

Der Verein Funkhaus Euskirchen e.V. befindet sich in der Auflösung, die Kurzwellenlizenzen werden von mir unter "Shortwaveservice" in privater Regie zusammen mit Burkhard aus Kall und unterstützt von Daniel K. und Palina M. weitergeführt. Die Musikstrecken werden künftig mit weiterem Content angereichert, da braucht's aber noch ein bisschen. (Christian Milling in a-dx)

NIGERIA - 7254.94 V. of Nigeria, 0805-0814 UT news and sports by M in English. Very weak modulation. 0814 UT into Afro Pop misoc. Much better level for inspirational religious segment from 0815 to 0820 UT. M announcer barely audible then at 0820 UT. Better level again for promo by M at 0820 UT including several IDs. And mention of freqs, meter band, and website at 0821 UT. Nice ID at 0824 UT. Somewhat surprised it was this readable this late. 23 Oct. (Dave Valko, Dunlo-PA-USA, hcdx / dxld Oct 26)

SOMALIA [PUNTLAND] - Radio Puntland One has verified Timm Breyel of Kuala Lumpur and has sent the following message: Puntland Radio One is back on air. In the course of correspondence Mr Jamal, Director General of Puntland TV/Radio, Garowe, Puntland, Somalia, informed Timm that their transmitter had been "off and not working" due to "Technical problem" for much of 2015 up until July 2016. He further requested that Timm listens to their

transmission on 13.800 kHz.

(Timm Breyel-K-L-MLA, NZLDXT magazine November via wwdxc BC-DX TopNews)

The R. Puntland manager seems to be a funny guy. Any of the times for 13800 kHz given (0330-0600, 1000-1600 UT) are far away from reality. I often heard it signing ON not long after 0600 UT, and off at completely irregular times, but usually long before 1600 UT. If on air early, there is likely to be a break for some hours in-between. Currently, Nov. 9, it was on at 0655 UT, but now at 0703 UT it's gone. Lacking LSB, as usual.

SOUTH SUDAN - The closure of the FM station of Eye Radio headlines VoA South Sudan in Focus of 11 November (<http://www.voanews.com/a/3592475.html>). In an interview the South Sudanese ambassador to the US confirmed the closure. The reason given was that the station interviewed terrorists. There was a short exchange about the duration of the closure ("until further notice").

Contrary to what is said on <http://www.voanews.com/z/1465.html?tab=About>, the current schedule is:

1630-1700: 11900 (Meyerton ZA) 13865 (Woofferton UK) 15180 (Santa Maria di Galeria VA) Mo-Fr South Sudan in Focus.
